COLOSSUS OF CAPABILITY!

It commands respect. And admiration. An urban accomplice housed in five doors. Turn the key and 1.5 liters of pent-up energy spring into action. Change up the seating and challenges back down. This is Fit. A city's greatest champion.
SUPER SIPPER!

With a rating of 28 mpg city and 35 mpg highway,* life suddenly changes. Commutes become more pleasant. Saturday errands are no longer the chore they once were. And your wallet? Why, it feels fuller, more substantial in your pocket or purse. Maximum satisfaction. Minimum cost.

*Fit with 5-speed automatic transmission only.
It's instinctive and responsive. Punch in an address and almost instantly the available Honda Satellite-Linked Navigation System™ with voice recognition will point you in the right direction. Voice prompts actually give you turn-by-turn instructions. But what if you're looking for a place to go? Fit has over 7 million suggestions in its huge database.* And since voice recognition also controls most navigation- and audio-system functions, you can confidently drive to your destination without taking your hands off the wheel.*

*Some roads unverified. Please see your Honda dealer for details.

**LONG-DISTANCE CRUISING**
Fit Sport’s cruise control was made for road trips. Simply set the system using the steering wheel-mounted controls and off you go.

**NO CUP RUNNETH OVER**
With 10 beverage holders, cleanliness and proper hydration go without saying.

**COMFORT IS PERSONAL**
Power windows, mirrors and door locks may be unexpected. Supportive seats may be uncommon. But a tilt and telescopic steering column? Here, it’s all about adjusting to you.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System.
**THE POSSE FACTOR!**

Friends. Family. Pets. Stuff. They all come with you. So why not give them their space? With Fit’s 2nd-row Magic Seat, you can create multiple seating configurations that’ll accommodate practically any situation. And if you and four of your posse decide to head out, Fit can accommodate them too. Comfortably seating five with more than 20 cubic feet of storage in the back.

**TALL MODE**

Ready for some magic? Flip up Fit’s 2nd-row Magic Seat and presto—over 4 feet of space from floor to ceiling. And as tempting as it may be to see how many friends you can fit in a Fit, this space is reserved for non-human cargo only.

**UTILITY MODE**

Ditch the delivery truck. With 57 cubic feet of smooth, flat space, you can haul your own stuff. Just fold the Magic Seat down and start packing. A low floor height and huge rear hatch make it easy to load and unload.

Honda reminds you to properly secure items stored in the cargo area.
people mode
All seatbacks up. And prepare to seat five. Fit may be power-packed with capability, but sometimes, it’s the human bond that carries the day.

LONG MODE
Fold the front passenger and right side of the rear seat down. Slide in your favorite surfboard, ladder, rolled-up rug or totem pole. (Anything up to 7’9” will be allowed to ride.) And since the rear seat is a 60/40 split, there’s even room for a roadie in the back.

PEOPLE MODE
All seatbacks up. And prepare to seat five. Fit may be power-packed with capability, but sometimes, it’s the human bond that carries the day.
The anti-lock braking system (ABS) is arguably the most effective way to maintain steering control during hard braking. So naturally it’s standard. As is Electronic Brake Distribution (EBD), a sensory system that monitors and calculates weight balance, and adjusts brake force accordingly.

Active Front Head Restraints
Designed to move up and forward in a rear collision, active front head restraints help reduce the likelihood of whiplash injuries in certain rear impacts.

ABS with EBD
The anti-lock braking system (ABS) is arguably the most effective way to maintain steering control during hard braking. So naturally it’s standard. As is Electronic Brake Distribution (EBD), a sensory system that monitors and calculates weight balance, and adjusts brake force accordingly.

VSA
The Advanced Compatibility Engineering™ (ACE) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

ACE™ Body Structure
The Advanced Compatibility Engineering™ (ACE) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

Automatic Tensioning Seat Belts
An automatic seat-belt tensioning system helps hold the front-seat occupants securely in a collision. The system is triggered by the same sensors that deploy the airbags.

Side-Impact Door Beams
Four doors. Four more ways to help protect you and your passengers in a side-impact collision. High-tensile steel beams are welded into the doors.

Side Curtain Airbags
Help lessen head or neck injuries in the chance of a sufficient side collision.

Side-Impact Airbags
Help lessen head or neck injuries in the chance of a sufficient side collision.

Active Front Head Restraints
Designed to move up and forward in a rear collision, active front head restraints help reduce the likelihood of whiplash injuries in certain rear impacts.

SAFETY CONTENTS!
Every Honda comes packed with safety technology. Take Fit. It offers six airbags, active front head restraints and a host of additional standard safety features.* And it’s earned a 5-star frontal crash-test rating from the National Highway Traffic Safety Administration (NHTSA).†

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.
†Government star ratings are part of the National Highway Traffic Safety Administration’s (NHTSA) New Car Assessment Program (www.safercar.gov). Model tested with standard side-impact airbags (SABs). Airbags inflated for display purposes.

Front Airbags
One or both dual-stage, multiple-threshold front airbags (SRS) will be deployed only in the event of a sufficient frontal impact. If deployed, these airbags are capable of being inflated at different rates depending on crash severity, seat-belt usage and other factors.*

Side Airbags with OPDS
The front passenger’s side airbag features our Occupant Position Detection System (OPDS) to help prevent the side airbag from deploying if its sensors detect a child or small-statured person in the airbag’s path of deployment.

VSA
VSA® helps sense oversteer and understeer, and responds by adjusting brake pressure and/or reducing engine power. Look for it on Fit Sport models with available navigation.

Oversteer Understeer VSA

Vehicle Stability Assist™

VSA® helps sense oversteer and understeer, and responds by adjusting brake pressure and/or reducing engine power. Look for it on Fit Sport models with available navigation.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System.
Ever wonder how Honda gets so much out of a 4-cylinder? Technology. Specifically its i-VTEC technology, which delivers more horsepower over a broader range. Fit also keeps its edge with a Drive-by-Wire™ throttle system for smooth acceleration.

Sharpen your reaction time. The Fit Sport’s leather-wrapped steering wheel comes complete with paddle shifters when you opt for the available 5-speed automatic transmission. There’s also a quick-shifting 5-speed manual for all you clutch-it-yourself types.

Small may be beautiful. But it’s also comfortable. And extremely nimble. Thanks to an independent front and torsion-beam rear suspension that’s precision-tuned.

The Fit’s 160-watt audio system has MP3 and Windows Media® Audio (WMA) playback capability, Radio Data System (RDS) and CD text display. An auxiliary input jack connects you to the portable music world, as does a digital audio-card reader on navigation-equipped models. Open the upper glove compartment on Fit Sport and you’ll find Honda’s USB Audio Interface, a port that lets you operate your digital player through the audio-system controls while at the same time charging up its battery.

At first glance, you think eye candy. After a couple of miles, you quickly realize that these lightweight beauties help deliver the feel that makes Fit Sport irresistible.
Every Honda is a smart value thanks to timeless design, great reliability and extended maintenance intervals. Check out our Best Overall Brand Award and Best Resale Value Awards® from Kelley Blue Book’s kbb.com, Best Overall Value awards from IntelliChoice® and—for our sixth year in a row—Industry Best Residual Value Award from Automotive Lease Guide.®

All 2010 Honda vehicles—and any Honda Genuine Accessories installed at the time of vehicle purchase—are covered by the 3-year/36,000-mile New-Vehicle Limited Warranty¹ as well as a 5-year/60,000-mile Limited Powertrain Warranty.⁵
