DO MORE WITH THE DIESEL LEADER.

Designed, engineered and built by Ford, our 2nd-generation 6.7L Power Stroke® V8 Turbo Diesel engine produces the power and torque you need to get the job done.

**Best-in-class standard** 860 lb.-ft. of torque and 440 hp are facilitated in part by a large turbocharger, which helps improve airflow and performance. You’ll really appreciate it when towing heavy loads uphill and at high altitudes.

**Best-in-class diesel fuel economy** is maintained with the help of high-pressure fuel injectors that achieve a clean, efficient burn.

**Power upfits any time**, whether the truck is in motion or at a complete stop. Our class-exclusive live-drive power takeoff (PTO) provision lets you power upfits whenever the diesel engine is running. It keeps the job going with an output gear linked directly to the engine crankshaft.

Proven in over 12 million miles of cumulative testing and real-world use under extreme conditions, this B20-capable engine is the most tested Power Stroke diesel ever. From 120°F scorching heat to –40°F bone-chilling cold. Rest assured, it’s Built Ford Tough.

F-350 LARIAT Crew Cab 4x4, Bronze Fire/Caribou two-tone. Available equipment.

1 When properly equipped. 2Available feature. 3Diesel fuel economy based on Ford simulated city-suburban drive-cycle tests of comparably equipped 2015 Ford and 2015 competitive models, consistent with SAE Standard J1321.
RULE THE CLASS WITH 6.2L V8 GAS.

The Built Ford Tough® 6.2L 2-valve V8 gives you the most power and torque of any standard gas engine in the class: 385 hp and 405 lb.-ft. of torque. Designed, engineered, built and torture-tested by Ford, this state-of-the-art E85-capable engine is the standard powerplant on F-250 and F-350.

Ease your heavy-duty workload with lots of low-rpm torque. The gas engine’s stiff SOHC valvetrain with roller-rocker shafts enables an intake- and exhaust-port layout that optimizes airflow, helping it produce plenty of torque down low.

Alternative fuel options include a CNG/Propane Gaseous Engine Prep Package that readies your truck to be upfit for compressed natural gas (CNG), propane autogas, or as a bi-fuel vehicle with the ability to seamlessly switch between CNG or propane and gasoline.

Providing flexibility and extended range, trucks upfit to a bi-fuel system include a tank for each type of fuel. Contact your local Ford Dealer for ordering details. By purchasing a Super Duty upfit for CNG or propane, you may even qualify for state incentives related to alternative-fuel use, infrastructure or vehicles. Visit www.afdc.energy.gov/afdc/laws for details.

1When properly equipped.
PULL THE MOST — CONFIDENTLY.

Ford F-Series Super Duty is the only truck in its class offering you up to 31,200 lbs.¹ of max. towing capability.

To help you handle all that weight, Super Duty utilizes trailer sway control. The system monitors the motions of the truck to detect trailer sway and selectively brakes as needed;² helping you maintain control of the truck and the trailer.

When negotiating an incline, whether in Drive or Reverse, standard hill start assist helps you out by momentarily maintaining brake pressure until the engine delivers enough torque to move the truck uphill.

Less manual braking is required of drivers on diesel models thanks to engine braking performance. The diesel's turbocharger provides engine-exhaust braking power for grade descent control with less wear and tear on the wheel brakes and transmission. Engine-exhaust braking includes a manual push-button control on the instrument panel. Super Duty just keeps on helping you get it done.

HIT THE GROUND TOWING.

Thanks to our 5th-Wheel/Gooseneck Trailer Tow Prep Package and Ford Custom Accessories 5th-Wheel and Gooseneck Hitch Kits by Reese, your Super Duty can arrive ready to tow – right from the factory. Plus, you’ll get the strength of an under-the-bed-frame crossmember and the utility of a flat cargo bed floor.

New dynamic hitch assist shows your projected path based on steering angle. The black dashed line and white curved lines help you line up a trailer without a spotter more easily.

Cable Lock System by Master Lock includes a vinyl-coated cable and a locking shackle that are used to secure cargo.

For an easier towing experience overall, Super Duty offers features like an in-bed 7-pin connector and PowerScope trailer tow mirrors. There’s even a factory-installed, integrated trailer brake controller to balance the performance of the truck’s brakes and electric trailer brakes. And the LCD productivity screen offers a pre-towing checklist and recalls settings for different trailers. Ready, set, tow.

15th-Wheel Hitch available with 8’ box only. See your Ford Dealer for details. 2Available feature. 3Trailer brake controller verified to be compatible with electrically actuated drum brakes and certain electric-over-hydraulic brake systems. See your Ford Dealer for details.
MANAGE YOUR PAYLOADS WITH EASE.

With its range of maximum payload capabilities, plus all the right tools for loading, accessing and managing your cargo, Super Duty is built to help you work smarter.

Walk up into the bed with our class-exclusive tailgate step. Just open the tailgate, drop the skid-resistant step down, flip the grab bar up and go.

To help increase your confidence while hauling heavy loads, Super Duty features AdvanceTrac® with RSC® (Roll Stability Control™). It utilizes 2 gyroscopic sensors to automatically help you avoid skidding and fishtailing, and help you keep all 4 wheels firmly planted. You’ll find it particularly beneficial in inclement weather.

It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. 3 When properly equipped. F-350 DRW Regular Cab 4x2.
INCREASE YOUR PRODUCTIVITY.

From electronics to cargo and beyond — Super Duty streamlines your workday.

Outside, you’ll find rugged features like the industrial-grade Tough Bed® factory-installed, spray-in bedliner that helps shield your investment. And a stowable bed extender, made of rugged fiberglass-reinforced polypropylene, that lets you haul more with the tailgate down or secure smaller loads with it up.

Inside, lots of storage space helps keep your gear secure, yet within easy reach. A closable dash-top area houses the SYNC® with MyFord Touch® media hub. There’s lockable under-seat storage in the center of the 40/20/40 split front seat and beneath the 60/40 split flip-up/fold-down rear bench seat on certain Crew Cab models. The flow-through center console holds hanging files and features a 110-volt power outlet and two 12-volt powerpoints. Power up in Super Duty.
