Its zero carbon footprint makes quite an impression.

With an EPA-estimated range of up to 300 miles from five minutes of refueling, the five-passenger Hyundai NEXO crossover SUV sets a new benchmark for affordable fuel vehicles. NEXO uses hydrogen fuel and oxygen from the ambient air to create the electricity powering its 151-hp electric motor. The only emissions? A few drops of water.

Press the accelerator pedal, and your NEXO responds in surprising fashion with a powerful thrust of torque. Without the noise of a gas engine, it’s also remarkably quiet. To help keep you centered in your lane of traffic, Lane Following Assist—one of an array of Hybrid Smart Protection technologies onboard—automatically nudges a blind with subtle steering corrections. Need to change lanes? NEXO Limited’s Blind Spot View Monitor displays wide-angle views of rear-if-lit objects on the instrument cluster, allowing you to see more than you would with the human driver’s rearview.

Even when it’s obvious, NEXO delights with next-generation technologies. The Remote Smart Parking Assist, which can search for—and help drive into or out of—a parking space remotely. You’ll also have a choice of how you get around: NEXO Blue or NEXO Silver.

High-strength steel on the outside. A higher form of intelligence on the inside.

NIXO’s main body is wrapped around a structure formed using advanced high-strength steel. In the event of a collision, the structure’s strength helps preserve the integrity of your passenger area. Frontal, side, curtain, knee, and pedestrian airbags; a backup camera; and a 360-degree camera system provide the best possible safety. The carpet and trim are made from sustainable materials; and the interior lighting is designed to enhance your comfort.

Because the interior doesn’t need to make room for large electric vehicle battery packs, NIXO also features generous amounts of front and rear legroom. Behind the rear seats, you’ll have plenty of space to load up your luggage. NIXO has almost double the cargo volume of Toyota’s Mirai. After all, you’ll enjoy the comfort of an electric power drived seat with power window and 4-way power mirrors (both heated), automatic temperature controls, and available features like the ventilated front seats and a mild power lift and slide narrow.

NIXO comes standard with a navigation system displayed on one of the largest screens offered in any type of vehicle—a 12.7” touchscreen display typically reserved for expensive European luxury models (like the Porsche Panamera, BMW 7 Series, and Lexus LC). By comparison, Toyota’s Mirai comes with a 7” touchscreen, and Honda’s Clarity FCV comes with an 8” touchscreen.

NIXO Limited is also the first Hyundai to offer an 8-channel premium audio system. With an 8-channel amplifier as its core, it includes the deep bass of an 8” subwoofer and uses Dynamic sound algorithm technologies that enhance the fullness but in compressed digital music, you’ll find plenty to enjoy on long road trips made possible by an estimated driving range of up to 580 miles.
With Hyundai Blue Link, you’ll make all the smart moves.

Hyundai’s Blue Link® connected car technology transforms your NEXO into an extension of your highly connected life. It starts with Blue Link Connected Care. Complimentary for your first 3 years, it offers exceptional peace of mind with 24/7 access to Enhanced Roadside Assistance, SOS Emergency Assistance, Monthly Vehicle Health reports and more.

If you’re like most Hyundai owners, the Blue Link feature you’ll use most is Remote Access. Using the MyHyundai app on your smartphone or smartphone, on your Apple iOS® or Google™* device, you can remotely start your NEXO and activate the climate controls, unlock the doors or locate your vehicle in a crowded parking lot.

Before entering your car, Blue Link Guidance lets you use your smartphone to search, download and send addresses and points of interest — even the location of nearby hydrogen fueling stations — directly to your NEXO’s navigation system.

Automatic Emergency Assistance

Blue Link® Connected Car offers 24/7 SOS Emergency Assistance and Emergency Call Notification that calls for help if it’s in an area it’s an accident or vehicle break-in.

On-Demand Diagnostics

Blue Link® allows you to remotely check your fuel level and real-time range, and helps locate hydrogen fueling stations when it’s time to refuel.

Hydrogen Fuel Cell

NEXO Blue

291 hp 95 kW fuel cell and 40 kW (1.56 kWh) lithium-ion polymer battery

Zero-emission hydrogen fuel cell powertrain

Blue Link for NEXO lets you check your fuel

level and real-time range, and helps locate hydrogen fueling stations when it’s time to refuel.
Hope makes every Hyundai better.
Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 21 years, Hyundai Hope On Wheels has donated more than $160 million. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.
