2014 European model shown.
The Infiniti Q60 Coupe invites you on a journey that is truly intimate. Exuding from the magnetic attraction of its styling and the exhilarating intensity of its performance, a connection is shared in an instant. It is the promise of an experience savored by every sense.
Be fully engaged in the feeling of an instantaneous response to your touch, your input, and your direction. Every curve and every command is translated as if by anticipation. To drive the Q60 Coupe in the turns is to be immersed in the moment of now.

FRONT-MIDSHIP PLATFORM places the engine closer to the center of the car so your Q60 Coupe will spring into corners and maintain stability driving out of them.

SPORT-TUNED SUSPENSION features taut springs and shocks, and large-diameter stabilizer bars to provide sharper handling. The difference is the impression it leaves behind.

AN ESCAPE
ADVANCED CLIMATE CONTROL SYSTEM™ with Plasmacluster® air purifier intuitively cleans the air inside your cabin to help reduce odor, mold and viruses. The drive is uncompromised and so should be your environment.

INFINITI CONTROLLER allows you to command your technology in the manner you find most intuitive. It responds to you rather than you conforming to the system.
Every motion reveals an intimate connection to your senses. Power seems limitless from standstill to straightaway and everything in between. This is performance with an emotional signature.

**ACCELERATION SWELL** transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and the feeling of acceleration is shaped to increase the faster you go.

**HUMAN TOUCH** leads to the singular feel of Infiniti performance. Every engineering refinement, down to the difference between bolts, is measured by a test driver, not computer. Attention is everything.
Drawn by an undeniable allure. Rewarded with an unspoken declaration. The Q60 Coupe reflects your desires and translates your thoughts through design, performance and sheer instinct. Once driven, it will never leave you.

INFINITI INTELLIGENT KEY personalizes your vehicle to suit you without ever leaving your pocket or purse. Simply pressing the switch on the door handle unlocks the doors, while the seat, outside mirrors, and steering wheel automatically adjust to your personal preferences—ready to please and to excite.
AMBIANCE
A welcoming and evocative space is measured by its ability to stir your emotions.

FINER FABRICS
The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard fabrics. Not only is it more pleasing to the touch, but being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. No element is too small.

PERSONAL CONNECTION
The ingenuity of the Infiniti Intelligent Key system allows you to lock and unlock both doors, open the windows, and open the rear decklid remotely with a press of a button. With the key in your possession, it communicates with your vehicle to let you access the door locking functions and open the rear decklid through their respective request switch, and initiates your personalized memory settings.

OPTICAL PERFECTION
Where interior components meet—where the dash meets the door or the center console—they are assembled not to be mathematically perfect, but to look perfect. This requires an exacting manufacture process, tightening the space where dashboard meets door from 3mm to 2.4mm in order to achieve a seamless visual design from the driver’s point of view. But we believe in considering every angle in creating an emotionally transcendent environment.
FUNCTIONALLY SEDUCTIVE. The design of the Q60 Coupe shapes seduction into exhilaration. The aggressive front fascia persuades the wind to flow over, around and under the vehicle, in ways that create zero-lift front and rear, so it’s as balanced at speed as it is at rest. Yet the coupe’s shape slips through the air with a low 0.32 coefficient of drag for better fuel consumption, and quieter cruising with minimum effort.

Smooth lines allow light to play and pool over its curves. The signature double-wave hood flows over the engine and rises to the elevated front fenders. At its front are HID headlights that have gone through a specialized production process tightened by hand from behind to mount perfectly flush for an exacting fit.

Every shape and crease is connected front to rear, where the Q60 Coupe features broad rear fenders that flow into the large LED brake lights. The instant glow of the brake lights are more than distinct—they illuminate brighter and faster than conventional bulbs when you brake to warn those that want to follow.
INNATELY RESPONSIVE BALANCE  Dynamic handling is built right into the foundation of the Q60 Coupe, thanks to its Front-Midship Platform. Placing the engine’s center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a corner.

LIMITLESS RUSH  Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By tuning Infiniti engines to unleash torque that climbs over a broader rev range, the force you feel seems to increase the faster you go—building like the rush of a continually rising wave, peaking ever higher. The emotional energy surges in tandem, making Swell feel like a limitless rush more than a momentary thrill.

SUREFOOTED PERFORMANCE  To help maintain a straighter path during acceleration, the Viscous Limited-Slip Differential (VLSD) prevents one wheel from spinning free, especially coming out of a corner. So you get the most torque translated to acceleration, and confidence as both rear wheels work together.

CONTROL WITHOUT COMPROMISE  When conditions are ideal, Intelligent All-Wheel Drive sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal. Your need for control, and your desire for excitement are both satisfied.

3.7-LITER V6 ENGINE  A potent blend of exciting response and intelligent efficiency. Benefiting from Variable Valve Event and Lift (VVEL) technology, the engine adjusts on the fly to make the most of every bit of fuel and every breath it takes. The result is a stirring 330 horsepower that still manages to achieve up to 27 miles per gallon.

THE SOUND OF PERFORMANCE  A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q60 Coupe shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

SHARPER SHIFTS  When you flick the magnesium paddle shifters for a lower gear, Downshift Rev Matching blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother, quicker downshifts for increased stability and more consistent engine power.

PERFORM  Underneath its alluring physique lies the foundation of the thrilling performance of Infiniti Direct Response engineering.
The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

**AUDITORY INDULGENCE** To preserve the music with captivating depth and astonishing clarity, Infiniti engineers created the first manufacturer system that delivers sound washing through the cabin from front to back, as in a live performance. A unique Driver’s Audio Stage® setting also optimizes the balance of sound from the 11 speakers and two 10-inch subwoofers, to focus solely on the driver for an ultimate audible experience.

**SECURING YOUR SPACE** Intelligent Cruise Control® employs a laser rangefinder to monitor the distance between you and the vehicle in front of you. When traveling above 45 mph, it automatically slows you down when traffic slows and re-accelerates to your preset speed when the way clears.

**ENHANCED AWARENESS** When in reverse, the RearView Monitor® turns on to display colored guidelines to give you an accurate sense of how close your proximity is to objects behind, and adjusts as you turn, to show your path. The Rear Sonar System® alerts you by emitting a beeping tone and displays an icon on the RearView Monitor when approaching an obstacle while in reverse. It intuitively puts you in control, while simultaneously putting you at ease.

**EVERY BREATH FRESHER AND CLEANER** Even the invisible is never overlooked. The Advanced Climate Control System® features the innovative Plasmacluster® air purifier, which actively cleans the air inside your cabin. It produces positive and negative ions that help prevent odors from sticking to interior materials and even helps suppress mold and viruses. Your interior not only stays fresh, so does your clothing. It works in concert with the Grape Polyphenol Filter, which removes up to 99.9% of allergens from the air coming in from the outside.

**EMPOWERING YOUR TOUCH** The Infiniti Controller puts intuitive, simple control of your technology systems at your fingertips. Designed to fall naturally within your reach and to minimize distraction from driving, it allows you to interact via a variety of inputs and with clearly marked buttons and commands. What’s more, a single press can bring you from one major system to another.
PROTECTION
The Infiniti Safety Shield® concept—our comprehensive approach to safety—uses technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

STRONGER AND LIGHTER
Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

ENHANCED PROTECTION
Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System® that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.

ENHANCED PROTECTION
Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System® that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.

HELPING YOU STAY IN CONTROL
Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control® adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System senses wheelspin and automatically helps give you a surer foothold.

PREPARED TO PROTECT
Under certain braking conditions, the Front-seat Pre-Crash Seat Belts® automatically tighten the front seat belts—helping restrain you and helping to maximize the effectiveness of the other occupant protection devices such as air bags.

ALWAYS LOOKING FOR DANGER
The 4-wheel Anti-lock Braking System (ABS) is enhanced by Brake Assist, which helps apply the maximum brake force you need to help prevent a collision. The Preview Braking® function uses the available Intelligent Cruise Control® radar sensors to analyze your closing speed to the vehicle ahead of you, and then prepressurizes the braking system in anticipation of emergency braking.

THE SUPPORT YOU NEED
In certain rear-end collisions, the Front-seat Active Head Restraints found on the Q60 Coupe can move forward to help cushion the head to help assist in reducing whiplash-type injuries.

BETTER STABILITY WHILE STOPPING
Electronic Brake force Distribution adjusts the amount of brake force applied to the front and rear wheels for improved braking performance. It not only helps the brakes wear more evenly, it reduces front-end “dive” during heavy braking, helping increase the stability of your vehicle.

The Q60 IPL Coupe heightens the levels of luxury and performance. The exclusive IPL-tuned engine reaches 350 hp, intensifying the feel of acceleration while modified spring rates provide improved performance for taut handling. Witness firsthand the expertly tuned double-wishbone front and multi-link rear suspension that provides a balanced, luxurious feel.

Styling of the Q60 IPL Coupe is sharpened with lightweight, aluminum-alloy 19-inch wheels and amplified front, rear, and side fascia that visually express the elemental strength contained within. The enhancements find their way inside as well with sculpted, deep-bolstered seats with unique IPL embroidery, ready to embrace the driver and front passenger in soft, sumptuous leather. As luxurious as it is stunning, passion finds its peak in the Q60 IPL Coupe.
**SELECTION**

Hues that change in response to light and angle. Matching exterior and interior colors to reflect the distinctive energy and mood of the seasons. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

**EXTERIOR COLORS**

- MOONLIGHT WHITE (GUA)
- LIQUID PLATINUM (223)
- GRAPHITE SHADOW (GUA)
- BLUE GALE (GCL)
- VEGETARIAN BERRY (GUC)
- BLACK OBSIDIAN (G1Y)

**INTERIOR COLORS**

- STONE LEATHER
- MONACO RED LEATHER (Q60 IPL ONLY)
- GRAPHITE LEATHER
- LAZULI BLUE LEATHER (Q60 IPL ONLY)
- MAPLE ACCENTS

**WHEELS**

- 18 X 8.0-INCH ALUMINUM-ALLOY WHEELS
- 19 X 8.5-INCH (FRONT) 19 X 9.0-INCH (REAR) LIGHTWEIGHT ALUMINUM-ALLOY WHEELS

Infiniti has taken care to ensure that the color swatches presented here are the closest possible representations of actual vehicle colors. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors at your local Infiniti retailer.
GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN Midnight black grille, aerodynamic kit (4-piece), 19-inch, 9-spoke aluminum-alloy wheels.

19-INCH BRIGHT FINISH WHEELS These leave no question as to your dedication to making the right impression wherever you go. Their sculpted design utilizes lightweight alloy and original Infiniti logo center caps. Requires Sport Package on Journey and AWD.

INTERIOR AMBIENT LIGHTING The warm and engaging glow welcomes you as you get settled. It adds ambiance to the interior and enhances the interior’s modern appeal.

REAR DECKLID SPOILER Custom-designed for the Q60 Coupe, it enhances the sporty appearance and helps create rear down-force. This contributes to the zero-lift front aerodynamics for improved road grip.

STAINLESS STEEL ILLUMINATED KICK PLATES The Infiniti logo glows softly along the bottom of the doorsills—a signature flourish you and your passenger will appreciate every time you get in.

SPORT MUFFLER The polished, stainless steel muffler showcases a deeper, throaty exhaust tone. Larger diameter exhaust tips help let it breathe and the muffler is fabricated with TIG welds for a precision-crafted appearance.

SPLASH GUARDS The color-matched splash guards reduce spray on lower body panels, while helping prevent nicks and scratches caused by road debris under most weather conditions. Not available with Aerodynamic Kit.

### PREMIUM FEATURES

#### Power steering
- Electric-assisted power steering is standard on all Q60 models. This allows for easier steering at low speeds and reduces the force required to turn the wheel at high speeds.

#### Keyless entry and start
- The Infiniti Intelligent Key provides keyless entry and start. Simply approach the vehicle with the key fob, and the doors will unlock automatically. Once inside, start the engine by pressing the start button.

#### Advanced audio system
- The Q60 comes with an advanced audio system featuring Bose® premium audio and an 8-speaker system. The system includes subwoofers and parcel shelf-mounted subwoofers, ensuring a rich and immersive listening experience.

#### Bluetooth® streaming audio
- Stream music from your Bluetooth® enabled smartphone wirelessly through the Q60's premium audio system. Enjoy your favorite tunes while keeping your hands on the wheel and your focus on the road.

#### Wireless phone charging
- Experience convenient wireless charging with your Q60. Simply place your smartphone on the charging pad located in the center console or the door panel, and power is automatically transferred to your device.

#### Dual-zone climate control
- The dual-zone climate control system allows passengers in the front row to adjust the temperature independently, ensuring comfort for all occupants.

#### Rear parking assist
- The rear parking assist system helps drivers navigate into tight parking spaces by providing audible warnings and, in some cases, visual displays of the distance from obstacles.

#### Voice recognition
- Infiniti Voice Recognition allows you to control various vehicle functions using your voice, enhancing safety and convenience while driving.

### SAFETY FEATURES

#### Collision avoidance
- The Q60 is equipped with advanced collision avoidance technologies that help prevent accidents or mitigate their impact. These include forward collision avoidance, lane departure warning, and automatic emergency braking.

#### Blind spot monitoring
- The blind spot monitoring system detects vehicles in your blind spot and alerts you when another vehicle is entering your blind spot area, enhancing safety and reducing the risk of collisions.

#### Smart cruise control
- Smart cruise control maintains a safe distance from the vehicle in front, helping to reduce the risk of rear-end collisions. It can also adjust your speed to keep you within the speed limit or maintain a set distance from the vehicle ahead.

#### Lane departure warning
- Lane departure warning alerts you if you begin to drift out of your lane, helping you to stay in your lane and maintain control of your vehicle.

#### Lane change assist
- Lane change assist provides assistance when changing lanes by alerting you to potential hazards in your blind spot or when you are about to cross into another lane.

#### Rear cross traffic alert
- Rear cross traffic alert helps prevent rear-end collisions by alerting you if a vehicle is moving into your blind spot when you are reversing out of a parking space.

#### Tire pressure monitoring system
- The tire pressure monitoring system continuously monitors tire pressure and alerts you if a tire is significantly under-inflated, reducing the risk of tire failure and improving fuel efficiency.

### PERFORMANCE FEATURES

#### Power output
- The Q60 offers a range of powerful engines, including a 3.6-liter V6 and a 3.7-liter V6, delivering impressive acceleration and performance.

#### Transmission options
- With a variety of transmission options, including a 7-speed automatic and a 6-speed manual transmission, the Q60 offers flexibility in driving dynamics and performance.

#### Limited-slip differential
- The limited-slip differential helps maintain traction and stability during acceleration and cornering, enhancing overall handling performance.

#### Sport brakes
- Sport brakes with 4-piston opposed front calipers and 14-inch rotors provide superior braking performance, ensuring safe and confident stopping distances.

#### Exhaust system
- The exhaust system is designed to enhance performance and sound, providing a smooth and powerful exhaust note while maintaining excellent fuel economy.

### WEIGHT AND CAPACITY

#### Curb weight
- The curb weight of the Q60 is 3,990 pounds (with AWD), ensuring a balanced and responsive driving experience.

#### Passengers
- The Q60 can accommodate up to four passengers comfortably, making it ideal for daily commutes or longer road trips.

#### Trunk space
- The trunk space is 15.7 cubic feet, providing ample room for luggage or shopping bags, depending on your needs.

#### Fuel economy
- The Q60 offers competitive fuel economy ratings, with estimated city and highway fuel economy figures of 17/24 miles per gallon (with AWD) and 18/26 miles per gallon (with RWD), making it an economical choice for long-distance driving.

### NOTES

- The Q60 is available in several trim levels, including the Q60S Coupe 6MT and the Q60 IPL, offering a range of features and performance options to suit your needs.

- The fuel economy ratings are based on EPA estimates and may vary based on driving conditions, vehicle load, and maintenance.

- Always check the tire pressure according to the vehicle's recommended pressure to maintain optimal performance and safety.

- Regular maintenance checks, such as oil changes and brake inspections, are crucial for maintaining the Q60's performance and safety.

- The Q60's advanced safety features are designed to complement traditional safety measures, such as seat belts and airbags, to enhance overall safety and protect occupants in the vehicle.

- For more detailed information on availability, options, or accessories, please contact your Infiniti retailer or visit the Nissan North America website.
Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti’s flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1™, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula 1™ racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to three Formula 1™ Constructors’ World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1™ and Infiniti vehicles. This exchange of both technology and ideas now includes the appointment of 3-time Formula 1™ Drivers’ World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already aided in the development of the all-new Infiniti Q50—harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivaled passion that defines his greatness.
