*Available features. Please visit automobiles.honda.com/ridgeline#specifications for actual trim application.

Ridgeline ridgeline.honda.com

A truck that delivers.

The Ridgeline rethinks the traditional truck bed by offering multiple storage and access options. It is the only pickup with a lockable In-Bed Trunk® and its dual-action tailgate means fewer out-of-reach items. Keep your cargo safe and dry no matter what you bring along in this truck full of possibilities.

Ridgeline AWD RTL-T (right) shown in Lunar Silver Metallic with accessory roof rails.

Honda reminds you to properly secure cargo items.

Tackle virtually any terrain and take it all with you.
With available innovations in stability, traction, handling and visibility, the Ridgeline can take you places you've never been before. Navigate rain-soaked dirt or snowy* mountain passes more easily, even while towing.

- Intelligent Variable Torque Management™ AWD system†
- Intelligent Traction Management (Snow, Mud and Sand modes*)
- Integrated Class III trailer hitch

†Available features. Please visit automobiles.honda.com/ridgeline#specifications for actual trim application.

*Snow mode only on 2WD trims. Snow, Mud and Sand modes on AWD trims.

Confidence on the road.

Even the most attentive of drivers can miss things. That's why Honda offers an array of safety and driver-assistive technologies designed to assist and help protect you and your passengers.

- Advanced Compatibility Engineering™ (ACE™) body structure
- Advanced driver and front passenger airbags
- Multi-angle rearview camera⁹

CR-V EX (above image; left) shown in Crystal Black Pearl and CR-V AWD Touring (above image; right) shown in Lunar Silver Metallic.

Honda
SENSING

The Honda Sensing® Suite.

A - Collision Mitigation Braking System™ (CMBS™)¹⁰
CMBS can help bring your vehicle to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

B - Lane Keeping Assist System (LKAS)¹¹
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep your vehicle centered in a detected lane.

C - Road Departure Mitigation System (RDM)¹²
RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep you from leaving the roadway entirely.

D - Adaptive Cruise Control (ACC)¹³
ACC helps you maintain a set following interval behind a detected vehicle for highway driving.
