NEW JAGUAR E-PACE
2018

THE ART OF PERFORMANCE
Every day we push performance to its limit. Our performance. Our vehicles’ performance. We innovate, we engineer, we design. We master rules and then break them. Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

THE ART OF PERFORMANCE
THE NEW JAGUAR E-PACE

The new E-PACE is Jaguar’s first compact SUV. With a driver-focused cockpit sitting at the heart of a family-focused interior, the new E-PACE takes the rewarding Jaguar driving experience and adds everyday practicality. There’s never been a compact SUV like this before.

VEHICLE SHOWN LEFT: E-PACE FIRST EDITION IN CALDERA RED
VEHICLES SHOWN ARE FROM THE JAGUAR GLOBAL RANGE. SPECIFICATIONS, OPTIONS AND AVAILABILITY WILL VARY BETWEEN MARKETS AND SHOULD BE VERIFIED WITH YOUR LOCAL JAGUAR RETAILER.
INTRODUCING THE NEW JAGUAR E-PACE

With its sculpted hood and muscular rear haunches, the new E-PACE is a dynamic, agile SUV with the lines of a coupe. The modern interior is distinctly Jaguar with significant interior storage space. It also features our advanced suite of infotainment and driver technologies. The new E-PACE is the compact SUV as only Jaguar could have imagined it.

FIT YOUR LIFE INSIDE

The E-PACE has plenty of space for everything you need. With deep center console storage space and sculpted door bins, the E-PACE is highly versatile. For simple practical loading, the E-PACE cargo space adds up to 4.3 feet wide, while the optional powered gesture liftgate lets you open the truck tailgate hands-free. Making it easy to enjoy your favorite activities – from cycling to swimming – the wide and waterproof optional Activity Key allows you to keep your car key stored securely in the car. Even when you’re heading off on a weekend away, you can take everything you need thanks to the E-PACE towing capacity of up to 3,968 lbs. See pages 34-39 for details.

PERFORMANCE TECHNOLOGY

Jaguar’s world-renowned performance technology helps you take everything in your stride. To give you more confidence and improved performance across an even wider range of conditions, our intuitive All-Wheel Drive system transfers torque between the front and rear wheels as driving conditions dictate. For increased agility, Active Driveline allows 100 percent of rear axle torque to be distributed to the outside rear wheel when cornering. Delivering enhanced dynamics and refinement, the E-PACE has a fully independent suspension system with a sophisticated multi-link rear suspension design while Torque Vectoring by Braking is designed to deliver sharper turning and more consistent road holding.

CONNECTED ON THE GO

The E-PACE offers a range of features to make your life more connected on your trips, to ensure you and your passengers are linked to the world outside. Making it easy to use apps from your phone on the Touchscreen, the Smartphone Package is available as an option. With up to five USB sockets in the car, it’s simple for every occupant to keep devices fully charged. See pages 22-23 for details.

DRIVER ASSISTANCE

Providing reassurance and information, standard driver assistance features include Lane Keep Assist, Driver Condition Monitor, Rear View Camera and Front and Rear Parking Aids. For additional assistance, the E-PACE offers a wealth of optional systems including Blind Spot Assist and Surround Camera System. Helping to distinguish objects more easily, LED headlights produce a highly focused beam with a higher quality of light. See pages 22-23 and 30-32 for details.

HEAD-TURNING GOOD LOOKS

For a striking on road presence, sleek LED headlights and signature LED rear lights are standard. To enhance the E-PACE appearance even further, 20” alloy wheels are also available as an option. The style extends to the driver-focused interior, which features premium quality materials. See pages 12-13 for details.

*This feature is not a substitute for safe and attentive driving, nor can it overcome all extreme circumstances. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

**These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

†Always obey local speed limits.

**Ingenium Engines: A choice of two gas Ingenium engines deliver refined and responsive driving. Engines include the 2.0 liter 4-cylinder 246HP All Wheel Drive (AWD) Turbocharged Gas. For increased performance, there’s the 2.0 liter 4-cylinder 296HP All Wheel Drive (AWD) Turbocharged Gas that can reach a top speed of 152 mph with 0-60 mph acceleration in 5.9 seconds. See pages 12-13 for details.
The Jaguar E-PACE looks unmistakably sporty, with its bold honeycomb mesh grille framed by LED headlights with signature 'J' blades. The dynamic roofline blends with a spoiler that sits over a steeply raked rear window to give the E-PACE a distinctive profile and the lines of a coupe. For convenience with a touch of style, puddle lights in the door mirrors illuminate the ground with an eye-catching Jaguar and cub design – adding a sense of occasion each time you unlock the vehicle. Optional 21” alloy wheels further underscore the sporting character of the E-PACE. At the rear, full LED tail lights provide a truly distinctive, night time signature. Muscular haunches give an assertive stance, and the wide tailgate has been designed to allow easy access to the large and versatile cargo space.

*Standard on S, SE and HSE Specification Packages.  
*Standard on HSE Specification Package.  

VEHICLE SHOWN: E-PACE S IN BORASCO GREY WITH OPTIONAL EQUIPMENT
In the E-PACE every component you can see and touch has been meticulously designed to deliver a refined, tactile experience. The cockpit wraps around the driver, and the SportShift Selector sits at your fingertips. A 3-spoke leather steering wheel incorporates key controls for ease of use. To enhance the sportier feel, the R-Dynamic steering wheel features Satin Black gearshift paddles.

It’s the little design details that give the E-PACE its unique character, like the exclusive Jaguar and cub design hidden in the corner of the front windshield. There’s also a subtle Jaguar print in the glovebox and the center console. Complementing this, HSE models also feature beautifully detailed animal print seat labels.

The interior rear view mirror has a frameless design. There’s a front passenger grab handle on the side of the console. Choose the optional fixed panoramic glass roof and flood the E-PACE interior with light enhancing the airy, spacious feeling. Bringing the outside in, it gives everyone superb views of the sky.
PERFORMANCE

INGENIUM ENGINES

From power and sheer driving pleasure to refinement, there is a choice of two Ingenium gas engines available for the Jaguar E-PACE. Both engines are equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from braking to charge the battery for maximum economy, especially during city driving. These low friction, all-aluminum engines have stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration, for smooth day-to-day performance. Intelligent, electronically controlled, adaptive engine cooling only engages when required - helping minimize fuel consumption and CO₂ emissions.

TRANSMISSION

To ensure that you are in the optimum gear maximizing fuel efficiency and acceleration, the Jaguar E-PACE 9-speed Automatic Transmission has nine closely spaced ratios. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style.

ENGINES

The intelligent Continuously Variable Valve Lift (CVVL) system varies the extent to which inlet valves are opened, reducing engine pumping losses. This lets the engine 'breathe' with maximum efficiency, optimizing power and torque. CVVL, works in combination with dual independent Variable Cam Timing (VCT) for ultimate operating flexibility, significantly reducing turbo lag and improving engine response.

P250 AWD
2.0L | 4-Cylinder | Turbocharged
246HP | 269 lb-ft
Optimized for driveability.

P300 AWD
2.0L | 4-Cylinder | Turbocharged
296HP | 295 lb-ft
Optimized for top of the range performance.

- Featuring upgrades to the boosting system, it builds on the architecture of the 2.0 liter 4-cylinder 246HP Turbocharged Gas engine.
- The uprated turbocharger features a high flow compressor wheel delivering 26 percent more air, enabling a higher peak power output.
- The twin-scroll turbocharger features ceramic ball-bearings which reduce friction and improves transient response.
- The two-ward turbo-charger features ceramic ball-bearings which reduce friction and improves transient response.
TORQUE VECTORING BY BRAKING APPLIES BRAKE PRESSURE TO SLOW THE INSIDE FRONT AND INSIDE REAR WHEELS INDEPENDENTLY REDUCING UNDERSTEER
LOW TRACTION LAUNCH DYNAMIC MODE AND CONFIGURABLE DYNAMICS

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

ALL WHEEL DRIVE
For performance across an even wider range of conditions, the All Wheel Drive (AWD) system intelligently controls torque distribution between front and rear axle via an electronically controlled multi-plate clutch, which is located in front of the rear differential. Drive torque is distributed across the front and rear axle to fully utilize the available traction from all four tires. On slippery surfaces, such as wet grass and snow, torque can be balanced between the front and rear wheels to enhance traction. In extreme conditions where only the front or rear wheels have traction, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip. The AWD system combines with Electronic Traction Control (ETC) to deliver a sure footed driving experience in even the most challenging situations.*

ACTIVE DRIVELINE
Active Driveline technology is designed to deliver even greater levels of traction, stability and composure in challenging conditions. While the system is able to fully disconnect drive to the rear wheels in relaxed driving conditions to improve efficiency, Active Driveline can maximally engage both axles to the rear of the car within 300 milliseconds when the requirements for AWD are met. Drive torque is distributed across the front and rear axle to fully utilize the available traction from all four tires. On slippery surfaces, such as wet grass and snow, torque can be balanced between the front and rear wheels to enhance traction. In extreme conditions where only the front or rear wheels have traction, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip. The AWD system combines with Electronic Traction Control (ETC) to deliver a sure footed driving experience in even the most challenging situations.*

ACTIVE DRIVELINE also optimizes traction and agility and provides rear-wheel drive handling characteristics by allowing up to 100 percent of rear axle drive torque to be distributed to either rear wheels according to available grip. The hydraulically controlled multi-plate wet clutches, act upon both the rear drive shafts. The clutches are independently controlled and supply optimal torque to each rear wheel based on measuring wheel speeds, throttle position, steering angle and vehicle rotation. So you always feel in control, a dedicated display on the Touchscreen lets you know what’s happening.

ALL SURFACE PROGRESS CONTROL
All Surface Progress Control (ASPC) is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces such as mud, wet grass, snow and 4x4 roads. Operating like a conventional cruise control system, it functions between 2.2 mph and 18.6 mph, enabling you to maintain full concentration on the road ahead.

LOW TRACTION LAUNCH
Providing you with optimum torque control when you start from a standstill, Low Traction Launch enhances capability in slippery conditions like wet grass and snow. The system remains active until the car reaches 18.6 mph - then the E-PACE seamlessly blends back into the selected driver mode.

CHASSIS AND DYNAMICS
The chassis of the Evoque has been developed to deliver agile and refined on-road dynamics. Aluminum chassis components are used to improve suspension performance by increasing stiffness and reducing unsprung mass. To increase ride comfort the Evoque has a fully independent suspension system with a multi-link rear suspension design. Reducing understeer and delivering increased agility through even the tightest corner, Torque Vectoring by Braking is designed to provide controlled independent braking on the individual inside front and rear wheels.*
Delivering a wealth of information and entertainment, every E-PACE is equipped with our Jaguar InControl® infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their trip*.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. **Driving while distracted can result in loss of vehicle control.

Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so.

†These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

1Included within HSE Specification Package.

INTERIOR SHOWN LEFT: E-PACE S WITH OPTIONAL LIGHT OYSTER WINDSOR LEATHER SEATS WITH EBONY/LIGHT OYSTER INTERIOR AND LIGHT OYSTER HEADLINING

TOUCH PRO
The standard 10” Touchscreen at the heart of the center console supports swipe and pinch gestures and delivers our richest ever audio-visual entertainment. To ensure an intuitive user experience, various control configurations are available. Head-up Display is also made easy thanks to the innovative Side View, On 5, SE and HSE models, Touch Pro is further enhanced by Navigation Pro, Pro Services and Wi-Fi Hotspot.

HEAD-UP DISPLAY
Maximizing distractions and the need to take your eyes off the road, Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information at a glance. It can display important information from Touch Pro including phone and media information such as the name of the track you might be listening to. The feature can be turned on and off dependent on driver preference.

INTERACTIVE DRIVER DISPLAY
The optional 12.3” high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and driver assistance data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin graphics. To help you find your way more easily, Navigation Pro enables you to display fullscreen navigation with 3D mapping**.

**3D mapping not available in all regions.

BUILD YOUR OWN
INTRODUCTION DESIGN PERFORMANCE TECHNOLOGY DRIVER ASSISTANCE PRACTICALITY THE WORLD OF JAGUAR
**CONNECTIVITY**

Jaguar InControl® is our suite of standard and optional features that connects you to your vehicle and links you seamlessly with the outside world. There are a range of packages and options available to choose from.

With a selection of apps, even when you’re away from your car, some of the InControl features stay with you, making sure the Jaguar experience is more enjoyable than ever.

Go to jaguarusa.com/incontrol to activate your account.

**STANDARD FEATURES**

**PINPOINT TOUCH CONTROL**

Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom and swipe.

**PERSONALIZED HOMEPAGE**

You can set up your homescreens the way you want them. With over 60 shortcuts and widgets, you can customize your system around the features you use most.

**INTERACTIVE SIDE PANEL**

A choice of side panels means you can multi-task. For example, your main screen area can be used for navigation, while the side panel provides phone controls. Simply swipe up and down to switch between multiple panels.

**MULTIMEDIA**

Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre. Create a list of songs you want to play and add to the line up at any time.

**ENHANCED PHONE INTERFACE**

Making it easier, you can call a favorite contact with a single touch. Additional functionality includes direct access to voicemail, conference calling and homescreen integration.

**VOICE RECOGNITION SYSTEM**

So you can complete tasks without taking your eyes off the road, the E-PACE offers intelligent voice recognition. For example, ‘Tune to 97.9’ or ‘Call home’.

**CONNECTIVITY**

Jaguar InControl® is our suite of standard and optional features that connects you to your vehicle and links you seamlessly with the outside world. There are a range of packages and options available to choose from.

With a selection of apps, even when you’re away from your car, some of the InControl features stay with you, making sure the Jaguar experience is more enjoyable than ever.

Go to jaguarusa.com/incontrol to activate your account.

**REMOTE**

Remote provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:

- Remote Lock/Unlock – Lock or unlock your doors remotely. Simply press the ‘lock’ button on the Vehicle Security screen of the Remote smartphone app to single lock the doors and fold in the side mirrors. Press the ‘unlock’ button to open your vehicle, unfold the side mirrors, turn on the dipped headlights and cause the hazard lights to flash twice to help you locate your vehicle.
- Remote Climate – Prepare your E-PACE in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
- Beep/Flash – This feature turns on your Jaguar’s hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle.

**JOURNEYS**

The JOURNEYS feature can automatically record your trip history including your route and mileage statistics. The information can be exported by email to use for expense reporting and can be imported to a spreadsheet.

**VEHICLE STATUS CHECK**

Check current fuel level and range, and status of door and window position and locks. See the test parked location of the vehicle and find your way back to it with on-foot directions.

**Jaguar Optimized Assistance**

You can make a direct call to the Jaguar Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

**SOS Emergency Call**

Emergency services will be automatically notified if the airbags are deployed in an accident.
ensuring you and your passengers enjoy the journey while remaining connected.

**PRO SERVICES**

- Planning Routes and Door-to-Door Routing – Before setting off, use the Route Planner app or online to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen.
- Online Search – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- Real Time Traffic Information – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- Parking Service – As you approach your destination, you can see where parking is available. Simply tap on the parking and the navigation system updates to direct you to it.
- Fuel Prices – When you’re going to fill up, the Fuel Price service not only finds gas stations along your route, it also enables you to compare fuel prices so you can keep your costs down.
- Commute Mode – Allows the system to learn your commutes and automatically advise you of the quickest route.
- Share ETA – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you’re running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- Commute Route – Auto finds a route when you set off to work and then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

**OPTIONAL FEATURES**

- Satellite View – When you want to get the context of your surroundings from overhead, simply switch to satellite view.
- Green 4G Wi-Fi1 – The 4G Wi-Fi hotspot provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle’s wireless network to surf, work, update social media and stay entertained throughout the trip.
- Bluetooth Music Streaming2 – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.
- Spotify3 – Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.

**NAVIGATION PRO**

Standard on S, SE and HSE Navigation Pro allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro functionality is further enhanced by the Connect Pro Package.

**CONNECT PRO PACKAGE**

Connect Pro, which is included with Navigation Pro, consists of a 4G Wi-Fi hotspot and Pro Services. It’s designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world.

4G Wi-Fi1

The 4G Wi-Fi hotspot provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle’s wireless network to surf, work, update social media and stay entertained throughout the trip.

**PRO SERVICES**

- Planning Routes and Door-to-Door Routing – Before setting off, use the Route Planner app or online to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen.
- Online Search – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- Real Time Traffic Information – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- Parking Service – As you approach your destination, you can see where parking is available. Simply tap on the parking and the navigation system updates to direct you to it.
- Fuel Prices – When you’re going to fill up, the Fuel Price service not only finds gas stations along your route, it also enables you to compare fuel prices so you can keep your costs down.
- Commute Mode – Allows the system to learn your commutes and automatically advise you of the quickest route.
- Share ETA – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you’re running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- Satellite View – When you want to get the context of your surroundings from overhead, simply switch to satellite view.
- Commute Route – Auto finds a route when you set off to work and then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

**SMARTPHONE PACKAGE**

By screen sharing with the E-PACE Infotainment system, the optional Smartphone Package helps you stay connected to your smartphone even while in the car. Featuring Jaguar InControl Apps technology, the Smartphone Package allows vehicle-optimized apps on your Android™ or Apple® smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable. You can also download third-party apps offering a vast range of services. Applications include:

- Spotify® – Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.
- Tile® – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.
- Google Maps® – Letting you navigate from the comfort of your smartphone, this genuine third-party navigation system allows you to follow driving directions, search your destination and then advises which of those is the quickest.
- Parking Information – Displays parking availability in your vicinity.

**INTRODUCTION DESIGN  PERFORMANCE TECHNOLOGY DRIVER ASSISTANCE PRACTICALITY THE WORLD OF JAGUAR**

**CONTENTS**

- PERSONALIZATION
- LOCATE A RETAILER
- BUILD YOUR OWN
A vehicle’s cabin is the ideal place within which to experience your personal choice of music and the Jaguar E-PACE has the option of three different audio systems to bring your music to life.

**JAGUAR SOUND SYSTEM**
Excellent acoustic range through six speakers.

**MERIDIAN™ SOUND SYSTEM**
Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 11 speakers including a dual channel subwoofer.

**MERIDIAN SURROUND SOUND SYSTEM**
All the fullness and clarity of a live performance delivered through an arrangement of 15 front, side and rear speakers including a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for all passengers in the vehicle.

Meridian is formed in 1977 in Cambridgeshire, England, Jaguar’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that the Jaguar E-PACE is one of the most soundscape-pleasing cars. Meridian Cabin Correction technology was utilized to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

**DIGITAL SIGNAL PROCESSING**
Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

**MERIDIAN CABIN CORRECTION**
The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of the E-PACE interior.

**MERIDIAN DIGITAL DITHER SHAPING**
To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

**TRIFIELD**
Exclusive to Meridian, Trifield blends the center and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

**UNIQUE MERIDIAN TECHNOLOGY SPEAKERS WATTS**

*Features and their availability may differ by vehicle specification.*
**DRIVER ASSISTANCE**

**MAKING DRIVING EASIER**

From regulating city traffic or the highway, to providing additional assistance for you and your passengers, there’s a wealth of innovative technologies available, either as standard, optional or as part of an optional package. Whatever you choose, you’ll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

*Search ‘Jaguar 8-PAGE Driver Assistance’ for more details.*

**STANDARD FEATURES**

- **Emergency Braking**
  *(see page 26)*

- **Lane Keep Assist** is designed to detect when your vehicle is unintentionally drifting out of your lane, and gently steer you back.*

- **Driver Condition Monitor** is designed to detect if you’re starting to feel drowsy and to give you an early warning if you need to take a break.*

- **Cruise Control and Speed Limiter**

- **Rear View Camera**

**DRIVE PACKAGE**

Making your drive easier. The Drive Package includes:

**Adaptive Cruise Control with Sway Assist** is designed to keep your vehicle a set distance from the one in front should you or any other vehicle suddenly accelerate in low-moving traffic. Should you suddenly accelerate and the vehicle in front accelerates, your vehicle will automatically reduce its speed to keep your vehicle a set distance from the one in front. You will maintain your set distance when you slow or stop when the vehicle in front slows or stops.

**High-speed Emergency Braking** is designed to detect if a potential collision is imminent with a pedestrian or a vehicle. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. Once the traffic moves, simply touch the accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist is also designed to slow your vehicle to a stop if an object or another vehicle is detected.

**Adaptive Cruise Control with Queue Assist** makes parallel and perpendicular parking easier than ever. Park Assist enables you to park and maneuver more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles. It features:

- **Rear Traffic Monitor**
- **Blind Spot Assist**
- **Rear View Monitor**
- **360° Surround Camera**

**OPTIONAL FEATURE**

**360° Surround Camera** adds four digital cameras around the vehicle to help give you a clear, comprehensive view of the vehicle. As you park, the touchscreen display and audio feedback indicate how close you are to obstacles.*

*These features are not a substitute for driving safely and are not intended to replace the usual, expected and essential attentiveness, ability and control exercised by a responsible, attentive driver. They are intended to help the driver in situations where he may need assistance. For best results, always drive and work your vehicle safely.*
EFFICIENT TECHNOLOGIES

SUSTAINABLE CONSTRUCTION
Jaguar Land Rover is committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. The E-PACE development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle’s life.

Recycled materials have been used in the E-PACE whenever possible. Each car contains up to 22 lbs of recycled plastics, which is the equivalent of 769 small plastic water bottles. The use of recycled material in the E-PACE means that approximately 6,290 tons of plastic are diverted away from landfills over its entire lifecycle. Parts containing recycled plastics include the floor console base, wheel arch liners, and electrical box covers.

ENGINE MANUFACTURING CENTER
Jaguar Land Rover’s Engine Manufacturing Center, where all of the E-PACE engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising 22,600 individual panels, which are capable of providing up to 6.2MW (enough energy to power 1,600 homes), the panels generate more than 30 percent of the site’s energy, reducing the plant’s CO2 footprint by over 2,400 tons per year.

ADVANCED AERODYNAMICS
The E-PACE streamlined shape navigates air around the rear wheels to reduce turbulence. The smooth underfloor has been honed through exhaustive testing to perfect airflow efficiency.

Helping the E-PACE cut through the air and improve fuel efficiency, lower bumper intakes optimize airflow past the front wheels, by feeding air to the inner wheel arch from ducts in the front spoiler. In the upper and lower front grille, two intelligent Active Vanes open when necessary to let in cool air, but whenever possible they shut.

To reduce drag, which in turn reduces CO2 emissions, an aerodynamic blade below the rear bumper helps redirect air away from the rear of the car; it also helps clear your rear windshield and lights.

ECO MODE
Eco Mode encourages fuel-efficient driving by reducing throttle sensitivity, selecting more economical engine mapping. It is designed to help reduce fuel consumption by minimizing the energy demands placed on the engine by climate control and audio systems. A display on the Touchscreen provides vehicle data and driving tips.

TECHNOLOGY

INTELLIGENT DRIVE

Jaguar Land Rover’s Engine Manufacturing Center, where all of the E-PACE engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising 22,600 individual panels, which are capable of providing up to 6.2MW (enough energy to power 1,600 homes), the panels generate more than 30 percent of the site’s energy, reducing the plant’s CO2 footprint by over 2,400 tons per year.

ADVANCED AERODYNAMICS
The E-PACE streamlined shape navigates air around the rear wheels to reduce turbulence. The smooth underfloor has been honed through exhaustive testing to perfect airflow efficiency.

Helping the E-PACE cut through the air and improve fuel efficiency, lower bumper intakes optimize airflow past the front wheels, by feeding air to the inner wheel arch from ducts in the front spoiler. In the upper and lower front grille, two intelligent Active Vanes open when necessary to let in cool air, but whenever possible they shut.

To reduce drag, which in turn reduces CO2 emissions, an aerodynamic blade below the rear bumper helps redirect air away from the rear of the car; it also helps clear your rear windshield and lights.

ECO MODE
Eco Mode encourages fuel-efficient driving by reducing throttle sensitivity, selecting more economical engine mapping. It is designed to help reduce fuel consumption by minimizing the energy demands placed on the engine by climate control and audio systems. A display on the Touchscreen provides vehicle data and driving tips.

INTELLIGENT DRIVE

Jaguar Land Rover’s Engine Manufacturing Center, where all of the E-PACE engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising 22,600 individual panels, which are capable of providing up to 6.2MW (enough energy to power 1,600 homes), the panels generate more than 30 percent of the site’s energy, reducing the plant’s CO2 footprint by over 2,400 tons per year.

ADVANCED AERODYNAMICS
The E-PACE streamlined shape navigates air around the rear wheels to reduce turbulence. The smooth underfloor has been honed through exhaustive testing to perfect airflow efficiency.

Helping the E-PACE cut through the air and improve fuel efficiency, lower bumper intakes optimize airflow past the front wheels, by feeding air to the inner wheel arch from ducts in the front spoiler. In the upper and lower front grille, two intelligent Active Vanes open when necessary to let in cool air, but whenever possible they shut.

To reduce drag, which in turn reduces CO2 emissions, an aerodynamic blade below the rear bumper helps redirect air away from the rear of the car; it also helps clear your rear windshield and lights.

ECO MODE
Eco Mode encourages fuel-efficient driving by reducing throttle sensitivity, selecting more economical engine mapping. It is designed to help reduce fuel consumption by minimizing the energy demands placed on the engine by climate control and audio systems. A display on the Touchscreen provides vehicle data and driving tips.
**DRIVER ASSISTANCE**

**Dynamic Stability Control** monitors the E-PACE dynamic behavior, intervening to optimize vehicle stability. DSC is designed to reduce engine torque and to apply braking to the appropriate wheels to correct the direction of travel by countering understeer or oversteer.

**Electronic Traction Control** optimizes traction and stability by controlling wheel spin. This system is designed to reduce torque to the spinning wheel, then to apply braking to the wheel, if required.

**Engine Drag Torque Control** mitigates the chance of wheel lock-up caused by strong engine braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate.

**Hill Start Assist** is designed to help prevent the vehicle from rolling backwards as you pull away on an incline.

**Cornering Brake Control** automatically varies the braking force to each wheel when the vehicle’s brakes are applied around a corner and the limit of grip is reached. The system is designed to prevent the vehicle’s wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

**Roll Stability Control** is integrated with Dynamic Stability Control to help reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover, while actively braking to the appropriate wheels to correct the direction of travel by counteracting understeer or oversteer.

**Electronic Brake-force Distribution** automatically varies the braking force to each axle in order to minimize stopping distance, while still maintaining stability and the vehicle's ability to steer.

**Emergency Braking** can help prevent foreseeable collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors speeds from 21 mph to 67 mph for front-to-rear collisions and 21 mph to 31 mph for pedestrians. If a collision is still anticipated and you have taken no action, this system is designed to apply the brakes to help reduce the severity of the possible impact.

**Emergency Brake Lights** are activated through the hazard warning lights to alert vehicles behind you in the event of sudden braking.

**Drive-by-wire** is the electronic method of controlling the vehicle through the use of pedals and steering wheel. The system uses a combination of sensors and software to monitor your driving and can control the vehicle's movement in emergencies.

**Electronic Brake-force Distribution** is designed to help improve stopping performance. It therefore boosts the brake pressure through the Anti-lock Braking System pump to provide braking assistance.

**Emergency Brake Assist** is designed to help prevent the vehicle from rolling backwards as you pull away on an incline.

**Emergency Stop Signal System** is designed to help reduce the risk of a foreseeable collision. The system automatically activates the hazard warning lights during emergency braking.

**Pre-tensioners** are designed to work in conjunction with the Supplementary Restraint System (SRS) to provide extra protection in the event of a severe frontal impact.

**Side-Angle impact protection** reduces force to the head and upper chest by reducing forward movement to the outboard seating position.

**DESIGN**

The E-PACE has been designed to provide protection to you and your passengers. The system is designed to reduce engine torque and to apply braking to the appropriate wheels to correct the direction of travel by countering understeer or oversteer.

Electronic Traction Control optimizes traction and stability by controlling wheel spin. This system is designed to reduce torque to the spinning wheel, then to apply braking to the wheel, if required.

Engine Drag Torque Control mitigates the chance of wheel lock-up caused by strong engine braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate.

Hill Start Assist is designed to help prevent the vehicle from rolling backwards as you pull away on an incline.

Cornering Brake Control automatically varies the braking force to each wheel when the vehicle’s brakes are applied around a corner and the limit of grip is reached. The system is designed to prevent the vehicle’s wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

Roll Stability Control is integrated with Dynamic Stability Control to help reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover, while actively braking to the appropriate wheels to correct the direction of travel by counteracting understeer or oversteer.

Electronic Brake-force Distribution automatically varies the braking force to each axle in order to minimize stopping distance, while still maintaining stability and the vehicle’s ability to steer.

Emergency Braking can help prevent foreseeable collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors speeds from 21 mph to 67 mph for front-to-rear collisions and 21 mph to 31 mph for pedestrians. If a collision is still anticipated and you have taken no action, this system is designed to apply the brakes to help reduce the severity of the possible impact.

Emergency Brake Lights are activated through the hazard warning lights to alert vehicles behind you in the event of sudden braking.

Emergency Brake Lights are activated through the hazard warning lights to alert vehicles behind you in the event of sudden braking.
BRIGHTER LIGHTS, HELP NIGHT-TIME DRIVING

The E-PACE features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, so driving at night becomes less tiring.

Driving at night is made easier by the optional Auto High Beam Assist1 which detects lights ahead and automatically lowers the high beam for oncoming traffic. And with the distinct exterior graphic of the signature Daytime Running Lights2, the E-PACE is instantly recognizable as a Jaguar.

1Standard on SE and HSE Specification Packages. 2Not available on Standard model.
PRACTICALITY
A PLACE FOR EVERYTHING
The E-PACE has significant interior storage. The deep storage in the center console features removable cupholders to provide a highly flexible space, suitable for smaller tablets or four 25 oz bottles which can be stored flat. Inside the console, a 12V socket and two USB sockets are available for charging, while the rear of the center console has three optional USB sockets for passengers in the back. The floor of the console also has a tablet retaining feature to secure a device during charging.

A smartphone holder sit between the cupholders so occupants can charge a phone while still using the cupholders. A removable lid sits on top of the cupholders to hold coins and keys and includes a phone retaining feature. The large glovebox is great for all those essentials you want to keep close at hand. Both deep front door bins have been sculpted to hold a range of items that may be needed.
**PRACTICALLY DESIGNED**

Whatever adventure you’re after, our Activity Key is the perfect companion. The E-PACE also has a towing capacity of up to 3,968 lbs and a suite of features to help make towing easier and more assured.

**ACTIVITY KEY**

With the optional Activity Key you can enjoy your favorite activities, and keep your car key securely in the car. For extra convenience, you can strap the Activity Key to your wrist. The wristband is robust and fully waterproof, allowing you to take part in a range of activities from cycling to swimming. Simply place your Activity Key against the sensor on the tailgate to lock or unlock the car and deactivate or reactivate the conventional key fob.

**TOW HITCH ASSIST**

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process. It displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen.

**TOW ASSIST**

Tow Assist helps with reversing by predicting the trailer’s direction. The system displays the predicted path of both the vehicle and the trailer as colored trajectory lines on the Touchscreen.

**TRAILER STABILITY ASSIST**

Trailer Stability Assist (TSA) gives you greater stability when towing. Should TSA detect a dangerous trailer sway situation is developing, it can help you regain control by gradually reducing the E-PACE speed by lowering engine power and applying the brakes individually on each side of the vehicle to control the sway.

---

1These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Consult the owner’s manual or your local authorized Jaguar Retailer for more details.

2Standard when tow hitch receiver is ordered.
TAKE YOUR WHOLE WORLD WITH YOU

Whether you need to go, whatever you need to take - the E-PACE is designed to carry you and your cargo effortlessly and in style.

If your hands are full, the optional powered gesture tailgate lets you open the trunk hands-free. Simply present your foot under the rear bumper and the tailgate opens or closes.

Longer items can easily be accommodated by a maximum cargo space width of over 4 feet - making it easy to fit a baby stroller lying flat. With a trunk capacity of up to 24.2 cu.ft., you can easily fit two medium-sized suitcases and three carry-on bags with ease.

Versatile 60:40 folding rear seats are standard, so you can carry items up to 5 feet long, with one or two passengers in the back. For bulky items, like flat pack furniture, fold down the second row seats completely to create 52.7 cu.ft. of space. Optional easy-to-use rails and a divider net help increase the adaptability of space storage.

*Included within HSE Specification Package.
E-PACE SPECIFICATION

Configure your vehicle at jaguarusa.com

This is where our E-PACE becomes your E-PACE. You have a number of choices; from selecting the E-PACE or E-PACE R-Dynamic, your engine and specification package, to exterior and interior colors, wheels and those detailed touches that make the vehicle your own. You can also design and build your perfect E-PACE on our online configurator at Jaguarusa.com

If you would like our designers to choose your Jaguar E-PACE features for you, turn to page 40 to see our First Edition.

You can choose from two efficient and powerful gas engines.

To make your selection of options easier, you have the choice of adding specification packages - S, SE or HSE.

There’s a wide range of exterior options to select from; roof styles, paint colors, the exterior Black Package and wheels – all enable you to truly express yourself.

Once you’ve chosen your seat style, select your preferred colorway.

You can choose from a wealth of factory-fit options to create the exact vehicle you want. Your Jaguar Retailer also has available a wide range of accessories to fit.
Only available for the first model year, the First Edition includes exclusive design details including Caldera Red paint and 20” 6 split-spoke ‘Style 6014’ with Satin Grey Diamond Turned finish alloy wheels. High specification exterior features include the Black Package and fixed panoramic roof as standard.

Inside, exclusive Ebony Windsor leather with Flame Red twin-needle contrast stitching, branded carpet mats and metal treadplates are unique to the First Edition. High specification suedecloth headlining is featured and the Head-up Display system also comes as standard.

First Edition includes all of the features available on R-Dynamic SE (see pages 43 and 47) plus the following as standard:

**EXTERIOR FEATURES**
- Fixed panoramic roof
- Exterior Black Package
- 20” 6 split-spoke ‘Style 6014’ with Satin Grey Diamond Turned finish alloy wheels

**INTERIOR FEATURES**
- First Edition carpet mats
- Metal treadplates with First Edition branding
- First Edition Ebony Windsor leather seats with Flame Red stitch
- 18-way heated front seats with memory
- Ebony suedecloth headlining
- Configurable Ambient Interior Lighting
- Cargo space storage rails with luggage retention kit
- Additional power sockets
- Head-up Display
- Activity Key
- Gesture tailgate
- Keyless entry
- SiriusXM™ satellite and HD radio

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar retailer for more details.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

†Driving while distracted can result in loss of vehicle control. Please operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so.

††Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 12 years old should always be properly restrained in a back seat, away from airbags. Under no circumstances should a child ever be left unattended in a motor vehicle.

6 CHOOSE YOUR OPTIONS & JAGUAR GEAR

Configure your vehicle at jaguarusa.com

EXTERIOR OPTIONAL FEATURES

Full Length Roof Rails
Factory fit roof rails take easy loading of cargo bars for truly cargo-rail carrying. Pre-fit positioning points ensure fitment is hassle-free. Available in Black or Silver finishes.

LED Headlights with Signature Daytime Running Lights (DRL)
See page 32.

Auto High Beam Assist (AHBA)*
Auto High Beam Assist provides improved comfort when driving at night. AHBA uses a forward facing camera to detect oncoming headlights and lowers the main beam automatically.

No Badges
You have the option to remove both the specification package and engine badges from the side vents and rear of the vehicle respectively.

Auto-dimming, power fold, heated door mirrors with memory and approach lights2
Improving visibility when maneuvering, these heated door mirrors feature auto-dipping functionality when the Reverse gear is selected. In addition, they are power folding to avoid damage during parking in tight spaces. Combined with memory seats, the mirrors are also equipped with a memory function. Once you set your ideal seating and mirror positions, the mirrors automatically recall your preferred driving position settings. Integrated approach lights to the underside of the mirrors highlight the ground with an eye-catching Jaguar and cub design.

Chrome side window surrounds
Chrome side window surrounds accentuate the stylish design of the E-PACE.

These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Jaguar Retailer for more details.

1Only available when optional fixed panoramic roof is fitted. Not available on E-PACE Standard model.

2Not available on Standard model. Only available when memory seats are fitted on S.

Features and their availability may differ by vehicle specification. Please refer to Specification and Price Guide for details or contact your nearest Jaguar Retailer, for more information.

SELECT YOUR FACTORY-FIT OPTIONS

Options must be specified at the point of ordering your new vehicle. For full nature and option availability, please refer to the accompanying Specification and Price Guide or visit your local Jaguar Retailer.

WHEELS AND TIRES

Bright Metal Pedals3
Stainless steel Bright finish sports pedal covers are easy to fit and feature hidden fixings for a clean finish.

INTERIOR OPTIONAL FEATURES AND PACKAGES

Illuminated Metal Treadplates with Jaguar Script
Illuminated Metal Treadplates, featuring Jaguar script are available on driver and front passenger sides.

Configurable Ambient Interior Lighting
This feature allows you to vary the color and shade, changing the ambience of the cabin to suit your mood. There are ten colors in total.

Smoker’s Package
Add a lighter socket and ashtray to the center console.

Auto-dimming Interior Rear View Mirror
See page 11.

Cabin Air Ionization
This technology ionizes particles in the air making them attract to surfaces and thus helping to cleanse the air. It can be switched on or off.

Air Quality Sensor
This extra climate control option monitors the air quality within the cabin and automatically recirculates the air as necessary.

Cold Climate Package
This offers heated washer jets, heated windshield and soft grain leather heated steering wheel.

Note: Prices and first availability may differ by various specification. Please refer to Specification and Price Guide for details or contact your nearest Jaguar Retailer, for more information.

3Standard on R-Dynamic models.

SPECIAL VEHICLE OPERATIONS

Special Vehicle Operations (SVO) designs and engineers products that amplify Jaguar and Land Rover core brand values, focusing on luxury, performance and capability.

Our team of specialists is completely focused on enhancing and personalizing our relationship with our most discerning and enthusiastic customers – delivering experiences that our customers will love for life.

SVO is responsible for the creation of a suite of halo products that showcase the pinnacle of Jaguar design and engineering capabilities, enabling our customers to indulge their passion for spectacular new vehicles.

THE NEW SVO TECHNICAL CENTER

In the heart of the British Midlands is SVO’s brand new Technical Center. This state-of-the-art facility represents a $25 million dollar investment by Jaguar Land Rover, and features four zones designed to support the creation of truly breath-taking vehicles. In addition to the Commissioning and Presentation suites, our manufacturing center is responsible for the assembly and hand-finishing of SVO halo and Collector’s Edition vehicles, and a world-class paint facility ensures an exquisite finish for every vehicle we create.

BESPOKE BY SVO

Bespoke by SVO was born out of an innate understanding of what our most discerning clients value more than anything else – to own something completely unique to them. Something only they can have, reflecting who they are and what they hold most dear. With that in mind, SVO developed innovative Commissioning and Presentation suites enabling creation of the most refined and luxurious vehicles in the world. This special new facility is housed within the new SVO Technical Center in Warwickshire, England.
Choose the E-PACE and you’re joining the exciting World of Jaguar.

ICE DRIVE EXPERIENCES
Take your driving to the next level with the Jaguar Land Rover Ice Drive Experience. From 2017, we are offering an adventure in Arjeplog, Sweden, that will test and develop your performance driving skills in extreme conditions. It’s a rare chance for owners and enthusiasts to tackle some of the harshest and most challenging tracks on earth, under the skilled guidance of our experts. Our driving instructors are at the highest caliber and will be with you every step of the way — ready to impart years of driving wisdom. You will drive on ice, glide around some of the most awe-inspiring corners imaginable and realize the true exhilarating potential of Jaguar and Land Rover.

If you’d like to be part of the next adventure, find out more by visiting jaguarusa.com

FORMULA E
Jaguar’s reputation for performance, technology and design was forged by the world’s most challenging circuits and championships. From Le Mans to Formula 1, and now Formula E, the grid is our test-bed. Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment. The racing series accelerates the development of Jaguar’s electric powertrains. With every race, Formula E helps Jaguar engineers create better electric vehicles.

BEHIND THE SCENES
Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life — from the molding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you’ll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar’s most breathtaking cars.

Find out more at jaguarusa.com

TRACK DAYS
There’s no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit.

Find out more by visiting jaguarusa.com

JAGUAR COLLECTION
The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our vehicles. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar’s heritage, we also have a collection that honors past achievements and features race-inspired gift items and apparel.

Visit shop.jaguarusa.com to browse the Jaguar collection.

THE JAGUAR MAGAZINE
This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel.
AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

JAGUAR ELITECARE
Enjoy your Jaguar with peace of mind. The E-PACE is backed by Jaguar EliteCare, our exceptional 5 year / 60,000 mile coverage program including New Vehicle Limited Warranty. Complementary Scheduled Maintenance, Roadside Assistance and Jaguar InControl Remote & Protect™.

Genuine Parts
Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your E-PACE to contribute to optimum performance and to help maximize its lifespan.

FLEET & BUSINESS
Jaguars are dynamic and distinctive vehicles that help companies express the unique character and personality of their business. We are committed to providing customer-focused after-sales services, ensuring that every Jaguar performs to the highest standard and in the most cost-effective way for businesses. Visit jaguarusa.com for more information.

JAGUAR ASSISTANCE
Jaguar Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicles warranty period.

JAGUAR FINANCIAL SERVICES
New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local Jaguar Retailer to find out more.
