PRESENTING THE ALL-NEW KIA K900 LUXURY SEDAN
EXPECTED FEBRUARY 2014*

THE STORY CONTINUES AT KIA.COM/K900
2015 K900 expected February 2014. Initially only available in certain markets with limited availability. ©KIA Motors.
Year after year, Kia has shown how surprisingly good an automobile can be when a company dares to defy conventional thinking. With impressive exterior styling that demands attention and the latest advances in technology, each highly acclaimed new model has embodied the company’s vision for producing vehicles that inspire and exhilarate. Now, Kia’s striking evolution has culminated in an exceptionally refined luxury sedan that will compete with the finest on the road. Presenting the Kia K900, a brilliant union of dynamic performance, innovative technology and evocative design. Graced with the superior craftsmanship, fine materials and sophisticated amenities reserved for the world’s most prestigious automobiles, the K900 is designed to satisfy the most discerning driver and indulge the most demanding passengers. Spacious and luxurious, powerful and uncompromising, the K900 is the luxury sedan Kia was destined to create.

†2015 K900 expected February 2014. Initially only available in certain markets with limited availability.

**Superieur Comfort**

- **Luxurious Front and Rear Seats**
  - Driver and passengers alike will enjoy optimal comfort in any weather. Heated front and rear seats feature multiple temperature settings. You’ll also appreciate the ventilated front and available ventilated rear seats year-round.
  - Rear-seat passengers enjoy first-class accommodations. A sleek control panel allows convenient adjustment of the second-row climate system, the rear power sunshade and the rear seats’ heating and available ventilation.
- **16-way Adjustable Driver’s Seat**
  - The 16-way power-adjustable driver’s seat with memory settings provides the luxury of personalized ergonomics. An available power-adjustable seat cushion extension allows drivers to select additional custom comfort settings.
- **Superior Craftsmanship and Meticulous Attention to Detail**
  - Superior craftsmanship and meticulous attention to detail combine to create a truly luxurious interior. Its elegant design is enhanced by supple, premium Nappa leather trim complemented by genuine wood accents. In addition, superb interior sound insulation dramatically reduces road noise so everyone can enjoy a remarkably quiet ride in absolute luxury.

*Not all optional features are available on all trims. K900 V8 with V8 Turbo shown. K900 V8 with V6 Turbo shown.*
DRIVER INFORMATION SYSTEM CONTROL
A control dial with direct access buttons and intuitive operation provides convenient access to a wider range of advanced systems, including entertainment and voice-command navigation functions as well as UVO eServices1 suite of features.

UVO eServices1 with Voice-Command Navigation
UVO eServices1 is a subscription-free infotainment system that enables you to connect your compatible smartphone2 to your vehicle and access a range of entertainment and information services.

LED TFT CLUSTER
Using advanced Thin-Film Transistor (TFT) technology, the available 12.3-inch high-definition Supervision meter cluster features precise graphics and delivers a range of information with exceptional clarity.

HEAD-UP DISPLAY**
With the available Head-Up Display, information like current speed and lane departure warning is projected onto the windshield glass in the driver’s line of sight. An outside lighting change, the display’s brightness will automatically adjust.

WARNING: Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury, and death. Your primary responsibility while driving is to safely operate your vehicle. The use of any handheld devices, other equipment or vehicle systems which take the driver’s eyes, attention and focus away from the safe operation of a vehicle or which are not permissible by law should never be used during operation of the vehicle.

1. Compatible with select Android™ and iPhone® devices. Please check myUVO.com for compatibility. *Not all optional features are available on all trims. K900 V8

2. No subscription fee for UVO eServices. No charge for the UVO eServices app. App uses your smartphone cellular data service. Normal cellular service rates will apply.

3. Warning: Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury, and death. Your primary responsibility while driving is to safely operate your vehicle. The use of any handheld devices, other equipment or vehicle systems which take the driver’s eyes, attention and focus away from the safe operation of a vehicle or which are not permissible by law should never be used during operation of the vehicle.

LED TFT CLUSTER
** Using advanced Thin-Film Transistor (TFT) technology, the available 12.3-inch high-definition Supervision meter cluster features precise graphics and delivers a range of information with exceptional clarity.
BLIND-SPOT DETECTION WITH LANE CHANGE ASSIST®
The available radar system helps detect vehicles in the driver’s blind spot and then provides alerts. Lane Change Assist helps detect vehicles approaching from behind.

LANE DEPARTURE WARNING SYSTEM®
The available Lane Departure Warning System is designed to detect vehicle movement out of the lane without the use of a turn signal. When it does, audible and visual warnings alert the driver.

ADVANCED SMART CRUISE CONTROL®
Available Advanced Smart Cruise Control uses radar to maintain a predetermined distance from the vehicle ahead, automatically slowing or accelerating your K900 when appropriate.

ADAPTIVE FRONT LIGHTING SYSTEM
For optimal visibility all night, the Adaptive Front Lighting System (AFLS) works with the high-intensity discharge or LED headlamps to deliver a varying beam pattern based on vehicle speed and steering angle.

AROUND VIEW MONITOR (OVM)®
Available KVM includes four cameras located at the K900’s front, sides and rear to supplement the Around View Monitor System, providing a view around the vehicle for more convenient parking maneuvers.

INTELLIGENT AND INNOVATIVE

The available radar system helps detect vehicles in the driver’s blind spot and then provides alerts. Lane Change Assist helps detect vehicles approaching from behind.
