LIVELY 117-HP i-VTEC® ENGINE
Ever wonder how Honda gets so much out of a 4-cylinder? i-VTEC technology delivers more horsepower over a broader range. Fit also keeps its edge with a Drive-by-Wire throttle system for smooth acceleration, all while garnering a formidable EPA highway rating of 35 mpg (Fit with AT).

AWESOME 16-INCH ALLOY WHEELS
Looks good. Feels good. The Fit Sport features 16-inch alloy wheels and no shortage of attitude. These lightweight, machine-polished beauties aren’t just for show—they provide a deft and agile touch on the asphalt.

RACE-INSPIRED PADDLE SHIFTERS
Sharpen your reaction time. The Fit Sport’s leather-wrapped steering wheel comes complete with paddle shifters when you opt for the available 5-speed automatic transmission. There’s also a quick-shifting 5-speed manual for all you clutch-it-yourself types.

RIDE-ENHANCING SUSPENSION
Small means nimble thanks to a precision-tuned, independent front and torsion-beam rear suspension. Combined with its super-sharp steering, the Fit will put a smile on any driver’s face.

FRIENDS. FAMILY. STUFF. THEY ALL COME WITH YOU, SO WHY NOT GIVE THEM THEIR SPACE? FIT SEATS FIVE COMFORTABLY WITH MORE THAN 20 CUBIC FEET OF STORAGE IN BACK. AND WITH ITS SECOND-ROW MAGIC SEAT, YOU CAN CREATE MULTIPLE SEATING CONFIGURATIONS TO ACCOMMODATE PRACTICALLY ANY SITUATION.

MAXIMUM ACCOMMODATOR!

UTILITY MODE
Ditch the delivery truck. With 57 cubic feet of smooth, flat space, you can haul your own stuff. Just fold the Magic Seat down and start packing. A low floor height and huge rear hatch make it easy to load and unload.

TALL MODE
Flip up Fit’s second-row Magic Seat cushion and presto—over 4 feet of space from floor to ceiling. (As tempting as it may be to see how many friends you can fit in a Fit, this space is reserved for non-human cargo only.)

LONG MODE
Fold the front passenger seat and rightside of the rear seat down. Slide in your favorite surfboard, ladder, rolled-up rug or totem pole. Almost anything up to 7'9" will do. And since the rear seat is a 60/40 split, there’s even room for a roadie in back.

PEOPLE MODE
Prepare to seat five. Rear passengers: relax and recline. The Fit shuttles human cargo with the best of them. From commuting to road-tripping, the Fit will be the ride of choice among your crew.

Honda reminds you to properly secure items stored in the cargo area.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System™.
COMFORT IS PERSONAL
Power windows, mirrors and door locks are standard. Supportive seats are a given. Throw in a tilt and telescopic steering column and it’s obvious: the Fit is all about adjusting to you. And thanks to conveniently placed steering wheel-mounted controls, you can turn up the volume while you lock in on the next apex.

NAVIGATE YOUR OWN PATH
With over 10 million points of interest,* the Fit Sport’s available Honda Satellite-Linked Navigation System keeps you on track even in the thickest of urban jungles. The voice recognition feature allows your hands to stay on the wheel while the audible turn-by-turn directions means your eyes stay on the road.

MOBILE COMMUNICATOR
The available navigation system* can easily get you to the restaurant but it’s up to you to make the reservation. Piece of cake. Simply call ahead using the available Bluetooth® HandsFreeLink® system and request your favorite booth.†

*Some roads unverified. Please see your Honda dealer for details.
†Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System.
USB AUDIO INTERFACE* + 160-WATT AUDIO SYSTEM

The Fit’s 160-watt audio system has MP3 and Windows Media® Audio (WMA)® playback capability, Radio Data System (RDS) and CD text display. An auxiliary input jack lets you listen to any portable music player through the Fit’s speakers while the USB Audio Interface® allows you to plug in an iPod** or flash drive. This not only keeps the iPod fully charged, but it also means you can operate it using the Fit’s audio-system controls, including those located on the steering wheel of the Fit Sport.

* iPod is a registered trademark of Apple Inc.
Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

† VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

ACE™ BODY STRUCTURE
The Advanced Compatibility Engineering™ (ACE) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

AUTOMATIC TENSIONING SEAT BELTS
An automatic seat-belt tensioning system helps hold the front-seat occupants securely in a collision. The system is triggered by the same sensors that deploy the airbags.

ACTIVE FRONT HEAD RESTRAINTS
Designed to move up and forward in a rear collision, active front head restraints help reduce the likelihood of neck injuries in certain rear impacts.

VEHICLE STABILITY ASSIST™
VSA® helps sense oversteer and understeer, and responds by adjusting brake pressure and/or reducing engine power.

SIX AIRBAGS
Every Fit has standard front, front side, and side curtain airbags* that can help reduce the likelihood of injury in a collision.

ABS WITH EBD
The anti-lock brakes (ABS) help maintain control during hard stops. Electronic Brake Distribution (EBD) applies appropriate braking force, depending on how the vehicle is dynamically loaded. And, of course, ABS and EBD are standard features.

* Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

**VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.
