2016 HYUNDAI AZERA

COMMON SENSE WAS NEVER SO SENSATIONAL.

P ut Hyundai Azera on your list of cars to consider, and you’ll prove that a rare type of consumer behavior still exists. It’s called common sense. After all, Azera is a stylish, roomy and comfortable sedan that’s filled with all the premium features you want. Who says common sense can’t look and feel sensational?

Thanks to what Hyundai designers call Fluidic Sculpture, Azera flows elegantly from its available integrated LED fog lights in front to its hexagonal dual exhaust tips in back. Inside, it has the most front-seat legroom and front head room in its class. It’s space filled with supple leather and standard features like a 7”-screen power driver seat, heated and ventilated front seats, and an 8” touchscreen display with advanced navigation. Hyundai engineers did their part, too, with a smooth, quiet 3.3-liter V6 engine that uses a SHIFTRONIC® 6-speed automatic transmission to make the most of its 293 horsepower.

Blind Spot Detection with Rear Cross-traffic Alert and available Forward Collision Warning and Lane Departure Warning systems are premium safety features Azera shares with our Equus and Genesis luxury sedans. Ditto brand new features like an Electronic Parking Brake with automatic vehicle hold and Smart Cruise Control with stop/start.

Hyundai Blue Link®, our innovative connected car solution that combines safety, car care, remote functionality and entertainment into one dynamic package, is also onboard. Is it starting to sound like Azera makes perfect sense?

1Class-leading comparison based on competitive set defined by Hyundai Motor America, which includes 2015 models for Nissan Maxima, Toyota Avalon, Buick LaCrosse and Ford Taurus.

2Do not rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD may not detect every object or vehicle and will not prevent accidents. Never rely exclusively on the Rear Cross-traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. VEHICLE MUST BE IN REVERSE AND HAS TO BE GOING 6 MPH OR LESS. Lane Departure Warning operates above approximately 44 mph and only when the lane markings are clearly visible on the road. It will not prevent loss of control. Refer to the Owner’s Manual for further product details and limitations on all of these safety features.

3Blue Link subscription service agreement required. Features vary by subscription plan. Blue Link service works using CDMA-based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For details and system limitations, visit HyundaiBlueLink.com.
ENGINEERED PERFORMANCE

AZERA GRANTS YOU SPECIAL POWERS.

A premium sedan should make its owner feel special. From the moment you enter Azera, settle into the driver’s seat and start the engine, you’ll feel like you possess special powers.

Azera’s 3.3L V6 engine creates effortless power and surprising fuel efficiency. Thanks to its innovative use of Gasoline Direct Injection (GDI) and Dual Continuously Variable Valve Timing (CVVT), Azera’s power will feel smooth and continuous, with more power delivered on demand. Azera’s Active ECO System, which modifies engine and transmission controls at the press of a button, can also be engaged for further fuel economy efficiencies.

Your power over rough roads comes from an expertly tuned SACHS® Amplitude Selective Damping suspension. The ability to smooth over even the roughest road is something Hyundai engineers have instilled into Azera using our California Proving Grounds – one of the world’s most advanced automotive research and development centers. From the high-speed oval to the Belgian blocks and torturous, twisting body flex course, Azera’s impressive 36.5-foot turning diameter is something you’ll appreciate when parking lots become obstacle courses.

From the high-speed oval to the Belgian blocks and torturous, twisting body flex course, Azera’s impressive 36.5-foot turning diameter is something you’ll appreciate when parking lots become obstacle courses.

BLIND SPOT DETECTION: Azera warns the driver of an approaching vehicle using indicators on the side mirrors or, if needed, an audible warning. Lane Change Assist factors the speed of adjacent vehicles into the warning calculus when you’re switching lanes.

FORWARD THINKING: Azera Limited comes with Forward Collision Warning that senses the potential for collision with a vehicle in front of you and warns the driver. The warning signals the driver to apply braking to help prevent a collision or mitigate its impact.2

STEERING AGILITY: Azera’s advanced speed-sensitive power steering offers lighter steering at low speeds for easy maneuverability, and a firmer feel as speed increases for improved responsiveness. Azera’s impressive 36.5-foot turning diameter is something you’ll appreciate when parking lots become obstacle courses.

1 Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. 2 Forward Collision Warning is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles under certain conditions. The system does not provide a braking function. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system’s alerts before braking as there may not be sufficient time to brake safely.
LUXURY AND TECHNOLOGY

RELIEVES STRESS BETTER THAN VITAMIN B.

Your life’s got plenty of stress. Shouldn’t your car give you plenty of relaxation? That’s what Azera does best from the moment you walk up to it. Approach from the rear with your proximity key in your pocket or purse, and the hands-free smart trunk opens automatically in three seconds. Walk around to the front doors, and they unlock at the push of a button.

Open the door, and you’re greeted by the glow of illuminated door sill plates. Take your seat in the spacious cabin. Make that a heated leather seat, standard. And if it’s a front seat, make that a ventilated seat for cooling comfort, standard. In the driver’s seat? Set its 12-way adjustments and seat cushion extension to your liking.

Now turn your attention to a roomy and refined interior that boasts the most front head room and legroom in its class. It’s a space covered in supple leather and filled with conveniences like an Integrated Memory System that sets your preferred positions for the seat, side mirrors and steering column at the push of a button. Azera Limited’s ambient lighting system enhances the mood even more with soft light at night.

Azera’s standard 550-Watt Infinity® Logic 7® Surround Sound System features 14 speakers that transform the car’s interior into a music sanctuary. Enjoy SiriusXM® Satellite Radio’s upgraded offerings1 and HD Radio™ with multicasting. Bluetooth® integration lets you make hands-free phone calls and stream playlists from your smartphone.

SPLIT FUNCTIONALITY

A high-resolution 8˝ touchscreen displays navigation and audio functions at the same time. The advanced navigation system includes voice control and junction view lane guidance. The screen also doubles as a monitor for the integrated rearview camera and features a parking guide.

SMART TRUNK

Azera comes standard with a Smart Trunk. When you’re within 3 feet of the rear for more than 3 seconds, it opens up to help you stow your luggage hands-free. It senses when you (and your proximity key) approach. When you’re within 3 feet of the rear for more than 3 seconds, it opens up to help you stow your luggage hands-free. It closes when you walk away to ensure your hands are full.

PASSENGER PREMIUMS

Rear-seat passengers are treated to available stress-free features like a power rear-window sunshade, manual rear side-window sunshades and a panoramic sunroof. Standard 2nd-row air vents and heated rear seats offer individualized comfort in all climates.
MEET YOUR PERSONAL SECURITY FORCE.

In Azera, your sense of security comes from its impressive suite of active safety technologies. To help you drive safely, a Vehicle Stability Management system automatically manages an impressive array of important safety features including Electronic Stability Control with Traction Control System and an Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist.1

To warn you of potential collisions, Azera is equipped with Forward Collision Warning and rear parking sensors. It’s also the first in its class to offer Blind Spots Detection, standard. This radar-based system helps detect when a vehicle is in the driver’s blind spot and provides both audible and visual alerts to help keep you aware as you move down the road.

When reverse gear is selected, Rear Cross-traffic Alert and a standard rearview camera help identify and warn the driver of obstacles in back and vehicle approaching from the side. If an oncoming vehicle is detected by the front camera at night, automatic High Beam Assist switches from high- to low-beam headlights. Now that’s a bright idea.

ADVANCED SAFETY

HYUNDAI BLUE LINK

In Azera, even the technology is calming thanks to Hyundai’s award-winning Blue Link connected car system. Blue Link Connected Care – which includes Enhanced 24/7 Roadside Assistance, SOS Emergency Assistance, Monthly Vehicle Health Reports and more – is standard for the first year of ownership.2 Blue Link feature sets include an available Remote Package with convenient remote access and safeguard features.

REMOTE ACCESS

With the Blue Link mobile app, your smartphone can remotely start yourAzera, and remotely lock or unlock the car from virtually anywhere.4 Looking for where you parked after the concert or game? Our app lets you flash the lights and honk the horn to help locate your car.

EXPERT GUIDANCE

Your voice commands Blue Link’s Destination Search powered by Google™ to find an address or point of interest while keeping your eyes on the road ahead. For quicker navigation, you can send search results from your phone’s browser or mobile app directly to Azera’s navigation system.3

FEEL SECURE

Someone borrows your car? Use Blue Link to set geography, drive-time or speed limits. If they’re exceeded, you’re notified by text or email. Dining out? A Valet Alert monitors Azera’s moves within a predefined boundary. And with Stolen Vehicle Recovery technology, its location can be pinpointed.

FEEL SECURE

Someone borrows your car? Use Blue Link to set geography, drive-time or speed limits. If they’re exceeded, you’re notified by text or email. Dining out? A Valet Alert monitors Azera’s moves within a predefined boundary. And with Stolen Vehicle Recovery technology, its location can be pinpointed.

FASTER TO HELP

SOS Emergency Assistance means help can be on the way in the blink of an eye. It all begins when your Azera senses trouble – even if you don’t. If you don’t respond to six consecutive emergency alerts, a customer service representative will contact you to confirm you’re safe. If not, they’ll contact emergency services.
