2020 Hyundai FULL LINE
The relentless search for better leads here.

At Hyundai, we're motivated by the same thing you are: Better. It's our belief that no matter how much we've achieved, there are better ideas still to be discovered. So we press on, relentlessly searching for innovative ways to exceed your highest expectations.

The 2020 Hyundai model line is our most advanced yet, with additions like the Front-axle Navigation Package that offers the comfort and convenience of a spacious 8 passenger SVP and an all-new Sonata, which raises the bar for middle luxury styling and safety in dramatic fashion. Working to minimize your carbon footprint, our choice of alternative fuel vehicles is wider for 2020 than ever, highlighted by the hydrogen-powered Nexo, a variety of highly acclaimed hybrid models and the Santa Fe Hybrid – which picks up where last year's model left off after being named 2019 North American Utility of the Year™.

No matter which 2020 Hyundai you choose, you'll be better prepared thanks to Hyundai SmartSense, our suite of cutting-edge safety and convenience technologies that peace of mind and the value added every one of our vehicles with America's Best Warranty.

Every Hyundai also features BlueLink, our award-winning technology that features a seamless digital connection between you and your car. It's an wonder Hyundai has been the automotive brand review ratings customer service rate 5 for consecutive years and is among the Top 3 Brands in the J.D. Power 2019 U.S. Initial Quality Study for the second year in a row.

J.D. POWER

Hands-free among the Top 3 Brands in the J.D. Power
2019 U.S. Initial Quality Study (5 Years in a Brand)
SmartSense has your back. And front. And sides.

Dramatic advances in intelligent sensors, radar and camera technologies have given Hyundai engineers new and effective means for alerting drivers to potential hazards. Those advances now enable Hyundai vehicles to automatically engage braking and steering as a means of helping drivers avoid collisions.

Hyundai SmartSense, our array of advanced technologies designed to help protect you from every angle, includes features like Forward Collision-Avoidance Assist and Rear Cross-Traffic Collision Warning to help you safely back out of parking spaces. As you drive down the road, Forward Collision-Avoidance Assist, Blind-Spot Collision Warning and Lane Keeping Assist help you maneuver through traffic, with confidence. At the end of your journey, an award-winning innovation called Safe Exit Assist helps prevent passengers from egressing a door into other vehicles approaching alongside your parked Hyundai.

Given the superior safety technologies engineered into every Hyundai, it’s no surprise that 12 different Hyundai models are equipped with front crash prevention and specific headlights earned an IIHS 2019 Top Safety Pick or Top Safety Pick Plus rating.

SmartSense Rear View Monitor

Lane Keeping Assist

Rear Cross-Traffic Collision-Avoidance Assist

Blind-Spot Collision Warning

Safe Exit Assist

Low/High Beam Assist

Smart Cruise Control with Stop & Go

Lane Keeping Assist

If a forward vehicle were to enter your path, emergency braking is automatically applied to help avoid or reduce the severity of a collision.

Blind-Spot Collision Warning

Alerts you with a warning whenever a vehicle is detected in your blind spot before you change lanes and enables you to make a safer lane change.

Rear Cross-Traffic Collision-Avoidance Assist

The feature warns you of vehicles approaching from the side when you’re backing out of a parking space, is mounted near your rearview mirror, and applies braking automatically to help avoid collisions.

Safe Exit Assist

When your vehicle is safely parked on a busy street, this pioneering innovation warns occupants planning to exit rear doors approaching from behind. When Child Lock is on, Safe Exit Assist prevents the rear doors from opening if a vehicle is approaching from behind.

Low/High Beam Assist

Low Beam Assist illuminates the headlights and assists the driver to see better at night. High Beam Assist switches off automatically when it senses oncoming vehicles.

Smart Cruise Control with Stop & Go

When a vehicle in front of you is detected to be slowing, Smart Cruise Control automatically reduces your speed. It can even come to a complete stop and remain stopped automatically when equipped with Stop & Go functionality.
Your plans for the future just got bigger. And better.

Introducing the all-new Hyundai Palisade — a spacious 3-row SUV that’s big on room with a choice of 7 or 8 passenger seating. Up front, the Imagine mood seats come fully-loaded. A 10-inch sliding 2nd row makes it easy to access Palisade’s 3rd row, when power flipping and reclining seats quickly make room for cargo. Seven USB outlets and available wireless device charging give power to your people, while a conversation mirror and available Silent Talk Ouilite system makes it easy for the captain to speak from the 3rd row. There’s even a heated steering wheel that allows the rear speakers, that you can’t wait to see how that works for your family.

Palisade is big on fuel efficiency, thanks to a 3.8L Atkinson Cycle V6 engine with up to 291 HP and an EPA-estimated 26 MPG highway rating for front-wheel-drive models.1 With available 4WD and a 2.5-ton towing capacity of up to 6,000 pounds and up to 46.4 cubic feet of cargo space, it’s also big on making things happen. Palisade is big on comfort and convenience, too, with available premium features like 3rd row captain’s chairs, a dual sunroof and the award-winning connectivity of Hyundai Blue Link.1,3 All ahead, start making plans — the bigger, the better.

Wider Open Possibilities

Explore front head room, rear legroom, and more overhead space that’s available with an available height-adjustable headliner.3

Front passenger seating

Windshield washer fluid cap

A/C climate control
Here's to epic road trips.

When on the road with everything you know you want – from spacious passenger room and versatile cargo capacity to premium connectivity, convenience and safety features – see the latest smart technologies.

Take a close look at the Hyundai Santa Fe. Available in FWD or AWD, the Hyundai Santa Fe delivers responsive handling and an array of innovative features like Blind Spot Collision-Avoidance Assist® and High Beam Assist. Safety features an array of advanced safety technologies like Blind Spot Collision-Avoidance Assist® and High Beam Assist. Whether you're running errands or on a weekend road trip, the Santa Fe offers the peace of mind you need to enjoy your ride.

Santa Fe with SHCD display

TUCSON

Smart, Modern. Athletic.

A creation of Hyundai's European Design Centre, the Tucson's compact exterior dimensions enable agile, manuever through urban congestion. Whether you need to access the spacious cargo area, Tucson offers you the segment's first truly automatic smart liftgate. Every Tucson, even the base SE model, also comes standard with smart space tech like Forward Collision-Avoidance Assist and Driver Attention Warning.

We know how connected you are to your smartphone. So we made sure that Apple CarPlay® and Android Auto® come standard on Tucson. Available wireless device charging makes it simple to keep your compatible smartphone charged while available rear USB charging gives your backseated crew easy access to power, too.

Tucson Ultimate with 8" infotainment display
Will our prized possession be yours, too?

From all Kona earns so many accolades, including 2019 North American Utility Vehicle of the Year™ and a 2019 Text of the Year Award. It’s a great small car for the way you live. Kona’s stylish exterior is colorful and compact, making it easy to maneuver through traffic or parking spaces. The enhanced traction of available All-Wheel Drive adds to your enjoyment and feeling of confidence.

Inside, Kona looks and feels like a luxury SUV with advanced features like a segment-exclusive wireless charging pad. Large 7” color LCD touchscreen display stand out with Apple CarPlay™ and Android Auto™ for easy access to your favorite smartphone apps. Kona also offers an optional suite of advanced safety technologies – one reason it’s earned the industry’s highest safety ratings.

KONA Electric

Live large. But leave a small footprint.

Looking for a versatile zero-emissions SUV that makes a great big world of efficiencies possible? Kona Electric is easy to maneuver around town, with an EPA-estimated 2019 combined (MPGe) rating of 126 MPGe that goes very long distances. The 186-mile range is equipped with NCSA among all electric vehicles.

Spotting one of the largest incentives in its class? Kona Electric welcomes you with large door openings, a modern cabin design and 17.2 cubic feet of cargo space behind the rear seats. The Ultimate model is 10.2” touchscreen display in your control center for checking the battery charge or taking the right path. Premier radio system with features is a 7” touch screen navigation system complete with subscription-free traffic flow and instant data and doubles as a Rear View Monitor with Parking Guidance for added safety while backing into or out of tight spaces.
VENUE

Fun for the urban adventurer.

Introducing the first-ever Hyundai Venue, an urban utility vehicle with a larger-than-life personality—and style to match. Perfectly suited for city living, its fresh design is loaded with modern, highly versatile features that accommodate busy workdays and pleasure-packed weekends.

Check your wish list against Venue’s Merriweather sticker: There’s an 8” touchscreen display with Apple CarPlay™ and Android Auto™, available 80AWD, and LED front lights. Plus available features like a power sunroof, strong 17” alloy wheels and Blue Link® “convenience car intelligence” that seamlessly integrates with Amazon Alexa® and Thundersky® for remote starting and climate control access. Hyundai SmartSense™ is also on board, protecting you at every turn with a suite of sophisticated safety technologies.

ACCENT

It’s the perfect fit for all of your dreams.

Accent is the perfect size for whatever your life reveals. With its cascading chrome grille, unavoidable headlamps and available 17” alloy wheels, Accent has the looks of a premium sedan. Yet it’s agile in traffic, easy to park and doesn’t guzzle gas—check out that EPA estimated 41 MPG highway rating.

Stop inside, and you’re welcomed by a modern-touch infotainment that feels surprisingly roomy and refined. Accent is also born ready with available Hyundai Blue Link®, Apple CarPlay™ and Android Auto™ features that turn your smartphone into a powerful point of contact with your vehicle. All of this in a car that’s affordable, too. Now that’s called living the dream.
The laws of attraction were just rewritten.

To make the new 2020 Sonata, Hyundai designers transformed everyday properties and box work into a lower profile and wider stance that captures the synonymous sportiness of a 4-door sedan.

Now push-button gear selection offers seamless access to Sonata’s 8-speed transmission, which is powered by a choice of two new Smartstream engines. Sonata hyundai uses efficient powertrain features like Active Shift Control, which reduces shift times while improving both acceleration and fuel efficiency.

The 2020 Hyundai Sonata is a fully transformed vehicle packed with an array of innovations that expand comfort, convenience and active safety. Available personal driver technologies include a 7-inch or 10.25-inch digital instrument cluster which is customizable to suit different driving modes and preferences. Now that’s beautiful smart.

Remote Smart Parking Assist

The 2020 Sonata is the first Hyundai sedan to come equipped with Remote Smart Parking Assist, allowing you to control your car using your smartphone and automatically park your vehicle, whether you are inside or outside of your car.

Technology to the rescue.

Unique hidden Lighting Lamps dynamically illuminate Sonata’s Dual LED Eyes when tail lights of the technology-packed interior reader. Sonata is the first car in its class with an available Digital Key – your smartphone can unlock Sonata doors and start its engine. It’s also first Hyundai to feature a collaboration with Bose® that puts every passenger in the center of a rich, surround sound experience. Blue Link®“ achievement allows to check fuel levels, routinely start the engine and heat or cool your seats using your phone. And the 2020 Sonata Hybrid 1.6T is the first vehicle to use Hyundai’s solar panel roof, which helps recharge the vehicle’s battery.

Remote Start with Solar Roof

Wireless Device Charging

Blue Link® Smart Mirror

2019 Hyundai Sonata Awards

2019 Hyundai Sonata was rated 5 out of 5 stars overall in the National Highway Traffic Safety Administration’s New Car Assessment Program with optional Advanced Driver Assistance and LED Headlights.“
The power of choice.

Hyundai created the IONIQ to be the world’s first vehicle offered with a choice of three electrified powertrains: Hybrid, Plug-in Hybrid and Electric. From its inception, IONIQ was designed around the unique engineering of electric vehicles, how comes the new 2020 IONIQ, redesigned inside and out to enhance the stylish and eco-friendly performance that’s ideal for today’s green-minded consumer.

IONIQ’s new lights your path with available LED headlights, halogen headlights and Daytime Running Lights. Inside, your path is vividly shown on an available high-resolution 10.25” touchscreen navigation display. Critical driving information, including your range and battery charge, is displayed on IONIQ’s available Dual Info Display.

The groundbreaking design extends to comfort, padded nappa seating, available on Hybrid and Electric, and IONIQ’s steering wheel that allows you to increase the amount of information that is displayed. With IONIQ, you get all the advantages of an advanced hybrid packed into a sporty compact. IONIQ has been named the world’s first 12-volt battery incorporated with the car’s powerful hybrid battery pack. Our battery stored after loading the lights with their battery, and the ethylene-vinyl-polymer battery system delivers an automatic心灵.

Green is blue.

Our Blue Drive® technology radically reduces pollution while delivering exceptional driving performance and mileage. IONIQ Hybrid Blue is rated for an efficient 56-mpg city/47-mpg highway fuel economy. Non-plug-in Hybrid in America — even excluding the IONIQ Electric — the IONIQ Plug-in Hybrid features an estimated 33-mile total driving range, while IONIQ Electric’s higher output battery system for 2020 enables IONIQ Electric’s 190-mile All-Electric Range (an increase of 46 miles over last year).1

With long, efficiency doesn’t mean austere. Each is filled with comfort, convenience and advanced safety features that will find new ways, along with the latest innovations for keeping you connected to your digital life on the road.

The most refined and advanced Elantra ever.

Elantra raises the standard for what you can expect from a compact sedan. We made Elantra one of the quietest cars in its class, and one of the roomiest, too – its spacious interior glad the needs inside some model vehicles. A tight handling radius makes urban maneuvers easier, while Elantra SE’s estimated 460-mile driving range makes for a smoother journey.

Elantra gives you a choice of three engines for powering through your day. SE in Elantra Sport, and a double-bolted driver’s seat, flat-bottomed steering wheel and alloy pedals invite you to enjoy the performance. Every Elantra includes SmartSense safety features like forward collision avoidance, automatic emergency braking, lane keeping assist, and more, as standard.

The new Elantra GT N Line is a driver’s dream. Step inside, and you’ll find a leather-wrapped steering wheel, leather sport seats with contrast stitching, a straining 8” touchscreen audio display. And available options like class-exclusive ventilated front seats, wireless device charging, and more. A 2.0L turbo engine turns up the heat on hilly mountain roads.

Elantra GT turns up the engine, too. Open the hatch, fold down the rear seats, and you’ve got easy-loading room that rivals many compact SUVs for cargo space. Together with an available panoramic sunroof that fills all of that space with fresh air, it’s a modern GT design that steers effortlessly from the back lane to the concert venue and cafe.

VELOSTER

Blend out.

With its asymmetrical three-door design, Veloster appeals to drivers wanting to stand apart. Not blend in. Yet they stand together too, unified by a shared price in each of a car whose visual appeal, pecked rear fascia, rear air diffuser, rear wheel arches and center exhaust clearly separates it from the pack of cookie-cutter designs.

Veloster is all about connecting you directly to both the road below and your digital world above. The sure grip of a multi-link rear suspension, and hood, is the link between you with confidence and stability. Connectivity and entertainment offered to you through your smartphone to keep a tight grip on your life, both inside Veloster and out.

The available 8" touchscreen display is equipped on mostVeloster models with the Hyundai Premium Audio System. Get going! With its wide-opening hatch and 40/60 rear seat ruled down, Veloster becomes its own interpretation of a compact sport utility vehicle.

VELOSTER N

You can’t spell performance without N.

It’s named after Namsang, our global R&D facility where ideas like the N Corner Carving Differential were born. N is also for Nürburgring, the epic track where features like an Electronically Controlled Suspension were refined. This Ntrimmed Veloster N is flush with engineering proven in the FIA World Rally Championship and Tuning Car Racing. N looks, sounds and reacts like it was born in the heat of battle.

A two-stage rear spoiler, large, nearly dual exhaust tips and deeply browned front fascia are the high-performance powerplant beneath Veloster N’s hood. Available with a 2.0L Turbocharged 310-hp 600+ weight and net rating in four Manual Transmission – plus a restricted body, suspension and brakes to handle the added power – Veloster N is the tip of our high-performance spear.

Hydrogen-powered.
Zero emissions. Tons of fun.

With an EPA-estimated range of up to 380 miles from five liters of less than filling the fuel tank, the five-passenger Hyundai Nexo crossover SUV is a new benchmark for alternative fuel vehicles. Nexo uses hydrogen fuel and oxygen from the ambient air to create the electricity powering its 141-horsepower electric motor. The only emissions? A few droplets of water.

Press the accelerator pedal, and Nexo responds with a surge of torque—proving that fuel cell technology can have a thrilling punch. Even when it’s idling, Nexo glows with next-generation technologies like the brake-by-wire system that can save energy for later use or even drive the car (as in the parking garage).

Nexo offers the remote keyless function of another Hyundai innovation: Blue Link. Using your Blue Link app on your smartphone or smartwatch, or your Amazon Echo or Google Home device, you can remotely lock or unlock your Nexo’s doors, start the engine and activate the climate controls from the comfort of your kitchen, couch or office.

Behind the rear seats, you’ve plenty of space to load up your life thanks to a cargo volume that almost doubles the Toyota Mirai®. A McDonald’s, any color, with passenger rear and rear legroom also includes innovations like a 7-inch display touchscreen and a 7-in. navigation touchscreen display. There’s also a wireless charging pad—like Nexo itself, P1 quickly recharge your compatible devices to keep you on the move.

Krell, yes.

Krell is the first Hyundai in the U.S. to offer award-winning Krell® premium audio. The collaboration with Krell, one of America’s most technologically advanced audio engineering firms, means Hyundai has developed what audiophiles refer to as a “perfect sound reproduction inside their vehicle. With an all-digital amplifier as its centerpiece, Nexo’s Krell audio system adds the depth of an 8” subwoofer and 12-bit Digital sound algorithm technology that ensures the sound is better than in compressed music files. Add the convenience of Apple CarPlay® or Android Auto™ and you’ve filled plenty to enjoy on all those read trips made possible by a driving range of up to 380 miles.

Welcome to a higher form of intelligence.

With Hyundai Smart Parking Assist, your Hyundai can park or retrieve itself from parallel or perpendicular parking spaces—with or without a driver in the vehicle. This feature even allows you to park your vehicle into a parking spot with a touch of a button.

Head-up-the-limiter: Hyundai is the first automaker to provide drivers with blind spot warning messages from both sides of the vehicle while changing lanes with the turn signal on. A guide view of the adjacent lane is projected on your vehicle’s rearview mirror panel display.

Eco Monitor: The Nexo’s interior is another example of the brand’s innovation. Hyundai is bringing to market electricawn designs. The meter display also offers additional information that typically is a automotive interior. The dashboard is so sleek, smooth and clean that Hyundai is confident its market are satisfied with electronics and service all.

EPA-estimated range: The Nexo (electric vehicle) Nexo will offer the fuel efficiency in its electric mode. With a range from up to 380 miles, Nexo offers a non-combustion zone which has a certified hospital water treatment environment.
Million Mile Hyundai
Quality measured in miles. And smiles.

In going the extra mile of trying to be better, we’ve reached some remarkable milestones. Our latest & 2016 Hyundai Elantra was our 100,000th to reach 1 million miles, after just 5 years of driving. And it still had its original engine and transmission. Not every Hyundai owner’s journey is likely to last a million miles — but with our royal treatment, don’t be surprised if this is the beginning of a long-term relationship.

Extreme Engineering
Our proving grounds? The entire planet.

To put our vehicles to the ultimate test, Hyundai travels to the ends of the Earth in search of the world’s most extreme climate challenges. The 3,400°F (1,870°C) test car proofed here won the 2016极端温度挑战。It was driven by an example in Spain that’s certified by the FIA (the world’s premier motorsport organization), a modified H1N1 virus. Even a test run on the world’s “most inhospitable road” on Mount Everest reached 340,000 ft. And then there’s our excursion to Antarctica, where a lightly modified Hyundai Santa Fe crossed the Antarctic and back — 360 miles west over the South Pole that completed an expedition assisted by St. Gerard’s Station in 1910. Now there’s proof positive.
Save time. And shop with confidence.

Now you can spend less time buying your car — and more time behind the wheel. It starts with a flexible 30-day trial that lets you schedule test drives on your terms, or on your time. With Transparent Pricing and Streamlined Purchase, you’ll feel more confident knowing the exact price, payment and loan approval. And because we want to make sure you’re completely satisfied, we’ve created a 3-Day Worry-Free Exchange.

Spend less time at the dealership and never pay a dealer markup ever again. Get pre-approved online or call your local dealership for details.

3-Day Worry-Free Exchange

Are we sure? Since new isn’t always what you need, we want you to be happy. So your test drive vehicle is covered with a 3-Day Worry-Free Exchange. If you don’t like it, return it within 3 days and get your test drive fee back. See dealer for complete details.
Hope makes every Hyundai better.
Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels®
to help find a cure for childhood cancer. Over the last 21 years, Hyundai
Hope On Wheels has donated more than $160 million. Hope is our
greatest feature. And it comes standard on every Hyundai. For more
information, please visit HyundaiHopeOnWheels.org.
