KICKS GAS

Ranger SPORT SuperCab 4x4 in Torch Red with available equipment

Ford Ranger performs at the pump **better than any pickup in America** — its fuel economy is best-in-class,² be it city, highway or combined numbers. And because it's Built Ford Tough[®] Ranger has an inherent brawn and bravado to go with that best-in-the-USA brag. It's got the strength to tow up to 5760 lbs.,³ plus the conditioning of more than **25 years of proven** durability and reliability. Beyond capability, this year sees more sensibility: **front-seat side airbags** and **industry-exclusive AdvanceTrac[®] with RSC[®]** (Roll Stability Control[™]) come standard. Whether you play it safe, or play it up for all it's worth, Ranger is happy to oblige.

FENDS OFF PUNCHES

| Ranger XLT SuperCab 4x2 in Vista Blue with available equipment |

Ranger is built to last through every round of use. Whether in Regular or SuperCab form, it rates the full **5 Stars** for the driver and 4 Stars for the passenger when it comes to frontal impact¹ in crash tests conducted by the National Highway Traffic Safety Administration (NHTSA). **New front-seat side airbags** – designed to provide head and chest protection – along with dual-stage front airbags, play major roles. Another major new add: **Class-exclusive AdvanceTrac[®] with RSC[®] (Roll Stability Control[™])²** is the only brake-based electronic stability control system that uses a dedicated, gyroscopic roll-rate sensor to monitor vehicle motion at least 100 times per second. Working with the Anti-lock Brake System (**ABS**), **All-Speed Traction Control and yaw control**, it automatically applies the brakes and modifies engine power to help keep all 4 wheels firmly planted.² The safety scales are tipped decidedly in your favor.

¹Star ratings are part of the U.S. Department of Transportation's Safercar.gov program (www.safercar.gov). ²Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. For more information on AdvanceTrac with RSC, visit fordvehicles.com.

PLAYS REALLY DIRTY

Ranger SPORT SuperCab 4x4 in Torch Red with available equipment

Hit dunes. Climb rocks. Tackle streams. Ranger SPORT lives and breathes extreme capability. It looks the part: grille, wheel-lip moldings and lots more go **body color**. It definitely acts the part: in available go-anywhere 4x4 mode, with **3 skid plates** – shielding front, mid, aft – heavy-duty shocks, and **16" cast-aluminum rims** wrapped in **all-terrain rubber**. Little wonder why it's a fan favorite at the Best in the Desert Racing Association series, where Ford rules as Official Truck. When the dust settles, Ranger SPORT *triumphs*.

207 HP & 238 LB.-FT. TORQUE

Mean numbers for crawling or hauling. The 4.0L V6 is a SPORT standard under that power dome hood.
