THE 2017 FIT:

LOOKS LIKE FUN

Small on the outside, roomy on the inside and fierce under the hood. That’s the 2017 Fit. It’s got space for practically everyone and anything, thanks to four different interior configurations. And it’s packed with technology you’ll love. See why the Fit is a great fit for you.
Every Fit comes with Bluetooth HandsFreeLink, so you can place and receive phone calls without taking your eyes off the road.*

Honda LINK® CONNECT
Turn the Display Audio into an interface for some of your favorite iPhone® content, and you can leave your phone alone when driving (EX, EX-L).*

USB AUDIO INTERFACE
Connect your compatible smartphone, MP3 player or flash drive via USB, and you can play music and charge your devices.*

The Fit is every bit as functional as it is feisty. The available Honda Satellite-Linked Navigation System helps you find your way and avoid gridlock. And parking in tight spaces is a lot easier when you use the multi-angle rearview camera, standard on every model.

*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.
INTERIOR FEATURES:

7-INCH DISPLAY AUDIO
Touch screen technology is right up front. The Fit features a huge 7-inch Display Audio (EX, EX-L) that’s a pinchable, swipeable command center for your music, communication, information and more.

Honda LANEWATCH™
Get a better view of passenger-side traffic, thanks to an available tiny camera mounted under the side mirror. Honda LaneWatch helps shrink your blind spot by revealing nearly four times more than the mirror alone (EX, EX-L).

PUSH BUTTON START
Keep your key in your pocket or purse, and start the engine with the push of a button (EX, EX-L).

HEATED FRONT SEATS
Warm up quickly with heated leather-trimmed front seats (EX-L).

STEERING WHEEL-MOUNTED CONTROLS
Make phone calls, select music and a lot more while keeping your hands on the wheel.*

PADDLE SHIFTERS
Race-inspired paddle shifters on EX and EX-L models with CVT give you more control and make your drive that much more fun.

CENTER CONSOLE
A spacious center console is a great place to store all kinds of items.

*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while driving. Other laws apply to systems or applications that operate with handheld devices. Always check and follow applicable laws. Always stop in a safe location when using your phone or audio device or perform any other operation on your phone or audio device that may affect your attention. Always stop the vehicle in a safe place to complete all other handheld device operations.
FULL OF ENDLESS POSSIBILITIES

The Fit can take all kinds of people and all kinds of cargo all kinds of places, thanks to brilliant engineering and a little magic. The spacious interior has room for five, and the 2nd-row Magic Seat helps you configure your Fit four different ways.

VERSATILITY:

TALL MODE
Sometimes you need a little extra room for taller items. Folding up the 60/40 split Magic Seat gives you almost four feet of space, top to bottom.¹

UTILITY MODE
Fold the Magic Seat down and you’ve got a class-leading 52.7 cu ft of cargo space.² It’s amazing what fits in there.

LONG MODE
Fold down the right side of the rear seat and fold back the front passenger seat, and you can haul gear that’s up to 7 feet, 9 inches long.²

REFRESH MODE*¹
Take off the front head restraints, fold back the front seats and you’ve got the perfect place to relax.

¹ Only use Refresh Mode when the vehicle is safely parked. Reinstall the seat and head restraint in their original position before driving.

² Full of endless possibilities. 
PERFORMANCE:

EXPERIENCE AMAZING PERFORMANCES DAILY

Of course the Fit is fun to drive. It has a nimble chassis, a wide stance and ingenious EarthDreams® Technology to give you plenty of zip and help you go longer between fill-ups.*

EARTHDREAMS TECHNOLOGY CVT

The available continuously variable transmission allows the engine to operate at optimal RPM levels and helped the Fit receive an impressive 40-mpg highway rating.*

ECO ASSIST™

This eco-conscious technology comes standard on every Fit, and on models with a CVT, the ECON button helps you squeeze even more miles out of a gallon of gas.*

*29 city/36 highway/32 combined mpg rating for LX and EX 6MT models. 33 city/40 highway/36 combined mpg rating for LX CVT model. 32 city/37 highway/34 combined mpg rating for EX and EX-L CVT models. Based on 2017 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
EQUIPPED WITH CONFIDENCE

SMARTVENT® AIRBAGS
Front side airbags feature SmartVent technology designed specifically to help protect the driver’s or front passenger’s upper torso in the event of a side-impact collision.*

VEHICLE STABILITY ASSIST™ (VSA®)
During an understeer or oversteer condition, VSA can brake individual wheels and/or reduce engine power to help restore your intended course†

ADVANCED COMPATIBILITY ENGINEERING™ (ACE™)
The Honda-exclusive ACE body structure design utilizes a network of connected structural elements to distribute frontal crash energy more evenly.

MULTI-ANGLE REARVIEW CAMERA²
Standard on every Fit, this incredibly useful feature helps show what’s behind you from three different modes: Normal (shown), top-down and wide.

TIRE PRESSURE MONITORING SYSTEM (TPMS)³
This ingenious system monitors the air pressure in all four tires, and alerts the driver when the pressure in any tire becomes significantly low.

ANTI-LOCK BRAKING SYSTEM (ABS)
The anti-lock brakes help the driver retain steering control during hard stops, while Electronic Brake Distribution (EBD) distributes brake force among the four wheels based on how much load each wheel is bearing.

SAFETY:

* Honda reminds you and your passengers to always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in the rear seat. † VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

² Fit EX-L shown in Lunar Silver Metallic.
