IT STARTS WITH A VICTORY LAP.

With two new race-inspired GT trims, the 2020 Forte is as at home in Daytona Beach as it is maneuvering around town. Available features include a powerful 201-hp turbocharged engine, an independent rear suspension, sport-tuned dual exhaust, and sport side sills with black high-gloss trim — plus advanced technology and premium features that give every Forte its confident attitude.

THE BIRTHPLACE OF SPEED.

The hard-packed sands of Florida beaches were the ultimate proving ground for America’s early auto enthusiasts. The first speed trials took place in 1903 on Ormond Beach, stock car racing debuted in 1922 on Daytona Beach, and today, more races are held at Daytona’s world-famous speedway than at any other track in the U.S.
The Forte sedan comes in five different trims. Here are some key features and options of the first three — FE, LXS, and EX — to help you decide if one of them is the perfect choice for you.

WANT EVEN SPORTIER STYLE AND PERFORMANCE?

Forte has two sport trims to choose from: GT-Line, if looks are all you need— or the GT for good looks and a boost of turbocharged adrenaline. Both are equipped with a race-inspired flat-bottom steering wheel, bolstered seating, plus-size wheels, and more premium technology.

Optional feature available only on certain trims (highlighted on this page only). See KIA.com for details. 1–3, 5–9 See inside back cover for endnotes.
WAIT, IT DOES WHAT?

Even the best drivers can’t be perfect 100% of the time. So we created Kia Drive Wise, a suite of available advanced driver-assistance technologies that are designed to help keep you alert, aware of surrounding traffic, and even intervene in certain situations to help you avoid collisions — plus more amazing features that you may soon be bragging about around the watercooler.

*Optional feature available only on certain trims. See kia.com for details. See inside back cover for endnote. EX SHOWN.
THE SECRETS TO STAYING CENTERED.

Vehicles in your blind spot, changing lanes in traffic, and unintentional drifting are just a few occasional hazards of life behind the wheel. Thankfully, these available advanced features are up to the challenge, providing you with alerts and assistance as you make your way down the road.

LANE CHANGE ASSIST
When you put your blinker on to change lanes, it is designed to help warn you of vehicles that it detects in adjacent lanes approaching from behind.

BLIND-SPOT COLLISION WARNING
Radar works to help detect vehicles in your blind spot and give visual and audible alerts to help you avoid some hazardous lane-change decisions.

LANE DEPARTURE WARNING
If the system detects you drifting too close to lane markers without signaling, it can help alert you with a warning beep.

LANE KEEPING ASSIST
If the system detects the vehicle getting close to lane markers, it can apply steering input to help prevent you from drifting into another lane.

*Optional feature available only on certain trims. See kia.com for details.

SENSES, ALERTS, AND HELPS STOP.

Who needs a copilot when you can have the help of these available advanced features that are designed to enhance your ability to put on the brakes — plus other technologies to assist you on the road.

**FORWARD COLLISION WARNING**\(^5\) DW
This system is designed to help detect slowing or stopped traffic ahead, and alert you if it detects you getting too close.

**FORWARD COLLISION- AVOIDANCE ASSIST WITH PEDESTRIAN DETECTION**\(^6\) DW
This system is designed to help detect and alert you of a potential forward collision with a preceding vehicle or pedestrian and even automatically apply the brakes in some cases.

**SMART CRUISE CONTROL**\(^7\) DW
This system is designed to automatically adjust your driving speed to help maintain a predetermined distance from the vehicle detected ahead of you.

**DRIVER ATTENTION WARNING**\(^8\) DW
This system is designed to give you a warning signal to take a break if it detects inattentive driving practices.

\(^5\) Optional feature available only on certain trims. See kia.com for details.
\(^6\) See inside back cover for endnotes. Image shown for illustration only. EX-SHOWN.
From approaching cars to that wayward shopping cart hiding in your blind spot, a little extra help goes a long way when backing up. That’s why Forte has got your back, with available features that can help alert you to a variety of potential hazards that are behind you — as well as those heading your way.

**REAR CROSS-TRAFFIC COLLISION WARNING**

uses visual and audible alerts that can help warn of traffic the system detects coming from either side when you’re in reverse.

**PARKING DISTANCE WARNING — REVERSE**

on GT is designed to give an audible warning if it detects certain objects close to your vehicle when you’re in reverse.

**REAR VIEW MONITOR WITH PARKING GUIDANCE**

includes a large, bright screen that helps you see what’s behind your vehicle, with guidelines that adjust to follow the direction you’re turning.

*Optional feature available only on certain trims. See kia.com for details. See inside back cover for endnote. Image shown for illustration only. EX SHOWN.*
