JAGUAR XF SEDAN
AND NEW XF SPORTBRAKE
2018
Every day we push performance to its limit. Our performance. Our car’s performance.

We innovate, we engineer, we design. We master rules and then break them.

Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.
INTRODUCTION
THE CONCEPT OF THE XF

The 2018 Jaguar XF builds on the success of the 2017 Jaguar XF. Possessing an unrivalled combination of style and substance, it delivers an utterly seductive blend of design, dynamics and refinement to create a car that offers true excitement. All enhanced by state-of-the-art technologies that keep you connected and entertained.

The XF sits in the Jaguar range between the taut athleticism of the Jaguar XE and the supreme luxury of Jaguar XJ. The fusion of these outstanding Jaguar attributes is what creates the XF – one of the most dynamic, premium sports sedans. The New XF Sportbrake complements the distinctive 'coupe' lines and dynamism of the XF Sedan with even greater space and versatility.

VEHICLES SHOWN: XF SPORTBRAKE S IN YULONG WHITE AND XF SEDAN R-SPORT IN CORRIS GREY WITH OPTIONAL EQUIPMENT
THE XF - THE FACTS
An outstanding combination of advanced engineering, the latest technology and contemporary design sets the XF apart.

PERFORMANCE
Find your perfect balance of economy and power in the XF Sedan and Sportbrake engine range. Many engines feature our Ingenium technology, including the 2.0 liter 4 cylinder 180HP Turbocharged Diesel. The most powerful, a V6 engine, the 3.0 liter V6 380HP Supercharged, can sprint from 0 to 60 mph in 5.0 seconds and reach a top speed of 121mph*7 in 5.0 seconds.

SPORTBRAKE REAR AIR SUSPENSION
Even when fully loaded, the comfort and precise handling of the XF Sportbrake is maintained with self-leveling rear air suspension. This system automatically inflates air springs to counteract the weight of heavy loads, helping ensure a level chassis and ride height.

ADDED INTELLIGENCE
Innovative technologies make driving easier. The XF offers optional adaptive LED headlights, Traffic Sign Recognition with Adaptive Speed Limiter, Lane Keep Assist with Driver Condition Monitor, Emergency Braking, Adaptive Cruise Control with Queue Assist*5, Park Assist, and now Blind Spot Assist*5. On the Sportbrake with Powered Gesture trunk, you can access the trunk when your hands are full. Simply present your foot under either rear side of the bumper and the trunk opens.

CRAFTSMANSHIP AND SPACE
Contemporary craftsmanship and a luxurious, practical interior with the space to stretch out and enjoy every trip. Front and rear passengers will appreciate leg, knee and headroom that are ample and generous. You can choose the optional 40:20:40 rear seating configuration for increased volume and versatility.

ADVANCED DRIVETRAIN TECHNOLOGY
The XF offers All Wheel Drive with Intelligent Driveline Dynamics and Adaptive Surface Response (if fitted to model)**. This enhances the legendary Jaguar handling, agility and ride, and gives added assurance in most conditions*5.

JAGUAR ELITECARE
Enjoy your Jaguar with peace of mind. The XF is backed by Jaguar EliteCare™, our exceptional 5 year / 60,000 mile coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and Jaguar InControl® Remote & Protect™.

ADVANCED AERODYNAMICS
The XF has a low drag coefficient which allows it to cut through the air, reducing wind noise for enhanced refinement. The underside of the car is aerodynamically designed to be as smooth as possible, while openings in the front bumper (grille) allow airflow through the wheel arches.

LIGHTWEIGHT ALUMINUM ARCHITECTURE
The Lightweight Aluminum Architecture of the XF creates a strong body that delivers precise and responsive sports handling.

VEHICLES SHOWN: XF SPORTBRAKE S IN YULONG WHITE AND XF SEDAN R-SPORT IN CORRIS GREY WITH OPTIONAL EQUIPMENT

CONNECTIVITY
Every drive in the XF is enhanced by Jaguar InControl® Technologies. InControl is a suite of products and services that connects you with your XF and links the XF to the wider world. It ensures you are always in touch*¹.

08 INTRODUCTION  DESIGN  PERFORMANCE  DRIVING TECHNOLOGY  JAGUAR INCONTROL® TECHNOLOGIES  DRIVER ASSISTANCE  JAGUAR WORLD
“It’s about paring it down to the bare essentials. Good designers have always said less is more.”  
Ian Callum, Jaguar Design Director.

The XF demonstrates the Jaguar principles of design purity. Strong lines radiate dynamic character and enhance the vehicle capabilities – be it improving aerodynamics, visibility or stability. The XF is available with adaptive LED headlights† Complementing the Jaguar signature ‘J’ blade Daytime Running lights and giving the vehicle a striking on-road presence. LED light quality is closer to daylight helping to distinguish objects.

*Please see page 103 for further information.
†Optional feature, Xenon headlights are also available depending on the model chosen.
The sweeping exterior design of the XF is naturally aerodynamic. Its advanced form enhances handling, dynamics and refinement. Airflow is carefully managed through and around the car; intakes either side of the front grille draw air in, then channel it out from the wheel arches to reduce turbulence. As air flows along the car, pressure differences that can cause drag are minimized by the flush, aerodynamically optimized sides.

At the rear, the XF sedan tail lights feature a distinctive, Jaguar F-TYPE inspired, double roundel and intersecting horizontal detail. The LED brake lights are not only brighter than halogen bulbs, they use less energy. LEDs also illuminate faster – so following drivers can react more quickly to braking. Within the tail lights is a pinstripe graphic – one of the many exquisite finishing touches on the XF.

VEHICLES SHOWN: XF SPORTBRAKE S IN YULONG WHITE AND XF SEDAN R-SPORT IN CORRIS GREY WITH OPTIONAL EQUIPMENT
Open the door and the Start button entices you inside. Pulsing with a heartbeat it creates an emotional connection between driver and machine. Its 72 per minute double beat is the same as a jaguar cat at rest. The XF is poised, ready for action. Now push the Start button. The car awakens and, if fitted, its mood lighting illuminates. With perfect choreography, air vents rotate open when the air conditioning is in use, the JaguarDrive Selector™ rises smoothly, and the engine growls – all inspiring you to anticipate the drive ahead.

The XF interior offers outstanding comfort, a sense of wellbeing and a wealth of choices. The number of switches and buttons is kept to a minimum to keep the look clean and tidy, as well as making them easy to use. Whichever XF interior combination you choose, materials used are always of the highest quality. Leather and finishes are selected with the greatest care to ensure that, inside the XF, everything is luxurious to the touch. Whether you prefer aluminum, carbon fiber, or wood-veneer finishes to complement the beautiful selection of materials, your XF will always look and feel just right.

The XF Sportbrake offers a new ionization system that improves air quality. With this optional system, air passes through an ionizer that filters and purifies the airflow before it is circulated within the cabin. This helps to neutralize odors and minimizes bacteria and pollution for a more pleasant and healthy in-car environment.
In both XF Sedan and Sportbrake, the rear of the cabin is a destination of luxury, choice and space. With generous rear knee room, rear legroom and rear headroom, there’s plenty of room to relax. It all adds up to greater comfort and well-being for passengers.

Available interior mood lighting enhances the interior atmosphere. Opt for the Luxury Interior Upgrade Package and Configurable Interior Mood Lighting will offer you a choice of ten interior colors. In addition, the Four-zone Climate Control will give individual passengers the opportunity to set their own temperature and airflow.

At 17.8 cubic feet, the cargo space of the XF Sedan offers plenty of carrying capacity. For even greater versatility, choose the optional 40:20:40 rear seating configuration – it increases cargo space to an impressive 31.25 cubic feet. This outstanding practicality is taken to the next level in the XF Sportbrake with 31.7 and 69.7 cubic feet of rear cargo space respectively.
The versatile interior of the XF Sportbrake is designed to meet the demands of your lifestyle. Its cargo space provides 31.7 cubic feet of space with the rear seats in place. Fold the rear seats down, and you’ll create a space that is 79 inches in length and features 69.7 cubic feet of luggage capacity plus discreet underfloor storage.

To make things a bit easier, the XF Sportbrake offers a Powered Gesture Tailgate as standard and Activity Key as an option. The Activity Key is a robust and fully waterproof wristband that allows you to enjoy a range of activities—from skydiving to swimming—while giving you immediate access to the car at all times. The conventional key fob can remain within the car as it is deactivated for security purposes.
The rear seats of the XF Sportbrake fold completely flat or can be divided with a 40:20:40 split, using a thoughtfully placed remote release that’s accessible from the tailgate area. Easy-to-use optional cargo space rails help further increase the adaptability of cargo space storage, and an available divider net prevents objects from falling onto the rear seats. Introducing even more natural light and airiness to the interior, is the large, standard fixed panoramic roof in the XF Sportbrake.

INTERIOR SHOWN: XF SPORTBRAKE S FEATURING BROGUE SEATS WITH CONTRAST STITCH, EBONY CARPET AND EBONY HEADLINING WITH OPTIONAL EQUIPMENT
Ingenium technology underpins the 2.0 liter 4 cylinder diesel and gas engines in the XF range. These low friction, all-aluminum engines have stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration, for smooth day-to-day performance. All engines are equipped with Stop/Start technology and smart regenerative charging – harvesting kinetic energy from braking to charge the battery.

The Ingenium 2.0 liter 4 cylinder 180HP Turbocharged Diesel offers impressive performance for an engine of this size. It offers high levels of torque – a balance achieved thanks to its variable geometry turbocharger. Adapting to the changing flow of exhaust gases, it maximizes low speed torque for broad power and responsiveness that is uniform, progressive and avoids lag.
The 4F offers a choice of gas engines, including two from our Ingenium range. With their lightweight, all-aluminum design, and widespread use of low-friction roller bearings, Ingenium gas engines are built for smooth, efficient performance. To guarantee a responsive drive and effortless acceleration, every XF gas engine makes use of a rapid-shifting, 8-speed Automatic Transmission. All engines are equipped with Start/Stop technology and smart regenerative charging—harvesting kinetic energy from braking to charge the battery.

**INGENIUM GAS ENGINES**

**UP TO 0-60 mph from 5.5 seconds**

The Ingenium 2.0 liter 4 cylinder 247HP Turbocharged Gas engine delivers outstanding usable power and torque. For excellent acceleration and effortless overtaking, maximum torque is available between 1,200-4,500 rpm. This engine twin scroll turbocharger is fed by an integrated exhaust manifold that synchronizes exhaust pulses from two separate pairs of cylinders—reducing turbo lag and improving engine response.

The Ingenium 2.0 liter 4 cylinder 296HP Turbocharged Gas† engine has impressive power and balance. For almost instant boost and high efficiency, its low inertia twin-scroll turbocharger features low-friction ball bearings and a high flow compressor wheel. Underpinned by the turbocharger’s increased aerodynamic efficiency, the engine delivers rapid acceleration and maximum torque of 295 lb-ft between 1,500-4,500 rpm.

Ingenium gas engines, including two from our Ingenium range. With their lightweight, all-aluminum design, and widespread use of low-friction roller bearings, Ingenium gas engines are built for smooth, efficient performance. To guarantee a responsive drive and effortless acceleration, every XF gas engine makes use of a rapid-shifting, 8-speed Automatic Transmission. All engines are equipped with Start/Stop technology and smart regenerative charging—harvesting kinetic energy from braking to charge the battery.

**3.0 liter V6 Supercharged Gas engine**

The 3.0 liter V6 Supercharged Gas engine features a Roots-type twin vortex supercharger that provides linear delivery of power and maximum torque is available between 1,500-4,500 rpm. This engine twin scroll turbocharger is fed by an integrated exhaust manifold that synchronizes exhaust pulses from two separate pairs of cylinders—reducing turbo lag and improving engine response.

For added refinement there is a twin, contra-rotating balancer shaft system.

---

*Please see page 103 for further information.  **Engine performance and efficiency figures representative of XF Sedan only. For detailed XF Sedan and Sportbrake technical specifications, see pages 92 to 93.  †Only available on XF Sedan. Introduced Fall 2017.
ADVANCED AERODYNAMICS

The XF form has been designed for aerodynamic efficiency and stability at highway speeds. With a drag coefficient as low as Cd 0.28**, the Jaguar XF cuts through the air — helping to reduce fuel consumption and lower emissions. Every element exploits the maximum aerodynamic potential while preserving the stunning proportions of the XF. Apertures in the front bumper outer edges channel air through vents in the wheel arches and out over the front wheels. The airflow then passes along the XF sides where the doors have a flatter cross sectional profile to minimize air pressure differences and contribute further to reduced drag. Even the extensive under body protection is designed to make the XF as refined as possible.

**XF Sedan only. Drag coefficient for XF Sportbrake is Cd 0.29.

VEHICLE SHOWN: XF SEDAN IN SANTORINI BLACK WITH OPTIONAL EQUIPMENT

---

**Cd** stands for **Coefficient of Drag**, a measure of an object's resistance to air flow.

---
Jaguar has been at the forefront of aluminum car construction for more than a decade. The latest innovation is our high-strength Lightweight Aluminum Architecture, which is strong and reduces weight. It is also stiff - understressing the precise, agile handling of the XF. Aluminum has also been used to form the body sides, hood and front wings. These panels are bonded together with a strong adhesive, then punched with zinc-coated, boron-sheet rivets that compress the adhesive to form an airtight bond and a strong, rigid structure. This cutting-edge process, coupled with the Lightweight Aluminum Architecture, contributes towards a weight saving of up to 265 lbs over the previous generation XF.
ALUMINUM FRONT KNUCKLE
Designed to optimize stiffness and strength, the lightweight aluminum front knuckle helps improve the XF agility, responsiveness and refinement for sports car-like control.

The XF responds with agility and performs with dynamism while maintaining ride comfort. It's a unique balance that makes it a Jaguar. The ideal foundation for these driving dynamics is the light, yet strong and stiff, Lightweight Aluminum Architecture with its near 50:50 weight distribution.

The sophisticated front and rear suspension systems complete a chassis that achieves a superb combination of sportiness and refinement. Advanced damper technologies – both passive or adaptive – improve ride quality still further and extend the XF breadth of dynamic capabilities. The suspension control, agility and feedback give the XF the spirit of a sports car.

CHASSIS AND SUSPENSION

BRAKE SCOOP
A glass-filled polypropylene brake scoop channels air onto the brakes for enhanced brake performance during enthusiastic driving.

INTEGRAL LINK REAR SUSPENSION
Integral Link suspension allows the XF to realize an ideal combination of refined, luxurious ride and sharp, responsive handling. The system separates and independently manages the lateral, longitudinal and vertical forces acting on the suspension for enhanced control and comfort. Many components are forged or hollow-cast aluminum – the optimum production techniques for strong, lightweight suspension.

ALUMINUM FRONT DOUBLE WISHBONE SUSPENSION
Considered by Jaguar as the best configuration for a front suspension system, the aluminum double-wishbone design is modeled closely on the F-TYPE for precise handling and steering response.
**ADAPTIVE DYNAMICS**

Whether you’re accelerating on the highway, cornering on country roads or navigating around town, optional Adaptive Dynamics is designed to modify the XF response to match the conditions and your driving style. It analyzes acceleration, cornering, throttle and brake pedal activity, as well as kick down activation. Steering movement is analyzed up to 500 times a second and body movement up to 100 times a second. Using this information, electronically controlled adaptive dampers then constantly adjust the suspension settings and maintain the poise and comfort of the XF.*5

*Please see page 103 for further information.

**ELECTRIC POWER ASSISTED STEERING**

Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and immediate power assistance. The EPAS sophisticated computer management varies steering assistance as appropriate – increasing assistance for low speed maneuvering and improving feel at higher speeds. It also enables advanced driver assistance features such as Lane Keep Assist and Park Assist.*5

**CONFIGURABLE DYNAMICS**

Bringing technology from the F-TYPE, the optional Configurable Dynamics system allows you to set up the dynamics for throttle mapping, gearbox shift points, steering and damper setting to suit your performance driving needs.*5

**DRIVING TECHNOLOGY**

Dynamic Mode revises the software of the vehicle to further enhance the sporting character. It sharpen the throttle response, increases steering weighting and performs gearshifts more quickly and at higher engine speeds. It also brings visual drama to the driver as the instrument cluster takes on a red glow. Dynamic Mode enhances your connection with the 16-liter V8 Jaguar performance.**
ADDED DRIVER ASSISTANCE

ALL SURFACE PROGRESS CONTROL

All Surface Progress Control (ASPC) technology is a low speed cruise control that helps the XF to cope with low traction situations. ASPC allows the driver to concentrate on steering the vehicle. Once activated, use the cruise control buttons to set a ‘target’ speed between 2.2 mph and 18.6 mph. The system then works to achieve and maintain that speed while exerting traction control*5.

ASPC is standard and gives XF drivers added assistance over slippery, loose surfaces, undulating terrain, and even while descending a difficult incline. It helps make the XF easier to drive in challenging conditions. ASPC also has a pull-away function allowing the vehicle to progress from rest on low grip surfaces and ascending gradients, as well as a hill descent function that controls vehicle speed on steeper inclines*5.

On the XF S AWD and the XF Sportbrake S Adaptive Surface Response (AdSR) is designed to recognize differences between surfaces to exploit the maximum available grip. AdSR constantly monitors the car’s environment and adjusts the appropriate engine and brake settings. Once selected, AdSR works at all speeds to support you in adverse weather and across challenging surfaces*5.

*Please see page 103 for further information.

DRIVING TECHNOLOGY
The XF All Wheel Drive (AWD) system combines the agility and character of Rear Wheel Drive (RWD) with the increased security and traction provided by AWD. In normal driving, the XF is predominantly RWD to deliver handling purity, feel and balance. But when roads become more challenging, or when you accelerate more swiftly on low-grip surfaces, the system is designed to subtly channel power forwards enabling the XF to maintain improved traction for comfortable progress in various conditions.

The XF AWD uses a transfer case at the back of the 8-speed Automatic Transmission to manage the appropriate distribution of torque to the front and rear wheels. Engineered to ensure that the XF retains the dynamic behavior of a Jaguar car, the transfer case contains an electro-mechanically activated multi-plate clutch with an actuator to build hydraulic pressure. This pressure is quickly and accurately controlled to generate the required force in the clutch to transfer the optimal amount of torque to the front wheels.

Unlike other systems that react to wheel slip, Jaguar’s Intelligent Driveline Dynamics (IDD) software is predictive and uses sensors measuring throttle and steering inputs to anticipate wheel slip. IDD seamlessly coordinates these inputs and compares them with responses from the engine, transmission and traction control systems to calculate the traction available and distribute torque accordingly even before grip is lost. From a standstill, the XF can transition from RWD to AWD in milliseconds. The result is a drive which blends the character of RWD with the capability of AWD, providing enhanced levels of performance and control.

*Please see page 103 for further information.

Vehicle shown: XF SEDAN S in YULONG WHITE with optional equipment.
Torque Vectoring is designed to improve capability through even the tightest corners. Torque Vectoring technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding.

Torque Vectoring delivers increased sports car-like agility and added driver assistance.

Torque Vectoring applies brake pressure to slow the inside front and inside rear wheels independently. Power is sustained to maintain constant speed of outer driven wheels.
The stability systems are designed to keep the XF balanced whether you’re driving enthusiastically or simply want some reassurance in challenging conditions.

**Dynamic Stability Control (DSC)** monitors the dynamic behavior of the XF, intervening to assist vehicle stability and improving available grip. DSC is designed to reduce engine torque and apply braking to the appropriate wheels to correct the car direction of travel by countering understeer or oversteer. The DSC system fitted to the XF has enhanced understeer control to reduce speed and help regain control more effectively*.

**Engine Drag Torque Control** mitigates the chance of wheel lock-up caused by strong engine braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate*.

*Please see page 103 for further information.

---

**STABILITY AND CONTROL**

The stability systems are designed to keep the XF balanced whether you’re driving enthusiastically or simply want some reassurance in challenging conditions. Dynamic Stability Control (DSC) monitors the dynamic behavior of the XF, intervening to assist vehicle stability and improving available grip. DSC is designed to reduce engine torque and apply braking to the appropriate wheels to correct the car direction of travel by countering understeer or oversteer. The DSC system fitted to the XF has enhanced understeer control to reduce speed and help regain control more effectively*.

Engine Drag Torque Control mitigates the chance of wheel lock-up caused by strong engine braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate*.

*Please see page 103 for further information.

---

**DRIVING TECHNOLOGY**
**HEAD-UP DISPLAY**

The optional Head-up Display with laser technology projects key information onto the windshield. Remaining clear even in direct sunlight, the crisp, bright image can display vehicle speed, navigation, cruise control notifications and Traffic Sign Recognition data, where available. This technology helps you minimize time spent looking down at the instrument cluster and can help you maintain continuous awareness of your speed.*

*Please see page 103 for further information.

As we roll out InControl®, specific features described may be optional, and market or powertrain dependent. Please visit jaguarusa.com/owners/incontrol or your local Jaguar Retailer for availability and full terms. Certain features require an appropriate SIM with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Mobile connectivity cannot be guaranteed in all locations.

Third Party programs or applications may require an end user license from the supplier.
The Touch multimedia system is the hub for connectivity, control and entertainment*. The key features are:

- **8” Touchscreen**: at the heart of the center console. Clear and responsive graphical interface for quick control.
- **Audio**: Meridian™ Sound System (380W).
- **Display**: 8” Touchscreen*².
- **Multimedia**: HD Radio™, USB*⁸, Bluetooth® and AUX connections.
- **Touch Features*¹**: Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app.
- **Optional Features**: Navigation with InControl Apps™*¹, Wi-Fi Hotspot*³ and SiriusXM® Satellite Radio*⁴.

*Please see page 103 for further information.

**Remote & Protect** includes SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app.

**Navigation** makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance, intersection views and 3D maps*¹. 

**Wi-Fi Hotspot** gives you the option to create a 4G Hotspot using the car antenna when you fit a SIM card. This strengthens your link to the outside world, for a more stable connection than an individual device could maintain. Connect up to eight devices to read emails, browse the web and download content*⁴.

**InControl Apps™** features a range of Jaguar approved apps that can be connected to the car from your smartphone. It ensures the convenient use of these apps that have been optimized specifically to enhance aspects of your in-car experience.

**Touch** multimedia system is the hub for connectivity, control and entertainment*. The key features are:

- **8” Touchscreen**: at the heart of the center console. Clear and responsive graphical interface for quick control.
- **Easy to use**: Touchscreen responds directly to touch and swipe gestures.
- **Bluetooth phone connectivity**: allows you to link and control your smartphone via Touch either for phone calls or music playback, simple, easy and wire-free.
- **Access a world of music**: thanks to HD Digital Radio and available SiriusXM® Satellite Radio, as well as USB*⁸ and AUX connections.
- **Integrated text-to-voice technology**: reduces distraction by reading out incoming text messages. You can easily respond with short, prepared messages.
- **Precise climate control**: is available via the Touchscreen. Adjust temperature levels, direction and intensity of airflow and operate heated or cooled seats (if fitted).
- **Remote**: is a multi-function app that allows you to monitor as well as interact with your XF from your smartphone. Remote start the engine to pre-condition the climate, lock and unlock the car, locate your XF on a map or by using the beep and flash function, and track your journey – all via the app.
- **Protect**: includes SOS Emergency Call and Jaguar Optimized Roadside Assistance, which can automatically bring the relevant services to your exact location if the airbags deploy.

**TOUCH**

Enhance the capabilities of the InControl Touch™ multimedia system*¹ by selecting from the following options:

- **Navigation**: makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance, intersection views and 3D maps*¹.
- **Wi-Fi Hotspot**: gives you the option to create a 4G Hotspot using the car antenna when you fit a SIM card. This strengthens your link to the outside world, for a more stable connection than an individual device could maintain. Connect up to eight devices to read emails, browse the web and download content*⁴.
- **InControl Apps™**: features a range of Jaguar approved apps that can be connected to the car from your smartphone. It ensures the convenient use of these apps that have been optimized specifically to enhance aspects of your in-car experience.

**Contents Personailization**

12.3" Full Digital Instrument Panel with virtual dials

Audio
- Meridian™ Surround Sound System (425W)

Display
- 3D touchscreen
- Pinpoint touch control

Touch Pro Features
- Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Roadside Assistance, Stolen Vehicle Locator and Remote smartphone app.
- Connected Navigation consists of InControl Apps™, Wi-Fi Hotspot and additional services including Route Planner Companion App, share your destination and ETA, Commute Mode, Arrival Mode, real time traffic information and fuel and parking services.

Navigation Guidance
- Navigation Pro offers as one of its many innovative features the ability to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

Navigation Pro
- offers as one of its many innovative features the ability to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

Touch Pro UPGRADE TO NEXT GENERATION INFOTAINMENT

The next-generation hardware and software of Touch Pro advances your vehicle connectivity and entertainment to the very highest level. The key features of the Touch Pro system are:

Lager, highly-responsive, 10" Touchscreen at the heart of the center console with customizable homescreen and improved fast response times. Its interactive side panel makes multi-touch easy.

Pinpoint touch control allows you to manipulate and interact with information swiftly and seamlessly. The Touchscreen responds in the same manner as a smartphone or tablet computer providing multi-touch gestures such as pinch to zoom and swipe.

12.3" instrument panel display with virtual dials and full screen 3D-map view making it easier to see a panoramic view of the instrument display directly in front of the driver. Full screen 3D-map view or choose one of four graphical themes to suit your personal preference.

Navigation Pro offers as one of its many innovative features the ability to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

TOUCH PRO

UPGRADE TO NEXT GENERATION INFOTAINMENT

The next-generation hardware and software of Touch Pro advances your vehicle connectivity and entertainment to the very highest level. The key features of the Touch Pro system are:

Larger, highly-responsive, 10" Touchscreen at the heart of the center console with customizable homescreen and improved fast response times. Its interactive side panel makes multi-touch easy.

Pinpoint touch control allows you to manipulate and interact with information swiftly and seamlessly. The Touchscreen responds in the same manner as a smartphone or tablet computer providing multi-touch gestures such as pinch to zoom and swipe.

12.3" instrument panel display with virtual dials and full screen 3D-map view making it easier to see a panoramic view of the instrument display directly in front of the driver. Full screen 3D-map view or choose one of four graphical themes to suit your personal preference.

Navigation Pro
- offers as one of its many innovative features the ability to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

The services, technologies and applications found within Connected navigation provide you with the very best in connectivity and convenience*. It offers many features including:

Route Planner Companion App offers true door-to-door navigation. Pre-plan your destination and route via your Apple® or Android™ smartphone. The app will guide you to your car, where you will find your selected route available on the car Touchscreen. When you’ve completed your road trip, the app can guide you by foot or public transportation (where supported) to your destination.

Share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you’re running late, the system can then send automatic updates via text or email, without any further action from you.

Commute Mode allows the system to learn your commute and automatically advises you of the expected travel time based on live and historical traffic movements. The system learns the routes you take for a given destination and then provides advice which of those is the quickest.

Arrival Mode displays an interactive 360° street level imagery of your destination for seamless finishes to driving trips. It automatically displays again upon your arrival. You can simply tap the Touchscreen to select a nearby parking garage, which appears as an updated destination.

- 17 speakers
- 16 amplifier channels

Diagram representations only. Indicative of speaker positions in both XF Sedan and XF Sportbrake. Vehicle shown: XF Saloon in Indus Silver with optional equipment.
E.B. 30 mph

**EMERGENCY BRAKING**

Should a potential collision be detected, the XF gives an audible forward collision warning. Visual warnings follow. If the driver fails to take action to apply the brakes to help reduce the severity of the possible impact, the system is designed to apply the brakes to help reduce the severity of the possible impact when driving below 50 mph. This system also includes pedestrian sensing.

**LANE DEPARTURE WARNING**

Lane Departure Warning notifies the driver with a visual alert and a gentle vibration of the steering wheel when it detects an unintentional lane departure.

**LANE KEEP ASSIST AND DRIVER CONDITION MONITOR**

Lane Keep Assist is designed to sense unintentional lane drift and to help steer the XF back into its lane. Driver Condition Monitor is designed to detect lapses in concentration due to tiredness by monitoring driver inputs and suggests taking a break via an audible alert and a visual notification in the instrument cluster.

**TRAFFIC SIGN RECOGNITION WITH INTELLIGENT SPEED LIMITER**

Traffic Sign Recognition (TSR) technology detects speed limits, including variable limits, and no passing signs via the forward-facing camera, then displays them to the driver. The Intelligent Speed Limiter uses TSR’s information, supported by map data from the navigation system, to help keep the XF within the appropriate speed limit.

**PARK ASSIST**

Park Assist makes parking in tight spaces easier than ever. The XF can accurately steer itself during both parallel and perpendicular parking maneuvers. The driver only has to control the brakes and accelerator. An exit-assist function can help guide the XF while leaving a parallel space.

**BLIND SPOT ASSIST AND REVERSE TRAFFIC DETECTION**

If your car detects another vehicle in or quickly approaching your blind spot, the Blind Spot Monitor system is designed to alert you via a small warning light in the corresponding exterior mirror. As an enhancement to this feature, Blind Spot Assist will apply steering torque to guide you away from the vehicle in your blind spot if you begin to change lanes. Using the same radar system, Reverse Traffic Detection is designed to alert you via the Touchscreen of moving vehicles during reversing.

**SURROUND CAMERA SYSTEM**

Helping with various maneuvers, from parking to navigating in tight spaces, the Surround Camera System gives you 360° exterior vision on the Touchscreen. To enhance this system further, Forward Vehicle Guidance and Forward Traffic Detection are also available. Forward Vehicle Guidance provides the driver with on-screen visualization of the vehicle and parking distance. Forward Traffic Detection helps avoid potential collisions in situations where forward maneuvers are restricted.

**ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST**

Adaptive Cruise Control uses radar technology to automatically adjust your speed to maintain a set distance from the vehicle ahead. If that vehicle slows, your XF reduces its speed to maintain the set distance. The XF resumes its pre-set speed as soon as the road in front is clear. Should the car in front stop completely, the Queue Assist function is designed to bring the XF to a smooth halt. Once the traffic moves, touch the accelerator and the XF will follow the car in front again.

CHOOSE YOUR JAGUAR GEAR

The genuine range of accessories from Jaguar.

Configure your vehicle at JAGUARUSA.COM

Watersports Carrier**
C2Z21730
A versatile system for transporting a variety of water sports equipment including surfboard, kayak or sailboard. Tilts to facilitate loading/unloading.

**Requires roof cross bars T2H14468.

PERSONALIZATION

Configure your vehicle at JAGUARUSA.COM

Personalized Illuminated Sill Treadplates†
T2H17122PVJ
Elegantly styled stainless steel sill treadplate finishers for driver or passenger doors. Illuminates when either the driver or passenger doors are opened. Highlighted by soft Phosphor Blue lighting. Allows customer to specify a monochrome ‘motif’ in a choice of approved typefaces/scripts.

iPad® Holder
T2H7757
Fits iPad® 1, 2, 3 & 4 (excluding iPad Mini™)
T2H7758 – Fits iPad Mini™
Jaguar branded iPad® holder mounts to front seat headrests providing a flexible solution for rear seat entertainment. Provides a sturdy base so tablet can be tilted or removed easily.

Luxury Carpet Mat Set
Jet – shown
T2H7171PVJ (Jet – shown)
T2H7171AMT (Oyster)
T2H7171AAM (Espresso)
Jet, AWD only
Oyster, AWD only
Espresso, AWD only
Luxurious, tailored 60.46 oz / yd² carpet mat set with Jaguar Ingot and Nubuck edge binding.

Aluminum Paddle Shifters
T2R6547MMU (Brushed Aluminum – shown)
T2R6547CAY (Red)
Replacement steering wheel paddles offered in a premium aluminium material providing high quality finish to a key control point in the vehicle. Manufactured from billet machined aluminum, hand brushed for a premium finish and anodized to ensure they will not deteriorate over time.

Central Armrest Chiller/Warmer
T2H7739
Food and drinks chiller and warmer that acts as a rear center armrest. With a leather-covered top, it is held in place by the center seat belt and powered from the rear auxiliary socket. Ideal for long trips with the family.

Rear Splash Guards
T2H12954
Jaguar branded, rear splash guards complement the lines of your vehicle and provide protection from dirt and salt damage.

†Not available for XF.
CHOOSE YOUR JAGUAR GEAR

Carbon Fiber Mirror Cap
C2P24176 – Right Side
C2P24177 – Left Side
High grade Carbon Fiber mirror covers provide a performance-inspired styling upgrade.

**Not applicable for R-Sport. †Not available on Sportbrake. ††Requires roof cross bars T2H14468.

Carbon Fiber Side Vent
T2H18318 – Left Side
T2H18319 – Right Side
High grade Carbon Fiber side power vents provide a performance-inspired styling upgrade.

Gloss Black Side Vent
T4N5176 – Left Side
T4N5178 – Right Side
Jaguar branded, Gloss Black side power vents provide a dynamic exterior styling enhancement.

Rear Tailgate Trim – Gloss Black†
T2H6925
Add style and visual distinction with Gloss Black finish rear tailgate trim.

Gloss Black Mirror Cap
C2D6067PEC – Left Side
C2D6066PEC – Right Side
Gloss Black mirror covers accentuate the dynamic design of the exterior mirrors.

All-Weather Car Cover†
T2H7756
All-weather tailored cover for the XF with the Jaguar logo. Essential gear if your vehicle is stored outside or in extreme environments.

Roof Cover Bars
T2H4089
T-shaped roof bars required for fitting all roof carrying equipment. Engineered specifically for your vehicle.

Roof Sport Bar††
C2A2426
Maximum 76 kg (168 lb) capacity foldable roof box designed for sports equipment, carrying loads up to 81 x 33 x 13 inches.

Roof Mounted Cycle Carrier††
C2A1540
An easy to fit, roof mounted, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

Roof Cross Bars
T2H14468
Jaguar branded cross bars required for fitting all roof carrying equipment. Engineered specifically for your vehicle.

Roof Sport Box††
C2C41627
Spacious 11 cubic feet capacity lockable roof box designed for sports equipment, measuring 81 x 33 x 13 inches.

Premium Cargo Space Carpet Mat†
T2H7174PVJ – Space Saver NLI Variant
T2H7175PVJ – Space Saver NGI Variant
T2H7176PVJ – Non Space Saver Variant
Luxurious soft luggage mat in Jet Black with the Jaguar logo. Deep premium 60.46 oz / yd² pile with Nubuck edging and Dove contrast stitch. For vehicles equipped with InControl Touch Pro™ and fitted with space saver spare wheel OR for vehicles fitted with tire repair kit.

Rear Spoiler†
T2H6236LML
Give the XF an even more sporting look with this body-colored spoiler exterior styling upgrade. For XF, Premium, Prestige and Portfolio rear luggage compartment lid spoiler in primed condition for painting. Spoiler is standard for R-Sport and ’S’.

Splendor Images
Roof Mounted Cycle Carrier†
C2A1539
An easy to fit, roof mounted, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

†Requires Roof Cross Bars T2H24300. **Only available on XF Sportbrake.

VEHICLE SHOWN: XF SPORTBRAKE S IN YULONG WHITE WITH OPTIONAL EQUIPMENT

PERSONALIZATION

CHOOSE YOUR JAGUAR GEAR
Configure your vehicle at JAGUARUSA.COM

Roof Cross Bars**
T2H24300
Jaguar branded cross bars required for fitting all roof carrying equipment. Engineered specifically for your vehicle.

Roof Sport Box†
C2C41627
Spacious 11.3 cu.ft. capacity lockable roof box designed for sports equipment, measuring 81.1 x 33 x 13.3 inches.

Fork Mounted Cycle Carrier†
C2A1540
Fitted to the roof, the fork mounted cycle carrier provides a simple and secure fitting with the bike front wheel removed, ideally suited to lightweight bikes and ‘racing’ wheels. A separate carrier is included for the front wheel. Easy to fit, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

Watersports Carrier†
C2C2730
A versatile system for transporting a variety of water sports equipment including surfboard, kayak or sailboard. Tilts to facilitate loading/unloading.

Ski/Snowboard Holder†
C2A1538
A safe and secure Jaguar branded system for transporting winter sports equipment. Incorporates slider rails for easy loading. For four pairs of skis or two snowboards.
Click and Play – iPad® 2-4**
Click and Play is a removable tablet holder attachment which is available for various tablets, and can be easily positioned in multiple angles for in-cabin comfort and rear entertainment.

Click and Hook**
Click and Hook is a universal hook that creates extra storage space for items to be hung.

Click and Hang**
Click and Hang is a removable coat hanger allowing for shirts and jackets to be kept crease-free while transporting.

PERSONALIZATION

Jaguar Sill Treadplates
T2H17123PVJ – Ebony
Elegantly styled stainless steel sill treadplate finisher for driver or passenger doors featuring a distinctly British design.

Sport Pedal Covers
T2H3746 – Automatic
Made from stainless steel and rubber, the pedal kit is TÜV security tested and made of a durable, high-quality rubber. The non-slip rubber ensures the pedals are maintained in a stable, secure position.

Luggage Compartment Waterproof Liner**
T2H24704
Total protection for the luggage compartment and second row seat back. Bespoke developed for XF Sportbrake, the liner is a fully waterproof and is easy to fit or remove in a matter of minutes.

Aperture Retention Net**
T2H31242
The aperture retention net prevents small items from falling out of the cargo space when the tailgate is opened and maximizes packing space. Manufactured from premium lightweight materials including high-grade machined aluminum to ensure robust quality.

Luggage Guard**
T2H31273
The luggage compartment partition is designed to prevent cargo from entering the passenger compartment.

Luggage Compartment Collapsible Organizer
T2H7752
Collapsible luggage compartment organizer keeps items from shifting during transport with two durable straps.

Luggage Compartment Rubber Mat**
T2H24552
This premium mat is tailored specifically to protect the luggage compartment. Light and durable, it is easily removable for cleaning.

Luggage Compartment Multi-purpose Liner**
T2H24651
All-in-one premium cargo space carpet mat and double layer reversible rubber liner helps protect the rear cargo space from general dirt. The liner can be folded out to cover the back of the second row seats when folded down. Also includes fold out bumper protector.

Bumper Protector**
T2H24701
Provides protection for the rear bumper from scuffs and scratches and helps to prevent clothing from collecting dirt when loading and unloading.

JAGUAR EXPERIENCE

There’s no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and vehicles from the incredible Jaguar range to the limit. Jaguar Experience also offers the opportunity to see a Jaguar vehicle brought to life during a tour of one of our UK manufacturing facilities.

Find out more by visiting JAGUARUSA.COM
Choose an XF and you’re joining the exciting World of Jaguar. It makes owning and driving carefree and easy, as well as providing a range of exclusive services and lifestyle products.

**JAGUAR ELITECARE**
Enjoy your Jaguar with peace of mind. The XF is backed by Jaguar EliteCare, our exceptional 5 year / 60,000 mile coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and Jaguar InControl Remote & Protect™.

**NEW VEHICLE LIMITED WARRANTY**
The New Vehicle Limited Warranty (the ‘Warranty’) lets you enjoy your driving with peace of mind and runs for a best in class 5 years or 40,000 miles, whichever occur first. The Warranty is fully transferable to subsequent owners and remains in effect throughout the Warranty coverage period.

**COMPLIMENTARY SCHEDULED MAINTENANCE™**
Relax in the knowledge that long-term performance is assured with the Complimentary Scheduled Maintenance Coverage. It covers factory recommended scheduled servicing as detailed in the Passport to Service for 5 years or 60,000 miles, whichever occur first. A Service Interval Indicator will appear every 16,000 miles or every 12 months, to remind you to take advantage of your complimentary maintenance.

**GENUINE PARTS**
Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for the XF to contribute to optimum performance and to help maximize its lifespan.

**ROADSIDE ASSISTANCE**
Jaguar Roadside Assistance provides help in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle’s warranty period.

**THE JAGUAR MAGAZINE**
This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel.

**JAGUAR COLLECTION**
The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our vehicles. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar’s heritage we also have a collection that honors past achievements and features race-inspired gift items and apparel. Visit shop.jaguarusa.com to browse the Jaguar Collection.
**GLOSSARY**

**The Global Positioning System (GPS)** uses satellites to determine the car’s position. By cross-referencing this with mapping, it also reduces fuel consumption by reducing the energy demands placed on the engine by climate control systems, and allows rear occupants to optimize cabin temperature and air flow. For rear passengers to make the most of the car’s advanced features, a unique ‘J’ blade Daytime Running Lights incorporating LED Direction Indicators. The lights also integrate the vehicle’s automatic lighting and Auto High Beam Assist (AHBA) systems. Adaptive Lighting systems and Adaptive Full LED Headlights allow the car to adapt to road conditions. They emphasize the striking on-road style of Jaguar vehicles. Configurable Interior Mood Lighting highlights a number of key functional and styling features of your Jaguar by the Traffic Sign Recognition system. It displays a wide range of key driving information. Four graphical themes and a 3D map view are available. The 12.3” virtual navigation map is a TFT (Thin Film Transistor) screen that replaces the traditional instrument cluster. It can also be operated as a touch screen, allowing simple navigation through your car’s systems. The multi-touch functionality of Touch Pro 10” display allows the screen to recognize multiple points of contact. Auxiliary (AUX) connections allow for the convenient input of audio signals from personal devices into the system. A Mobile High-Definition Link (MHL) enables connection between a personal device and the InControl® infotainment system. It is designed for seamless transfer of audio-visual data.**

**ENVIRONMENTAL INNOVATION AT JAGUAR**

The Adaptive Stop/Start feature, designed to improve fuel efficiency and reduce vehicle CO₂ emissions, brings the car to a complete stop at stationary traffic. The engine will restart as soon as the driver foot comes off the brake pedal. The engine will operate at full capacity before the driver’s foot has touched the accelerator pedal. In addition to improving fuel efficiency, this feature provides a number of benefits to the environment. By reducing CO₂ emissions, the company’s global sales growth and increased investment in more efficient operating facilities, we are proud to have been awarded Platinum Plus level in the UK’s Business in the Community Corporate Responsibility Index. But it doesn’t stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and we are credited for vehicle ‘life cycle assessment’. This certification measures the environmental impact of the XJ from component material sourcing and manufacturing process, through driving 124,000 miles. But that’s not all. Every new Jaguar is designed to be more fuel efficient and reduce CO₂ emissions during the production phase of the Life Cycle. Jaguar is committed to reducing dependency on fossil fuels, using a more sustainable manufacturing process and reducing greenhouse gas emissions. All fees and programming are subject to change. SiriusXM® Satellite Radio is not available in Alaska, Puerto Rico and U.S. Virgin Islands. The Best-Fit Estimate chart indicates the number of available recipients for which your vehicle is configured. It includes base configuration and any valid combinations of options. It does not indicate the total number of configurations possible. Comparisons are based on manufacturer’s own data and testing. **AUTHORIZED FrANCHISE**
