2020 Hyundai IONIQ
With so many alternatives, which is the best for you?

Just a few years ago, "going green" required you to limit your choices to small cars that lacked comfort and style. Then, Hyundai changed the rules with its - a line of truly compelling alternative fuel vehicles that are every bit as stylish as they are innovative and green.

Which is the best for you? For the way you drive, and the way you live! With its hybrid, plug-in hybrid and fully electric powertrains, let you choose the efficiency you want - and the engaging performance you need - for a remarkable fun driving experience. After all, what's more fun than driving past all those gas stations?

No matter which model of power you choose, your sense of style is never compromised. Inside and out, the design details of the 2020 is so refined for a look that's light years ahead of those old-looking EVs. Outside, a aerodynamic silhouette has been enhanced with a new front grille, redesigned wheels and redesigned LED tail lights and headlights.

Stop inside, and the upscale treatment is even more evident. Check out the stunning new dash and center console designs, which feature a new digital instrument cluster display and the modern touch-tone climate controls. To take full advantage of standard Apple CarPlay® and Android Auto® compatibility, the 2020 has been equipped with an 8" high-resolution touchscreen audio display or an available 10.25" high-resolution navigation display.

Every trim is also available with Blue Link® our award-winning technology that forms a seamless digital connection between you and your car. It's way to wonder Hyundai has been the automotive brand ranked #1 in customer loyalty for the consecutive year! and is among the Top 3 Brands in the J.D. Power 2020 U.S. Initial Quality Study for the second year in a row!
Blue has never been more green.

The future isn’t far off, folks. It’s created from the choices each of us make every day. So when Hyundai created IONIQ, we designed it to be the world’s first model to offer the choice of three electrified powertrains—hybrid, plug-in hybrid, and electric.

Our Blue Drive™ technology radically reduces pollution while delivering exceptional driving performance and mileage. Using Hybrid Blue is the most fuel-efficient non-stop-to-the-car-in-a-drawer—even eclipsing the Toyota Prius’离子Plug-in Hybrid features an estimated 60-mile electric driving range, while the 2020 IONIQ Electric’s highest-output battery system achieves the Nissan LEAF with an estimated 120-mile range (an increase of 44 miles over last year).

The new larger battery’s upgraded electric motor is more powerful, too, with 126 HP and 215 lb-ft of torque delivering near-harmonious motion when accelerating from a stop. The larger battery also offers a geared range that adjusts steering, shifting and shifting responsiveness for a more dynamic level of performance. Indeed, IONIQ Electric’s 60-kWh battery recharge quickly using a 3.3-kW charger in DC Fast Charge mode, or can recharge to 80 percent in just under an hour. Regenerative braking increases your driving range—every time you brake, that energy is captured and used to recharge the battery. There’s no stopping you now.

Blue has never been more green.
Hospitality this sweet is meant to be shared.

If you’ve been shopping for an economical alternative fuel vehicle, you’re probably noticing something missing: Passenger room. That’s where the Hyundai Ioniq excels—its interior room is more than Toyota Prius, Chevrolet Volt and Nissan LEAF! After all, we imagined that Hyundai’s innovative technology and modern design would be things you’d want to share.

Heated front seats, dual automatic temperature controls and available sunroof like a power sunroof, a witness window and rear seat air vents reflect a cabin that’s simply engineered for comfort and convenience. With just looks, side spotlights key controls on the steering wheel, push start button; high-resolution infotainment display that serves as your own personal, touch-screen remote. Harman Kardon® and Android Auto™, the interactive display delivers real-time traffic flow and incident data without requiring a subscription fee.

The peace and quiet you’ll enjoy on the road is the result of turbulence-reducing features like trim air curtains, integrated near speaker and, on liquid-cooled, active grille shutters. Ready to fill the silence with your soundtrack? An available 8 speaker Harman Kardon® Premium Audio System includes a center channel subwoofer and DRS™ Music Association Technology that rotates compressed audio files to the left, right, and rear of the live performance.

When you begin to drive, rest be sure to own your hands across the wheel. That soft touch you feel is the result of an innovative process Hyundai patented that recreates luxurious surfaces from bio-materials like recycled plastics, powdered wood, volcanic stone and sugarcane fibers—now sweet is that?
The safety of Hyundai SmartSense is now even smarter.

Introducing all-new Debbie saying smarter ways to get around. Drive Hyundai SmartSense, our comprehensive suite of advanced safety technologies for 2020, plus features like Driver Attention Warning, Forward Collision-Avoidance Assist, Rear Cross-Traffic Collision-Avoidance Assist, Blind-Spot Collision-Avoidance Assist, and Smart Cruise Control, with Stop & Go. These SmartSense safety systems can help you avoid accidents from all angles, front, sides, and rear.

Another reassuring fact: 2020 Hyundai models are equipped with more safety innovations than the 2019 model year. In July 2019, that both earned 2019 Top Safety Pick awards with 5-star crash ratings and available Advanced Emergency Braking and LED headlights.

SmartSense Safety Features

- Highway Driving Assist
- Blind-Spot Collision-Avoidance Assist
- Forward Collision-Avoidance Assist
- Rear Cross-Traffic Collision-Avoidance Assist
- Lane Following Assist

Safety Features

- When using High-beam Assist, a new feature called Highway Driving Assist automatically helps to keep you centered in your lane and steering a safe distance from other vehicles. It also automatically adjusts high-beam to reduce glare to other drivers. (See page 14.)
It’s time you felt a truly special connection with your car.

We know how connected you are to your smartphone. Which is why every new model comes with Apple CarPlay® and Android Auto™ standard. You can use your phone’s large color display or voice commands to access your phone’s maps and navigation, control radio, phone, and music playlists and more.

With Hyundai’s Blue Link® connected car features, your smartphone becomes a remote control for unlocking and starting your lawn before walking out the door! With your Amazon Echo® or Google Home™ device, you can also use voice commands to set your car’s cabin temperature, check the comfort of your coach or kitchen. Battery Charge Management™ enables smart Electric and Plug-In Hybrid owners to set charge schedules, check the status of a charge, turn on the climate controls and defrost and more.

Blue Link Quartz lets you search for addresses and points of interest on your smartphone and download driving directions to your navigation system before stepping behind the wheel! That’s Blue Link Connected Care. Like all Blue Link packages, it’s completely free for your first three years and offers several levels of trial if you’re not satisfied and the trial expires without successful completion of a task, the account may automatically rollover to the free plan in a heartbeat. You can also push the SOS Button on your smart key for emergency assistance or decide if you need help.

Your Blue Link app can even help law enforcement recover your vehicle if it’s ever stolen. Visit hyundai.com/care for more information on the complete list of innovative features Blue Link puts at your fingertips.

Apple CarPlay®

Wireless device charging

Automatic Emergency Assistance
Blue Link connected care offers SOS and Blue Light Emergency Response Service (BLERS). Before you even hit the road, Blue Light Emergency Response Service (BLERS) is on call to respond to any emergency.

On-Demand Diagnostics
Our remote diagnostics can help identify potential issues before they start. Just let us know if you need assistance and our team will remotely send a diagnostic to your vehicle.

Vehicle Charging Overview
Need a charge station? Our charge stations are located across the country and are open to the public. Get directions to the nearest charge station.

Remote Control
Just say your呼唤 (Korean) or mobile device to remotely lock your door, check your fuel level, and more.

Service Link
Connected care helps simplify your Hyundai service experience. Get directions to a nearby service center or schedule a service appointment.

Car Finder
Our Car Finder feature can help locate your vehicle if you ever forget where you parked. Without a connection fee, get directions to your vehicle.

Standard — No Exterior
Hope makes every Hyundai better.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 21 years, Hyundai Hope On Wheels has donated more than $160 million. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.

Our commitment to Hyundai owners doesn’t end with the transfer of keys. Wherever the road takes you, we’ve got your back with Hyundai Assurance, an umbrella of services and benefits that includes America’s Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

Fuel economy estimated by EPA for comparison only. Mileage may vary. While the information contained in this brochure was correct at the time of printing, specifications and equipment can change. Feature comparisons based on competitor information available at the time of printing. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer for current vehicle specifications. As part of Hyundai’s commitment to a responsible environment, this brochure was printed using paper certified by the Forest Stewardship Council®.
