Patriot's deep design roots are equally inspired by both nature's fine, small details and by the bold, expansive formations that create the topography from the intricacies of the smallest plants to the complexities of efficient ecosystems. Patriot lends an ear to hear what the earth is saying. This may be one reason Patriot feels so at home climbing mountains, roaming forests, and wading through streams.

**HEATED POWER EXTERIOR MIRRORS.** Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors icicle-free as you drive.

**ELECTRONIC STABILITY CONTROL (ESC).** An advanced system designed to assist drivers in maintaining control of their vehicles at all times. It integrates an available four-wheel Anti-lock Brake System (ABS) with Hydraulic Brake Assist, all-speed traction control, and Electronic Roll Mitigation (ERM) to constantly monitor driver input against the vehicle’s actual course. When needed, the system automatically helps provide braking to the appropriate wheels and reduces engine power when overly sharp steering and/or impending wheel lift is detected.

**TIRES PRESSURE MONITORING SYSTEMS.** Embedded sensors continuously monitor the pressure in the tires and will immediately notify the driver when it drops below the minimum acceptable level.

**HALOGEN HEADLAMPS AND FOG LAMPS.** These bright sources of light improve down-road visibility at night or during inclement weather.

**HILL START ASSIST.** This system works to prevent your Patriot from rolling away when starting the vehicle on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver’s foot is removed from the brake pedal, allowing time to apply the throttle. Standard on manual transmission models, and included with the Trail Rated, Freedom Drive II Off-Road Group.

**FRONT-SEAT ACTIVE HEAD RESTRAINTS.** In the event of a rear-end collision, the head restraint moves forward and upward to decrease the space between the headrest and the occupant’s head, thereby helping to reduce the chance of injury.

**SIRIUSXM TRAFFIC.** Avoiding traffic jams is easy. With SiriusXM Traffic, you’re notified of major accidents, construction, and road closings along your route. SiriusXM satellites monitor a million miles of roadway nationwide and coast-to-coast, all day, every day. Color-coded roadways inform you of traffic flow and speed in major metropolitan areas.
