©2015 INFINITI NORTH AMERICA. All rights reserved.
Give in to it. Be summoned by an audacious beauty that stirs something within. It will lead you to rewards that can only come from engineering and design that satisfy through your senses. In the redesigned Infiniti Q70, you’ll discover a different type of flagship luxury that elevates the tactile and celebrates power and dynamic movement. Trust your impulses. They’ve been waiting for the exceptional.
INTELLIGENT ALL-WHEEL DRIVE\textsuperscript{1} infinitely adjusts for better traction when you need it and more dynamic handling when you don’t.

INFINITI DIRECT RESPONSE HYBRID\textsuperscript{1} doesn’t require a compromise between efficiency and exhilaration. It pulses with 360 horsepower delivered with heart-pounding immediacy, while achieving up to 34 highway miles per gallon.\textsuperscript{2}

IT’S INSTANT

There’s energy in every moment. An electricity released by the fusion of power and intelligence that takes you farther and faster than either alone. Feel luxury invigorated, not merely accelerated.
INFINITI HARD DRIVE NAVIGATION offers a 3-D view and simple interface for increased ease and confidence, helping you find your location and your destination, even in crowded city settings.

ACTIVE NOISE CONTROL seeks to cancel out unwanted noise entering the cabin, so the only thing you hear is the song of performance.

IT’S DEVOTION

Within every movement is a commitment to inspire every moment. Our insatiable drive for an invigorated connection is revealed when your space is sanctuary and when your fingertips find tools to facilitate your journey. In motion, you will discover dedication.
PREDICTIVE FORWARD COLLISION WARNING\textsuperscript{1,4} scans ahead, even monitoring the vehicle that's ahead of the one in front of you, to help warn you of potential danger and give you a better chance to avoid a collision.

FORWARD EMERGENCY BRAKING\textsuperscript{5} adds another dimension of security in the Q70. It detects vehicles ahead in the traveling lane and applies the brakes to help minimize a collision and if possible, helps prevent one.
Order above chaos. Preparedness rises over the unexpected. When you are attuned to your environment, you will more confidently move through it.

BACKUP COLLISION INTERVENTION™ extends your awareness and your confidence. It scans the area behind your vehicle while in reverse and can warn you if it detects rear cross-traffic and large stationary objects. It can even brake for you to help you avoid them.

AROUND VIEW® MONITOR lets you see your surroundings as though from above for an extraordinary level of awareness.

BLIND SPOT INTERVENTION™ helps alert you to vehicles you may not see. If it detects a vehicle in your blind spot area, it warns you and can intervene to help you avoid a collision.
INFINITI CONTROLLER allows you to command your technology in the manner you find most intuitive. Through buttons, turning ring or touchscreen, it responds to you rather than you conforming to the system.

BOSE® STUDIO SURROUND® envelops you, creating depth and ambiance for a wider, more immersive sound. Music fills the cabin with soothing richness and thrilling intimacy.

CLIMATE-CONTROLLED SEATS® surround you in greater comfort by pushing cool or warm air through the front seats to keep you entirely in your preferred temperature zone. Arrive at your destination refreshed and relaxed.

INFINITI CONTROLLER allows you to command your technology in the manner you find most intuitive. Through buttons, turning ring or touchscreen, it responds to you rather than you conforming to the system.

Step out of the routine and reach new heights of potential. Step from the Infiniti Q70 and find you have been moved in new ways. In the richness you touch, the space that surrounds, the sounds that invigorate, you will discover true reward is the transformation of refinement into rejuvenation.
**AMBIANCE**

A welcoming and evocative space is measured by its ability to stir your emotions.

**MATCHLESS MATERIALS** The craftsmanship in an Infiniti Q70 is not limited to the exquisite ergonomics and trim. Your fingertips will seem to recognize an instinctively rewarding feel in the armrest and other surfaces. We took one-and-a-half years, surveying 360 people all over the world to quantify the most pleasing tactile feel. With tension and texture that match the depth and spacing of the ridges in your fingerprint, we’ve imbued the surfaces you’ll engage most with the perfect touch.

**FINER FABRICS** The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard fabrics. Not only is it more pleasing to the touch, but being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. No element is too small.

**ABUNDANT SPACE** The interior of the Q70 was designed to emphasize both the rewards of spaciousness and the feeling of space. It offers excellent head and hip room for all passengers. Interior elements like the roof and windshield pillars are shaped to give a more open feeling. Each seat is rewardingly supportive and even taller rear passengers will have comfortable legroom. What's more, a wide trunk opening gives you easy access to a spacious luggage compartment.

**AUDITORY INDULGENCE** Each of the 16 speakers of the Bose® Studio Surround® sound system is custom-tuned for the interior of the Infiniti Q70. Every speaker, including those mounted in the shoulders of the front seats, reproduces sound with legendary Bose® signal processing to create rich and realistic 5.1 surround sound imaging. The system also allows for a wide variety of media sources, including satellite radio, your personal iPod® and wireless streaming with a compatible Bluetooth®-enabled device.
Exceptional build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

3.5-LITER V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID®
The Infiniti Q70 Hybrid is the vehicle that redefined hybrid power. Combining a powerful V6 engine with a 50 kW electric motor gives the system a total 360 horsepower. But unlike many hybrids, it transitions from all-electric mode to full-power hybrid mode with thrilling intensity and organic responsiveness. All while achieving a surprising 34 highway mpg.

3.7-LITER V6 GASOLINE ENGINE® Its robust design, exceptional power-to-weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefiting from Variable Valve Event and Lift (VVEL®) technology, it adjusts on the fly to make the most of every breath and every bit of fuel, resulting in a stirring 330 horsepower while achieving up to 26 highway mpg.

5.6-LITER V8 WITH DIRECT INJECTION® The most formidable engine Infiniti has ever built, this powerful and responsive 5.6-liter V8 delivers a thrilling performance. It produces a stirring 420 horsepower and boasting 417 lb-ft of torque to produce a torrent of power that is delivered with the polish and precision to suit virtually any driving scenario you might encounter or excitement you might desire.

EFFICIENT INVIGORATION  No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid® are powerful enough to allow you to maintain cruising speed in all-electric mode. When not needed, the 3.5-liter V6 gasoline engine is turned off and completely disconnected, maximizing mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

CONTROL WITHOUT COMPROMISE  When conditions are ideal, Intelligent All-Wheel Drive® sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal.

MORE RESPONSIVE BRAKING  With ventilated discs and aluminum 4-piston opposed front calipers and 2-piston opposed rear calipers, the available Sport Brakes provide great stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.

THE SOUND OF PERFORMANCE  A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q70 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

UNRIVALED PERFORMANCE  Featuring a 1-motor, 2-clutch parallel hybrid powertrain, the masterfully engineered, high-speed motor control technology enables a seamless transition between the gasoline engine and electric motor—providing a smooth and responsive ride with thrilling acceleration that goes beyond what was thought possible from a hybrid.

LIGHT ON ITS FEET  These stunning 20-inch alloy wheels heighten both the looks and performance of the Q70. Lightweight, thanks to both material and design, they reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q70 more responsive and more nimble.

INNATELY RESPONSIVE BALANCE  The engineering philosophy behind Infiniti performance coupes and sedans, the Front-Midship Platform, also underlies the design of the spacious Q70. Placing the engine’s center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a corner. Experience precision and engagement you might expect from a sports car.
FULLY INTEGRATED SERVICE™ is a complete package of convenience services seamlessly integrated with your vehicle and your life. It offers a broad range of helpful assistance like Automatic Crash Notification (ACN), which alerts authorities in case of a collision, and Max Speed Alert. These services can be accessed through a variety of methods, including the Infiniti Connection™ app for compatible smartphones and the vehicle’s navigation system.

A SMARTER WAY TO SEE The Adaptive Front lighting System on the Q70 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see upcoming vehicles and pedestrians, and to help you reach your destination safely.

EXTEND YOUR AWARENESS Engage reverse and the RearView Monitor displays the area directly behind. Colored guidelines help give you an accurate sense of how close you are to objects behind, and they adjust as you turn, to show your path.

CRAFTING TRANQUILITY Active Noise Control ensures that the cabin of the Infiniti Q70 offers better solace from the outside world. Intelligent technology uses a microphone in the ceiling to identify undesirable low-frequency engine sounds and neutralizes them with sound waves of the opposite phase. The result is a quieter and more peaceful driving experience, which still preserves the more invigorating sounds of engine performance.

SECURING YOUR SPACE Distance Control Assist employs a sensor to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC Intelligent Cruise Control (Full-Speed Range) allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

ASSIST/ENTERTAIN The advanced technologies of Infiniti InSuite simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

ALL-AROUND AWARENESS: The Around View™ Monitor with Moving Object Detection and Front and Rear Sonar System give you exceptional awareness of your environment as you park. You’ll see a simulated 360° view from above, showing you clearly the objects detected around your car. And the system will even alert you to moving objects detected in your vicinity. It intuitively puts you in touch with your surroundings, while simultaneously putting you at ease.

A SMARTER WAY TO SEE: The Adaptive Front lighting System on the Q70 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see upcoming vehicles and pedestrians, and to help you reach your destination safely.

PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers when one occurs.

SENSES WHERE YOU CAN’T SEE

The Blind Spot Intervention® System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help you guide your vehicle back toward the center of your current driving lane.

MAINTAINING YOUR LANE

The Lane Departure Prevention System uses a camera to watch for departure from the traveling lane when you haven’t signaled, and audibly warns you if it’s detected. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It’s designed to assist, not override.

REVERSE WITH GREATER CONFIDENCE

Backup Collision Intervention employs an advanced set of sensors to help detect vehicles approaching from either side as you back up. If a vehicle is detected, the system alerts you—first, a warning light appears, then an audible alarm sounds, followed by gas pedal-force feedback. The system can even intervene by automatically engaging the brakes to help avoid a collision.

PREPARED TO HELP PROTECT

Forward Emergency Braking employs a system to analyze if deceleration is required. Once detected, the driver is alerted visually and audibly. The accelerator pedal is pushed up and the brakes are applied to help slow the vehicle down. If there is a possibility of a collision, harder braking is applied. If unavoidable, the system engages the brakes and tightens the driver’s seat belt to reduce speed and damage.

THE SUPPORT YOU NEED

In certain rear-end collisions, the Front-seat Active Head Restraints found on the Q70 can move forward to help cushion the head to help assist in reducing whiplash-type injuries.

STRONGER AND LIGHTER

Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

ENHANCED PROTECTION

Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.

ALWAYS LOOKING FOR DANGER

Predictive Forward Collision Warning can warn you of a possible collision, even when the cause is ahead of your forward field of vision. It uses radar to continuously monitor and analyze the relative velocity and distance of not only the vehicle directly ahead of you, but of the vehicle in front of that one as well. If the system detects a potential risk, it provides an alert and tightens the driver’s seat belt to help restrain you.

STRONGER AND LIGHTER

Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.
Outside, the extended curves of the Infiniti Q70L exude an even greater presence. Inside, its nearly 6 inches of added legroom reveals true devotion. For those who enter the rear seat, its rear door closure assist welcomes you in. Indulge in the extensive legroom and spacious cabin that offers you room that’s expansively yours. Heated seats and a reading light keep you company, while a rear sunshade also makes sure you’re always at your most comfortable.

Yet for the driver, the rewards of added rear space and refinements do not compromise the dynamic movement of the Infiniti Q70L. The length that has been added to the wheelbase helps maintain its poise and delivers an exceptionally smooth ride while maintaining the sharp responsiveness that makes driving exhilarating.

INFINITI Q70L
Fusing the invigoration of a performance luxury car with the exclusiveness of a sedan that offers increased rear legroom.
Hues that change in response to light and angle. Matching exterior and interior colors to reflect the distinctive energy and mood of the seasons. These are two ways Infiniti designs color to evoke feeling, express character, and shape the emotional essence of a vehicle.

Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors at your local Infiniti Retailer.
GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish. For more information and to shop online for Genuine Infiniti Accessories, go to parts.InfinitiUSA.com.

ACCESSORIES SHOWN Splash guards, 20-inch split 5-spoke aluminum-alloy wheels, rear decklid spoiler.

18-INCH ALLOY WHEELS Wherever you go, there’ll be no question to your sense of style and love of sporty design. These eye-catching wheels utilize lightweight alloy and original Infiniti logo center caps.

STAINLESS STEEL ILLUMINATED KICK PLATES Infiniti logo glows softly along the bottom of the front door sills—a signature flourish you and your passenger will appreciate every time you get in.

INTERIOR AMBIENT LIGHTING The warm and engaging glow welcomes you as you get settled. It adds ambiance to the interior and enhances its modern appeal.

SPASH GUARDS The color-matched splash guards reduce spray on lower body panels, while helping prevent nicks and scratches caused by road debris under most weather conditions.

TRUNK NET Durable and unobtrusive, it conveniently helps you organize your possessions in the trunk, and helps keep them safely in place.

ALL-SEASON FLOOR MATS Custom-made of durable and long-wearing material—they are designed to protect the interior footwell and capture dirt, sand and other debris while staying securely in place.

SAFETY FEATURES

Traction Control (TCS) 
Noisy exterior (in dB) 
40 dB (a) or less 
30 dB (a) or less 
50 dB (a) or less

Engine Oil Pressure 
Anomalies in engine oil pressure 
Deterioration in engine oil pressure

Front and Rear Brakes

Front and rear brakes have electronic brake force distribution (EBD) for optimal braking performance. 
Front and rear brake stability control systems are designed to help the driver maintain control of the vehicle in critical situations.

Forward Collision Avoidance (FCA) 
FCA can help detect and warn of potential collisions with other vehicles. 
Internally dependent algorithms may make it difficult to detect objects or vehicles under certain conditions.

Driver and front-passenger side-impact supplemental air bags 
Front-passenger's seat is empty, a sensor will deactivate the air bag.

ADAPTIVE CRUISE CONTROL

Adaptive cruise control automatically maintains your desired speed in traffic while keeping you a safe distance from the vehicle ahead. 
Adaptive cruise control can also slow or stop your vehicle when traffic stops. 

Accessories & Systems

Standard 
Available

Deluxe Touring Package

• Heated steering wheel
• Heated front seats
• Infiniti Studio Surround® Sound System
• Bluetooth phone system
• Bluetooth® audio player
• Navigation system
• 13.8 x 0.8-inch ventilated discs
• Aluminum 4-piston opposed front calipers
• 14.0 x 1.3-inch ventilated discs/2-piston opposed rear calipers with aluminum 4-piston opposed rear calipers
• Intelligent key with push-button start
• Wireless technology
• Panoramic roof w/ power shade
• Power liftgate
• Blind spot warning

Sport Package (Q70 5.6) Requires Technology Package. Not available with Deluxe Touring Package.

• Heated steering wheel
• Heated front seats
• Infiniti Studio Surround® Sound System
• Bluetooth phone system
• Bluetooth® audio player
• Navigation system
• 13.8 x 0.8-inch ventilated discs
• Aluminum 4-piston opposed front calipers
• 14.0 x 1.3-inch ventilated discs/2-piston opposed rear calipers with aluminum 4-piston opposed rear calipers
• Intelligent key with push-button start
• Wireless technology

• Power liftgate
• Blind spot warning

AWD Sport Package (Q70 3.7 AWD) with upgraded springs and double piston shock absorbers • Sport brakes with aluminum 4-piston opposed front calipers • 14.0 x 1.3-inch ventilated discs/2-piston opposed rear calipers with aluminum 4-piston opposed rear calipers • Infiniti Studio Surround® Sound System

AWD Sport Package (Q70 5.6 AWD) with upgraded springs and double piston shock absorbers • Sport brakes with aluminum 4-piston opposed front calipers • 14.0 x 1.3-inch ventilated discs/2-piston opposed rear calipers with aluminum 4-piston opposed rear calipers • Infiniti Studio Surround® Sound System

Small objects in the blind spot may not be detected. Always check the surroundings and use the mirrors before changing lanes.

tero

Driving is serious business. Only use Infiniti Connection and Infiniti Connection Plus services when safe to do so. Services, including automatic collision notification, may not be available in all areas or may not be able to determine the severity of some collisions. The accuracy of the vehicle’s speed and location information may be hindered by vehicle design, weather conditions, terrains, topographical features, traffic patterns, and other factors. The vehicle’s speed and location information is provided as an aid to the driver and is not a substitute for proper driving practices. To ensure proper administration of emergency services, always provide complete and accurate information to emergency personnel.

Free & Clear of Obstructions

MOD detects obstacles in the vehicle’s path before your vehicle makes contact with an object. MOD is designed to work best at speeds below 5 mph. Always check your surroundings before moving the vehicle. MOD is not a substitute for proper backing procedures. Always turn to check your surroundings and turn to look behind you before moving the vehicle. See Owner’s Manual for details.

The systems may not detect every object, and speed limitations apply. Always be alert and check your mirrors. BCI will not detect every object. Always check your surroundings and use your mirrors. BCI will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you.

ANCILLARY OPTIONS

Rear Entertainment System

• DVD player
• 12.3-inch touch-screen monitor

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti has now grown to include sedans, coupes, convertibles, crossovers and SUVs in its lineup and reaches across 50 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

Infiniti is drawn to Formula One racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula One, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led them to four Formula One Constructors’ World Championships in the last five years. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula One and Infiniti vehicles. This exchange of both technology and ideas includes input directly from our Formula One drivers—harnessing their supreme driving senses to ensure every future Infiniti vehicle is as dynamic as possible and ultimately, reinvigorating your drive.

PARTNERS IN THE INTENSE
The pulse races. Seconds split. Victories are won and lost. In Formula One, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.
