Discover it.
THE TRUTH IS, finding a car that’s right for you isn’t that easy. You’ve got cars that over promise and under deliver. Cars that assume you’ve won the lottery and desperately want to part with the proceeds. And value-priced cars that, unfortunately, drive that way.

Fortunately, there is one company that understands and embraces the concept of what people really want in a car. That company is Hyundai.

We make smart cars for smart people. Cars that routinely get 5-star crash test ratings. Cars where the number of safety features takes precedence over the number of cupholders. And cars that put quality exactly where it belongs—first and foremost.

We also believe in a warranty that lasts twice as long as the average car loan. Not to mention the average car warranty.

We steadfastly adhere to the proposition that premium amenities are not to be reserved exclusively for the wealthy. That beautiful design shouldn’t necessitate a second mortgage. And that stimulating performance and handling needn’t come from engineers with names like Hans and Giuseppe.

In other words, we believe in cars that don’t insult your intelligence, but rather, respect it.

Like the impressive Accent. With six standard airbags, more interior volume than Honda Civic and a ULEV engine with top-notch horsepower, the Accent is an entry-level model, with anything but entry-level features.

Now that we’ve whetted your appetite, feel free to turn the page and get better acquainted.
Decisions, Decisions

PERHAPS CHOICE IS THE ACCENT’S GREATEST FEATURE.

WHEN YOU HAVE TWO impressive models enticing you, the decision won’t be an easy one. But whether you select the sporty 3-door or the handsome 4-door, you’ll enjoy power, safety, room and economy that are certain to inspire, no matter which choice you make.
The 1.6-liter engine features 16 valves and CVVT to generate 110 horsepower. Plus, it’s ULEV certified while delivering up to 33 MPG, proving power doesn’t necessarily have to corrupt.

If you opt for the SE 3-door, you’ll be treated to a leather-wrapped, short-throw B&M Racing® Sport Shifter. This stylish yet functional design makes for smooth shifts and even smoother looks.

The SE 3-door’s upgraded sport suspension features unique springs and dampers to further reduce body roll and improve stability in corners, as well as a quick-ratio steering rack.

That’s because Accent’s Alpha Engine develops an energetic 110 horsepower — more than Toyota Yaris or Honda Fit — and features Continuously Variable Valve Timing (CVVT) for spirited performance. Both the 3-door and 4-door also boast an independent front suspension with MacPherson struts for confident handling. With a choice of either a 5-speed stick or a 4-speed automatic, the Accent is well equipped to leave stragglers in its wake.

Objects in the Rearview Mirror May be the Competition.

Let’s get ready to handle.

Responsive Performance

Highway, automatic transmission.
THE ACCENT 3-DOOR—SENSIBLE YET ALWAYS ENTERTAINING. It’s sportier than your average subcompact, offering quick-ratio steering, 16-inch alloy wheels, an integrated rear spoiler, leather-wrapped steering wheel and shift knob, power sunroof and ground effects kit. But it also has a practical side, with six standard airbags, more interior space than a Honda Civic, power windows and door locks, and even standard ABS and Electronic Brake-force Distribution on the SE.
Take every turn in style
The SE’s leather-wrapped steering wheel features a thick rim that feels great and handsome stitching for a stylish touch. It may even inspire you to buy a pair of driving gloves.

Eight drink holders
The GLS features eight, count ‘em, eight drink holders. Which means you can keep even the thirstiest passengers happy and satisfied, even during long trips.

Divide and conquer
Your cargo problems, that is. Accent’s 60/40 split rear seats fold down to conveniently accommodate odd-sized cargo, and fold flat on 3-door models.

Power mirrors
Keeping the surrounding traffic in your sights is now easier than ever—simply adjust the bodycolor dual power side mirrors and you’re off.

POWER SUNROOF
The SE’s power tilt-and-slide sunroof brings fresh air in on sunny days, and includes a sunglass holder and integrated maplights to help you find your way at night.

Remote keyless entry
Open doors like a true V.I.P. Just the press of a button on the Accent’s keyless remote lets you lock and unlock one or all of the doors. It also has a panic alert feature.

Auxiliary audio input jack
This convenient input jack lets you plug in your favorite MP3 player so you can take thousands of tunes on the road, without lugging along a bunch of CDs.¹

XM® satellite radio
Take more than 170 channels of digital-quality entertainment wherever you go. You'll enjoy a wide variety of commercial-free music, news, talk and specialty programming.¹ ²

Fog lights
SE’s integrated front fog lights are mounted low to the ground to help illuminate the road in foggy conditions, while helping you look stylish when the weather finally clears.

Air conditioning
When the mercury starts to rise, it’s nice to know you’re riding with air conditioning to keep you cool and comfortable. The system also features a filter to keep the cabin air fresh.

Power trunk
Open doors like a true V.I.P. Just the press of a button on the Accent’s keyless remote lets you lock and unlock one or all of the doors. It also has a panic alert feature.

SE performance
Outfitted with 16-inch, 5-spoke alloy wheels mated to high-performance 205/45VR tires, the SE delivers razor-sharp handling and looks even sharper when it’s in your driveway.

POWER MIRRORS
Keeping the surrounding traffic in your sights is now easier than ever—simply adjust the bodycolor dual power side mirrors and you’re off.

HYUNDAI | 08 ACCENT
SOMETIMES, SMALL IS BIG. This is one of those times. The Accent’s interior is classified as a Compact Car by the U.S. government—an entire class larger than Toyota Yaris. You’ll enjoy a cabin even more spacious than Toyota Corolla or Honda Civic, with high-quality materials throughout, an ergonomic layout (translation: things are where they’re supposed to be) and thoughtful amenities that make every drive a pleasure.
WE MADE THE CAR. NOW MAKE IT YOUR CAR.

CAN A CAR BE AS PERSONALIZED AS THE DRIVER? Bump up the 3-door’s exterior with ground effects. Boost the performance with engine mods and handling add-ons. Or tweak your interior with up to 570 watts of audio enhancements as well as trim kits. With 35 accessories to choose from, you’ll transform your Accent from mere transportation into an expression of your individuality.
3-Door Accessories

FRONT MUDGUARDS
Keep your Accent's just-washed look beautiful longer, with these handsome mudguards that help prevent splashes and splatters from marring your finish.

KENWOOD® SUBWOOFER
This unit delivers big bass in a small space, thanks to passive radiator technology. With 150 watts of power, it'll create sound you can feel as well as hear.

DC SPORTS® FRONT STRUT BAR
This not only improves your chassis’ rigidity and handling, it looks great too. And its lightweight construction doesn’t add additional heft to slow you down.

AEM® SHORT-RAM INTAKE
Air can really heat up performance. By allowing more air into the engine, you enjoy improved throttle response and a sportier engine note.

SPORT STEERING WHEEL
Get a grip with this stylish sport wheel, featuring a leather-wrapped design with blue or gray accents. Its thick rim and ergonomic shape make it ideal for enthusiastic driving.

CUSTOM LUG NUTS
A great way to add some tuner style to your ride, these cool blue lug nuts give your wheels the extra attitude to help your Accent stand out from the crowd.

CARGO MAT
Muddy hiking boots don’t have to ruin your Accent’s interior. This sturdy rubber mat protects the carpet in your cargo area and is a cinch to clean.

KENWOOD STEREO
Upgrade your sound system with this advanced Kenwood head unit. Featuring MP3 playback and a 200-watt amp, you can take your audio to a new level.

ALUMINUM DOOR SILL
Every time you step in or get out of your Accent, this aluminum door trim will remind you and your passengers who has the coolest car.
GLS 4-Door

CAN THE SMARTEST DECISION YOU EVER MADE BE A NO-BRAINER?

THE ACCENT 4-DOOR—A VEHICLE AS INTELLIGENT AS THE GENIUS WHO BUYS IT. Like the Accent 3-door, the 4-door’s 1.6-liter engine offers excellent fuel economy and delivers ultra-low (ULEV) emissions to help protect the environment. Body stiffness has been increased 39% over the previous 4-door model, giving you precise steering and handling as well as a controlled, comfortable ride. And once you’re inside, you’ll find an array of comfort and conveniences you may be surprised to see in an entry-level sedan, like a tilt steering wheel, a handsome two-tone color scheme, and an 8-way adjustable driver seat.
SHOULDN’T YOUR CAR HAVE AT LEAST AS MANY SAFETY FEATURES AS CUPHOLDERS?

SHOULDN’T YOUR SAFETY BE AN AUTOMAKER’S TOP PRIORITY? We think so. That’s why the Accent is full of standard active and passive safety equipment: 3-point seatbelts for every seat, front seatbelt pretensioners, front and rear crumple zones, body-side reinforcements, an energy-absorbing steering column and a Tire Pressure Monitoring System. Not to mention six airbags, standard. Dual front, front side-impact, and side-curtain airbags, all standard.¹ No wonder the NHTSA gave it a 5-star frontal crash safety rating.²

ANTI-LOCK BRAKING SYSTEM
Our advanced system uses computerized sensors to detect and prevent wheel lock-up, helping you maintain steering control while braking hard in emergency situations.

STRUCTURAL INTEGRITY
You wouldn’t build a house on a shaky foundation. That’s why we built the Accent with a reinforced unibody construction of high-tensile steel to effectively absorb collision energy.

TIRE PRESSURE MONITORING SYSTEM
Each wheel is equipped with an air-pressure sensor located at the valve stem. In the event that any tire reaches a specified low air pressure, a warning light will alert you.³

ELECTRONIC BRAKE-FORCE DISTRIBUTION
This technology works with ABS, minimizing braking distances by varying the braking force applied to each of the vehicle’s wheels based on load dynamics, road conditions and speed.

SIX AIRBAGS
IIHS data indicates that driver fatalities are reduced 26% in driver-side impacts when cars are equipped with side-impact airbags, and 37% with head-protecting side airbags.⁴

ADJUSTABLE HEAD RESTRAINTS
We gave the Accent adjustable head restraints in both front and rear seats. Not only does it improve protection, the rear shingle-style restraints help driver visibility.

SEATBELT PRETENSIONERS
These tighten safety belts in certain accidents to reduce front occupants’ forward movement. Then, force limiters release slack which limits load across the body to help minimize injury.

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.
IT’S DIFFICULT TO PREDICT THE FUTURE. UNLESS YOU HAPPEN TO BE DESIGNING IT.

IT TAKES A WORLD OF PEOPLE TO MAKE A HYUNDAI. From our R&D Center in South Korea, where we conduct predesign studies, prototyping, full-scale aerodynamics analysis, crash testing and test driving. To Alabama and our $1.1 billion state-of-the-art manufacturing plant. To Michigan and our engineering center. To our Southern California design facility, where we utilize the world’s most advanced visualization, graphics and clay-modeling technologies. To our environmental technology research center in Seoul. Together, these facilities ensure that every vehicle we build is at the forefront of automotive technology.
From the scorching heat of Death Valley, Calif., to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.

An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

Prior to painting, the body of each Hyundai is electrically charged, then immersed in a primer bath with an opposite charge. This ensures even hidden surfaces are completely coated for incredible corrosion resistance.

Our vehicles’ excellent safety ratings are the result of thousands of hours of simulations in state-of-the-art safety testing facilities. Is destroying millions of dollars worth of automobiles worth it? Absolutely.

At our California Proving Grounds, every new design is tested in real-world situations. This includes a 6.4-mile track to evaluate engine and road noise, and a 3.3-mile road course that simulates America’s highways.

Every new Hyundai that comes out of our Alabama plant has 2.3 miles on the odometer. That’s because each one is road tested on our test track to ensure every vehicle is working perfectly.

From the scorching heat of Death Valley, Calif., to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.
America’s Best Warranty

A FIVE-YEAR WARRANTY SAYS A LOT ABOUT THE CAR.
A TEN-YEAR WARRANTY SAYS A LOT ABOUT THE CAR COMPANY.

IT SAYS THAT WE STAND BEHIND OUR VEHICLES with a warranty matched by no other automaker in the country. It says your new Hyundai’s powertrain may be covered until the year 2018. (Just think about that for a minute.) But above all, it says that we build a vehicle that you can rely on. That as a company, we’re committed to your satisfaction, long after you leave the dealership and your car is bought and paid for. And that’s as refreshing now as it will be in a decade.
STANDARD FEATURES INCLUDE:
- 1.6-liter, DOHC inline 4-cylinder engine with Continuously Variable Valve Timing
- 5-speed manual transmission
- Sport-tuned power rack-and-pinion steering
- 14-inch steel wheels with full covers
- Tire Pressure Monitoring System
- Advanced dual front airbags with Occupant Classification System
- Front side-impact airbags
- Front and rear side-curtain airbags
- Adjustable head restraints for all seating positions
- Variable intermittent windshield wipers
- 60/40 split fold-flat rear seatback
- Dual side mirrors
- Tachometer
- Sporty cloth seats
- 8-way adjustable driver seat with armrest
- Dual front cupholders
- Front door storage pockets
- Reclining rear seat
- Tilt steering wheel
- Side marker lights
- Rear coat hook
- Rear cargo cover
- Bodycolor bumpers and grille
- Bodycolor rear spoiler

INCLUDES ALL STANDARD GS FEATURES PLUS:
- Anti-lock Braking System with Electronic Brake-force Distribution
- Sport-tuned suspension
- 16-inch alloy wheels with P205/45VR tires
- Front fog lights
- Tinted glass
- Windshield sunshade band
- Power side mirrors
- B&M Racing® Sport Shifter
- Air conditioning
- 172-watt AM/FM/CD six-speaker audio system with equalizer
- Leather-wrapped steering wheel and shift knob
- XM® Satellite Radio¹²
- Auxiliary audio input jack¹
- 14-inch steel wheels with full covers
- Chrome-accented front grille
- Bodycolor bodyside molding, door handles and side mirrors
- Power rack-and-pinion steering
- Tinted glass
- Windshield sunshade band
- 60/40 split fold-down rear seatback
- Front and rear door storage pockets with bottle holders
- Front seatback pockets
- Rear center armrest with cupholders
- Child safety door locks
- Driver and front passenger illuminated vanity mirrors with covers
- Does not include sport-tuned steering, rear cargo cover, rear spoiler, side marker lights, bodycolor front grille and reclining fold-flat rear seats
