EMPOWER THE DRIVE

For those who dare to define themselves beyond the usual measures, there’s INFINITI—a spirit of daring that challenges the limits of what’s possible. See this take shape on the QX60, where world-class versatility and INFINITI world’s first technologies beckon with untold possibilities. Begin by crafting your QX60 for your personal journey. Every selection is designed to move, inspire and empower the drive.

CREATE A BOLD PRESENCE

Refined to stand out, the QX60 makes a dramatic statement. Prominent front and rear fascias, LED taillights and signature design cues like the INFINITI crescent-cut D-pillar and double-arch grille push styling to new heights. Confidence is further elevated with available 20-inch alloy wheels that raise its athletic stance while improving handling.1

UNITE POWER WITH CONTROL

Experience performance that’s in tune with the road. An impressive 3.5-liter V6 engine with 295-hp and direct injection technology helps increase power and torque while retaining smoothness. When road conditions change, Intelligent All-Wheel Drive1 responds by sending 50% of power to the rear wheels to enhance available traction.

**ADD DISTINCTION**

How will your Q60 come to life? Crafted as a 2-passenger premium crossover, it elegantly accommodates today’s possibilities. Personalize an interior as forward-thinking as you. Tailor a space that adapts to you and your surroundings. Command a suite of technologies that amplify your abilities as a driver, enabling you and your passengers to move forward with a new level of ease.

**ENTERTAIN ON THE GO**

- With the Theatre Package: rear passengers can watch their favorite movies on large, dual 8-inch headrest monitors — or plug their favorite game console into the HDMI port and expand the entertainment options. Even those sitting in the front can enjoy their own music, separate from what’s going on behind them.

**RESHAPE VERSATILITY**

- Pioneered in the INFINITI Q60, a second row that lifts and slides without requiring you to remove a child’s seat革命izes entry and exit. If your next rear passengers need extra space, the second-row can slide back for an extra 5.6 inches of legroom. Opt for the Sensory and ProACTIVE Packages** and you’re a step closer to ultimate freedom and convenience — especially with the Motion Activated Liftgate** that automatically opens with a swing of your foot under the rear bumper.

**SEE EVERY SIDE**

- Gain a new perspective on what’s around you with the Essential Package. An INFINITI world’s first technology, the Around View® Monitor with Moving Object Detection** and Front and Rear Sonar System** help you see and maneuver in tight spaces. Four cameras and one virtual composite 360° view from above elevate your parking expertise.

**BACKUP WITH CONFIDENCE**

- Extend your awareness when you select either the ProASSIST or ProACTIVE Package. Another INFINITI world’s first technology, Backup Collision Intervention** alerts you to crossing traffic and large stationary objects detected when backing up. The system can even brakes before you do to help avoid a collision. On the road, you have the ability to sense beyond what you can see with Blind Spot Intervention**, an INFINITI world’s first, that uses rear radar sensors to help detect cars in your blind spot area and can intervene to help avoid a collision.

**ENHANCE YOUR CAPABILITIES**

- Gain a new perspective on what’s going on behind them.

**Dramatization**

- Pioneered in the INFINITI Q60, a second-row that tilts and slides without requiring you to remove a child’s seat revolutionizes entry and exit. If your next rear passengers need extra space, the second-row can slide back for an extra 5.6 inches of legroom. Opt for the Sensory and ProACTIVE Packages and you’re a step closer to ultimate freedom and convenience — especially with the Motion Activated Liftgate that automatically opens with a swing of your foot under the rear bumper.
