©2015 INFINITI QX50
X
2015
Take it in. A moment crafted just for you. The QX50 is an extension of self and an expression of style that rewards the senses as it caters to your comfort. A luxury crossover that at once merges alluring coupe design, welcoming touches and intuitive technology to celebrate the true you every time you drive.

A BREATHE
A surge of emotion that yearns for gratification. A momentum you can’t ignore. Be enticed to drive after your desires with a fluttering of lights and subtle movements shifting the cabin to your liking, and technology that puts you at ease. With surprising intimacy, the QX50 anticipates your desires and rises to meet them.

**WELCOME LIGHTING** elegantly draws you in to the driving experience. As you approach, a sequence of exterior then interior lights reward your presence. Walk away, and the sequence occurs in reverse. Celebrate every entrance.

**INFINITI INTELLIGENT KEY** sets up your vehicle to suit you without ever lifting a finger. When you push the ignition button, the seat, steering wheel and outside mirrors are automatically adjusted to your personal preferences. The ignition button will even illuminate to let you know it’s ready to please and to excite.

**AROUND VIEW® MONITOR** is a groundbreaking technology from Infiniti that gives you a virtual 360° view of your environment while parking. You see your surroundings as though from above for an extraordinary level of awareness.
INTELLIGENT CRUISE CONTROL™ automatically slows you down when traffic in front of you slows down, even to a crawl. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

DISTANCE CONTROL ASSIST™ employs a sensor to monitor the distance between you and the vehicle in front of you and helps maintain a safe following distance. From a warning to a gentle adjustment in the brakes or gas, it’s designed to assist, not to control.
Be transported by a new sense of awareness—of yourself, of your senses, of everything that surrounds you. Every mile moves you to a different place.

LANE DEPARTURE PREVENTION™ watches road markings with a camera and can subtly apply brakes to help keep your vehicle from unintentionally drifting from your lane. When you’re out on the road, surround yourself with confidence.

BLIND SPOT WARNING™ helps boost your confidence by using radar to watch carefully for danger where you can’t see. If it detects a vehicle in your blind spot area, it warns you to help you avoid a collision.

AN AWAKENING
A feeling of rejuvenation inspired by intimate gestures. Materials that beckon your touch, technology that empowers your movements and immerses you in every note of the moment define an environment that is profoundly welcoming.

**INFINITI HARD DRIVE NAVIGATION SYSTEM** offers a more intuitive view and interface for increased ease and confidence, helping you expertly find your location and your destination, even in crowded city settings.

**INFINITI VOICE RECOGNITION** allows you to set a destination on the navigation system, call a contact from your phone, play an audio track and much more while keeping your hands comfortably on the wheel. The system recognizes a wide variety of commands, making your life that much simpler and more elegant.

**BOSE® PREMIUM SOUND SYSTEM** brings 11 individual speakers to bear in its powerful array. Their positioning and sound delivery are precision-engineered specifically for the interior of the QX50 to filter out noise and distortion, and to surround you with rich auditory indulgence.
ADAPTIVE FRONT LIGHTING SYSTEM turns your headlights to shed light on where you’re steering, helping heighten visibility as you maneuver. The HID headlights of the QX50 do more than impress—they respond to your needs.

INTELLIGENT BRAKE ASSIST with Forward Collision Warning helps warn against a potential collision and can automatically apply your brakes to help reduce collision speed and impact. It’s a smart precaution in an unpredictable world.
OBJECT OF ATTRACTION
2015 INFINITI QX50
AMBIANCE
A welcoming and evocative space is measured by its ability to stir your emotions.

EVERY BREATH FRESHER AND CLEANER Even the invisible is never overlooked. The Advanced Climate Control System features the innovative Plasmacluster® air purifier, which actively cleans the air inside your cabin. It produces positive and negative ions that help prevent odors from sticking to interior materials and even helps suppress mold and viruses. Your interior not only stays fresh, so does your clothing. It works in concert with the Grape Polyphenol Filter, which removes up to 99.5% of allergens from the air coming in from the outside.

PLEASING TO THE EYES To an Infiniti designer, even a visual reward brings a tangible benefit. The soothing glow of the Fine Vision electroluminescent gauges has been thoughtfully enhanced to be not only brighter, but the contrast increases visibility and delivers information, even at a glance.

OPTICAL PERFECTION Where interior components meet—where the dash meets the door or the center console—they are assembled not to be mathematically perfect, but to look perfect. This requires an exacting manufacture process, tightening the space where dashboard meets door from 3mm to 2.4mm in order to achieve a seamless visual design from the driver’s point of view. But we believe in considering every angle in creating an emotionally transcendent environment.
THOUGHTFUL ACCOMMODATIONS In ways large and small, the personal touch is found throughout the Infiniti QX50, including the head-restraint-mounted retractable coat hanger. Located on the back of the driver’s seat, it provides a smart, innovative way to place dry cleaning or your jacket without blocking your view.

EMPOWERED VERSATILITY For transportation of oversized objects, either one or both of the rear seats fold down virtually flat. Optional are easily accessible buttons that power the seats back to their upright positions.

INVITING YOU IN We use light to not only make you feel more secure, but to make you feel like an honored guest. Welcome Lighting responds to your presence automatically by gently illuminating seven lights, including the puddle light and several interior lights, when you are three feet away from the driver’s side door with the Intelligent Key in your pocket. This choreographed sequence ends with the Start/Stop Button lighting up—inviting you to bring your QX50 to life and building anticipation for the road ahead.

DESIGN Simple yet effective design that evokes a deep emotional connection without sacrifice.

LIGHTS 7 3 FT
INNATELY RESPONSIVE BALANCE. The engineering philosophy behind Infiniti performance sedans, the Front-Midship Platform, also underlies the design of the QX50. Placing the engine’s center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a corner.

LIMITLESS RUSH. Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By tuning Infiniti engines to unleash torque that climbs a broader rev range, the force you feel seems to increase the faster you go—building like the rush of a continually rising wave, peaking ever higher. The emotional energy surges in tandem, making Swell feel like a limitless rush more than a momentary thrill.

3.7-LITER V6 ENGINE. is a potent blend of exciting response and intelligent efficiency. Benefiting from Variable Valve Event and Lift (VVEL)® technology, the engine adjusts on the fly to make the most of every bit of fuel and every breath it takes. The result is a stirring 322 horsepower that still manages to achieve up to 25 miles per gallon.

CONTROL WITHOUT COMPROMISE. When conditions are ideal, Intelligent All-Wheel Drive sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal.

AN INTELLIGENT CONNECTION. Vehicle-speed-sensitive steering smartly detects your speed to deliver just the right amount of control. At lower speeds, it delivers more power assist so you can adeptly maneuver in parking lots, and supplies less power assist at high speeds for a firmer, more controlled feel on the highway.

THE SOUND OF PERFORMANCE. A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the QX50 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

LIGHT ON ITS FEET. These stunning 19-inch alloy wheels heighten both the looks and performance of the QX50. Lightweight, thanks to both material and design, they reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the QX50 more nimble.

On its surface you’ll find spacious luxury. At its foundation—the thrilling dynamics of Infiniti Direct Response performance engineering.
SECURING YOUR SPACE Distance Control Assist\(^1\) employs a sensor to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

AUDITORY INDULGENCE Bose® Premium Sound system\(^1\) brings 11 individual speakers to bear in its powerful array, which add palpable depth to every form of music. Their positioning and sound delivery are precision-engineered specifically for the interior of the QX50 to filter out noise and distortion, and to surround you with compellingly rich and realistic sound.

PERSONALIZED COMFORT The dual occupant memory system\(^1\) allows each Infiniti Intelligent Key to store a custom profile for one individual driver. Preferred settings for the seat, steering column, and outside mirrors are automatically executed, depending on which key you possess.

EASE IN TRAFFIC Intelligent Cruise Control (Full-Speed Range)\(^1,13\) allows you to choose your desired speed and following distance, and automatically adjusts your speed in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

A BETTER VIEW OF YOUR WORLD Infiniti Hard Drive Navigation System is packed with advanced yet intuitive technology that makes it both more informative and easier to use. Birdview perspective control gives you a more natural view of the map, while 3-D building graphics make it easy to locate your destination in crowded urban surroundings. Also, you can simply speak your instructions to the system, thanks to full integration with Infiniti Voice Recognition.\(^1,7\)

A SMARTER WAY TO SEE The Adaptive Front lighting System\(^1\) on the QX50 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see upcoming vehicles and pedestrians, and to help you reach your destination safely.

ALL-AROUND AWARENESS The Around View\(^\circledast\) Monitor\(^1\) with Front and Rear Sonar System\(^1,12\) gives you exceptional awareness of your environment as you park. You’ll see a simulated 360° view from above, showing you clearly the detected objects around your car. It intuitively puts you in total control, while simultaneously putting you at ease.

ASSIST/ENTERTAIN

Infiniti InSuite\(^\text{™}\) integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.
PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

BETTER STABILITY WHILE STOPPING Electronic Brake force Distribution adjusts the amount of brake force applied to the front and rear wheels for improved braking performance. It not only helps the brakes wear more evenly, it reduces front-end “dive” during heavy braking, increasing your directional stability and ability to control the vehicle. The system also detects vehicle-load conditions, and distributes additional brake pressure to the rear brakes as needed.

ALWAYS LOOKING FOR DANGER Intelligent Brake Assist* with Forward Collision Warning* uses a sensor to continuously monitor and analyze your closing speed to the vehicle ahead of you, to help detect an imminent collision. It provides a warning to alert the driver as the vehicle moves towards impact and—if needed—can automatically engage the brakes to help reduce the impact speed.

HELPING YOU STAY IN CONTROL Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control® adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System senses wheelspin and automatically helps give you a sure foothold.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-seat Active Head Restraints found on the QX50 can move forward to help cushion the head to help assist in reducing whiplash-type injuries.

ENHANCED PROTECTION Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags®.

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

MAINTAINING YOUR LANE The Lane Departure Prevention System® uses a camera to watch for departure from the traveling lane when you haven’t signaled, and audibly warns you if it’s detected. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It’s designed to assist, not override.
Hues that change in response to light and angle. Matching exterior and interior colors to reflect the distinctive energy and mood of the seasons. These are two ways Infiniti designs color to evoke feeling, express character, and shape the emotional essence of a vehicle.
GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish. For more information and to shop online for Genuine Infiniti Accessories, go to parts.InfinitiUSA.com.

ACCESSORIES SHOWN: Roof rail crossbars, moonroof wind deflector, hood protector and splash guards.

STAINLESS STEEL REAR BUMPER PROTECTOR: Protect your bumper from dings and scratches while enhancing the appearance of your vehicle. Its stainless steel finish offers both a sophisticated appearance and durable wear.

STAINLESS STEEL ILLUMINATED KICK PLATES: The Infiniti logo glows softly along the bottom of front door sills—a signature flourish you and your passenger will appreciate every time you get in.

VEHICLE COVER: Designed to fit around the curves of your QX50, it helps protect against UV rays, acid rain and other airborne contaminants while softly shielding the finish of your vehicle.

CARPETED FLOOR MATS: Sophisticated design and luxurious materials make these floor mats a perfect match for the interior of your Infiniti QX50. An elegant emblem is precision-embroidered with the model name.

REAR CARGO COVER: Keep your valuables safe and out of sight with this retractable cover. It’s easy to install and even easier to operate.

CARGO AREA PROTECTOR: This versatile accessory is constructed of durable and flexible material, and helps keep your packages and other items from moving around while driving. Plus, it helps keep your cargo area clean and protected from scratches and damage.

**SPECIFICATIONS**

**Engine**
- VQ37VHR 3.7 (370Z Turbo) for FWD, aluminum alloy block and heads
- VQ37VHR 3.7 (370Z Turbo) for AWD, aluminum alloy block and heads

**Valve**
- Dual-stage variable compression (DVC), 2 valves per cylinder with reciprocating camshafts. Cam-loc variable Valve Timing (VVT) for smoother engine operation.

**Transmission**
- 7-speed automatic with Adaptive Shift Control. Manual shift mode offers sequentially selectable manual gearshifts and standard linear Balancing

**Suspension**
- Independent, multi-link with coil springs over shock absorbers, stabilizer bar
- Independent, double-wishbone with coil springs over shock absorbers, stabilizer bar

**Brakes**
- 13/12 x 1.3-inch ventilated discs/12.1 x 0.6-inch discs; 4-wheel, 4-channel ABS
- Dual exhaust with polished finishers
- Rear doors open a full 80 degrees for easier rear-seat entry and exit
- Rear window intermittent wiper
- Speed-sensitive flat-blade front windshield wipers
- Outside mirrors with reverse tilt-down feature

**Exterior**
- Leather-wrapped steering wheel and shift knob
- Maple interior accents
- Power up-folding second-row seats
- 60/40-split folding rear seatbacks
- Heated front seats
- Dual-occupant memory system for driver’s seat, steering wheel and outside mirrors, linked to individual Intelligent Keys
- 8-way power front-passenger’s seat
- 4-way power front-passenger’s seat

**Interior**
- Leather-appointed seating
- Cargo net tie-down anchors in cargo area
- Dual front and rear cup holders
- Overhead sunglasses storage
- Sequential welcome lighting illuminated entry system and overhead ambient light
- Retained accessory power for windows and moonroof (if equipped)

**Technology**
- Intelligent All-Wheel Drive (AWD)
- Snow mode helps driver control throttle response, gearshifts and Downshift Rev Matching
- Electronically controlled 7-speed automatic with Adaptive Shift Control

**Fuel Economy**
- 20/25 city/hwy for FWD, 19/25 city/hwy for AWD

**Intelligent Key**
- Intelligent Keyless Ignition
- Remote trunk release
- Automatic on/off headlights

**Infotainment and climate controls**
- Streaming audio via Bluetooth
- Speed-sensitive volume control
- CD/MP3/USB/iPod/auxiliary input and HD radio
- Bluetooth

**Audio and Entertainment System**
- Infiniti Controller for audio, climate control, fuel economy, maintenance, and comfort and convenience features
- Bluetooth

**Driver Assistance**
- 360-degree Surround View Monitor
- Around View Monitor with Front and Rear Sonar System
- Rear window defroster with indicator light and timer
- Rear-seat heating and cooling vents in center console and ducts under front seats

**Premium Sound System**
- Premium Sound System includes 11 speakers: two woofers, two midrange speakers, three tweeters, and a subwoofer on the rear deck

**Standard Features**
- Standard 11-speaker Premium Sound system, including AM/FM/CD/DVD with MP3 playback capability, Radio Data System (RDS) and speed-dependent volume control
- Bluetooth
- Radio and Bluetooth Streaming System
- SiriusXM® Satellite Radio

**DELUXE TOURING PACKAGE**
- Deluxe Touring Package

**JOURNEY**
- Journey

**JOURNEY (AWD)**
- Journey (AWD)
Remote keyless entry system with selective unlocking of driver's door or all doors

Slide-away brake pedal assembly

Intelligent Brake Assist (IBA). This available active safety feature continuously monitors and analyzes closing speeds to a vehicle. Designed to use limited braking. Failure to apply the brakes could result in an accident.

Forward Collision Warning (FCW). Using the QX50’s laser sensors, this available feature helps alert the driver of an imminent collision danger.

Blind Spot Warning (BSW) helps alert the driver to a vehicle detected in the blind spot area.

Brake Assist (BA)

Roof-mounted curtain side-impact supplemental air bags for front and rear-seat outboard occupant head protection

If the driver is detected to be seated without using the seat belt, the seat belt retractor is automatically activated to tighten the belt. This will apply a slight pulling force to the belt to be sure that the seat belt is properly seated. If the seat belt remains loose, the seat belt retractor will continue to apply a small pulling force to reduce the slack in the belt. The retractor will continue to operate until the seat belt is properly seated or the activation force is no longer needed.

If the front-passenger’s seat is empty, a sensor will deactivate the air bag in the event of a frontal collision due to the passenger side air bag module configuration that can cause injury to a unoccupied front passenger. Air bag inflation rate is adjusted depending on crash severity and seat belt usage. If the front passenger’s seat is occupied, the front-passenger’s seat belt retractor is activated only after the front passenger air bag module is deployed.

Air bag deployment and inflation rates are designed to minimize the risk of injuries to the passenger. Air bag inflation rate is adjusted depending on crash severity and seat belt usage. If the front passenger’s seat is occupied, the front-passenger’s seat belt retractor is activated only after the front passenger air bag module is deployed.

After the vehicle has been turned off, the horn and a reminder chime will sound if the driver’s seat belt is not buckled, and the “Please Buckle Seat Belt” message on the instrument panel display will appear if the driver’s seat belt is not buckled during the first 5 seconds of the “On” cycle. The horn and seat belt reminder chime are turned off if the driver’s seat belt buckle is engaged or the switch is pressed.

1.9 to 2.1 inches

Rear seat is not available in Journey (J)-AWD models.

The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or objects.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti has now grown to include sedans, coupes, convertibles, crossovers and SUVs in its lineup and reaches across 50 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula One, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track. Infiniti is drawn to Formula One racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula One, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to four Formula One Constructors’ World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula One and Infiniti vehicles. This exchange of both technology and ideas now includes the appointment of 4-time Formula One Drivers’ World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already aided in the development of the Infiniti Q50—harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the unrivaled skill and dedication that has led to his many achievements. Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine.
