We’ve been ranked #1 in brand loyalty for 8 years in a row. Here’s why.

At the most recent J.D. Power Customer Loyalty Index, Hyundai ranked #1 among all automotive brands. Eight straight years in row Hyundai has topped the rankings!

What makes our customers so loyal? They know that as good as their current Hyundai is, they can expect the next one to be even better. Better designed, better styled, able to protect you better and connect you better.

Our belief is better is why we’ve emerged as a leader in the research and development of alternative fuel vehicles, electromobility and connected car technologies. It’s also why we continue to back every new Hyundai with America’s Best Warranty.

Take a closer look at the Hyundai lineup for 2018. We’re confident that among our latest sedans, crossovers, SUVs and hybrid models, you’ll find a vehicle that’s perfect for your needs.
From the Antarctic to the Mojave Desert, our testing literally goes to extremes.

"I believe it is in our nature to explore, to reach out into the unknown. The only true failure would be not to explore at all." — Sir Ernest Shackleton

In the middle of California’s Mojave Desert sits the 4,306-acre Hyundai Proving Grounds. It’s a place where testing is taken outside the four walls of the world’s headquarters. Here, our engineers design and test how vehicles perform under extreme conditions.

Recently, we went to the other extreme. The Antarctic, there. Hyundai set out to help fill a journey started more than a century ago, when legenday explorer Sir Ernest Shackleton and a team of 28 brave men were forced to call off an attempt at the first trans-Antarctic crossing. Inspired by the explorer’s granddaughter Patricia Burgan, this expedition in highly modified Hyundai Santa Fes proved to be the ultimate test of endurance.

The expedition set off from the Scott Base, nearly 1,000 miles by air from Antarctica’s south pole, on December 6, 2016. It included 20 members of the U.S. military and a team of 8 engineers from Hyundai America Technical Center. The Santa Fes that set off on the Antarctic expedition were specially modified with engines capable of running on vegetable oil, allowing them to travel for days without refueling or re-supplying.

The team encountered extreme temperatures that can wreak havoc with mechanics like tires, the Hyundai Santa Fe’s modified suspension, and even the Santa Fe’s fuel system. They had to be able to travel for days without refueling, or re-supplying.

Driving The First Car To Ever Cross Antarctica

"It's a remarkable trip. The drivers drove a remarkable journey with Hyundai across the South Pole, nearly 1,000 miles by air from Antarctica’s south pole."
— David Martin, April 18, 2017

- Start date: December 6, 2016
- Total distance: 3,500 miles
- Average speed: 1.67 mph
- Total time: 21 days

On board: 10 drivers, 10 engineers, 5 military personnel, 2 mechanics
- Vehicles: 2 highly modified Hyundai Santa Fes

Hope makes every Hyundai better.

At Hyundai, our vehicles come loaded with a lot of outstanding features — including one you can’t even see: Hope. Hope is just under the hood of every new Hyundai. Each time we sell a new vehicle, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer.

Over the last 10 years, Hyundai Hope on Wheels has donated more than $132 million dollars and counting to support pediatric cancer research. To learn more about Hyundai’s commitment to this goal, please visit HyundaiHopeOnWheels.org.
So user-friendly, it’ll remind you of what friends are for.

What do you call a mobile connectivity technology that transforms your new Hyundai into a vehicle similarly to how you use your owned A technology that’s as intuitive, it’s earned industry accolades for your Hyundai! You’ll call it Blue Link. Using our MyHyundai with Blue Link app, you can ask your smartphone to start your Hyundai while you’re finishing breakfast in the kitchen— and warp to an event before you hop in and head off work. Blue Link for Apple Watch™ or Android wear™ offers an additional level of convenience for starting the engine remotely or unlocking/slocking the doors from almost anywhere. There’s even a Car Finder feature that helps navigate your way through crowded m sudah and shopping malls back to your parked Hyundai. WiFi Blue Link Guidance, you can tap into real-time traffic powered by Google Maps™ to help you navigate along your intended route, or even as your vehicle’s path isn’t updated in real time, turn-by-turn directions from your smartphone to your vehicle’s navigation system. Teenagers browsing the net? Geo-Fence, Speed and Curfew Alert features let you know when you can’t be where they aren’t, and where they’re. Blue Link Connected Care. This comprehensive safety and care service package covers 24/7/365 Emergency Assistance and Automatic Collision Notification that help you’re in an accident, whether the airbags deploy. Monthly $24.99, Health Reports offers a consistent way to help ensure your MyHyundai is in optimal condition. And scheduling a service appointment is as easy as sending your touchscreen to your Hyundai’s or your MyHyundai smartphone app. We’re continually finding better ways to make life between your home, your office and your friends full of your experiences. After all, that’s what friends are for.

“The (My)Hyundai app offers a fantastic climate-control function via the remote-start system. Users can opt to turn on the front defroster, adjust the interior temperature, and even set the amount of time the engine will idle during a remote start.” Car and Driver, December 2016
2018 Hyundai
Santa Fe
Santa Fe Sport

Is Santa Fe the right size SUV for you? The answer is yes, yes and yes.

Santa Fe offers a responsiveness and agility that’s surprising for an SUV of its size. Take the Santa Fe Sport 2.0T - it uses a turbocharged four-cylinder engine to boost the power to 240 horsepower and 260 lb-ft of torque. That’s enough to do a 0-60 in 6.8 seconds while sipping fuel to the tune of EPA-estimated 28 MPG on the highway.

Santa Fe models equipped with the 3.3L V6 have 250 horsepower and 245 lb-ft of torque to make heavy towing work easy. Driving Active is easier too, thanks to Electronic Stability Control (ESC), Brake Control, and an available Active Cornering Control (ACC) Drive that add confidence whether you’re towing or not.

And whether you choose a Santa Fe seating 5, 6, or 7 passengers, you’re protected by advanced safety systems that include available Automatic Emergency Braking with Pedestrian Detection, Blind Spot Detection with Rear Cross-Traffic Alert, Lane Change Assist and more. This fusion of technologies helped the 2017 Santa Fe equip with available Automatic Emergency Braking and High Intensity Discharge headlights earn an IIHS Top Safety Pick rating. The Santa Fe Sport earned a 2018 IIHS Top Safety Pick rating and, when equipped with Automatic Emergency Braking, a 2017 IIHS Top Safety Pick+ rating.

Vents All Around
Our 2018 Santa Fe Sport 2.0T includes and Santa Fe 1.6T comes in a host of stylish names and Multi-view Camera system that displays an overhead view to help you see the area behind your vehicle. The Santa Fe front seats offer a contoured design and comfortable seatback, and heated seating and steering wheel are available. The Santa Fe also offers a heated steering wheel, which makes it a great choice for those who enjoy the weather year-round.

Like Magic
Approaching the rear of your Santa Fe is a breeze with available BLIS technology. The 2018 Santa Fe is equipped with an available rearview camera, which is especially helpful in tight spaces, allowing you to see what’s behind you when you’re backing up your vehicle.
2017 Hyundai

Tucson

Want to stand out from the crowd? Step into Tucson.

How satisfying your vehicle feels behind the wheel depends on literally thousands of factors. But it starts with the engine. A 1.6-liter 4-cylinder turbocharged engine comes standard on select Tucson models. It’s mated to a 7-speed EcoShift Dual Clutch Transmission that creates smooth, instantaneous gear shifts and boosts fuel economy up to an EPA-estimated 32 MPG highway for Tucson Eco!

The smooth, quiet ride you enjoy is the result of a rigid body structure bonded with advanced structural strength steel and bonded with the same structure adhesives used in the aerospace industry. Lighter weight also contributes to better overall handling, excellent stopping performance, and excellent suspension geometry for a perfect balance of handling agility and equally ride comfort.

Inside its spacious interior, Tucson Limited comes standard with 9-inch touchscreen. A 4.2-inch Driver Display makes it easy to see at a glance what you need to know from multiple sources, whether that’s the advanced navigation or the 360-Watt premium audio system with Clari-Fi™ Music Amplification Technology, Tucson’s Apple CarPlay™ and Android Auto™ compatibility makes it easy to access music, messages, maps and more from your smartphone with simple voice commands.

Current Like You’ve Never Before
Desire without limits. "What if the road to vehicle safety and improved interior quality was surfing?" Tucson is equipped with an available Active Cornering Light system, issues of repelling elements that are outside of your field of view. Hit the brakes in a straight line and have confidence in your wheels - and have peace of mind when using "To ensure the engine’s power is always only put to the wheels with the road grip."

Nighttime is Lighter Than Ever
Tucson’s advanced LED headlamps aren’t only stylish - they offer increased driver visibility and a greater sense of nighttime presence. The Tucson’s available Head-Up Display displays key information in the driver’s line of sight, making the system an invaluable tool for improved visibility when coming.

Putting the Fire in Motion
Tucson’s refined engine delivers a smooth, effortless acceleration for non-stop access to a full best experience ever. Take a trip with us and add new memories to your Tucson’s "5-star safe" rating and delivering your needs, no matter how far. The 5-star safe" rating and delivering your needs, no matter how far.
2018 Hyundai Sonata

So well-equipped, the window sticker barely fits.

When your staff is as fast as our that’s been named a Fast Family Sedan by Kipling Blue Book’s KBB.com and a 2017 Best Midsize Car for the Money by U.S. News & World Report it’s not easy finding room for improvement. But that’s just what the new 2018 Sonata has done. Created at Hyundai’s California Design Studio, Sonata’s brash new sculptural form wraps around class-leading interior space. 18” wheels beautifully, too, thanks to Drive Mode Select. Choose your mood: comfort, fast economy or a sporty feel – it all depends on transmission and shifting sequence as your Sonata’s drivers to suit your mood. 2.0T models include a Smart setting that adjusts the drive mode to own with your driving habits.

Our new Sonata Limited and Limited 2.0T models equip seat-in-class comfort with a level of standard and available premium features that’s equally exceptional. Squeaking heel or creaking seat hotter bends front seat occupants comfortably, while the flexibility of rear seat passengers is enhanced by privacy shade that rolls to cover the side windows. 9.6” of high-resolution screen will put your favorite music, audio or video at your fingertips. Blue LinkTM system allows you to control the interior in a convenient way, making your commute times less part of your day.

Sonata also the feature as its class to provide Blind Spot Detection, Rear Cross-Traffic Alert, Lane Change Assist as standard safety features. A split-screen display helps you view navigation and music settings at a glance. Amazon Alexa and Google Home voice integration lets you adjust to relate Blue Link™ features using voice commands inside your house. And a wide range of options mean the 2018 Sonata leaves room for the most important thing of all: your personal preferences.

Twin Peak
A view of the Sport 2.0T and Limited 2.0T models, a full memorial replaces with both technologically and near-ideal automatic transmission to make your performance with extra fins off the top. This is the game you’re most efficient now start in Manitoba, the engine’s more than a little bit more. These are some of the more advanced driver-assistance systems available – a design that relaxes the edge of a pair of technologies without the mechanical complexity or safety concerns declare “runners” the 2018 Sonata of go from unique Sonata at an affordable price at the push of a button.

Call The Card
Your smartphone is an independent part of your life, so keeping it quiet while driving at speed or circling the empty streets too fast wouldn’t be respectable. Sonata, which is为什么要 for slotting smartphones into rear seat vents and reducing heat up, too. You could use the card for什么事情, because it’s connected to a smartphone. This feature is unique Sonata, and it changes everything.
Fun. Now available in six different variations.

In the new sixth-generation Elantra, art and science blend to achieve an aerodynamic shape that’s remarkably far efficient, easy on fuel and quick inside, being roomy. In fact, Elantra is classified by the U.S. government as twitchy rather a compact car. This spacious comfort of a middle size with the sleek dimensions of a compact car make Elantra a breeze to park. And a lot of fun to drive.

Elantra Limited is packed with premium features like a segment-exclusive hands-free smart trunk release. There’s also a Personal Key entry with push button start, available Smart Cruise Control (SCC) Automatic Emergency Braking with Pedestrian Detection, and headlamps that flash as you need you corner for better visibility in busy urban situations. Elantra Limited is also a benchmark in its midsize segment with advanced driver-assistance systems that come standard. What’s more, Elantra Limited includes the industry-first Hybrid Self-Driving with Advanced Driver Assistance Systems (ADAS) that include lane keep assist and rear view camera. Free of charge. Elantra Limited is the safe choice for drivers who want the very best in driving performance, safety, and connectivity.

Launch Date
Available summer 2018 with Hyundai’s award-winning Elantra. Prices start at $21,420. For more information, visit hyundai.com. 

Hyundai

A Better Way to Drive
2018 Hyundai
Elantra GT

Five doors. Never a dull moment.

It’s a simple formula, isn’t it? Create a car that’s incredibly enjoyable to drive - so compact, quiet and tight that whether you’re gliding through urban intersections or taking on a mountain road, the ride is its element. Make that same car so raucous, so radiants and so techie, it’s at home everywhere from the casual lakes to the campsite. And all of this without sacrificing exceptional fuel economy. As responsible as that sounds, and a handful of top noms close to hitting the evolutions. And now dive better than the all-new 2018 Elantra GT.

Our European Design Center in Germany excelled Elantra GT’s bold new shape with stylish details like a cascading grille and sleek chrome window lines. Korean engineers also used Germany’s famed Nürburgring race track and the testing grounds in California’s Mojave Desert to prove its performance, durability and handling.

Open the hatches. Fold down the rear seats. And check out all of the space loading room you’re likely to need for the day’s activities. Be it a snow day or a day at the beach. After your active day outdoors, Elantra GT can get you home safely with the help of available Driver Assistance System, which monitors your driving and warns you if Deluxe driver helps! It’s an innovation typically found only in high-end luxury vehicles. But that’s what can happen when you’re driven to do things better.
2018 Hyundai

Accent

Accentuate the positive.

That’s exactly what the designers and engineers at Hyundai did to bring you the new 2018 Accent. A new sculpting grille design, expanded headlights and tailights, and available three-chamber alloy wheels combine to just an appetizer at accent on style. Inside, it’s cooler and more, so it’s roomier inside. The seat is quieter and smoother as well, thanks to a body that makes honed use of advanced high strength steel bonded by aerospace-grade adhesives.

The heated interior is the perfect environment to enjoy the surprising level of luxury that our Accent Limited model has to offer. It starts with the effortless access to a Friendly Key with push button start and a hands-free start/think scenario. Adjust the tilt-and-telescopic steering wheel to your liking, and settle into the heated front seats. Now set the automatic temperature controls. Plug your digital devices into Accent’s dual USB charging ports and check out how seamlessly your smartphone integrates with the 7” touchscreen display through Apple CarPlay™ and Android Auto™.

For 2018, every Accent also comes standard with a rearview camera and is available with Automatic Emergency Braking. Because we all need a little help keeping things moving in a positive direction sometimes.
Welcome to the power of choice.

The Hyundai Ioniq is the world’s first car offered in three electrified powertrains: Ioniq Hybrid uses electric power to help you go farther on a pat of gasoline. Low-lying Ioniq Hybrid Blue is rated at 52 MPG on the highway by the EPA. Making it the most fuel-efficient non-turbo engine in America! The all-new Ioniq Electric in electric-only mode has a DC fast-charging time of 2.3 hours. The 12.3-inch infotainment center is designed for making it easier to find your way in the least amount of time. The 7-inch infotainment center is designed for making it easier to find your way in the least amount of time.

Built on a dedicated platform to enhance efficiency, comfort and handling, the Ioniq Hybrid and Plug-in Hybrid employ seamless design elements like the high-rake, powertrain-optimized front end, and narrow belt line integrated into the front grille. Moreover, this way helps achieve an industry-best 0.26 coefficient of drag that decreases wind noise while improving fuel efficiency.

Placing Ioniq Hybrid’s state-of-the-art 1.6-liter Alpha engine at the center of the battery pack below the rear end, the 2.2-kWh lithium-ion battery pack provides 75 miles of electric driving range. The 105-hp, 139-lb-ft of torque electric motor operates in harmony with the engine, providing an engaging ride experience.

Extending Your Power

Get Blue Link Remote app helps you check your Ioniq’s range, engine status, charge level and vehicle range, start or stop the charging process remotely, and create custom voice commands. You can also enhance your driving experience by using Google Home or Amazon Alexa voice commands.

Automatic Jump Start

The 2018 Ioniq Hybrid features the world’s first 12V battery that’s integrated with the self-processing lithium-ion power hybrid battery pack. If your car battery declines too far, the lights on or off, your phone’s camera is in deep sleep, or by placing your phone in the jump starter and pressing the power button, your jump starter will deliver an automatic jump start.
2017 Hyundai
Sonata Hybrid/Plug-in Hybrid

All systems go.
The unsung passenger and cargo space you enjoy is your first indication these are no ordinary hybrids. The feeling you get as you drive a Sonata Hybrid or Sonata Plug-in Hybrid at speed offers another revelation: There’s luxury performance damer that happen to be hybrids.

Sonata Hybrid’s 146-horsepower hybrid engine delivers an EPA-estimated 50 MPG on the highway. 2017 Sonata Plug-in Hybrid’s 201-horsepower hybrid powertrain and larger-capacity lithium-ion polymer battery pack combine to deliver an impressive all-electric range of approximately 25 miles. Not to mention an eye-popping 84.5-city / 95-highway MPG rating by the EPA, at last mile in gallons per hybrid mode, and an estimated efficiency rating of 90 MPGe.

Inside, both models are surprisingly spacious. Sonata Hybrid welcomes you with class-leading passenger volume. You can fill all that space with smoothing floor heated and ventilated front seats, 8-inch Infinity Premium Audio System and dual automatic temperature control. A large touchscreen serves as your control center for advanced navigation and audio systems, as well as integrating with your compatible smartphones and Hyundai BlueLink, our award-winning connected car system.

It’s all backed by America’s Best Warranty. The hybrid-related components are covered for 10 years or 100,000 miles with a lifetime hybrid battery warranty – no other car in its class matches that.

Fast, Powerful Charging
With various charging plug-in hybrids lack the power to charge the high capacity of very similar hybrid models. It takes less than 5 hours to recharge when you play it a little more charging. With beach mode, which means they can travel only short charging your Sonata Plug-in hybrid for the next 100 miles. This is what we have learned from the 2017 Sonata Hybrid.

Blue Drive
With a hybrid system, it means a separate electric motor and an engine for each. The Sonata Hybrid features a 2.4-liter 137-horsepower gasoline engine that powers the front wheels. The electric motor powers the rear wheel and the electronics improve fuel efficiency and performance. It’s all related to the surroundings variable requirements used in some competing hybrid models.

Smoother Riding
Thesonata hybrid’s suspension system uses a separate electric motor and an engine for each. The Sonata Hybrid features a 2.4-liter 137-horsepower gasoline engine that powers the front wheels. The electric motor powers the rear wheel and the electronics improve fuel efficiency and performance. It’s all related to the surroundings variable requirements used in some competing hybrid models.
