when four doors just isn’t enough

We get it — you’ve got places to go and things to bring with you, and sometimes those things come in all shapes and sizes. That’s the beauty of having an easy-in, easy-out hatchback — and like the Forte sedan, there are three trims to choose from.

*FEATURE AVAILABLE ONLY ON CERTAIN TRIMS (SHOWN IN GRAY ON THIS PAGE ONLY). SEE KIA.COM FOR DETAILS.*

WAIT, IT DOES WHAT?

Even the best drivers can use a little help. So we created Kia Drive Wise, a suite of available, advanced driver-assistance marvels designed to keep you alert, aware of surrounding traffic, and even intervene if needed to help you avoid collisions — plus more amazing features that you may soon be bragging about around the watercooler.

* Feature only available on certain trims. See kia.com for details.
Four ways to help you **REMAIN CENTERED** amid the chaos of life

Vehicles in your blind spot, changing lanes in traffic, and unintentional drifting are just a few of the hazards that are part of everyday driving. Thankfully, these available advanced features are up to the challenge, providing you with alerts and assistance as you make your way down the road.

- **Blind Spot Detection**
  - Radar works to detect vehicles in your blind spot and give visual and audible alerts to help you avoid hazardous lane-change decisions.

- **Lane Change Assist**
  - When you put your blinker on to change lanes, it is designed to warn you of vehicles in adjacent lanes approaching from behind.

- **Lane Departure Warning System**
  - If the system detects you drifting too close to lane markers without signaling, it can alert you with a warning beep.

- **Lane Keep Assist System**
  - If the system detects the vehicle getting close to lane markers, it can apply corrective steering to help prevent you from drifting into another lane.

IT DETECTS, COORDINATES, AND REACTS

to give you more peace of mind

Advanced sensor systems, strategically placed airbags, and breakthroughs in material design that have led to stronger body construction are just a few of the ways Kia never stops working to help increase your protection.

ADVANCED AIRBAG SYSTEM<sup>16</sup> includes dual front, front seat-mounted side, and full-length side curtain airbags to help protect driver and passengers.

AIRBAG & SEAT-BELT SENSORS<sup>16</sup> monitor the severity of certain impacts and seat-belt use, then help to control airbag inflation accordingly.

FRONT SEAT-BELT PRETENSIONERS tighten extra slack in driver and front-passenger seat belts in certain collisions to help reduce injuries.

HEIGHT-ADJUSTABLE SEAT-BELT ANCHORS let you adjust the front seat belts for a proper fit to help optimize effectiveness.

REINFORCED BODY CAGE helps absorb impact energy in certain collisions to protect the passenger compartment.

No system, no matter how advanced, can compensate for all driver errors, driving conditions, accidents, and/or injury. Always drive responsibly. See back cover for endnote. Simulated image; inflated airbags shown for illustration purposes only.
