Compare it.
THE TRUTH IS, finding a car that’s right for you isn’t that easy. You’ve got cars that over promise and under deliver. Cars that assume you’ve won the lottery and desperately want to part with the proceeds. And value-priced cars that, unfortunately, drive that way.

Fortunately, there is one company that understands and embraces the concept of what people really want in a car. That company is Hyundai.

We make smart cars for smart people. Cars that routinely get 5-star crash test ratings. Cars where the number of safety features takes precedence over the number of cupholders. And cars that put quality exactly where it belongs—first and foremost.

We also believe in a warranty that lasts twice as long as the average car loan. Not to mention the average car warranty.

We steadfastly adhere to the proposition that premium amenities are not to be reserved exclusively for the wealthy. That beautiful design shouldn’t necessitate a second mortgage. And that stimulating performance and handling needn’t come from engineers with names like Hans and Giuseppe.

In other words, we believe in cars that don’t insult your intelligence, but rather, respect it.

The Hyundai that’s put Lexus on notice. It’s curvaceous. Spacious. Luxurious. And you can get it with nearly every last amenity you might find in the most upscale of upscale crossover utility vehicles. Rain-sensing wipers. XM® Radio. Backup warning system. Rear DVD entertainment. It’s our most luxurious vehicle yet, and it’s bent on redefining the category.

Now that we’ve whetted your appetite, feel free to turn the page and get better acquainted.
WANT A SHORTER WARRANTY, FEWER STANDARD FEATURES AND A LOUDER CABIN? JUST ASK FOR A LEXUS.

SOME MIGHT FIND that hard to believe, but it’s true. And what’s more, you can have the unprecedented combination of styling, safety, comfort and power the Veracruz offers for about ten grand less than a Lexus RX350. All while enjoying more cargo room than the Mercedes-Benz GL450. When it comes to features, amenities and performance, a fancy nameplate isn’t always guaranteed to give you the bigger bang.
EVERY FEATURE THOUGHT OUT. Every detail scrutinized. Every reason to love it. The Veracruz was designed from the inside out for optimal comfort and convenience. From the power tailgate to the rain-sensing windshield wipers to the proximity key. Shall we go on? Okay. Power tilt-and-slide sunroof, folding side mirrors, 18-inch alloy wheels and rear spoiler. We could continue, but perhaps we should leave something for you to discover on the test drive.
Convenient Features

REAR DVD ENTERTAINMENT SYSTEM
Featuring an 8-inch LCD screen with remote control and wireless headphones, this roof-mounted entertainment system will make road trips seem shorter than ever.

115-VOLT OUTLET
Compatible with standard household items, this feature may just turn out to be your favorite. Use it for anything from your electric shaver to powering a TV for a tailgate party.

INTEGRATED MEMORY SYSTEM
This advanced system saves and recalls your favorite power mirror, seat and steering wheel settings, all at the push of a button. So, feel free to let the valet drive it. Or not.

2ND-ROW MULTI-PURPOSE CONSOLE
Passengers in the second row have controls for air conditioning and the DVD player located in an attractive and functional center console, all within easy reach.

COMFORT
The Veracruz always wraps you in plush surroundings. From heated front seats to power-adjustable foot pedals, we’ve overlooked nothing in pursuit of your bliss.

XM SATELLITE RADIO
XM® Radio gives you access to more than 170 channels of digitally broadcast entertainment including music, news, sports and more. And you can enjoy them coast to coast.

BLUETOOTH® WIRELESS TECHNOLOGY
Located in the upper console, this hands-free phone system features a built-in microphone and speaker for perfect clarity, and several unique cell phones can be recognized.

GPS NAVIGATION SYSTEM
You’ll never have to ask anyone for directions again. The impressive GPS navigation system guides you turn-by-turn to your destination and stores up to 125 locations for quick recall.

ELECTROCHROMIC REARVIEW MIRROR
This mirror automatically dims when bright headlights appear behind you. And the HomeLink® integrated transceiver can control the garage door, front gate and more.

SEATING FOR SEVEN
Everybody can come along for the ride and relax in spacious comfort and style, thanks to Veracruz’s standard Hyundai Hideway™ 3rd-row seating.

DUAL AUTOMATIC CLIMATE CONTROL
The driver and front passenger can set the precise temperatures they want, and the Veracruz automatically adjusts airflow and temperature to keep everyone comfortable.

COLD STORAGE
Located in the center console between the driver and front passenger seat, the cold storage container keeps drinks or snacks cool when you’re on the road.

COMFORT. IT’S WHAT THE VERACRUZ DOES BEST. Consider its supple heated leather front seats, intuitive ergonomics and a thoughtful lighting design that provides every row with illumination. Interior storage is abundant throughout, with an ingenious tool storage bin in the back and a cooled center console. Dual automatic climate control in front and standard rear-seat controls ensure everyone feels right at home, no matter how far your travels take you.
GOOD THING THE VERACRUZ HAS SUCH PLUSH SEATS, because you’ll be pressed into them when you step on the gas. Equipped with a powerful 3.8-liter V6 engine and Continuously Variable Valve Timing, it churns out exceptional horsepower and some serious torque. Add in All Wheel Drive, a fully independent suspension and front and rear stabilizer bars, and you’ve got performance and handling that feel at home whether navigating your favorite switchback or cruising down Main Street.

V6 POWER
A 3.8-liter V6 gleefully pumps out 260 horsepower and 257 lb.-ft. of torque. Even with this spirited acceleration, the Veracruz has low noise, vibration and harshness. Imagine that.

6-SPEED ADAPTIVE TRANSMISSION
The Veracruz redefines smooth with its 6-speed adaptive transmission. And for the ultimate control in gear selection, choose SHIFTRONIC® mode for effortless manual shifting.

ALL WHEEL DRIVE
On-demand All Wheel Drive uses intelligent torque-controlled coupling, which helps you to easily control the path of the Veracruz, even when you can’t control the road conditions.
PREVENTING AN ACCIDENT IS THE BEST WAY TO SURVIVE ONE.

IF YOU CREATED YOUR OWN CAR COMPANY, you wouldn’t make safety an option. Neither would we. So before you load the Veracruz full of passengers, we’ve already filled it with cutting-edge active safety features that work dynamically, with input from you and the road, to help prevent an accident. Which is why the Veracruz is an ideal choice to help protect you, your passengers and your peace of mind. Just like you’d expect from your own car company.

**Active Safety**

**ELECTRONIC STABILITY CONTROL**
An advanced, electronically-controlled system reads data from sensors throughout the vehicle. Input is relayed to a sophisticated computer, and is processed using proven algorithms, which enables ESC to react instantaneously to input from you and the road.

**TRACTION CONTROL SYSTEM**
Wet pavement may have met its match. The advanced Traction Control System senses unexpected wheelspin while accelerating and automatically applies the appropriate combination of brakes and throttle to route power to the tire with the most traction.

**ANTI-LOCK BRAKING SYSTEM**
ABS prevents wheel lock-up and helps maintain steering control, even during emergency braking situations, by rapidly pulsing the brakes. So you can control steering to successfully maneuver around objects ahead of you.

**ELECTRONIC BRAKE-FORCE DISTRIBUTION**
You never know where you’ll be when you need to stop quickly—from a dirt road to a major thoroughfare. EBD uses a network of sensors to provide the appropriate braking pressure at each wheel for maximum braking performance.

**BRAKE ASSIST**
Statistics show that drivers frequently don’t brake forcefully enough in an emergency situation. Brake Assist actually senses when you are in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance.

1 Electronic Stability Control (ESC) cannot control your vehicle’s stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner’s Manual for details.  The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.
1Government star ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program (www.safercar.gov). 2007 model tested with standard side-impact airbags (SABs). 2TPMS is not a substitute for proper maintenance. See Owner’s Manual for details. 3The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

Passive Safety

★ ★ ★ ★ ★
NHTSA 5-STAR CRASH RATING

Veracruz has received the U.S. government’s highest crash rating of 5 stars for both front- and side-impact collisions. 1

ON TOP OF OUR ACTIVE SAFETY FEATURES, the Veracruz is equipped with a host of standard passive safety features as well. Because we take the task of keeping you and your passengers safe just as seriously as you do. From an advanced airbag system to rear child-seat anchors, our commitment to safety is clear in every detail. So, should an accident occur, you can rest assured that you’re surrounded by safety engineering and features that are proven to help minimize the effects of it.

Six Airbags

When it comes to airbags, there truly is safety in numbers. Our advanced dual front airbags with an Occupant Classification System, front seat-mounted side-impact airbags and roof-mounted side-curtain airbags 3 play a big part in Veracruz’s NHTSA 5-star crash rating.

Structural Integrity

You wouldn’t build a house on a shaky foundation. Same goes for cars. We built the Veracruz with a reinforced unibody construction of high-tensile steel to effectively absorb collision energy.

Tire Pressure Monitoring System

Each wheel is equipped with an air-pressure sensor located at the valve stem. In the event that any tire reaches a specified low air pressure, a warning light will alert you as to which tire is low. 2

Seatbelt Pretensioners

Pretensioners tighten safety belts in certain accidents to reduce front occupants’ forward movement. Then, force limiters release slack to limit load across the body and help minimize injury.

Active Front Head Restraints

Whiplash is one of the most common injuries in a rear collision. With this feature, the head restraint moves forward and up, which reduces the likelihood of neck injury.
IT’S DIFFICULT TO PREDICT THE FUTURE. UNLESS YOU HAPPEN TO BE DESIGNING IT.

IT TAKE A WORLD OF PEOPLE TO MAKE A HYUNDAI. From our R&D Center in South Korea, where we conduct predesign studies, prototyping, full-scale aerodynamics analysis, crash testing and test driving. To Alabama and our $1.1 billion state-of-the-art manufacturing plant. To Michigan and our engineering center. To our Southern California design facility, where we utilize the world’s most advanced visualization, graphics and clay-modeling technologies. To our environmental technology research center in Seoul. Together, these facilities ensure that every vehicle we build is at the forefront of automotive technology.
TeSTeD TO THe ex Treme S
From the scorching heat of Death Valley, Calif., to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.

meeT OUr qUAlITY  INS pec TOr
An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

we TreAT OUr BODI eS lIke Temple S
Prior to painting, the body of each Hyundai is electrically charged, then immersed in a primer bath with an opposite charge. This ensures even hidden surfaces are completely coated for incredible corrosion resistance.

we’re ver Y HANDS  ON
We hand check nuts, bolts, cables, wiring and power components before any Hyundai leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can’t be detected on the factory floor.

PERFECTION IS OUR OBSESSION
For example, this door hinge used to look a little different. But our engineers noticed that the old design was adding a minute amount of wind noise to the vehicle. So they redesigned it. Now it adds none at all.

YOU CAN NEVER BE TOO SAFE
Our vehicles’ excellent safety ratings are the result of thousands of hours of simulations in state-of-the-art safety testing facilities. Is destroying millions of dollars worth of automobiles worth it? Absolutely.

PROVEN BEFORE IT’S DRIVEN
At our California Proving Grounds, every new design is tested in real-world situations. This includes a 6.4-mile track to evaluate engine and road noise, and a 3.3-mile road course that simulates America’s highways.

THE MYSTERIOUS 2.3 MILES
Every new Hyundai that comes out of our Alabama plant has 2.3 miles on the odometer. That’s because each one is road tested on our test track to ensure every vehicle is working perfectly.

MEET OUR QUALITY INSPECTOR
An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

A FIVE-YEAR WARRANTY SAYS A LOT ABOUT THE CAR.
A TEN-YEAR WARRANTY SAYS A LOT ABOUT THE CAR COMPANY.

IT SAYS THAT WE STAND BEHIND OUR VEHICLES with a warranty matched by no other automaker in the country. It says your new Hyundai’s powertrain may be covered until the year 2018. (Just think about that for a minute.) But above all, it says that we build a vehicle that you can rely on. That as a company, we're committed to your satisfaction, long after you leave the dealership and your car is bought and paid for. And that’s as refreshing now as it will be in a decade.
STANDARD FEATURES INCLUDE:

- 3.8-liter, 24-valve V6 engine with Continuously Variable Valve Timing
- Adaptive 6-speed automatic transmission with SHIFTRONIC®
- Electronic Stability Control
- Traction Control System
- 4-wheel Anti-lock Braking System, Electronic Brake-force Distribution, Brake Assist
- 17-inch, 5-split-spoke alloy wheels
- Tire Pressure Monitoring System
- Advanced dual front airbags with Occupant Classification System, front side-impact airbags, front and rear side-curtain airbags
- Active front head restraints
- Dual heated power side mirrors with approach lights and turn signals
- Hyundai Hideaway™ 3rd-row seats
- Air conditioning with cabin air filter and outside temperature display
- All-row ventilation and 2nd-row auxiliary temperature control
- Power windows with driver’s auto-down/up and pinch protection
- Premium cloth seats
- AM/FM/CD/MP3 six-speaker audio system
- XM® Satellite Radio
- Steering-wheel-mounted audio controls
- Tilt-and-telescopic steering wheel
- Remote keyless entry system with alarm

INCLUDES ALL STANDARD GLS FEATURES PLUS:

- 18-inch, 5-spoke alloy wheels
- Automatic headlights
- Front fog lights
- 8-way power driver seat and lumbar support
- Leather-wrapped steering wheel and shift knob
- Electrochromic auto-dimming rearview mirror with compass
- Homelink® integrated transceiver
- Electrochromic auto-dimming side mirrors
- Cooled center console storage
- Roof side rails

INCLUDES ALL STANDARD SE FEATURES PLUS:

- Leather seating surfaces
- Heated front seats
- 4-way power passenger seat
- Dual front automatic climate control
- Air Quality System
- 314-watt Infinity eight-speaker audio with in-dash 6-disc CD/MP3 changer, external amplifier and subwoofer
- Power tilt-and-telescopic steering wheel
- Power-adjustable foot pedals
- Integrated Memory System
- Proximity key
- Anti-theft system with engine immobilizer
- Power tilt-and-slide sunroof
- Power tailgate
- Backup warning system
- Rain-sensing windshield wipers
- Windshield wiper de-icer
- 115-volt power outlet
- Conversation mirror
- Lighted door scuff plates
- Chrome door and tailgate handles
- “Limited” badging

### OPTION PACKAGES

- **GLS PACKAGE:**
  - Premium Package: Power tilt-and-slide sunroof, power driver seat and lumbar support, heated front seats, leather-wrapped steering wheel and shift knob, backup warning system

- **SE PACKAGES:**
  - Premium & Leather Package: Leather seating surfaces, power tailgate, power tilt-and-slide sunroof, heated front seats, 314-watt Infinity® audio system, backup warning system, 115-volt power outlet
  - Entertainment Package: Premium & Leather Package, rear DVD entertainment system, 605-watt Infinity Logic 7 Surround Sound audio system, conversation mirror

- **LIMITED PACKAGES:**
  - Navigation Package: LG® in-dash DVD navigation system, 605-watt Infinity Logic 7 Surround Sound audio system
  - Rear Seat Entertainment Package: Rear DVD entertainment system, 605-watt Infinity Logic 7 Surround Sound audio system
### ENGINE
- 3.8-liter, 24-valve, DOHC, All-aluminum V6
- Continuously Variable Valve Timing (CVVT)
- Horsepower @ rpm: 260 @ 6000
- Torque (lb.-ft. @ rpm): 257 @ 4500
- Compression Ratio: 10.4:1
- Multi-port Programmed Fuel Injection
- Electronic/Distributorless Ignition System

### DRIVETRAIN/TRANSMISSION
- Drive Configuration: Front-wheel Drive (FWD)
- Electronically-controlled All Wheel Drive (AWD) with AWD Lock
- Adaptive 6-speed Electronically-controlled Automatic Transmission with SHIFTRONIC®
- Final Drive Ratio: 3.2:1

### BODY/SUSPENSION/CHASSIS
- Body Type: Seven-passenger, Crossover Utility Vehicle
- Unibody Construction
- 4-wheel Independent Suspension: MacPherson-strut front, multi-link rear
- Front and Rear Stabilizer Bars
- Power Rack-and-pinion Steering, engine-RPM-sensing
- Turning Diameter (ft.), curb-to-curb: 36.7
- 4-wheel Disc Brakes, front ventilated
- 17-inch, 5-split-spoke Alloy Wheels with P245/65R Tires
- 18-inch, 5-spoke Alloy Wheels with P245/60R Tires

### EXTERIOR DIMENSIONS
