It's the perfect fit for all of your dreams.

The car industry loves to classify cars by size. And while that sort of segmentation can be useful, all you really want to know is this: Does it fit your dreams?

Does it sense if your lights are out? Does it offer smart technologies to help keep you and your passengers better connected? Better protected? And totally confident?

Can its multiple handling and responsive performance make you feel more empowered?

As you get to know the 2020 Hyundai Accent, you'll find it's the perfect size for what your future needs. With its cascading chrome grille, available 17" alloy wheels and wraparound headlamps and taillights, Accent looks right at home among those sporty-looking-only luxury sedans. Yet it's agile in traffic, easy to park and doesn't guzzle gas.

Step inside, and you’re welcomed by a modern-looking interior that has a sleek, spacious, new and refined Accent in size tech-savvy, with available Apple CarPlay® Android Auto™ and Hyundai Blue Link® because that’s where your smartphone is: a power point of contact with your car. Most important, Accent offers a level of safety that’s made it a IIHS Top Safety Pick when equipped with optional Forward Collision Avoidance Assist and LED headlights.

For added peace of mind, Hyundai Accent is backed by America’s Best Warranty. All of this with a car that’s affordable too: Now that’s taking the dream.

“Drivers with longer commutes won’t regret choosing this Accent over a larger, more expensive car. It’s a solid pick for its satisfying combination of performance, utility, comfort and style.” — Edmunds Expert Review
The unseen advantages of the 2020 Accent.

Hidden under Accent’s sleek exterior is a chassis forged with high-strength steel. This advanced material gives Accent what engineers call torsional rigidity - a resistance to twisting forces. It translates steering inputs and suspension inputs into a smooth, effortless driving feel - the kind you’d think only a larger, more luxurious car could provide. When you take your foot off, there’s no kick back - and Few cars - Accent is over rough roads. And be sure to note the steering precision in corners, too.

The use of high-strength steel has also helped Accent earn a Top Safety Pick rating by the IIHS. It enhances the ability of Accent to withstand impact forces in a collision. Of course, our hope is that you never have an accident in the first place. Which is why Accent Limited comes equipped with forward collision-avoidance assist technology.

For 2020, Accent is the only car in its class to offer available 6-wheel disc brakes. Front the brake pedal, and it responds with smooth, sure stopping power. Press the gas pedal, and it feels the quick acceleration of a 1.6L 4-cylinder engine and all new proprietary intelligent variable transmission. You’ll see advantages all the gas-pumping too - Accent has an EPA-estimated 41 MPg highway rating.

ACCENT Safety Technologies

2019 IIHS Top Safety Pick
Accent’s commitment to the highest standards for safety is evident. Accent Limited earned a 2019 IIHS Top Safety Pick where equipped with optional Forward Collision Avoidance Assist and 1.6L headlights.
Welcome to better.

At Hyundai, everything we do is focused on one thing: Better. If you’ve compared Accent to its competitors, you’ve likely heard how it’s better handled in this price range — we’ve found Accent with a long list of speculate features that are hard to find in other cars in this class.

Settle into Accent Limited’s driver seat on a busy morning, and you’ll quickly appreciate the heated front seats with three levels of heat settings. Automatic temperature control thanks to your preferred cabin climate, while fingertip controls let you quickly set your preferred position for the heated side mirrors and leather-wrapped, 4-spoke and telescopic steering wheel. Now look up — a power moonroof is included as standard.

We even found better ways to let you access your car. When approaching your Accent Limited, a Welcome Light washes the front grille with a soft blue glow. Entering your car with a hand full of shopping bags? Accent Limited’s hands-free smart trunk helps you preserve your posh and pops the trunk for easy access to a cargo area that expands up into a hidden sub-trunk. Accent Limited’s split folding rear seats also give you the flexibility to carry people or extra cargo.

Technology this amazing borders on magic.

Thankfully, there’s no lack to keeping all of the innovations available with Accent in fact, it’s easy. Apple CarPlay® and Android Auto™ pay your compatible smartphone with Accent’s 7” touchscreen audio display – standard on SEL and Limited. Using the car’s touchscreen or voice commands, you can access your smartphone’s music, messages, navigation and more.

Fingertip control on the available HTT and telescopic shoe wheel at your adjustable seat and steering column settings, or make calls with Accent’s Bluetooth® hands-free phone system. Keeping your smartphone and other devices powered is easy, too – Accent comes standard with convenient front and available rear nanocar USB charge ports.

Then there’s Hyundai Blue Link®, a technology that transforms Accent Limited into a vehicle unlike any you’ve ever owned. Blue Link Contracted Care, from the start of 3 years of ownership, gives drivers peace of mind, 24/7 roadside assistance, and a variety of features that can help you be on an adventure where an accident has been avoided.

With the Mitsubishi smartphone app, sign up between your home, your workplace and your destination is seamless. While you’re getting ready to leave, Blue Link lets you remotely start, Accent Limited’s engine and warm or cool it in time! You can also download Blue Link for Apple Watch™ or Android Wear™ and control your Accent’s doors or start the engine from a mobile anywhere. Now that’s truly magical.

While other automakers are still implementing them even in larger and more expensive models, Hyundai makes it (Android Auto and Apple CarPlay) readily available in its least expensive car” – Kelley Blue Book
