2011 HYUNDAI SONATA HYBRID
Hyundai wasn't the first automaker on the hybrid scene. But our engineers won't settle for second-best, either. The new 2011 Sonata Hybrid features state-of-the-art lithium-polymer batteries that are 25% lighter, 40% more compact and 12% more efficient than nickel-metal-hydride batteries used in hybrid versions of Toyota Camry and Ford Fusion. All packed into a sleek, wind-cheating design with a .25 drag coefficient that bests many sports cars.

Feeling juiced already? Wait, there's more. Our lithium-polymer battery also has a greater power density: It suffers less than 10 percent degradation of charge after 300,000 miles of testing. The battery pack's smaller size, coupled with its flat configuration, also makes it easier to cool and less likely to overheat. All of which translates into a car that operates on electric power more often – up to 62 mph on batteries alone – and for longer periods of time.

Beyond its innovative hybrid technologies, Sonata is also the first vehicle in its segment to offer heated rear seats and a panoramic sunroof. It's one of the first in its segment to integrate Bluetooth® hands-free phone as standard equipment. And it's one of the first with XM NavTraffic® and factory-installed HD Radio™ Technology with multicasting.3

Top it off with an equally impressive set of advanced safety features and America's Best Warranty4…and you've got a smart, stylish hybrid sedan that has CarandDriver.com raving, “…underdog Hyundai starts looking like the favorite.”5

"...THE SONATA HYBRID HAS A SURPRISINGLY ASSERTIVE LOOK ALL ITS OWN.”

Autoblog.com, July 2010
INTRODUCING A NEW STANDARD OF LUXURY: YOURS.

As you approach the driver’s door, Sonata Hybrid senses when you’re carrying its Proximity key and invites you in by unlocking the door at the press of a button on the door handle. Slip inside, and you’re surrounded by thoughtfully designed, eco-friendly components like the soy-based foam padding used for seat support. Audio, phone and cruise controls are exactly where your fingertips expect them to be on the steering wheel. A crisp 4.2-inch LCD display in the instrument cluster tracks the Hybrid’s vital signs and trip information like average fuel economy, range to empty and ECO indicator. Look to your right – an artfully styled console presents dual automatic climate controls and an AM/FM/XM®/CD/MP3 stereo that seamlessly integrates with audio peripherals like your iPod. In every sense, the new Sonata Hybrid is an ergonomic breath of fresh air.

THE GREAT WIDE OPEN
To drive a Sonata Hybrid is to be kind to your planet. Appreciate it all the more with an available panoramic sunroof.

KEEP IN TOUCH
An available navigation system includes a 7-inch high-resolution touchscreen that, in addition to turn-by-turn directions, integrates features such as a backup camera and a hybrid technology display.

HYBRID TECHNOLOGY DISPLAY
Visible on a 4.2-inch screen between the odometer and tach (or optional 7-inch navigation screen), the Hybrid Technology Display provides instant fuel economy feedback and acknowledges when your driving is eco-focused.

EVERY AMENITY, NEATLY INTEGRATED
Dual automatic temperature control, an Infinity audio system and Bluetooth® hands-free phone controls are all at your fingertips.

PLUSH SEATING
Taut, fine-grain leathers expertly fit to Sonata’s stylish contours highlight a variety of available luxurious options for your driving pleasure.

WARM RECEPTION
Available heated front and rear seat bottom cushions can take the chill off a cold morning—and may seem indispensable in colder climates.

FIRST-CLASS PAMPERING
Rear seat vents deliver air conditioning or heating to your pampered rear-seat passengers.

MAKING THE WORLD A LITTLE MORE GREEN.
WITH ENVY.

Rather than licensing existing technology, Hyundai engineers created a unique hybrid system for the 2011 Sonata. A parallel electric motor and fuel engine configuration allows the car to run on gasoline internal combustion, an electric motor, or both. A clutch separating the gasoline engine from the Blue Drive electric motor is attached to a fluid six-speed transmission. Put to the test, Sonata Hybrid can operate up to 62 mph on batteries alone.1 Combining gas and battery power delivers performance to the tune of 206 hp and 193 lb-ft of torque. Together with an advanced arsenal of safety features beneath the skin, it’s easy to understand why owners of competing hybrids are turning green with envy. And why Popular Mechanics responded: “With high-spec Sachs shocks and generous brake and tire sizing, the Sonata actually managed to evince a touch of sporty-hybrid panache.”2

1. Based on Hyundai internal estimates. Your actual mileage will vary with options, driving conditions, driving habits and vehicle’s condition. 2. popularmechanics.com/cars/reviews/hybrid-electric/2011-hyundai-sonata-hybrid-us-test-drive. 3. Electronic Stability Control (ESC) cannot control your vehicle’s stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner’s Manual for details.
2011 SONATA HYBRID LINE UP

STANDARD

Key Standard Equipment:
- 2.4L Atkinson Cycle 4-cylinder Hybrid engine
- Hybrid Starter Generator
- Permanent magnet high-power density motor
- 270V Lithium Polymer battery
- 6-speed automatic transmission
- Electronic Stability Control with Traction Control System
- ABS with Electronic Brake-force Distribution and Brake Assist
- Front active head restraints
- Front, front-seat side and curtain airbags
- 16-inch alloy wheels with unique finish
- Bodyside molding tinted chrome inserts
- Headlight LED accents
- LED tail lights
- Front fog lights
- Side mirror turn signal indicators
- Automatic light control
- Chrome exterior door handles
- Proximity entry key with push-button start
- Electroluminescent instrument cluster (Supervision)
- 4.2" TFT multi-function trip computer w/ hybrid technology display
- Dual automatic climate control
- Floor console mounted rear vents
- Power driver seat with lumbar support
- AM/FM/XM/CD/MP3 audio system
- iPod/USB and auxiliary input jacks
- Integrated Bluetooth® hands-free phone system with phonebook transfer

PREMIUM PACKAGE

Premium Package:
- Panoramic tilt-and-slide sunroof
- 17-inch alloy wheels
- Leather seating surfaces
- Heated front seats and rear seat bottom cushions
- Leather-wrappe steering wheel & shift knob
- Navigation system with high-resolution touchscreen display
- Rear backup camera
- 400-watt Infinity® audio system
- HD Radio™ Technology with multicasting
- Auto-dimming mirror with HomeLink® and compass
- Premium door sill plates

EXTERIOR COLOR CHOICES
- PORCELAIN WHITE PEARL
- HYPER SILVER METALLIC
- SILVER FROST METALLIC
- BLUE SKY METALLIC
- VENETIAN RED PEARL
- BLACK ONYX PEARL

INTERIOR COLOR CHOICES
- GRAY CLOTH
- CAMEL CLOTH
- GRAY LEATHER
- CAMEL LEATHER
