

2009 Honda ACCORD

INGENIOUSLY SIMPLE.

ENVIRONMENTALLY CONSCIOUS.

EMPHATICALLY HUMAN.

FANTASTICALLY FUN.

Accord EX-L V-6 Coupe shown in San Marino Red.

**IT'S NOT JUST A CAR,
IT'S A MISSION STATEMENT.**

More than just steel, aluminum, rubber and glass, the Honda Accord is a collection of ideas. Like the belief that being responsible and having fun are not mutually exclusive. Or that the proper hierarchy in automotive design is man first, machine second. Or that innovative engine technology can result in both power and efficiency. These are among the principles you'll find at work in every Honda. Culminating in the 2009 Accord.

Accord EX-L V-6 Sedan shown in Alabaster Silver Metallic.

**THIS IS ABOUT LINES
AND CURVES AND SHAPES.
IN OTHER WORDS, IT'S ABOUT DESIRE.**

How you feel about your car has a lot to do with how it looks. Accord has been styled to attract a glance. To invite a stare. With its clearly defined edges and powerful stance, it has the ability to stir passion from any angle.

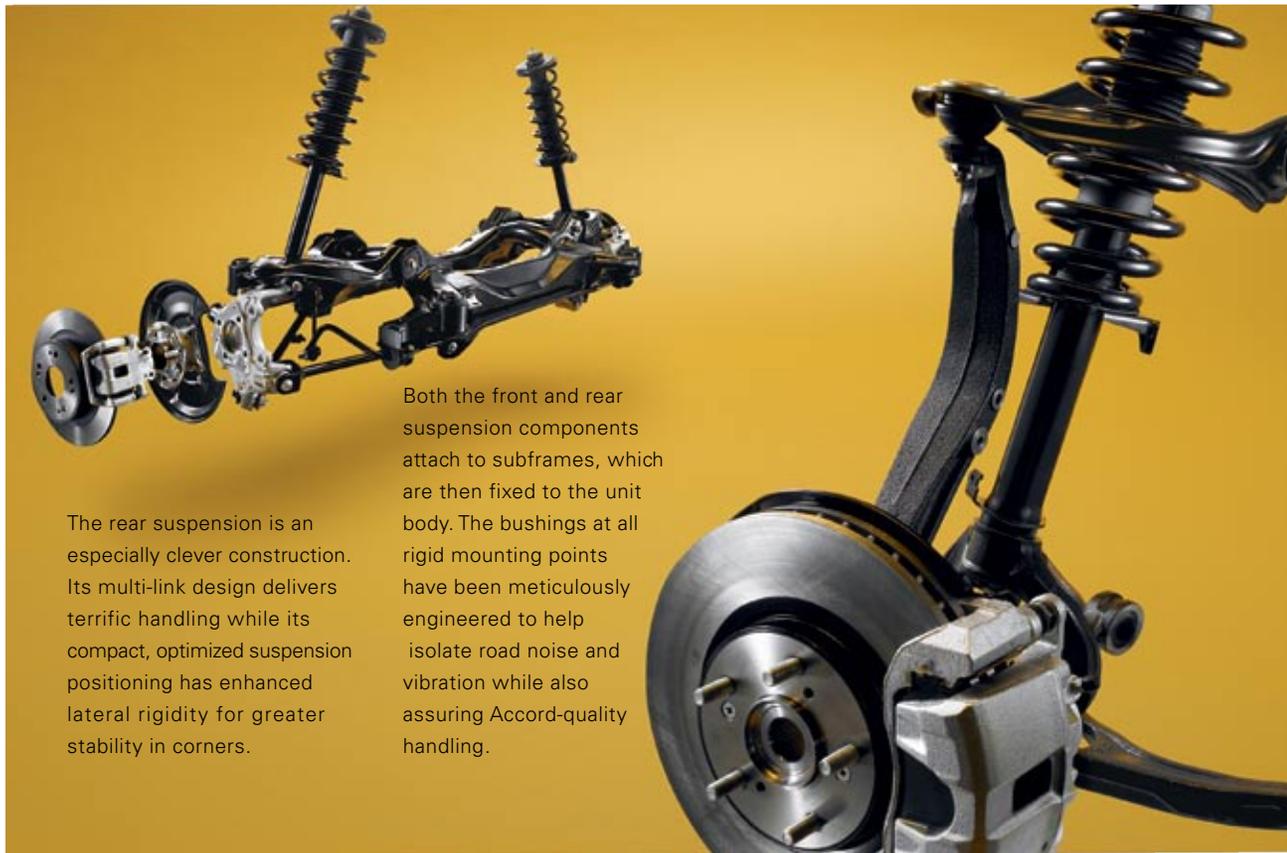

Accord EX-L V-6 6MT Coupe shown in Belize Blue Pearl.

IT'S LIKE NO ACCORD WE'VE EVER BUILT. At Honda, attention to detail is more than a rallying cry.

IT'S LIKE EVERY ACCORD WE'VE EVER BUILT. It's a way of thinking about cars and the people who drive them. Take Accord. From the placement of the fuel tank to the design of the spark plugs, every decision is examined. Then re-examined. All for one purpose: to make your driving experience the best it can be.

Nothing characterizes an Accord more than its distinctive feel. Much of this springs from the vehicle's front double wishbone and rear multi-link suspension. Engineered for instant response, it is the perfect embodiment of our core philosophy of continual improvement, even in those areas where we're already a leader. Additional features include variable gear ratio power steering for excellent high-speed stability and enhanced low-speed maneuverability. These are just a couple of the things that make the Honda Accord such a uniquely enjoyable car to drive.

The rear suspension is an especially clever construction. Its multi-link design delivers terrific handling while its compact, optimized suspension positioning has enhanced lateral rigidity for greater stability in corners.

Both the front and rear suspension components attach to subframes, which are then fixed to the unit body. The bushings at all rigid mounting points have been meticulously engineered to help isolate road noise and vibration while also assuring Accord-quality handling.

Every 2009 Accord comes with disc brakes on all four wheels, for smooth, powerful and fade-resistant stopping capability. Electronic Brake Distribution apportions braking force according to dynamic loading.

For an extra helping of athletic ability, try the Accord EX-L V-6 6-speed Coupe. Its short-throw shifter gives you pinpoint control over the vehicle's well-chosen gear ratios. Eighteen-inch alloy wheels also complement its sporting potential.

Turn the key and you continue a dialogue that began over 50 years ago. One in which the needs of our customers, as well as the environment, are heard and acted upon. The 2009 Accord responds with not only one of the most powerful vehicles in its class, but also with the lowest emissions achieved by any V-6 available!

IT STARTS WITH A PROMISE.

IT STARTS WITH A COMMITMENT.

IT STARTS WITH AN ENGINE.

Accord EX-L V-6 Coupe shown in San Marino Red.

ACCORD ENGINES HAVE LONG MADE HEARTS BEAT FASTER.

NOW THEY MAKE YOUR MIND RACE, TOO.

Imagine an engine that not only exhilarates, but can also minimize fuel use and emissions? Accord offers three: a 177-hp, 2.4-liter i-VTEC® 4-cylinder (sedan only), a 190-hp version, and a 271-hp, 3.5-liter V-6. It's the only lineup that offers both 4-cylinder and V-6 Partial Zero-

Emission Vehicles (PZEV)! The Accord's V-6 features the latest generation of Variable Cylinder Management™ (VCM®) technology. This system can activate and deactivate the engine's cylinders as needed to meet the demands of acceleration and maximize fuel efficiency?

During steady cruising, the Accord's V-6 shuts down the entire rear bank of cylinders. So the vehicle is essentially running on half an engine – resulting in greater fuel efficiency? In this mode, the audio system's Active Noise Cancellation™ (ANC) function generates out-of-phase sound waves to cancel out any undesirable noise that may be due to the harmonics of 3-cylinder operation.

When maximum torque is required – such as when you're merging onto the freeway or climbing a steep hill – all six cylinders are firing to deliver the engine's full power. The transition between the three operating modes is nearly seamless to the driver and passengers.

When cruising speeds climb, the engine will move from 3-cylinder operation to a 4-cylinder mode. The first, second, fifth and sixth cylinders – two cylinders in each bank – will be engaged for balanced running. To help keep engine vibration from reaching the cabin in every mode, a pair of active engine mounts automatically adjust their firmness to help absorb energy.

**CAN AN ICON OF SIMPLICITY
ALSO BE AN ICON OF STYLE?**

The Accord offers generous interior room as well as first-class amenities. These include available features like navigation with voice recognition³ and a premium 7-speaker, 270-watt audio system. The Accord has always been a showcase of practicality. So why can't luxury be practical?

Accord EX-L V-6 Sedan shown with Ivory Leather and available Honda Satellite-Linked Navigation System.™³

**PRECISELY ENGINEERED SO THAT
PARTS, FEATURES, SYSTEMS (AND DRIVER)
ALL WORK TOGETHER SEAMLESSLY.**

From the way the driver's seat holds your body to the way the audio buttons feel to your touch, there's a reason for everything. Nothing is superfluous. Nothing seems like an afterthought. Man and machine have never been more in tune.

Accord EX-L V-6 6MT Coupe shown with Black Leather and available Honda Satellite-Linked Navigation System³

The Accord is designed to be an extremely engaging experience. Equip your EX-L with the available Honda Satellite-Linked Navigation System,³ and you'll command a vast knowledge of the U.S., except Alaska. It has a huge point-of-interest database,* including restaurant ratings and reviews from

Zagat Survey.⁶⁴ The system can be operated by voice commands or with the central interface dial, which also lets you work the audio system and climate control. There's even Bluetooth⁶⁵ HandsFreeLink,⁶⁶ which easily connects with your Bluetooth-compatible phone.

The Accord's one-touch power moonroof on EX models features a tilt function as well as an air diffuser that allows air to circulate inside the cabin.

Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked. iPod is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPod not included. *Some roads unverified. See the navigation system owner's manual for more details on coverage.

**SOME OF THE SMARTEST THINKING THAT WENT INTO THE ACCORD
WAS FOR THINGS YOU MAY NEVER USE.**

This is about safety. Not safety for people who can afford it. **Safety** for everyone. Honda's Advanced Compatibility Engineering™ (ACE™) body structure disperses frontal crash energy over a wide area, helping keep it away from passengers. Accord even has energy-absorbing structures in the hood and front fenders to help minimize injuries to pedestrians.

ADVANCED SYSTEMS LIKE VSA AND TPMS COME STANDARD. BECAUSE AT SOME POINT, EVEN A LUXURY CAN BECOME A NECESSITY.

The Tire Pressure Monitoring System⁷ (TPMS) will notify the driver if air pressure is significantly low. It's a standard feature on every 2009 Accord model.

The Vehicle Stability Assist™ (VSA®) system is standard on all Accords. During an understeer or oversteer situation, it can brake individual wheels and/or reduce engine power to help restore your intended course. Standard ABS will also help you maintain steering—even during hard

braking. Also standard is Brake Assist, which helps apply full braking in some emergency situations, and Electronic Brake Distribution (EBD), which helps braking performance by distributing brake force among the four wheels based on how much load each wheel is bearing.

All five passengers benefit from 3-point seat belts. The front belts are equipped with an automatic tensioning system that tightens in the event of a moderate-to-severe frontal impact. Outboard rear seats have the LATCH (Lower Anchors and Tethers for Children) child-restraint system.

To help reduce whiplash injuries in a rear-end impact, the front seats have active head restraints. They move up and forward in a rear collision to help keep head movement to a minimum.

Front airbags inflate and deflate in a fraction of a second.

Every Accord comes standard with dual-stage, dual-threshold front, dual-chamber front side and side curtain airbags to help prevent injuries in a collision.* The front passenger's side airbag uses the Occupant Position Detection System (OPDS) to prevent deployment if a small-statured passenger is out of position and in the airbag's path of deployment.

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

"WE ONLY HAVE ONE FUTURE, AND IT WILL BE MADE OF OUR DREAMS."

– Soichiro Honda

Accord EX-L V-6 Sedan shown in Crystal Black Pearl.

A dream is a view of the world  not as it is, but as it could be. For 60 years, Honda has encouraged its associates to aim beyond what is currently possible. All for the purpose of progressing  human mobility. This spirit has resulted in advances in environmental technology, like the hydrogen fuel cell  FCX Clarity, that brings  us closer to a future filled with blue skies. It guides us as we strive to exceed government safety regulations and has led  to industry-changing innovations on the ground, in the water, and, with the HondaJet,[™] in the air. And it pushes us to use  premier race circuits as testing  grounds for our ideas. Moving forward, our minds are open to new ideas, no matter where they come from. Because you  never know what will be until you discover what can be. dreams.honda.com

Accord EX-L V-6 Sedan shown in Alabaster Silver Metallic.

Your dealer's team of trained technicians is at the ready to help keep your Honda in superb shape. All 2009 Honda vehicles—and any Honda Genuine Accessories installed at the time of purchase—are

covered by the 3-year/36,000-mile New-Vehicle Limited Warranty.¹³ Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty, too.¹³ For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

Want your own look? Ask your dealer about Honda Genuine Accessories. They're designed, engineered and tested to meet the same exacting standards as your new vehicle—and a high-quality way to make your new Honda a reflection of your one-of-a-kind personality.

Whether you buy or lease a Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

Honda Care® is an affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your Honda dealer for details.
