Heavy-haulers, wreckers, and emergency vehicles rely on the unyielding strength of F-Series Super Duty on a daily basis. As do vocational workers in construction, landscaping, mobile welding and more. With the 2019 Super Duty Chassis Cab, they can work hard. And smart. With a frame and body that carries the weight of your world on its shoulders. Aft-of-axle frame extensions¹ for outstanding configuration flexibility. A class-exclusive² programmable Upfitter Interface Module² for ease of upfitting. Plus 6 in-cab auxiliary upfitter switches to operate a variety of powered options. It’s not how you start that matters. It’s how you finish. And Super Duty Chassis Cab helps you finish the only way it knows how: strong.
AFT-OF-AXLE FRAME EXTENSIONS on F-450 and F-550 Regular Cab models provide 42” of extension with the 145” WB and 32” of extension with the 169” WB – giving you outstanding configuration flexibility by allowing upfitted bodies to accommodate additional equipment.

AN OPEN C-CHANNEL FRAME aft of cab features a standard 34” frame-rail width.

RUGGED DRIVELINE COMPONENTS include strong and capable axles. Ratios range from 3.73 to 4.88. Choices include non-limited-slip, limited-slip and electronic-locking. Gear and bearing designs are engineered and optimized by weight for the extreme capability of Super Duty Chassis Cab. Driveshafts, transfer cases and U-joints are engineered to handle the massive torque output of the Super Duty engines.

A FIRST-IN-CLASS HIGH-STRENGTH, MILITARY-GRADE, ALUMINUM ALLOY CAB reduces body weight. Ford engineers reinvested those weight savings into strengthening the frame and driveline components for the incredible capability of Super Duty.

A HIGH-STRENGTH STEEL FRAME, fully boxed under the cab and forward, is 8 times stiffer than the previous generation. The frame handles a wide range of upfits, from flat and dump beds to wrecker, service and delivery bodies. Up to 10 crossmembers enhance strength, with key crossmembers through-welded to increase stiffness.

A HEAVY-DUTY FRONT AXLE and optimized front coil springs provide a best-in-class available Front Gross Axle Weight Rating (FGAWR) of 7,500 lbs. on F-450/F-550 Chassis Cab models – enabling them to carry tall utility buckets and cranes, big snow plows, and more.

ADVANCETRAC® WITH RSC® (ROLL STABILITY CONTROL™) brings an added measure of stability to the Super Duty fleet on multiple road surfaces.

1 Available feature. 2 6000-series aluminum alloy. 3 Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
A CLASS-EXCLUSIVE PROGRAMMABLE UPFITTER INTERFACE MODULE\(^1\) allows upfitters to properly connect their electrical equipment to the Controller Area Network (CAN) busses or ports. This connection not only allows easy integration of upgrades to meet upfitter needs, but gives end users a programmable logic interface to control devices quickly and simply by using a laptop or notebook.

A CLASS-EXCLUSIVE LIVE-DRIVE POWER TAKEOFF (PTO) provision\(^1\) has a torque rating of up to 250 lb.-ft. on all 3 engines in stationary mode\(^2\), allowing Chassis Cab to power hydraulically and mechanically driven accessories - such as lift buckets, sprayer pumps, generators, snow plows and more. Since the PTO output gear is linked directly to the engine crankshaft, power is available whenever the engine is running - whether the truck is moving or not. On diesel-powered trucks, split-shaft capability allows you to operate multiple accessories at the same time when the truck is stopped.

TRAILER SWAY CONTROL\(^3\) is standard on both SRW and DRW models. To better handle all that weight when towing, it monitors the motions of the trailer to detect trailer sway and selectively applies brakes as needed, helping you maintain control of the truck and trailer. Plus, our integrated trailer brake controller\(^4\) helps balance the performance of the truck and your electric trailer brakes.

THESE MASSIVE BRAKES belong to F-450 and F-550 Super Duty Chassis Cab. A large brake pad usable area helps increase both pad and rotor life. A large master cylinder with more volume than the previous generation reduces the risk of thermal brake fade under extreme braking conditions.

\(^1\)Available feature. \(^2\)During stationary operation. Mobile-mode PTO torque ratings: 150 lb.-ft. on diesel; 125 lb.-ft. on gas. \(^3\)Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. \(^4\)Trailer brake controller verified to be compatible with electrically actuated drum brakes and certain electric-over-hydraulic brake systems. See your Ford Dealer for details.
POWERSFUL PULL

Super Duty Chassis Cab gas engines – 6.2L V8 (F-350) and 6.8L V10 (F-450/F-550) – power you through the tough work you face every day. For heavy-duty diesel performance, the latest generation of our 6.7L Power Stroke® V8 Turbo Diesel is our most powerful ever. A TorqShift® 6-speed SelectShift® automatic transmission that’s just as hard working is paired with all engines. Its progressive range select mode lets you narrow the available gear range in difficult road/load conditions, while tow/haul mode reduces frequent gear shifting on uphill grades and allows engine braking to help maintain vehicle speed while descending. Plus, a live-drive power takeoff (PTO) provision for accessory operation delivers power anytime, providing stationary and mobile-mode PTO capability. Designed, engineered and built by Ford, each Built Ford Tough® powertrain works seamlessly with chassis components and vehicle calibrations.

6.7L POWER STROKE® V8 TURBO DIESEL

Its numbers push, pull and speak for themselves. Especially to those who rely on it daily in extreme conditions. Twin-pilot injection delivers smooth, quiet acceleration. Excellent throttle response is delivered in part by a high-pressure, common rail fuel injection system. Robust high-altitude performance comes courtesy of the high airflow supplied by the diesel’s variable-geometry turbocharger. Tuned specifically for this application, the turbocharger forces air into the cylinders to deliver maximum power quickly. Plus, a driver-controlled engine exhaust brake with on, off and auto settings allows use of engine braking to help slow down and control vehicle speed.

Compacted graphite iron (CGI) imparts strength and durability to the deep-skirt engine block. Aluminum cylinder heads help reduce weight and feature a 6-head-bolt-per-cylinder design to help improve sealing and maintain cylinder integrity.

6.2L 2-VALVE GAS V8 FFV

A stiff single overhead camshaft (SOHC) valvetrain with roller-rocker shafts enables an intake- and exhaust-port layout that optimizes airflow, helping the E85-capable V8 produce plenty of torque down low. Dual-equal variable cam timing phases the intake- and exhaust-valve opening and closing events simultaneously to optimize low-end torque and peak horsepower. By supplying working power throughout the rpm range, the 6.2L V8 delivers an exceptional combination of driveability, hauling and towing performance.

Iron-clad durability of the gas engine block stems from reliable cast-iron construction, with 4-bolt main bearing caps, including 2 additional cross bolts. Piston-cooling jets contribute to durability as well by maintaining cooler piston temperatures and improving oil warm-up, especially under heavy-duty operating conditions.

CLASS-EXCLUSIVE 6.8L TRITON® 3-VALVE GAS V10

Our Built Ford Tough 6.8L engine is the only V10 gas engine available in its class. It gets your heavy loads moving with 424 lb-ft of torque, while the 3-valve-per-cylinder induction system helps it produce 288 horsepower. An SOHC design provides an advanced level of valve control, while electronic throttle control (ETC) delivers seamless and consistent response. ETC also helps enhance control, driveability and performance by integrating throttle movements with electronically controlled engine functions, such as cruise control¹ and idle speed.

Time-tested V10 reliability can be attributed to: a deep-skirt engine block and low-friction internal components; a coil-on-plug ignition system for high-mileage durability; a silent-design chain camshaft drive that helps reduce NVH, and a 90,000-mile spark plug maintenance interval with regular fluid and filter changes.²

A PERFECT MIX OF HEAVY-DUTY BUSINESS AND HIGH-PERFORMANCE PLEASURE.

In Super Duty Chassis Cab, loads of storage swallows tools and supplies, while easy-to-navigate controls help you stay highly productive. Track towing information on the 8" color LCD productivity screen, such as trailer brake controller¹ settings, vehicle pitch and steering angles, and profiles of up to 10 different trailers – including accumulated miles on each. This is also where you’ll be notified by the standard Individual Tire Pressure Monitoring System² if any tire’s pressure is low.³

New this year, a B&O PLAY™ Premium Audio System by HARMAN. A 10-channel amplifier pumps 1,000 watts of digitally processed sound through 10 high-performance speakers, including 4 midwoofers and a subwoofer. It joins a long list of amenities that make any haul in Super Duty Chassis Cab more comfortable than you can imagine.

STAY CONNECTED ON THE MOVE

IT ALL STARTS HERE
This vibrant 8” touchscreen is the command center of SYNC® 3 voice-activated technology, which integrates your paired mobile phone with Super Duty Chassis Cab as soon as you start your truck. Make calls. Send and receive text messages. And so much more. Just swipe left or right, or use simple voice commands, to help ensure that your life doesn’t miss a beat. SYNC 3 also features 2 smart-charging USB ports to help keep your devices powered up.

LINK YOUR APPS
SYNC 3 AppLink® links your favorite compatible mobile apps with your voice, giving you convenient control. iPhone® users can view the Waze® app’s community-based navigation and traffic features on the large SYNC 3 touchscreen. Amazon Alexa users can access thousands of skills and services they enjoy on their Amazon Echo with the Ford+Alexa® app.

CONNECT TO FORDPASS CONVENIENCE
New FordPass™ Connect’s 4G LTE Wi-Fi hotspot lets passengers connect tablets, laptops and smartphones. It includes a complimentary 3-month or 3GB data trial. And that’s only part of its convenience. Together with the FordPass smartphone app, FordPass Connect allows you to remotely start your truck and climate control system using your smartphone. As well as locate your vehicle and check approximate fuel range. FordPass also helps you find fuel and compare prices. Find, reserve and pre-pay for parking in select locations. Plus, get help 24/7 from our trained team of Ford Guides.

CONNECT YOUR iPhone
Apple CarPlay™ compatibility displays the iPhone interface on your vehicle’s touchscreen. Send and receive text messages by voice. Get directions. Access playlists from Apple Music.® Just ask Siri® for help. She already knows your voice.

1 F-350 DRW/F-450/F-550 weights shown are for 145.3” wheelbase Regular Cab, 167.9” wheelbase SuperCab or 179.8” wheelbase Crew Cab models. For 169.3”, 191.9”, 193.3”, 203.8” and 205.3” wheelbase models, weights may be somewhat less (usually not more than 200 lbs., or 400 lbs. with 205.3” wheelbase). 2 Requires High-Capacity Trailer Tow Package. 3 Cross-sectional modulus calculated at back of cab. 4 Measured to inside of metal.

5th-Wheel Towing Notes: Trailer weights shown assume 400 lbs.-800 lbs. second-unit body weight. Be sure combined weight of vehicle and trailer does not exceed listed GCWR. Trailer kingpin load weight should be 15% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer kingpin load weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer kingpin load weight, and the weight of passengers and cargo, cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle’s Safety Compliance Certification Label. See your Ford Dealer for conventional trailer weights.

New Vehicle Limited Warranty. We want your Ford F-Series Super Duty® Chassis Cab ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. The Ford 6.7L Power Stroke diesel engine gets 5-year/100,000-mile warranty coverage. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Commercial Vehicle Center. Each of over 690 dealerships in our Commercial Vehicle Center (CVC) network is committed to providing quality commercial-oriented products and service, as well as special financing and billing arrangements, to businesses that rely on Ford products. As a CVC customer, your business vehicles receive priority service at your CVC dealership to help get your vehicle back on the road quickly.

Financial Services. Our commercial purchase plans and lines of credit offer attractive rates, negotiable terms and business-friendly options. If you prefer to lease, our CommercialLease℠ programs offer a wide variety of package options to meet your needs. For additional information, please visit our website at fordcredit.com/comlend.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Protect℠ Extended Service Plans. Whether you purchase or lease your Ford vehicle, insist on genuine Ford Protect extended service plans. Ford Protect has a variety of plans to give you peace-of-mind protection whether you want vehicle component or maintenance coverage. Plus, they are fully backed by Ford and honored at all Ford dealerships in the U.S., Canada and Mexico. When you visit your dealer, insist on genuine Ford Protect extended service plans.
