You know smart design when you see it.

It looks like this: The 2021 Hyundai Tucson, a creation of Hyundai’s European Design Centre. Tucson is sleek and athletic outside — and filled with smart technology features inside. In compact exterior dimensions, help you maneuver through urban congestion, and a Surround View Monitor is available to help you spot curbs, tight spaces and other obstacles while parking.

Tucson’s advanced seating position gives you a commanding view, which is a big plus. To help keep you informed, an AWD-controlled traction system, a Dual Mode Smart Cruise Control system, and available AEB (Advanced Emergency Braking) systems include pedestrian and bicycle detection. A Navigation System includes accurate real-time traffic guidance and integrates with your phone to make turns and view directions.

Tucson’s is a forward-thinking design for forward-thinking drivers. It’s a forward-looking, safe and reliable vehicle for multifaceted drivers. When you choose a Tucson, we know you’ll be choosing a vehicle for the long haul.

When you were young, you may have had a big dream. Maybe becoming an inventor or an astronaut. Maybe you just wanted to be the best at something. You probably didn’t think too much about the future, but that’s okay. Today, we’re talking about the future, and we’re pretty excited about what it has in store.

The future is here, and the future is buyable. That’s right, you can buy the future. You can buy a new Tucson, and you can buy peace of mind. In fact, you can buy peace of mind and a brand new Tucson, all in one fell swoop.

For the 10th year in a row, Hyundai has ranked #1 in customer loyalty.
You know precise design when you hear it.

It sounds like this. The remarkable quiet Tuscan interior. Pull the door shut and listen for the door closing—Hyundai engineers fine-tuned the acoustics of the latch mechanism for a solid, secure sound, now start the engine. The sonic response of its available 2.0L 4-cylinder engine is unmistakably powerful.

Accompanying the quiet, Tuscan’s 6-speed automatic transmission moves through the gears with the smooth precision of a luxury sedan. In a rear-seat ride, Tuscan’s engineers infused its stiffly constructed body with generous amounts of advanced high-strength steels to improve body stiffness, along with sound damping materials to suppress road noise.

Call up a song from your favorite playlist. What it sounds like on Tuscan’s available 8-speaker Infinity® Premium Audio system may astonish you. The system uses iQTM+ Audio Optimization, a proprietary technology by maximizing the full sound bandwidth set in today’s compressed digital audio files.

Here’s another cool feature: dual-continuum glass. Used in Tuscan’s windshield and front side windows, it helps keep cabin temperatures from heating up. Rear seat HVAC vents—normally reserved for upscale UVs—are also available to help en route passenger comfort during the warm summer months. When the cruelly hot weather signs away the chill with available features like heated front seats, heated rear seats, heated side mirrors and a heated steering wheel.

And because precise design is intended, Tuscan has on the seats with available wireless device charging, making it simpler to keep your compatible smartphones powered on the road. There’s also an available rear USB power outlet, so your rear in the back seats has easy access to power, too.

“A generous equipment level for the money has long been a hallmark for Hyundai.”
—Kelley Blue Book

*Vehicle shown in Ultimate Black Leather. Actual production model may vary. Copyright © 2021 Hyundai Motor America. Hyundai Motor America reserves the right to add, remove or change standard equipment at any time without notice or obligation. Safety features are not a substitute for safe driving. Always use safety belts and child restraints. Limit responsibility to the extent allowed by law. Driver must always exercise normal precautions. Notice: Heated seats are not intended for extended seating. For additional details, see owner’s manual.
You know responsive design when you hold it.

Sit in Tucson’s driver seat and grab hold of the steering wheel. After all, your sense of Tucson’s design and performance will ultimately be judged from the driver’s perspective, right? Do settle into the available 8-way power driver seat and let the comforting warmth of an available heated leather wrapped steering wheel radiate into your hands.

Now adjust your panoramic sunroof so that your lower back has the firm support you need to feel relaxed. If you’re shifting to a Tucson Ultimate, your front seat is ventilated, with cooling air passing through perforations in the heat-treated seat cushions at the press of a button.

One thing you won’t need to hold is a key to your Tucson. Tucson’s available push button keyless entry and automatic climate control includes a Keyless Start feature, for instant and reliable performance of both functions as you approach or leave your Tucson. To its smaller key ring, we could add the available proximity key less feature typically found on more expensive SUVs.

Tucson’s large sunroof and rain-sensing wipers take care of traffic and Tucson’s independent multi-link rear suspension handles bumps with a smooth ride. The remarkable traction of efficient all-wheel drive (AWD) makes off-road performance a breeze.

"If you want a vehicle with a good value proposition, the Hyundai Tucson lineup is a great place to look. A prime example is the 2018 Hyundai Tucson, which is spacious, stylish and feature-packed, even at base trim levels." - Edmunds Expert Review

You know innovative design when you feel it.

Modern safety technologies are remarkable innovations designed to alert drivers to potential hazards, which help avoid accidents in the first place. But to get the peace of mind these advanced features provide, many SUVs in this class make you pay up to their higher, more expensive trim levels.

Not Tucson. Every 2020 Tucson, even the base models Tucson SE, comes standard with forward collision avoidance assist, lane keeping assist and driver attention warning! In addition, the Tucson SE also comes standard with a few more features including blind spot collision warning, rear cross-traffic collision warning, and a surround view monitor.

Tucson Ultimate offers our most comprehensive set of safety features. In addition to pedestrian detection, forward collision avoidance assist, and lane keeping assist, the Tucson Ultimate also includes: smart cruise control, lane centering assist, and adaptive smart cruise control. The Tucson Ultimate is safer than ever.

SmartSense Safety Features

Top Safety Ratings

Tucson Ultimate earned a 2019 Top Safety Pick rating from the Insurance Institute for Highway Safety (IIHS) evaluation with advanced Frontal Crash Avoidance System (FCAS) as well as a government 5-star safety rating.
You know seamless design when you connect to it.

We know how connected you are to your smartphone. So we made sure that connection extends to Tucson’s award-winning Blue Link® Connected Car features. Using the free Multi-Mode app, your smartphone becomes a remote control capable of starting your Tucson and doing its engine before you walk out the door. With your Amazon Echo™ or Google Home™ device, you can also control the cabin temperature in your Tucson using voice commands from the comfort of your couch or office!

Blue Link Go device lets you search, download and navigate to addresses and points of interest using voice commands from the driver seat or your smartphone before entering your Tucson lifetime?

More good news—on every Tucson model, Apple CarPlay® and Android Auto™ come standard. You can use Tucson's large touchscreen display or voice commands to access maps and navigation, your phone’s contact list, texts, calls, music library and more.

That’s not all. Blue Link Connected Care. conveniently for the first few years, it offers exceptional peace of mind. Whenever you may roam, trained operators are standing by to provide emergency roadside assistance in the event of an accident where airbags are deployed! Your Blue Link app can even help law enforcement recover your vehicle if it’s stolen.

For more information on the complete list of innovative features Blue Link puts at your fingertips.

Automatic Emergency Braking
Blue Link Connected Care
Car Finder
Get our Connected Care Investigators to quickly locate your vehicle—even if the owner's phone number is unknown!

On-Demand Help
Your vehicle’s built-in 4G LTE® and Blue Link can connect you to your service provider. Even if your cell phone is lost, we can still connect to your service provider.

Remote Control
See your current fuel gauge, battery level or door status. Or remotely lock or unlock your vehicle, turn the climate control on or off, and much more!
