Of course a pickup truck has to be tough, rugged and powerful. But why stop there? It ought to have a few more tricks up its sleeve. That’s why we built a tough, rugged, powerful pickup that also has brains, style and sophistication. We gave it a closed-box frame and a striking Sport Trim, and we packed it with innovative features like a lockable In-Bed Trunk®, rearview camera and Bluetooth® HandsFreeLink® (RTL with navigation®), just to name a few. The result? We transformed a vehicle that’s been known for its utility into one famous for its versatility. The Honda Ridgeline.
We thought of everything, so you can do almost anything.

The name of the game is options. The Ridgeline has a large, hidden lockable In-Bed Trunk, and an innovative cargo bed that can be configured many different ways, so you can haul a lot more than you’re used to. And whether you’re on pavement or dirt, the 250-hp engine, independent suspension and sophisticated 4WD system get you there with power and grace.
It’s officially OK for a truck to be this comfortable.

Sit back, enjoy the ride and leave the hard work to the truck. The Ridgeline’s unique body design creates a wider, deeper cabin with plenty of room for five adults. And the smart details and high-tech touches throughout win over even the staunchest pickup purists. The steering-wheel design features integrated buttons for the cruise control, stereo system and available Bluetooth® HandsFreeLink. The available dual-zone automatic climate control system and heated front seats are also really easy to get used to.
The thoughtfully designed interior puts everything right where it should be, like the center console with multiple storage compartments and a 115-volt power outlet (RTL). The available Honda Satellite-Linked Navigation System\(^1\) with voice recognition always has your coordinates front and center. Shift into reverse and the same screen serves as a rearview camera display (RTL with Navigation). All other models include a rearview camera display built into the rearview mirror.
The Ridgeline’s first line of defense is a reinforced unit body that incorporates a closed-box frame with internal high-strength steel frame stiffeners. Both the frame rails and all seven crossmembers feature box-section construction. The result is a remarkably high torsional rigidity.

Vehicle Stability Assist™ (VSA™) with traction control can detect understeer or oversteer and reduce the amount of engine torque and/or use the vehicle’s anti-lock braking system (ABS) to brake individual wheels as needed to help restore your intended course.

Brake Assist, a component of the anti-lock braking system (ABS), helps apply full braking force in some emergency situations.

Electronic Brake Distribution (EBD) helps balance braking forces depending upon dynamic loading.

The Ridgeline’s standard Tire Pressure Monitoring System (TPMS) continually checks the pressure of each tire, alerting the driver with an in-dash display when a particular tire’s pressure is significantly low.

Front, front side and side curtain airbags are all standard. The front seats feature active head restraints that are designed to move up and forward in a rear collision to help reduce the likelihood of neck injury.

---

*VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

†Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.
**ENGINEERING**

- 3.5-Liter, 24-Valve, SOHC VTEC® V-6 Engine
- 250 hp @ 5700 rpm (SAE net)
- 247 lb-ft @ 4300 rpm (SAE net)
- Drive-by-Wire Throttle System
- High-Mounted Fresh-Air Intake
- Direct Ignition System with Immobilizer
- ULEV-2 Emissions Rating*
- 100K +/- Miles No Scheduled Tune-Ups*

**DRIVETRAIN**

- 5-Speed Automatic Transmission
- Variable Torque Management®
- 4-Wheel-Drive System (VTM-4®)
- Locking Rear Differential
- Heavy-Duty Automatic-Transmission-Fluid Cooler

**TOWING**

- Integrated Closed-Box Frame with Unit-Body Construction
- Fully Boxed High-Strength Steel (HSS) Frame Rails and Crossmembers with Internal Stiffeners
- Heavy-Duty Radiator with Dual 160-Watt Fans
- Heavy-Duty Power-Steering-Fluid Cooler
- Pre-Wired for Trailer Harness (RTS and RTL Include Trailer Harness)
- Integrated Class III Trailer Hitch
- 5000-lb Towing Capacity*
- Total Payload Capacity (lbs): 1537 (RT/RTS), 1559 (Sport), 1487 (RTL), 1475 (RTL w/Navigation)
- MacPherson Strut Front Suspension
- Multi-Link Rear Suspension with Trailing Arms

**BODY/SUSPENSION/CHASSIS**

- Power-Assisted Ventilated Front Disc/Solid Rear Disc Brakes (in):
- 12.6/13.1
- Steel-Reinforced Composite (SRC) Cargo Bed
- Vehicle Stability Assist™ (VSA®) with Traction Control
- Tire Pressure Monitoring System (TPMS) (RTL with navigation, location and pressure indicators)
- Lower Anchors and Tethers for Children (LATCH):
- Lower Anchors (2nd-row all), Tether Anchors (2nd-row all)
- Daytime Running Lights (DRL)

**SAFETY**

- Dual-Stage, Multiple-Threshold Front Airbags (SRS)
- Front Side Airbags with Passenger-Side Occupant Position Detection System (OPDS)
- Side Curtain Airbags with Rollover Sensor
- Driver’s and Front Passenger’s Active Head Restraints
- Anti-Lock Braking System (ABS)
- Electronic Brake Distribution (EBD) and Brake Assist
