2016 HYUNDAI SONATA HYBRID

THE NEW SONATA HYBRID.
COMMON SENSE IS NOW MORE SENSUOUS THAN EVER.

Tell Hyundai engineers to find room for improvement, and you know what you’ll get? In the all-new, totally redesigned 2016 Sonata Hybrid, you get more room – more passenger room, and more cargo room. In fact, by redesigning the hybrid battery system packaging and moving it under the trunk floor, we’ve given the new Sonata Hybrid more total interior volume than any hybrid in its class.¹

You also get more fuel efficiency. Powered by a new 2.0L GDI hybrid engine, the 2016 Sonata Hybrid delivers an EPA-estimated 44 MPG on the highway.² And the improvements don’t stop there. Its regenerative braking system captures more electric charge than the previous model, and its steering and suspension systems are more dynamic. Its safety systems are more advanced, too, with available technologies like Blind Spot Detection, Forward Collision Warning, and more.

Now here’s where common sense gets sensuous. Sonata Hybrid’s sleek new exterior is a more sophisticated design – an expression of our Fluidic Sculpture accented by LED Daytime Running Lights, unique LED taillights and Eco-spoke alloy wheels. The aerodynamic benefits of a full underbody cover and active air flaps behind the front grille contribute to an industry-leading 0.24 drag coefficient that helps the car slip through the air (boosting Sonata Hybrid’s fuel efficiency even further).

Inside, the cabin is more luxurious, with standard dual automatic temperature control and available features like a heated steering wheel, ventilated front seats and heated front/rear seats. We even found room for improvement in America’s Best Warranty. The hybrid-related components of Sonata Hybrid are covered for 10 years or 100,000 miles with a lifetime hybrid battery warranty. No other car in its class can match that.

¹ Claim based on comparison of specifications on manufacturer websites. ² EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and vehicle’s condition.
The amount of room you enjoy as you slip behind the wheel of the new Sonata Hybrid is your first indication that this is no ordinary hybrid. The feeling you get as you push the engine’s start button and take it for a test-drive offers another revelation. As you accelerate, you’ll notice how natural it feels. That’s our 6-speed SHIFTRONIC® automatic transmission at work. It’s a more linear driving experience compared to the continuously variable transmissions used in some of our competitor’s hybrids.

Sonata Hybrid feels like a luxury sedan in other ways, too. Our engineers enhanced the steering and suspension systems with precision tuning that offers a responsive handling feel, along with the kind of tight turning diameter you’d expect from a sports sedan. At the same time, its Dual Flow Damper shock absorbers have been tuned to deliver the smooth, refined ride of a luxury sedan.

So is the all-new 2016 Sonata Hybrid a luxury sedan or a hybrid sedan? The answer is simply, yes.
1 Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. Do not rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD may not detect every object or vehicle and will not prevent accidents. See Owner’s Manual for further product details and limitations. Never rely exclusively on the Rear Cross-traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range, and clarity of the system. Vehicle MUST BE IN REVERSE AND HAS TO BE GOING 6 MPH OR LESS. For more, see Owner’s Manual. The Lane Departure Warning operates above approximately 44 mph and only when the lane markings are clearly visible on the road. It will not prevent loss of control. Refer to your owner’s Manual for more information. Forward Collision Warning is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles under certain conditions. The system does not provide a brake function. The driver is responsible for being attentive and maintaining control of the vehicle, and should not rely on the system’s alerts before braking as there may not be sufficient time to brake safely. All SiriusXM services require a subscription, sold separately by SiriusXM at a 3 month introductory subscription. Fees and taxes apply. All fees and programming are subject to change. For details, please call 1-866-635-2349. See our Customer Agreement for complete terms at siriusxm.com. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. Apple CarPlay works with iPhone 5s, iPhone 5c, iPhone 5 and later models running the latest version of iOS 7 and above. Apple is a registered trademark of Apple Inc. Android Auto works with smartphones enabled to run on Google’s Android 5.0 OS and above. Google, Android, and Android Auto are registered trademarks of Google Inc. Blue Link Connected Care includes 1 year of the Blue Link Connected Care Package and requires an active Blue Link subscription. One-year term starts from the new vehicle date of first use and is available for new vehicle purchases and leases based upon terms and conditions on the Blue Link subscription enrollment pages. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage is required. Blue Link is available on most new Hyundai vehicles. Features, specifications, and fees vary by subscription plan and are subject to change. For more on details and limitations, visit Hyundai.com or your authorized Hyundai dealer.
LUXURY AND INNOVATION

WE GAVE IT MORE SPACE. SO WE COULD FILL IT WITH MORE TECHNOLOGY.

The all-new Sonata Hybrid has best-in-class passenger and cargo volume. It’s space filled with available luxuries like power front seats that are both ventilated and heated, along with plenty of other innovations (like Smart Cruise Control with stop/start) designed to keep you at ease.

Onboard safety technologies include an array of innovations that help drivers avoid accidents in the first place. Available features include Blind Spot Detection with Rear Cross-traffic Alert, Lane Departure Warning, Forward Collision Warning and more.

Even with all of that, we still managed to leave room for an available 9-speaker, 400-Watt Infinity® premium audio system with a subwoofer and external amplifier. Its powerful sound makes the most of SiriusXM® Satellite Radio, HD Radio™ and Bluetooth® with audio streaming.

There’s even an all-new Blue Pearl option for leather seats that features contrast stitching and trim accents. If that’s not the perfect place to bask in the sunlight from the available panoramic sunroof, we don’t know what is.

NAVIGATE YOUR WORLD  Sonata Hybrid’s available 8” multimedia navigation doesn’t just map your route. It’s the access point to your world. Check the monitor to see what’s shown on the review camera. Use simple voice commands to access SiriusXM Satellite Radio or Travel Link® features like movie times, fuel prices, stocks, sports, traffic and weather. You can also tap into your compatible smartphone through Apple CarPlay or Google Android Auto.

SMART TRUNK  Sonata Hybrid features a hands-free smart trunk that’s intelligent enough to detect your presence. Stand behind the trunk for 3 seconds with the key fob in your pocket or purse, and it automatically opens to solve your hands-full dilemma.

HIGH BEAM ASSIST  Improve your road manners – and your nighttime safety – without lifting a finger. Available High Beam Assist automatically switches your headlights from high to low beams when an oncoming vehicle is detected by the forward-facing camera.

HYUNDAI BLUE LINK®  Blue Link Connected Care – which includes Enhanced 24/7 Roadside Assistance, SOS Emergency Assistance, Monthly Vehicle Health Reports and more – is free for your first year of ownership. Other Blue Link packages include remote access and safeguard features. Rest assured, we’ve got your back.
2016 SONATA HYBRID SE

KEY STANDARD FEATURES
- 2.0L Gasoline Direct Injection DOHC 4-cylinder hybrid engine
- Hybrid Starter Generator
- 400-Watt Infinity® premium audio system with 9 speakers and rear subwoofer
