How far have we taken the SUV?
All the way to Tucson.

Looking for a sensible, stylish SUV that doesn’t compromise on quality? It’s right here. In Tucson. The 2020 Tucson. It is the ideal vehicle among compact SUVs. Standard European Design Centre gives Tucson sleek, athletic lines and compact solution dimensions that help you easily maneuver in and out of tight traffic.

Its slim side, coupled with features like an available Surround View Monitor® helps you keep parking spots on crowded city streets while avoiding curves, tight poles and other obstacles. Whenever you’re in the plant, to tide with Tucson, no matter how sophisticated you’ve created a genuine amount of space with the flexibility you need. Open the frigate, and you’ll see more evidence of smart design. In the rear cargo area, a dual-level cargo floor lets you organize – and maximize – the space. There’s even a shelf to securely store the removable cargo cover.

Tucson’s elevated seating position gives you a commanding view, while a big 7” floating touchscreen display makes it easy to see and control audio and multimedia systems. There, there are the Design Tucson, able to see you. Standard safety technologies include Forward Collision-Avoidance Assist, Lane Keeping Assist and Driver Attention Warning. Given all that, it’s easy to see why, for the 10th year in a row, Tucson has ranked as the #1 automotive brand in customer loyalty.

Apartment
With its high-profile roofline, the Hyundai Tucson looks sporty and stylish – not fussy. The sleek design also helps minimize wind noise that can be generated by providing a solid frame.

USEF
Next to the spacious cargo area, but your hands are full? No problem. Tucson’s available auto-open/skip-up (hands-free) foot-activated liftgate can help you avoid overage in your hands.

M 2020 Ultimate in U.S.A. Market
It’s intuitively tuned to your needs.

When you’re entering Tucson, listen for this: The soft ‘pop’ when shutting the door. It’s an example of how Hyundai has tuned everything – down to the acoustic of the door latches – to create your senses. As you turn in to Tucson’s available 8-speaker Interior Premium Audio system. Clari-Fi™ Mood Restoration Technology brings back the fullness of your music or when digital music files are compressed.

Settle into the available 8-way power driver seat and adjust the lumbar support for your lower back. Lifting up Tucson’s SEATON™ Press a button, and swiveling air flows from the vented front seats. Tucson’s climate system is available with dual automatic temperature control, air CleanAir™ Ionic and rear seat A/C vents – features normally reserved for luxury SUVs.

Let in light and air through the available panoramic sunroof – another feature found on more expensive SUVs. Need to take up everyone’s smartphone on the go? Bring any USB charge port available for bringing power to the people, regardless of seating position.
Do not rely completely on Blind-Spot Collision Warning (BCW) and be sure to use proper lane changing procedures. BCW ... an audible and visual alert if the turn signal is activated and another vehicle in the blind spot is sensed. There are ... less than 6 MPH. Never rely exclusively on the RCCW. Always look over your shoulder and use your mirrors to confirm rear ... in all conditions. See Owner’s Manual for details. 3 Smart Cruise Control (SCC) is not a collision avoidance or warning ... to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves ... for 2020 TOP SAFETY PICK, a vehicle must earn good ratings in the driver-side and passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and an acceptable or good headlight rating.

**SmartSense Safety Technologies**

- **Forward Collision-Avoidance Assist**
- **Lane Keeping Assist**
- **Driver Attention Warning**
- **Blind-Spot Collision Warning**
- **Rear Cross-Traffic Collision Warning**
- **Surround View Monitor**
- **HTRAC All Wheel Drive**
- **High Beam Assist**
- **Rain-sensing wipers**
- **Smart Cruise Control with Stop & Go**

**Peace-of-mind for an unpredictable world.**

Drive Tucson, and you’ll enjoy a deep sense of confidence. You hear it in the powerful sound of its available 2.4L GDI engine. And feel it in the smoothness of its 6-speed automatic transmission.

Beneath the skin, Tucson’s unibody is infused with advanced high-strength steel. It’s a strong, rigid platform that allows the multi-link rear suspension to achieve a balance of precise handling and a smooth, quiet ride. Available HTRAC All Wheel Drive includes Active Cornering Control to optimize traction and improve agility.

To all of this robust engineering, Hyundai adds SmartSense – a remarkable suite of safety and convenience technologies. Some SUVs in this class make you move up to their more expensive trim levels to get advanced safety features. Not Tucson. Every 2021 model, even the base Tucson SE, comes standard with Forward Collision-Avoidance Assist, Lane Keeping Assist and Driver Attention Warning – innovations designed to alert drivers to potential hazards. And help avoid accidents in the first place.

Available safety features like Blind-Spot Collision Warning, Rear Cross-Traffic Collision Warning and a Surround View Monitor give you a full 360-degree sense of what’s happening around your vehicle. Tucson Ultimate offers our most comprehensive set of safety features – it adds Pedestrian Detection to Forward Collision-Avoidance Assist and comes standard with High Beam Assist, rain-sensing wipers and Smart Cruise Control with Stop & Go.
In this relationship, you’ll feel really connected.

We know how much of your daily life is tied to your smartphone. So we made sure to extend that connection with Hyundai’s Blue Link® Connected Car System, compatible for your first three years during the free 6-month trial, your smartphone becomes a remote control capable of locking/unlocking your Tucson and starting its engine before you walk out the door!

With your Amazon Echo® or Google Home™ device, you can also set the cabin temperature in your Tucson remotely using voice commands from the comfort of your couch or kitchen! Blue Link Guidance lets you search, download and navigate to addresses and points of interest using voice commands from the driver seat or your smartphone before getting in your Tucson! And here’s more good news — even in Fusion mode, Apple CarPlay™ and Android Auto™ come standard! You can use Tucson’s large touchscreen display or voice commands to access maps and navigation, your phone’s content like apps, calls, texts, media library and more. An available wireless charging pad ensures your compatible smartphone stays powered up as you power through the day.

Then there’s Blue Link Connected Care, which offers exceptional peace of mind. Whether you may roam, trained operators are standing by to provide emergency roadside assistance in the event of an accident where airbags are deployed! Your Blue Link app can even help you electronically receive your vehicle if it’s in your alerted! Visit hyundaisafety.com for more information on the complete list of innovative features Blue Link puts at your fingertips.

Hope makes every Hyundai better.
Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 22 years, Hyundai Hope On Wheels has donated more than $172 million. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.
