SUBURBAN

GMC

TRUCK

A truck you can live with

GMC Suburban is superbly qualified to make your travel life comfortable and exciting.

For instance there's uncommon interior spaciousness starting with a standard 3-passenger bench seat and 165 cubic feet of rear load space. With available center and rear seats in place, nine passengers can sit at luxurious ease in posh surroundings — and there's still 39 cubic feet of room behind the third seat for gear. Remove the quick-release rear seat, fold the center seat forward, and you create an 8' 4" long floor with a whopping 144-cubic-feet of cargo room.

Talk about power and performance! A C-2500 2-WD Suburban with available 7.4 Liter (454 CID) V8 gasoline engine, 3-speed automatic transmission, and 4.10-to-1 rear axle ratio gives new meaning to the words. With this combination and other proper trailering equipment you can sprint right up that mountain highway trailering a Gross Combination Weight (GCW) of 16,000 lb (includes Suburban, passengers, cargo, and trailer). 1986 gasoline engines incorporate several improvements (see page 4). The Suburban is also available with a 6.2 Liter V8 diesel engine designed especially for trucks.

COMMITMENT QUALITY
PLUS GMC TRUCKS

Commitment Plus is one of the most complete joint sales and service customer satisfaction program available on light-duty trucks today. It offers the following benefits:

- a thorough new-vehicle inspection
- one full tank of fuel
- complimentary 1000-mile inspection
- complimentary 3000-mile maintenance service including oil change and filter at no extra charge.

GMC Truck and GMC Dealerships are truly committed to making GMC Light Duty Trucks easy to live with. Our customers' total satisfaction is indeed our goal!

Applies to retail sales only.

Style and Beauty Three Ways

Sierra Classic. Everything about Suburban's luxury trim reflects beauty, craftsmanship, comfort, and convenience. Outside there are dual headlamps and bright moldings. Inside there is a deluxe instrument panel with needle-gauge instruments, insulated floor carpeting, custom steering wheel, and visor mirror. You have a choice of custom cloth or custom vinyl upholstery for the standard bench seat or available high-back bucket seats with new dual armrests. Interior colors are Blue, Saddle Tan, Burgundy, or Slate Gray, depending upon seat and fabric choice.

High Sierra. Midlevel trim featuring a full-length insulated headliner, color-keyed rubber floor mats, and front and rear dome lamps with door switches. Upholstery is Blue or Saddle Tan standard vinyl or available custom vinyl or custom cloth. Moldings, bright trim, and dual-note horn add distinction to the exterior.

Sierra (Standard). Suburban's standard trim presents a sleekly attractive exterior and a very comfortable interior. Deep-foam front bench seat and available rear seats are covered in your choice of Blue or Saddle standard vinyl. Standard amenities include: color-keyed dual sunshades; door trim panels with integral armrests; cockpit-type instrument cluster; full-length black rubber floor covering; and all-around tinted window glass. (Details of all trim levels on back cover.)

Beginning September, 1985 nearly 200 senior North Americans are planning to travel the backroads of mainland China on an unprecedented international friendship mission driving GMC Truck Suburbans pulling Airstream trailers.

Sierra standard interior comes in Blue or Saddle Tan vinyl.

Panel-type rear doors have fixed, tinted glass; opening is 37" high by 59.6" wide. Power door lock available.

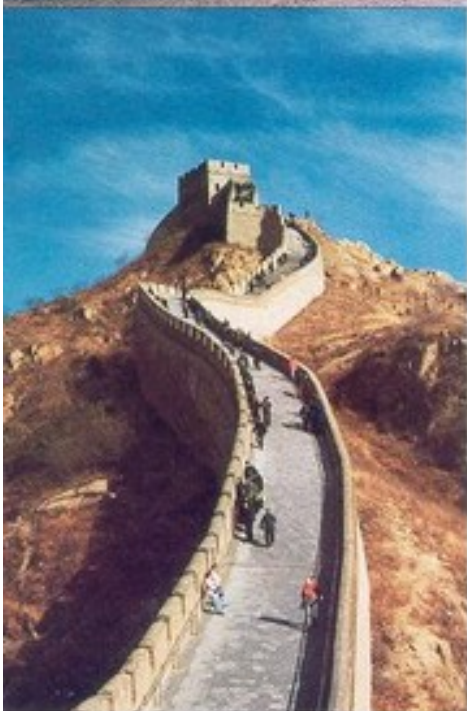

Wagon-type tailgate offers available power drop glass, with or without electric defogger.

Sierra Classic instrument cluster with needle-type gauges for voltmeter, temperature, and oil pressure

GMC TRUCK

4-WD POWER

Live It Up With 4-WD!

Stalwart 4-WD GMC Suburbans are powered by husky V8 gasoline or diesel engines. They can be equipped to transport up to 9 passengers and a mountain of gear to your favorite wilderness hideaway or off-road worksite. What's more, a half- or three-quarter-ton properly equipped 4-WD Suburban is ideally suited for trailering. (See trailering information on page 6.)

Versatile 4-WD Systems

The standard 4-WD system features dependable manual-locking front hubs that freewheel in 2-WD for smooth, economical highway cruising but can be locked into 4-WD in a jiffy to traverse low-traction terrain or engage in such rugged work as

snowplowing. Or, you may want to ask your GMC Dealer about available automatic hub locks which permit no-stop shifting into 4-WD at speeds up to 25 MPH.

Heavy-Duty Equipment Available for 4-WD

Suburban is equipped with standard power brakes, power steering, and front stabilizer bar for easy handling wherever you travel. For tackling really rugged work you may wish to add available heavy-duty front spring package; or heavy-duty front quad shock absorbers; locking differential rear axle; and stone shields for the fuel tank and transfer case. (Also see standard and available equipment pages 6 through back cover.)

QUALITY-CRAFTED SUBURBAN

Traditional Standard Value Features: • With heater fan on, power ventilation system circulates air through the interior, forcing stale air out through door vents • Double-wall construction is used in hood, cowl, front fenders, rear side panels, side and rear doors, or tailgate • Girder-beam suspension on 2-WD models permits front wheels to take bumps independently for a smooth ride. Two-stage multileaf rear springs provide a soft ride under light load and firmer support as load increases • Salisbury-type rear axle with a wide range of ratios; locking differential is available with certain ratios • Steel-belted, radial-ply tires give good service, and All Seasons tires on C/K-1500 models eliminate the need for

snow tires in most localities • Delco Freedom II batteries never need water fill, just routine checking of built-in charge indicator.

Suburban vs Corrosion

GMC anti-corrosion treatments use rust-resistant steels for many parts of the body and sheet metal. In addition, special Elop-Dip priming coats the entire body. To ward off contaminants, aluminum wax preservative and special sealers are used in critical areas. A special sprayed-on anti-chip coating on lower body areas precedes the finish paint coat of baked-on lustrous acrylic enamel.

Sierra Classic 4-WD Suburban with exterior decor package and other available equipment

POWERFUL V8 ENGINES

High-compression 5.0, 5.7, and 7.4 Liter V8 gasoline engines give Suburbans big tote-and-tow ability and deliver smooth, exhilarating performance. A C-2500 Suburban with available 7.4 Liter V8 and other equipment walks away from the competition in on/off-road performance and trailering capacity. (See chart on page 7 for drivetrain availability.)

*86 Gasoline Engine Improvements

New generator drive belts have a wider area of contact which results in increased drive friction. The 5.0 Liter and 5.7 Liter gasoline engines also have new molded rubber oil pan gaskets and new crankshaft seals. A new electric auxiliary booster fan provides optimum cooling for the 7.4 Liter engine when used with available air conditioning.

6.2 Liter V8 Diesel Engine

Designed specifically for trucks, the 6.2L gives excellent service for GMC Suburbans. Diesel models have standard power steering, power brakes, heavy-duty electrical and cooling systems, and other rugged components for toughness.

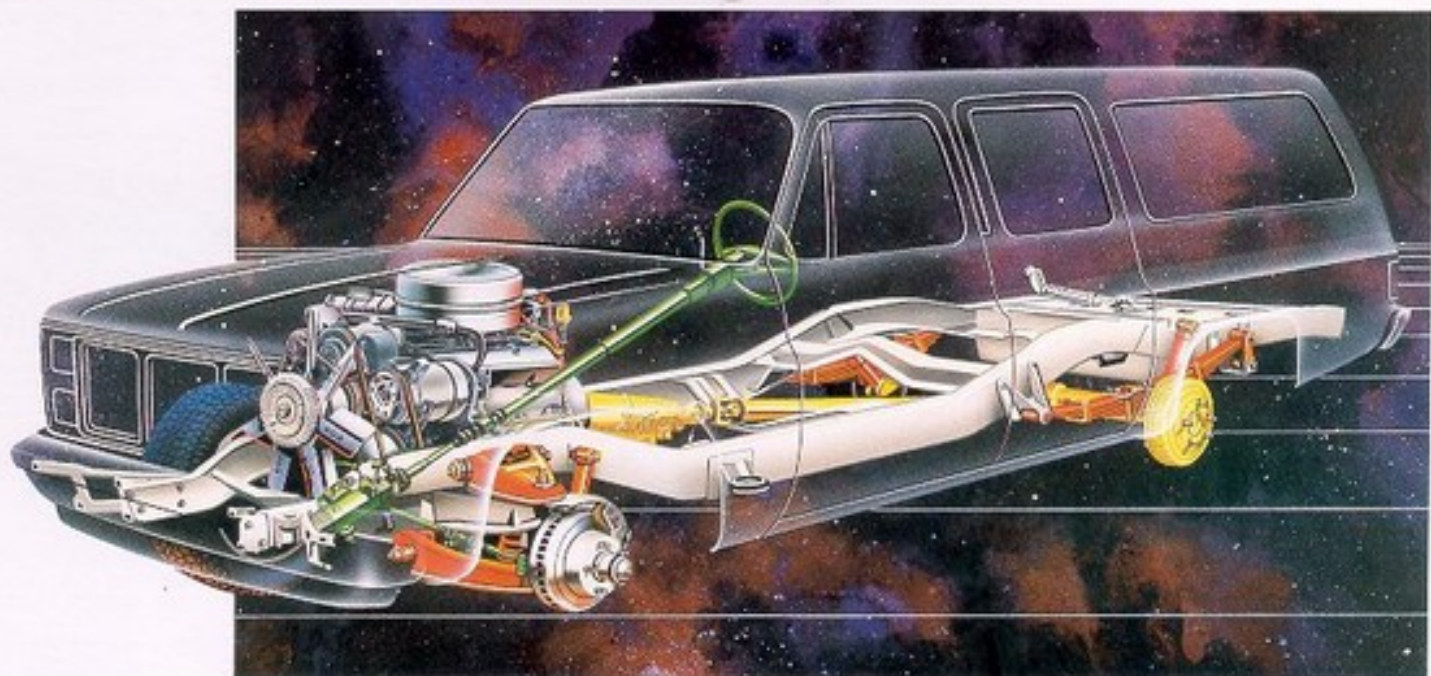

A WORD ABOUT ENGINES

Some GMC Light Duty Trucks are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.

AVAILABLE ACCESSORIES

C-2500 Suburban with 7.4 Liter V8 gas engine is in a trailering class by itself! (See below)

Add To Your Pleasure With Options

There are many options to make travel in your new Suburban even more enjoyable. If you go long miles with many people, front and rear air conditioning and a rear heater could be necessities. Comfortilt steering wheel and automatic speed control ease driver effort. Excellent GM-Delco audio equipment adds a cheerful note for everyone.

Check out the accessories pictured here and those listed in the chart on the back cover for more comfort and convenience items. Also ask about dealer-installed accessories.

GM Protection Plan

An option that offers service protection beyond that provided by GM's New Truck and Chassis Limited Warranty. Available only in the USA and Canada during the 1986 model year. See your dealer for details.

TRAILERING WITH GMC SUBURBAN

Suburbans are noted for their ability to pull trailers. A properly equipped C-2500 Suburban can move up to 16,000 lb Gross Combination Weight (GCW) — that includes everything going down the road (vehicle, passengers, cargo, and trailer).

GMC Trailering Special package includes: a 9500-lb-capacity weight-distributing platform hitch with a maximum 1000-lb tongue load; 7-wire trailer wiring harness; an engine-oil cooler (gasoline models); transmission-oil cooler; power steering where not already standard; heavy-duty front and rear shock absorbers for gasoline-engine C-1500 models; and a heavy-duty 66-amp Delcotron generator for gasoline-engine models — almost all of the equipment you need for proper towing. Charted below are some of the powertrain requirements for the Trailering Special package, as well as the GCW rating obtained with this equipment.

PAINT SCHEMES

Standard Solid Paint Scheme

Available Special Two-Tone

Available Exterior Decor Package

Standard Paint

Suburban offers a choice of 10 solid colors. Black or bright body side moldings are available with standard paint scheme.

Available Special Two-Tone For Added Distinction

Includes two-tone paint and bright-trimmed black lower body side and rear moldings (Sierra models) plus bright wheel opening moldings and bright side marker and tail-light trim (Sierra, High Sierra models). Second color is applied below body side and rear moldings.

Available Exterior Decor Package

This attractive option includes the moldings and bright trim described above, upper body side and rear decal stripes coordinated to your choice of 23 two-tone paint combinations, and stand-up hood ornament for gas-engine models.

IMPORTANT! A WORD ABOUT THIS CATALOG

We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information you'll find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available as factory-installed options, as dealer accessories, and as specialized equipment from various independent suppliers at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, and models. Check with your GMC Dealer for complete information.

A WORD ABOUT ASSEMBLY, COMPONENTS, AND OPTIONAL EQUIPMENT IN THESE GMC PRODUCTS:

The GMC Trucks described in this brochure are assembled at facilities of General Motors Corporation operated by General Motors. These vehicles incorporate thousands of different components produced by car and truck groups and various component divisions of GM and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety, and fuel

economy requirements, or for other reasons, to produce GMC products with different components or differently sourced components than initially scheduled. All such components have been approved for use in GMC products and will provide the quality performance associated with the GMC name.

With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your truck is built. Your dealer receives advice regarding the current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your truck includes the optional equipment you ordered, or if there are changes, that they are acceptable to you.

These vehicles also are available under the Chevrolet nameplate Series C10, C20, K10, K20 Suburban.

A WORD ABOUT UPDATED SERVICE INFORMATION

GMC Truck & Bus Operation regularly sends its dealers useful service bulletins about GMC Truck products. GMC Truck & Bus Operation monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.

Let's Get It Together... Buckle Up
 Every new 1986 GMC Light Duty Truck delivered by a GMC Truck Dealer in the United States comes with a one-year, \$10,000 safety belt insurance certificate from MIC General Insurance Corporation at no additional charge. \$10,000 will be paid to the estate of any occupant who suffers fatal injuries as a result of an accident involving that vehicle while wearing a GM safety belt. Buckle up every time you drive.

GMAC

At your GMC Truck Dealer, financing or leasing your new GMC Truck is as easy as saying GMAC...the financial services people from General Motors.
