The 2018 Niro Hybrid and all-new Niro Plug-In Hybrid (PHEV), two incredibly intelligent and well-adapted crossovers. Both feature considerable versatility, comfort, and driving enjoyment, along with some truly forward-thinking engineering. Behind their inviting profile, you’ll find an artful orchestration of systems that define modern driving, including available driver-assistance technologies.* Road time should be quality time, so both models deliver an engaging driving experience in a spacious and comfortable interior.

Niro HEV and PHEV take you farther too, with a hybrid powertrain designed to work seamlessly and help maximize operating efficiency. Like all Kia models, Niro comes with an industry-leading 10-year/100,000-mile warranty program — a testament to its outstanding quality and reliability.

**Niro Hybrid**

**FE**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- 6-speed dual-clutch automatic transmission w/sport mode
- 16” alloy wheels w/full covers
- UVO eServices® Infotainment System w/Apple CarPlay™ & Android Auto™
- Cloth seat trim

**LX**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- Push-button start w/Smart Key
- LED rear combination lights
- Roof rails
- Cloth seat trim

**EX**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- Power-folding outside mirrors
- Blind Spot Detection w/Lane Change Assist®
- Rear Cross Traffic Alert®
- Cloth & leather seat trim

**TOURING**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- 18” alloy wheels
- UVO eServices w/Premium Navigation® Infotainment System w/Apple CarPlay™ & Android Auto™
- Autonomous Emergency Braking®
- Leather seat trim

**Niro Plug-In Hybrid**

**LX**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (44.5 kW)
- 16” alloy wheels w/full covers
- UVO eco®
- Apple CarPlay™ & Android Auto™
- Autonomous Emergency Braking®
- Cloth seat trim

**EX**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (44.5 kW)
- Blind Spot Detection w/Lane Change Assist®
- Rear Cross Traffic Alert®
- Power-folding outside mirrors
- 10-way power-adjustable driver’s seat
- Cloth & leather seat trim

**EX PREMIUM**
- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (44.5 kW)
- UVO eco®
- Apple CarPlay™ & Android Auto™
- Premium Navigation
- Harman Kardon® premium audio
- Leather seat trim

*See a more extensive list of features and choose your ideal trim level on the Features pages in the back of the brochure.

See more feature options for availability and details.

1. 2. 3. 4. 5. 6. 7. *See Features pages for availability and endnotes.

Not all optional features are available on all trims.
**CARGO & VERSATILITY**

1. **SPACIOUS CARGO AREA**
   Niro has an impressive amount of cargo capacity with its flat-folding rear seats. This is a result of the compact design of Niro’s hybrid battery, which is located beneath the rear seat.

2. **60/40 SPLIT-FOLDING SEATS**
   The rear seats’ 60/40 split-folding design allows you to expand the cargo area when you need to and still accommodate rear passengers.

3. **NIRO HEV CONCEALED STORAGE**
   Store items out of sight in a spacious compartment hidden beneath the cargo floor. An available sectioned storage tray lets you keep emergency supplies and personal items neatly organized.

4. **NIRO PHEV CHARGE CORD STORAGE**
   Niro Plug-In Hybrid’s 120-volt charge cord stores neatly away in the concealed storage area.

**For modern multitaskers**

True to its crossover design, Niro is equipped to handle the demands of your day. The cabin is spacious enough to accommodate friends on your getaways, and it gives you helpful flexibility in making room for everyone’s gear. The rear seats fold flat, and storage compartments help you stay organized. The more complex your day is, the more you’ll appreciate Niro.

---

* See Features pages for availability and endnote. Not all optional features are available on all trims.
For lovers of open spaces

Inside Niro you’ll find a space tailored for relaxation on supportive seats. Its smooth, quiet ride is a direct result of extensive research and development, so that it could be engineered to reduce noise and vibration. You’ll find plenty of headroom and legroom, and a commanding view of the scenery passing by. Prepare to feel appreciated, and arrive at your destination remarkably refreshed.

COMFORT & SPACIOUSNESS

1. HEATED & VENTILATED SEATS* For comfortable driving in cold weather, Niro features available heated front seats. To help you stay cooler on hot summer days, available ventilated front seats circulate cool air through subtle perforations in the seat leather.

2. POWER-ADJUSTABLE DRIVER’S SEAT * Select just the right seating position using the convenient controls for the available 10-way power-adjustable driver’s seat. Lumbar support can also be adjusted for maximum comfort.

3. DRIVER’S MEMORY SEAT & MIRROR SYSTEM* An available memory system remembers seating preferences for two drivers. It recalls stored positions for the driver’s seat and outside mirrors with the simple push of a button.

4. DUAL-ZONE AUTOMATIC TEMPERATURE CONTROL To create personalized climate zones for both the driver and front passenger, the dual-zone automatic temperature control offers individual temperature settings. There’s also an available rear-seat vent, which combines the airflow from both temperature settings.

5. DRIVER-ONLY AIRFLOW CONTROL When you drive alone in Niro, push the driver-only airflow button to reduce the fan speed and direct ventilation exclusively to the driver’s side. This step can help reduce fuel consumption.

POWER SUNROOF* The available sunroof powers open and shut, letting in fresh air and sunshine at the press of a button. A retractable sunshade helps you stay cool on hot days.

An exceptionally quiet ride

For a peacefully quiet drive, the windshield features sound-insulating glass, while sound-absorbing insulation throughout the vehicle helps reduce the intrusion of outside noise.

AUTO DEFOG SYSTEM For convenience and visibility, the dual-zone automatic temperature control includes an auto defogger system to help keep the windshield free of condensation.
In touch with your inner driver

Visually appealing from every angle, the Niro cabin gives particular attention to the driver. At the wheel, you enter a special environment of modern contours and helpful instrument design. The controls are logically configured, and positioned for maximum simplicity. A wide selection of premium comfort and convenience features helps you create the perfect daily driving environment.

**INTERIOR FEATURES**

1. **HARMAN KARDON® PREMIUM AUDIO**
   An available premium 8-speaker Harman Kardon audio system includes a subwoofer, an external amplifier, and Clari-Fi™ technology, which instantly improves the quality of compressed, digitized music for crisp, clear, dynamic sound.

2. **HEATED STEERING WHEEL**
   To help keep the drive enjoyable all year round, the premium features available on Niro include a heated steering wheel that is particularly welcoming and comforting when starting out on cold winter days.

3. **WIRELESS PHONE-CHARGING SYSTEM**
   An available integrated cordless charger allows you to fully charge a Qi-compatible smartphone by simply placing it on a convenient tray in the front console, eliminating the need for accessory cables or wires.

4. **PUSH-BUTTON START WITH SMART KEY**
   For everyday driving convenience, this available feature lets you start or stop the engine with the push of a button, and open a locked door just by pressing the door button if the available Smart Key remote is in your pocket or purse.

5. **SUPERVISION METER CLUSTER**
   An advanced Thin-Film Transistor (TFT) coating brings high-contrast graphics and outstanding readability to the supervision meter cluster’s color LCD. It displays trip computer, audio, service, user settings, and hybrid-system energy-flow status.

**VOICE-COMMAND NAVIGATION**

An available advanced voice-command navigation system features a vivid 8-inch color touch screen and, to help you choose your optimum route, delivers updated highway conditions with available SiriusXM Traffic™.

**BLUETOOTH® WIRELESS TECHNOLOGY**

You can listen to streaming audio when using a compatible Bluetooth® wireless technology-enabled device. Once you pair a compatible cell phone, you can access a variety of your phone’s functions with the touch of a button and straightforward voice commands.

**SIMPLIFIED SCREEN SHOWN**

*See Features pages for availability and endnotes. Not all optional features are available on all trims. Simulated screens shown. Images 1 and 2 shown for illustration only.*
Advanced technology at your command

Niro connects you to life-enriching conveniences of modern driving, including communication, data, and entertainment. All this intuitive technology is efficiently organized and designed to make sure you are connected and informed, enhancing your confidence while driving and helping to keep you focused on the road.

1. UVO®
This system provides you with exceptional in-vehicle hands-free connectivity, and has a large suite of features meant to enrich your everyday driving experience. UVO can set up CarInfo, Speed, and available Geo Fencen alerts with My Car Zone, access My Connect1 in Enhanced Roadside Assist, and check maintenance requirements with Vehicle Diagnostics in on the touch screen.

2. UVO eServices APP® (HEV)
UVO eServices app includes a variety of features for your HEV. You can keep track of your vehicle’s parking location with Parking Minder™ and it allows you to save destinations with available My Points of Interest1. You can then sync your saved My POIs® with your UVO Infotainment System when your smartphone15 is connected with a USB cord.

3. UVO eco APP® (PHEV)
UVO eco app lets you access a range of remote functions for your PHEV. Keep track of your vehicle’s location, speed, and estimated driving range with Find My Car16 and remotely operate the climate control system to warm or cool the vehicle17 it also features Valet Alert17 which can alert you if your vehicle is driven outside of a one-mile radius, and Vehicle Alarm Notification† which can alert you if the alarm is triggered.

4. APPLE CarPlay™
Apple CarPlay18 lets you take advantage of Apple CarPlay and Android Auto by simply connecting your compatible smartphone19 with a USB cable. You can then use it to navigate to your destination, make phone calls and retrieve voice mail, receive text messages and respond to them verbally, and more.

5. ANDROID AUTO™
UVO lets you take advantage of Apple CarPlay and Android Auto by simply connecting your compatible smartphone20 with a USB cable. You can then use it to navigate to your destination, make phone calls and retrieve voice mail, receive text messages and respond to them verbally, and more.

6. REAR-CAMERA DISPLAY
To help you see things behind your vehicle that you might not see by looking over your shoulder, Niro features a Rear-Camera Display with Dynamic Guidelines to assist with backup maneuvers.

7. SMART WELCOME
This available feature greets you as you approach Niro with the Smart Key. * The side mirrors fold out as LEDs flash, and the door-handle pocket lights illuminate softly.

8. AUTONOMOUS EMERGENCY BRAKING©
This available system is designed to monitor vehicles and pedestrians traveling ahead of you. If the system determines a crash might be imminent, it works to automatically apply the brakes, helping to avoid a collision or mitigate the effects if it cannot be avoided.

9. LANE DEPARTURE WARNING©
This available system is designed to detect the vehicle moving out of its lane without the turn signal being used. When it does, it helps alert you with a combination of audible and visual warnings.

10. LANE KEEP ASSIST®
The available Lane Keep Assist System helps keep your Niro in its lane. * Its features are intended to help keep you alert and aware of surrounding traffic, and intervene if necessary to help you avoid collisions.

11. REAR CROSS TRAFFIC ALERT®
When reversing available Rear Cross Traffic Alert warns the driver of cross traffic that it detects, with audible and visual alerts, helping reduce the likelihood of a collision.

12. SMART CRUISE CONTROL©
Using advanced radar technology, available Smart Cruise Control automatically helps to maintain a predetermined distance from the vehicle directly ahead, holding a constant speed or slowing or accelerating your Niro when appropriate.

13. FRONT & REAR PARK ASSIST®
An available sonar-sensor system is concealed in both the front and rear bumpers. When parking, an audible warning is given if the system detects objects ahead that may cause a potential impact, encouraging the driver to decelerate.

14. FORWARD COLLISION WARNING SYSTEM™
Available Forward Collision Warning System activates alerts when the vehicle detects objects ahead that may cause a potential impact, encouraging the driver to decelerate.

15. BLIND SPOT DETECTION WITH LANE CHANGE ASSIST®
An available radar system helps detect vehicles in the driver’s blind spot, and then provides audible and visual alerts. Lane Change Assist helps detect vehicles in adjacent lanes approaching from behind.

A wiser state of mind
The driver’s state of mind was essential in the development of Kia Drive Wise — a suite of available driver-assistance technologies. Its features are intended to help keep you alert and aware of surrounding traffic, and intervene if necessary to help you avoid collisions.
PERFORMANCE AND EFFICIENCY

Niro’s 1.6L Gasoline Direct Injection (GDI) engine and powerful electric motor provide a blend of spirited performance and outstanding efficiency. They combine to deliver 139 total horsepower.

SPORT MODE

Just flick the shifter to the left to enter Sport mode, and the transmission will switch to a more dynamic shift pattern. Suddenly Niro transforms into a more responsive, engaging vehicle.

6-SPEED DUAL-CLUTCH AUTOMATIC TRANSMISSION

Niro features a 6-speed dual-clutch automatic transmission engineered for operating with a gasoline engine/electric motor combination. It optimizes the engine’s responsiveness for a sporty feel and instantly switches between gears, improving efficiency and acceleration.

A SMOOTH RIDE AND AGILE HANDLING

A refined four-wheel independent suspension, featuring front McPherson struts and a rear independent multi-link design for a smooth ride and precise handling.

STREAMLINED AERODYNAMICS

For outstanding aerodynamics, Niro features an active air flap behind the front grille that closes at higher speeds to reduce drag. Meanwhile, air vents ahead of the front wheels provide an air curtain to help manage airflow around the front wheels.

ISO-STRUCTURE™ CONSTRUCTION

Niro features a uniquely engineered body that combines various high-tensile strength steel alloys. This body structure helps provide crash protection, improves driving dynamics, and lays the foundation for a quiet ride overall.

A fresh new take on performance

Balanced and responsive by design, Niro brings inspiring agility to the world of crossovers. Experience the engaging feel of instant torque from the electric motor. The dual-clutch automatic transmission provides quick, crisp shifting. A low center of gravity translates to reassuringly confident dynamics. With its nimble handling, Niro keeps you feeling prepared, and ever on the lookout for excitement.
Powerfully efficient

Niro Hybrid (HEV) and Niro Plug-In Hybrid (PHEV) feature Kia's full parallel hybrid system, a cutting-edge design that allows both the gasoline engine and electric motor to simultaneously provide power directly to the wheels for optimum efficiency and superb performance in a variety of driving situations. PHEV also allows you to choose all-electric operation on demand, and plug right into a household outlet to conveniently recharge the lithium-ion polymer battery that powers the electric motor.

**REGENERATIVE BRAKING**

Kinetic energy is captured when the brakes are applied. The regenerative braking system converts this energy to help charge the lithium-ion polymer battery.

**HYBRID STARTER-GENERATOR (HSG)**

Designed to decrease fuel consumption, the gasoline engine can turn off at a complete stop. HSG then automatically and smoothly restarts the engine when the accelerator is pressed to resume driving.

**COASTING GUIDE**

Niro features an available technologically advanced Coasting Guide, which is included with the available Premium Navigation.* This feature coaches you on how to help maximize fuel efficiency by taking advantage of opportunities to coast.

**EFFICIENT ELECTRIC MOTOR**

HEV and PHEV use an electric motor — called a Transmission-Mounted Electric Device (TMED) — to power them in all-electric mode. The motor works in combination with the gasoline engine to provide the ideal amount of power from both. HEV uses a 32 kW motor and PHEV features a powerful 44.5 kW motor.

**LITHIUM-ION POLYMER BATTERY**

The energy-dense, compact lithium-ion polymer battery powers the electric motor and is recharged through regenerative braking. In addition, PHEV features a high-capacity 8 kWh unit that gives it an EPA-estimated range of up to 26 miles in all-electric mode. Best of all, PHEV automatically switches to hybrid operation after exceeding its all-electric range.

**PLUG-IN CHARGING**

PHEV's high-capacity battery system recharges in less than two and a half hours with a 240V power outlet, and less than nine hours using a standard household electrical outlet so you can recharge it overnight.

**REAL-TIME INFORMATION**

Niro has a display that lets you see when your vehicle is operating with either the electric motor, the gas engine, or both. It also tracks the status of the regenerative battery-charging system.

**ALL-ELECTRIC DRIVING RANGE**

PHEV features a map displayed on the large touch screen that is designed to show the approximate distance you can travel in all-electric mode.
Dedicated to making safety a top priority

At Kia, the process of improving all aspects of safety is relentless. Continual engineering advances and breakthroughs in material design have led to vehicles with exceptionally strong body construction, strategically placed airbags, and advanced sensors, complemented by a variety of active safety systems.

**ACTIVE SAFETY**

**HILL-START ASSIST CONTROL (HAC)**
When starting off on a steep hill, HAC automatically holds the brake pressure for two seconds after you take your foot off the brake pedal.

**VEHICLE STABILITY MANAGEMENT (VSM)**
For additional steering-security and control capability, the VSM system is designed to intervene in appropriate situations to help the driver regain control of the vehicle.

**TRACTION CONTROL SYSTEM (TCS)**
When TCS senses slippage during acceleration, it is designed to use a combination of both engine power and brake force to help transfer power to the wheel that has more traction.

**ADVANCED AIRBAG SYSTEM**
An advanced airbag system helps protect the driver and passengers with dual front, front seat-mounted side, and full-length side curtain airbags, and is complemented by a driver’s knee airbag.

**AIRBAG & SEAT-BELT SENSORS & HEIGHT-ADJUSTABLE ANCHORS**
This advanced system monitors the severity of certain impacts, the presence of a front passenger and seat-belt use, and then helps control airbag inflation accordingly. Pretensioners are designed to tighten the front seat belts in certain collisions, helping to reduce the likelihood of injuries. Front seatbelt anchors are height-adjustable to allow a proper fit, helping ensure effective operation.

**FRONT & REAR CRUMPLE ZONES**
Both front and rear crumple zones are engineered to help absorb and dissipate impact energy, helping to preserve the basic structural integrity of the passenger compartment in certain collisions.

**SIDE-ImpACT DOOR BEAMS**
All doors are reinforced with steel beams to help absorb impact energy and deflect side-impact force. The body’s support pillars are reinforced to help strengthen the body of the vehicle.

**BRAKE ASSIST SYSTEM (BAS)**
If BAS detects emergency braking, based on how quickly you step on the brake pedal, it is designed to apply full braking force instantly, which can help shorten your overall stopping distance.

**ELECTRONIC STABILITY CONTROL (ESC)**
ESC provides improved directional stability to help maintain better control in difficult driving situations. During emergency maneuvers, it works to control the engine and brakes to help keep your car on course.

**ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)**
To help maintain more consistent braking as vehicle loads and weight distribution change, the EBD system is designed to automatically adjust the front-to-rear balance of brake pressure.

**DEDICATED TO MAKING SAFETY A TOP PRIORITY**

At Kia, the process of improving all aspects of safety is relentless. Continual engineering advances and breakthroughs in material design have led to vehicles with exceptionally strong body construction, strategically placed airbags, and advanced sensors, complemented by a variety of active safety systems.†
Discover new possibilities

Kia's lineup features a growing number of advanced EcoDynamics models with cutting-edge technology to help reduce fuel consumption and cut emissions. They join Kia’s full line of world-class vehicles, each one engineered for superb quality and reliability, and designed to suit most every driving need. Whichever model you choose, from the impressive new hybrids to a variety of premium sedans, Kia is dedicated to delivering a combination of striking styling, dynamic performance, and a wealth of technologically advanced features.

**EcoDynamics** is Kia’s forward-thinking philosophy that focuses on reducing environmental impact and makes social responsibility a high priority. Kia extends this commitment by working to build an efficient global production system and incorporating innovative vehicle materials. Kia is dedicated to delivering technologically progressive vehicles that also feature impressive styling and exceptional performance.

**INDUSTRY-LEADING WARRANTY PROGRAM**

Kia engineers are passionate about producing vehicles that are exceptionally well designed and reliable. Their dedication to quality and attention to detail give Kia the confidence to back every model with an industry-leading warranty program.

- 10-year/100,000-mile limited powertrain warranty
- 5-year/60,000-mile limited basic warranty
- 5-year/100,000-mile limited anti-perforation warranty
- 3-year/36,000-mile 24-hour roadside assistance
- 5-year/60,000-mile 24-hour roadside assistance
- 5-year/100,000-mile limited anti-perforation warranty

**MECHANICAL & EXTERIOR**
- Engine: 1.6L Atkinson cycle 4-cylinder all-aluminum engine, full parallel hybrid system
- Horsepower: 104 hp @ 5,700 rpm
- Torque: 109 lb.-ft. @ 4,000 rpm
- Electric motor: AC Synchronous Permanent Magnet electric motor
- Voltage: 240V
- Horsepower: 43 hp
- Torque: 125 lb.-ft.
- Hybrid system battery: Lithium-ion polymer battery
- Power: 42 kW
- Energy: 1.56 kWh
- Combined horsepower: 139 hp
- Combined torque: 195 lb.-ft.
- Regenerative braking system
- 6-speed dual-clutch automatic transmission (DCT)
- Drive Mode Select System: Active Eco/Sport
- Idle Stop & Go (ISG)
- Pedestrian Warning System
- 16" tires w/alloy wheels & full covers
- Manual-folding outside mirrors
- Auto light control
- Projection headlights
- Acoustic glass (windshield)

**INTERIOR & CONVENIENCE**
- UVO eServices3 Infotainment System w/7" touch screen, Apple CarPlay™ & Android Auto™
- AM/FM/MP3/SiriusXM® audio system
- 6 speakers w/dash-mounted tweeters
- Cruise control
- USB/auxiliary input jacks, (2) 12-volt charging ports
- Bluetooth® wireless technology
- Steering-wheel-mounted 3 audio controls
- Dual-zone automatic temperature control w/auto defogger
- Driver-only air conditioning
- Power windows w/driver’s one-touch auto down
- Power door locks w/remote keyless entry
- Supervision meter cluster w/TFT color LCD
- Tilt & telescopic steering column
- Rear child-safety door locks
- Tire-Pressure Monitoring System (TPMS)

**SEATING & TRIM**
- Cloth seat trim
- 6-way manually adjustable driver’s seat & passenger’s seat w/height adjustment
- 60/40 split-folding rear seats
- Front center-console armrest w/storage

**RESTRAINT & SAFETY SYSTEMS**
- Dual front advanced airbags
- Dual front seat-mounted side airbags
- Full-length side curtain airbags
- Front & rear 3-point seat belts
- Front seat-belt pretensioners
- Height-adjustable front seat-belt anchors
- Anti-lock Braking System (ABS)
- Electronic Stability Control (ESC)
- Vehicle Stability Management (VSM)
- Traction Control System (TCS)
- Brake Assist System (ABS)
- Side-impact door beams
- Front & rear crumple zones
- Lower Anchors and Tethers for Children (LATCH)

- Voltage: 360V
- Magnetic electric motor
- Engine: 1.6L Atkinson cycle 4-cylinder all-aluminum engine, full parallel hybrid system
- Combined torque: 195 lb.-ft.
- Combined horsepower: 139 hp
- AC charge port (120V/240V)
- Combined transmission: 6-speed dual-clutch automatic transmission (DCT)
- 120V charge cable
- 7" touch screen
- 8-way manually adjustable driver’s & passenger’s seat
- Cloth seat trim
- LEATHER-TRAPED steering wheel
- Heated steering wheel
- Leather seat trim
- Heated & ventilated front seats
- Leather seat trim
- Premium Navigation
- Wireless phone charger
- Supervision meter cluster w/7" TFT color LCD
- Premium Navigation
- 8 speakers including subwoofer
- 595-watt Harman Kardon® premium audio system
- Bluetooth® wireless technology
- Siri® EyesFree
- Wi-Fi® Hotspot

**EX Premium**

- 1.6L Atkinson cycle 4-cylinder all-aluminum engine, full parallel hybrid system
- Horsepower: 104 hp @ 5,700 rpm
- Torque: 125 lb.-ft.
- Voltage: 360V
- Energy: 8.9 kWh
- Power: 59 kW
- Hybrid system battery: Lithium-ion polymer battery
- Horsepower: 60 hp
- Voltage: 360V
- Magnetic electric motor
