Here’s to epic road trips.

They can be short or long. Across the city, or halfway across the country. You can travel solo, or take your tribe on a family adventure. To qualify as epic, a road trip just has to be one thing: Yours.

The question is, who makes the right SUV for your journeys? Who offers everything you want – from spacious passenger room and versatile cargo space to premium connectivity, convenience and safety features that use the latest smart technologies? Who gives you all of that – with a stylish flair that elevates your sense of wanderlust?

Take a close look at the Hyundai Santa Fe, inside and out. That’s what a panel of international designers did before honoring Santa Fe with a prestigious 2018 Silver International Design Excellence Award (IDEA). In the smallest of design details, you’ll see the extra care Hyundai takes to make Santa Fe an SUV that welcomes you and your passengers to settle in. Relax. Feel at home – no matter how far from home you are.

In fact, Hyundai engineers took an epic road trip of their own, literally traveling to the end of the earth to help create a better SUV. A lightly modified Santa Fe became the first vehicle ever to cross Antarctica and reach the South Pole.

That’s how far we’ll go to follow our belief in better. To ensure you’re better connected, and better protected – including backing every Hyundai with America’s Best Warranty. Now that you know all of this, is it any surprise that Hyundai has been the automotive brand ranked No. 1 in customer loyalty for 10 consecutive years?1

Hyundai Santa Fe
Highest-Ranked Midsize SUV
in Initial Quality and Dependability2

To live in the now, stay flexible.

We’re all given the same daily allotment of time. But you’ve discovered smarter ways to get done what you need—so you can start enjoying what you want. Enter Santa Fe. Its smart features and flexible seating let you make the most of every moment.

Those 60 precious hours between 6:00 pm Friday and 6:00 am Monday? Santa Fe’s spacious interior and flexible cargo capacity help you make the most of your weekend adventures.

Dinner reservations for five on a Friday night? Class-leading rear-seat legroom and amenities in all the right places ensure everyone onboard is never bored.

As the driver, Santa Fe offers you a choice of powerful engines, including a 2.0L GDI Turbo with up to 3,500 pounds of towing capacity. Power is transferred to the pavement through a smooth 8-speed automatic transmission with SHIFTRONIC® manual control.

A feature called Drive Mode Select is available for tailoring Santa Fe’s responsiveness to match your style of driving. A driver-selectable HTRAC All Wheel Drive option with downhill brake control offers sure-footed performance on steep descents, and Santa Fe Limited features a color Heads-up Display that projects turn-by-turn navigation and other driving vitals onto the windshield for line-of-sight convenience.

Easy-to-fold 60/40 rear seats create a cavernous 71.3 cu-ft cargo space that, together with an available height-adjustable hands-free smart liftgate, opens your weekend to endless possibilities. Now you’re ready for whatever comes your way.

...this is a solid-feeling crossover, mature, richly finished, and blanketed in interesting features that’ll make your life—your real life—easier!” — MotorTrend

1 Claim based on comparison of specifications on manufacturer websites. 2 The hands-free smart liftgate will open when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with normal operation. Not available on SE model. Please consult your Owner’s Manual for details. 3 MotorTrend, February 2018.
Design isn’t a style. It’s an experience.

How can you tell when an SUV is well-designed? Start by sitting yourself in whatever position you prefer – driver, front passenger or second row – and notice the things that add or subtract from your sense of ergonomics. Is what you need (whether it’s a button, a storage bin or a USB port) intuitively located and easy to reach? Do the dials you touch feel precise, and do all of the surfaces that surround you please your sense of aesthetics?

Keep exploring. Are the seat cushions wide and long, so they provide the thigh support critical to seat comfort? Santa Fe’s front seats are available leather-trimmed with the added luxuries of soothing heat and cooling ventilation. Then any power adjustment includes an extendable driver’s seat cushion and power lumbar support. And for your passengers in the second row, Santa Fe offers class-leading legroom, available heated seats at the two outboard positions, air conditioning vents and two USB ports for their electronics.

Now step and take a deep breath. The cabin air in Santa Fe is freshened by a Dual-Air Ionizer that’s part of the available dual automatic temperature control. When it’s time to fill the air with music, you’ll hear what’s on your playlist with perfect clarity thanks to an Infinity® Premium Audio system featuring 12 speakers in 10 acoustically precise locations. Clari-Fi™ Music Restoration Technology rebuilds details lost in digitally compressed music, while QuantumLogic® Surround extracts signals from the original recording and redistributes them into a multidimensional soundstage.

The result is a sparkling, fully detailed listening experience.

Santa Fe’s distinctive styling was honored with the prestigious 2018 GOOD DESIGN® Award from The Chicago Athenaeum Museum of Architecture and Design.
Looking for higher safety standards? Head to Santa Fe.

In the last five years, carmakers have introduced some truly revolutionary safety technologies. And while that’s welcome progress, we found a way to make things even better. Every Santa Fe model comes equipped with a suite of advanced safety features most other SUVs reserve for expensive option packages or higher trim levels.

Hyundai’s SmartSense technologies help protect you from all sides. Scanning the road ahead are Forward Collision-Avoidance Assist with Pedestrian Detection,1 Smart Cruise Control with Stop & Go and High Beam Assist. Monitoring your flanks are standard innovations like Lane Keeping Assist3 and available features like Blind-Spot Collision-Avoidance Assist,4 along with a class-exclusive Safe Exit Assist honored as one of AutoGuide’s 10 Best Vehicle and Technology Innovations for 2018.5 Behind you, a rearview camera and available Rear Cross-Traffic Collision-Avoidance Assist6 have your back.

Hyundai’s SmartSense technologies help you stay safe on the road.

SmartSense Safety Features:

1. Forward Collision-Avoidance Assist with Pedestrian Detection
2. Smart Cruise Control with Stop & Go
3. High Beam Assist
4. Lane Keeping Assist
5. Blind-Spot Collision-Avoidance Assist
6. Safe Exit Assist
7. Rear Cross-Traffic Collision-Avoidance Assist
8. Rear Occupant Alert
9. Lane Departure Warning

Given this standard of safety, it’s no surprise the Insurance Institute for Highway Safety rates Santa Fe as a 2019 Top Safety Pick+. In fact, Santa Fe is one of 11 Hyundai models to earn a 2019 Top Safety Pick or Top Safety Pick Plus rating.

2019 IIHS Top Safety Pick+ (Does not apply to Accent, Elantra GT, Ioniq Hybrid, Ioniq Plug-in Hybrid, Veloster and Tucson.)

2019 IIHS Top Safety Pick+ (Does not apply to Accent, Elantra GT, Ioniq Hybrid, Ioniq Plug-in Hybrid built after July 2018, Veloster built after August 2018, Tucson and Santa Fe XL.)
One good device deserves another.

We know how connected you are to your smartphone. So we made sure that connection extends to another highly intelligent device—your Santa Fe. With Hyundai Blue Link® and our MyHyundai app, your smartphone becomes a remote control capable of unlocking your Santa Fe and starting the engine before you walk out the door. You can also use voice commands with your Amazon Alexa® or Google Assistant™ to preset the cabin temperature in your Santa Fe from the comfort of your couch.

Blue Link Guidance lets you search, download, and navigate to addresses and points of interest using voice commands from the driver seat or your smartphone before entering your vehicle. And on every Santa Fe trim level, Apple CarPlay® and Android Auto™ come standard. Your smartphone syncs to Santa Fe’s large touchscreen display, allowing you to access your contact lists, texts, calls, maps and navigation, music library and more.

And then there’s Blue Link Connected Care. Complimentary for your first three years, it offers exceptional peace of mind. Wherever you may roam, trained operators are standing by to provide emergency roadside assistance in the event of an accident where airbags are deployed. Your Blue Link app can even help law enforcement recover your vehicle if it’s ever stolen. Visit hyundaibluelink.com for more information on the complete list of innovative features Blue Link puts at your fingertips.
### SANTA FE SE
