Consider it.
THE TRUTH IS, finding a car that’s right for you isn’t that easy. You’ve got cars that over promise and under deliver. Cars that assume you’ve won the lottery and desperately want to part with the proceeds. And value-priced cars that, unfortunately, drive that way.

Fortunately, there is one company that understands and embraces the concept of what people really want in a car. That company is Hyundai.

We make smart cars for smart people. Cars that routinely get 5-star crash test ratings. Cars where the number of safety features takes precedence over the number of cupholders. And cars that put quality exactly where it belongs—first and foremost.

We also believe in a warranty that lasts twice as long as the average car loan. Not to mention the average car warranty.

We steadfastly adhere to the proposition that premium amenities are not to be reserved exclusively for the wealthy. That beautiful design shouldn’t necessitate a second mortgage. And that stimulating performance and handling needn’t come from engineers with names like Hans and Giuseppe.

In other words, we believe in cars that don’t insult your intelligence, but rather, respect it.

Like the sophisticated and fuel-efficient Elantra. So many premium features abound in its spacious interior (like heated seats, leather, oh, and six standard airbags), you’ll think you’re stretching your legs in a midsize car. The EPA did. It put the 2008 Elantra’s interior space in the same class as Nissan Altima and Toyota Camry.

Now that we’ve whetted your appetite, feel free to turn the page and get better acquainted.
CAN A CAR PROMISE A BETTER LIFE, OR JUST A BETTER DECADE?

HOW ABOUT BOTH? Not only does the 2008 Elantra have an impressive 5-star frontal crash safety rating, the roomiest interior in its class and tons of premium features, it also has an extraordinary 10-year powertrain warranty. Not to mention Elantra’s handsome styling and appealing sticker price. You can just picture the happy times. Up to ten years of peace of mind, comfort, style, convenience — and a great value too. The future looks pretty bright through the windshield of your Elantra.
WHO’S READY FOR A PHYSICS LESSON? No, we haven’t messed with any Newtonian laws or tap danced on the time-space continuum. We’ve just built a compact car with a really roomy interior. And as it turns out, the 2008 Elantra interior is so big the EPA says it’s actually not a compact car at all. It’s a midsize car. And (here’s the funny part) the “compact” Elantra is even roomier than the midsize Acura TL. To top it off, the Elantra has a lot of the premium features you’d find in higher-priced midsize cars, including a smooth and quiet ride, heated front seats, steering-wheel-mounted audio and cruise control and even an auxiliary jack to plug in your MP3 player. And that’s a very big story indeed.
Rear-seat passengers will enjoy the comfort of a rear center armrest, and the convenience of integrated cupholders. Your drinks will find them pretty comfortable too.

When the mercury starts to rise, it’s nice to know you’re riding with air conditioning to keep you cool and comfortable. The system also features a filter to keep the cabin air fresh.

There it is. Your Elantra patiently waiting for you. You press the button on your key fob, it unlocks all its doors and wishes you a cheery, “Welcome back.”

Say “yes” to whatever catches your eye. Be it a new set of bar stools or a pair of skis. Just fold down part or all of the backseat, and your Elantra is ready to oblige.

Your drinks will find them pretty comfortable too.

These high-tech mirrors keep your visibility clear on those misty mornings. Meaning the only waiting you’ll do is for the barista to call your name at the coffee counter.

An aggressive bodycolor rear spoiler, 16-inch, 5-spoke Euroflange wheels and a leather-wrapped steering wheel and shift knob give your Elantra some sporting character.

There it is. Your Elantra patiently waiting for you. You press the button on your key fob, it unlocks all its doors and wishes you a cheery, “Welcome back.”

This convenient jack lets you plug in your favorite MP3 player so you can take thousands of tunes on the road with you without lugging along a bunch of CDs.

Go outside and play. Or at least get a little sun en route to the office. Touch the control to open the power sunroof and let the fresh air and sunshine into your commute.

Snow, rain and cold are unfortunate parts of life. But they just became a lot more bearable thanks to the Elantra. Stay warm as Corolla owners suffer through the chill.

Let your Elantra be your personal assistant. It will route your calls from your Bluetooth-equipped phone to a built-in, overhead microphone and speaker for perfect clarity.

Take more than 170 channels of digital-quality entertainment wherever you go. You’ll enjoy a wide variety of commercial-free music, news, talk and more.

Introducing the perfect partner to your XM Radio—a six-speaker 172-watt audio system. It features a CD player as well as a graphic equalizer that lets you customize your sound.

This convenient jack lets you plug in your favorite MP3 player so you can take thousands of tunes on the road with you without lugging along a bunch of CDs.

SIT INSIDE THIS SOFT, STYLISH INTERIOR, and you’ll immediately get why it’s rated a class size above the Toyota Corolla and Honda Civic by the EPA. Besides being as roomy as a midsize, you’ll notice premium touches everywhere. From the leather-wrapped steering wheel and shift knob, to the dual front illuminated vanity mirrors with sunvisor extensions, and the rather hip-looking blue backlight illumination. Speaking of hip, you can crank up any of your latest downloads on the 172-watt premium audio system featuring a CD player with MP3 compatibility, six speakers and an auxiliary audio input jack. The only downside? Eventually, you’ll reach your destination.
The Elantra delivers a smooth ride and responsive handling thanks to a front MacPherson strut suspension with coil springs and a multi-link rear with gas shock absorbers all around.

2.0-LITER ENGINE
Engineered with a broad powerband for superior responsiveness, this engine still delivers excellent fuel economy with low emissions, as well as more torque than both Civic and Corolla.

4-WHEEL INDEPENDENT SUSPENSION
The Elantra delivers a smooth ride and responsive handling thanks to a front MacPherson strut suspension with coil springs and a multi-link rear with gas shock absorbers all around.

GO GREENER
You can feel you’re doing your bit for the planet every time you drive your Elantra, thanks to its frugal 33 mpg on the highway and emissions that meet the clean partial-zero PZEV standard.

"WHAT IS TORQUE AND WHY DO I WANT MORE OF IT?" Torque is what you want if, like most of us, you happen to drive in the real world. Between two engines that have the same power, the higher-torque engine will respond quicker off the line with better acceleration. Couple that responsiveness with the Elantra’s impressive body stiffness (measured 9% higher than Corolla’s), precise steering and handling and well-controlled yet comfortable ride, and you have a seriously competitive sedan, ready for the fast lane as well as any sneaky maneuvers through traffic on the way to the fast lane.
Active Safety

PREVENTING AN ACCIDENT IS THE BEST WAY TO SURVIVE ONE.

IF YOU CREATED YOUR OWN CAR COMPANY, you wouldn’t sell an unsafe car. Neither would we. So before you load the Elantra full of passengers, we’ve already filled it with cutting-edge active safety features that work dynamically with input from you and the road to help prevent an accident. Which is why the Elantra is an ideal choice to help protect you, your passengers and your peace of mind. Just like you’d expect from your own car company.
ON TOP OF OUR ACTIVE SAFETY FEATURES, the Elantra is equipped with a host of standard passive safety features as well. Because we take the task of keeping you and your passengers safe just as seriously as you do. From an advanced airbag system to rear child-seat anchors, our commitment to safety can be seen throughout every automobile we build. So, should an accident occur, you can rest assured that you're surrounded by state-of-the-art safety engineering.

Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 2007 model tested with standard side-impact airbags (SABs). TPMS is not a substitute for proper maintenance. See Owner's Manual for details. The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.
Investing in Excellence

IT’S DIFFICULT TO PREDICT THE FUTURE. UNLESS YOU HAPPEN TO BE DESIGNING IT.

IT TAKES A WORLD OF PEOPLE TO MAKE A HYUNDAI. From our R&D Center in South Korea, where we conduct predesign studies, prototyping, full-scale aerodynamics analysis, crash testing and test driving. To Alabama and our $1.1 billion state-of-the-art manufacturing plant. To Michigan and our engineering center. To our Southern California design facility, where we utilize the world’s most advanced visualization, graphics and clay-modeling technologies. To our environmental technology research center in Seoul. Together, these facilities ensure that every vehicle we build is at the forefront of automotive technology.
WE'RE VERY HANDS ON
We hand check nuts, bolts, cables, wiring and power components before any Hyundai leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can’t be detected on the factory floor.

MEET OUR QUALITY INSPECTOR
An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

PERFECTION IS OUR OBSESSION
For example, this door hinge used to look a little different. But our engineers noticed that the old design was adding a minute amount of wind noise to the vehicle. So they redesigned it. Now it adds none at all.

WE TREAT OUR BODIES LIKE TEMPLES
Prior to painting, the body of each Hyundai is electrically charged, then immersed in a primer bath with an opposite charge. This ensures even hidden surfaces are completely coated for incredible corrosion resistance.

THE MYSTERIOUS 2.3 MILES
Every new Hyundai that comes out of our Alabama plant has 2.3 miles on the odometer. That’s because each one is road tested on our test track to ensure every vehicle is working perfectly.

YOU CAN NEVER BE TOO SAFE
Our vehicles’ excellent safety ratings are the result of thousands of hours of simulations in state-of-the-art safety testing facilities. Is destroying millions of dollars worth of automobiles worth it? Absolutely.

PROVEN BEFORE IT’S DRIVEN
At our California Proving Grounds, every new design is tested in real-world situations. This includes a 6.4-mile track to evaluate engine and road noise, and a 3.3-mile road course that simulates America’s highways.

TESTED TO THE EXTREMES
From the scorching heat of Death Valley, Calif., to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.
A FIVE-YEAR WARRANTY SAYS A LOT ABOUT THE CAR.
A TEN-YEAR WARRANTY SAYS A LOT ABOUT THE CAR COMPANY.

It says that we stand behind our vehicles with a warranty matched by no other automaker in the country. It says your new Hyundai’s powertrain may be covered until the year 2018. (Just think about that for a minute.) But above all, it says that we build a vehicle that you can rely on. That as a company, we’re committed to your satisfaction, long after you leave the dealership and your car is bought and paid for. And that’s as refreshing now as it will be in a decade.
STANDARD FEATURES INCLUDE:
• 2.0-liter, DOHC Inline 4-cylinder engine with Continuously Variable Valve Timing
• 5-speed manual transmission
• 4-wheel disc brakes
• 4-wheel independent suspension
• Tire Pressure Monitoring System
• Advanced dual front airbags with Occupant Classification System
• Front side-impact airbags
• Front and rear side-curtain airbags
• Active front head restraints
• Adjustable head restraints in all seating positions
• Power windows and door locks
• Dual heated power side mirrors
• Remote keyless entry system with alarm and trunk release
• Tilt steering wheel
• Premium cloth seats

• Rear center armrest with cupholders
• 60/40 split fold-down rear seatback
• Overhead maplights and sunglass holder
• Center console with two-tier storage compartment and armrest
• Front door and seatback pockets
• Bodycolor door handles, bumpers, side mirrors and rear garnish
• Chrome-accented front grille

INCLUDES ALL STANDARD GLS FEATURES PLUS:
• Electronic Stability Control
• Traction Control System
• Brake Assist
• 16-inch, 5-spoke Euroflange alloy wheels
• Front fog lights
• Air conditioning
• Leather-wrapped steering wheel and shift knob
• Dual front illuminated vanity mirrors with sunvisor extensions
• Tilt-and-telescopic steering wheel
• 172-watt AM/FM/CD/MP3 six speaker audio system
• XM Satellite Radio
• Auxiliary audio input jack
• Steering-wheel-mounted audio controls
• Steering-wheel-mounted cruise control
• Multi-function trip computer
• Windshield sunshade band
