FEW CAR COMPANIES HAVE THE VISION TO LOOK BEYOND THE OBVIOUS AND TAP INTO UNSEEN POTENTIAL.

FEW PUSH THE BOUNDARIES OF CONVENTIONAL WISDOM TO FIND A BETTER WAY.

BUT ONE DOES.
MAZDA.

ON THE ROAD OR AROUND THE TRACK, WE DARE TO DO WHAT OTHERS DEEM IMPOSSIBLE, IMPRACTICAL OR EVEN UNTHINKABLE. FROM BOLD DESIGN TO REVOLUTIONARY ENGINEERING, WE FULFILL THE PROMISE OF AN EXTRAORDINARY DRIVING EXPERIENCE.

WITH A WORLD INTENT ON CONSUMING LESS ENERGY, WE BLAZED OUR OWN PATH TO DEVELOP SKYACTIV® TECHNOLOGY THAT GETS MORE FROM LESS WITHOUT COMPROMISING PERFORMANCE.

NOW WE’VE CREATED A BREAKTHROUGH DIESEL* THAT MERGES V8 TORQUE AND HYBRID-LIKE EFFICIENCY. A SYSTEM THAT TURNS STOP INTO GO, AND AN ALL-EMBRACING APPROACH TO SAFETY.

THESE ARE ACTIONS, NOT WORDS. PROOF, NOT THEORIES.

OUR PHILOSOPHY IS SIMPLE: IGNORE THE NAYSAYERS, CONFORM TO NOTHING, RETHINK WHAT’S POSSIBLE.

THE END RESULT: A COURAGEOUSLY ENGINEERED CAR THAT COULD ONLY BE CALLED A MAZDA.

*Late availability.

CAPTURED MOTION. UNRESTRAINED EMOTION.

Presenting the TAKERI Concept. It exemplifies everything that is beautiful about the next generation of our KODO “Soul of Motion” design. Muscular yet artistic. Both powerful and emotional. Wild, but never out of control. Even at a standstill, it brings to mind an animal about to leap forward at great speed. Brimming with craftsmanship, it evokes the human touch of a product made by hand. Even as a concept, it pushes what’s considered possible.
FORWARD-THINKING DESIGN. CENTURIES IN THE MAKING.

An ancient Japanese craft and a modern sports sedan have more in common than one could ever imagine. Like the famed Urushi artisans, Mazda’s craftsmen obsess over details. Proof of this can be seen in a paint unlike any before it. With Soul Red Metallic, we created what we believe is the world’s most emotionally appealing red. By combining highlights, shade and depth, it evokes the feeling of barely contained energy. This finish captures the spirit of KODO perfectly by radiating energy, even at a standstill. But could the energy of this paint be confined only to a concept? Remember, this is a Mazda.

THE BIRTH OF SOUL/

To create Soul Red Metallic, we put an entirely new 3-coat painting process into action. The result is absolutely unlike any other red on the road—a deep and vivid redness that appears to emanate from within. By using two separate coats of high-brightness aluminum flakes and high-chroma red pigment, it is nothing less than an audacious reinvention of the painting process.
2014 Mazda6

DESIGNED TO TURN HEADS. ENGINEERED TO CHANGE MINDS.

No one saw this coming. Except of course, our engineers. It’s no easy feat bringing a concept car to life. But here it is in living sheet metal. The 2014 Mazda6 is the unforgettable TAKERI concept car fully realized—all the way down to its Soul Red Metallic paint. From captivating signature headlights to a cabin full of subtle craftsmanship, the latest expression of KODO design shows the same dynamism at rest as it does in motion.

The design of the Mazda6 presented a significant challenge. When a car is designed to be beautiful, performance is often diminished. Our engineers saw this as a challenge to turn a thoughtful design into something truly functional. With class-leading aerodynamics better than a Lamborghini, and a body design that contributes to both high-speed stability and fuel efficiency, the Mazda6 is a living, driving embodiment of perseverance.

/ 100-METER PROMISE /

Every aspect of the Mazda6 is designed to give the driver a complete connection to the car within the first 100 meters of driving. Linear acceleration, deceleration and steering all work in harmony to unite the Mazda6 and the person behind the wheel in no time at all. The relationship between man and machine has never felt so natural—or exhilarating.
When looking forward, visibility angles have been widened by a substantial 9.6°. This can help the driver anticipate road conditions and take any corner with more confidence. Our engineers even changed the mounting points of the side mirrors for a better view. Your outlook has never been so positive.

To enter the Mazda6 is to access an energetic, artistic environment where the driver can completely focus without anxiety. Everything the driver sees, touches and operates is designed to heighten the driving experience. Tapered forms inside evoke a sense of speed that mimics the energy of Mazda6’s exterior design. Just opening the perfectly balanced door brings to mind the same feelings you’ll have while seated behind the wheel. These are feelings you won’t have getting into just any sedan. And proof the 100-Meter Promise is well underway even before starting the engine.
THE DEEPEST BOND IN THE SHORTEST DISTANCE.

At the heart of the 100-Meter Promise is the idea that the driver should find perfect harmony with the car in the shortest possible distance. Our engineers finely tuned each control to behave in accordance with the driver's expectations. Both the accelerator pedal and steering wheel feel unprecedentedly linear and natural. Smooth transitions in g-forces were dialed into the braking system as well—making the Mazda6’s controllability simply exceptional. The writers at automobilemag.com noticed, saying “…Mazda engineers paid careful attention to the driver's relationship with his surroundings.” Engine sounds even deliver helpful feedback to make any driver a better driver. In no time at all, you and the Mazda6 will be performing as one.

THE WHEEL REINVENTED /

When it comes to wheel design, the more flashy and dynamic, the less likely it is to perform. This was unacceptable to our engineers. When designing the Mazda6, Mazda pushed boundaries to create a near-perfect wheel. In the end, over 20 designs were tested and rejected. The end result is a wheel that looks beautiful while also being strong and light.
It began with a philosophy that the potential of the modern automobile had not been fully realized. So, we challenged the status quo to bring efficiency and performance together in the same vehicle. The new SKYACTIV-G engine only tells part of the story. It delivers abundant power—but also works in coordination with other SKYACTIV TECHNOLOGY to enhance the overall driving experience. Our obsession with every component reduced the Mazda6's total weight by almost 100 pounds—resulting in stronger acceleration, livelier handling and a more relaxed ride. With up to an EPA-estimated 38 MPG highway, you'll have long stretches of driving joy before you need to leave the driver's seat.

**SOARING IDEAS. EARTHLY APPLICATIONS.**

MazdaUSA.com/skyactiv

---

// SKYACTIV-G //

By remapping the combustion engine with a lofty compression ratio of 13:1, increased power no longer requires fuel-consuming engine displacement. Look for a class-leading, EPA-estimated 38 MPG highway on models equipped with the six-speed automatic transmission. More powerful than the Toyota Camry and Nissan Altima 4-cylinder models, the new 184-horsepower engine also adds an advanced balance shaft that helps to reduce noise and vibration.

---

// i-ELOOP† //

EVEN A SLOW-DOWN KEEPS YOU IN MOTION //

The Mazda6 is the first Mazda to feature i-ELOOP—a regenerative braking system that stores energy with a highly efficient capacitor. This allows the car to use all its power during acceleration by eliminating alternator drag—for fuel savings as much as five percent. Thanks to this daring technological approach, the driver no longer must choose between fuel efficiency and performance.

---

*Based on EPA estimates for 2014 Mazda6 with automatic transmission 26 city/38 highway MPG. Actual results will vary.

†Actual results may vary based on driving conditions. Late availability.

---

mazdausa.com/skyactiv

*Based on EPA estimates for 2014 Mazda6 with automatic transmission 26 city/38 highway MPG. Actual results will vary.
This six-speed manual transmission has a short shift throw inspired by the legendary MX-5 Miata. It's also smaller, lighter and stronger than any we've built before.

Mazda was the first auto manufacturer to use ultra-high tensile strength steel in a production vehicle. The SKYACTIV-Body in the Mazda6 continues to incorporate this light but strong steel in critical areas to help it be lighter than normal, yet stiffer and stronger.

Our engineers created a new kind of precise, high-performance automatic transmission that combines the direct feel of a manual transmission with the silky smoothness of an automatic. It's instantly responsive, yet delivers 7% more efficiency than our previous automatic transmission. According to Motor Trend, "This transmission alone is a major reason to buy the Mazda6 over a new Honda Accord or Nissan Altima… ."

Engineered together with the SKYACTIV/Body to work in perfect harmony, the steering and suspension systems achieve two seemingly contradictory goals at once: to be nimble at low speeds, yet stable at high speeds. We also engineered them to be light, allowing for a more direct and agile feel.
WE GO RACING. ONCE AGAIN, YOU’RE THE WINNER.

In 1991, Mazda made automotive history as the first Asian automaker to win the 24 Hours of Le Mans. This stunning upset was accomplished with our very own rotary engine, which was immediately banned from the series for being a threat to the racing establishment. Now we’re changing the game once again by taking our full scope of SKYACTIV TECHNOLOGY to the 2013 Rolex 24 Hours of Daytona—a race for which we can already boast 23 Mazda-powered class wins. This time we’ll capitalize on the SKYACTIV-D* clean diesel’s amazing fuel efficiency and asphalt-ripping torque. But our goal remains the same: to develop the SKYACTIV-D into an undefeatable powerplant both on the track and off. So put the rule-writers on speed dial—the playing field just became uneven again.

*Late availability.

/ YES, A RACING DIESEL /

Soon powering the world’s greatest endurance events, SKYACTIV-D 2.2-liter diesel racing engines share over 60% of their parts with the street-legal versions. Everything about this powerplant is engineered to deliver outstanding performance, fuel efficiency and reliability for both the track and street.
HARMONY HAS NEVER BEEN SO INVIGORATING.

To drive the Mazda6 is to feel the car move as if it were a part of your body. Steering feel is characterized by feedback that helps the car turn in a smooth intuitive motion—never upsetting the delicate relationship of g-forces. This makes it much easier to achieve balance at high speeds and puts significantly less strain on the driver. Some of the credit goes to an Electronic Power Assist Steering system. With a quick steering ratio, it offers a brisk response that allows the driver to enjoy twisty roads as well as challenging urban conditions. Only a car wired to your brain could be more intuitive.

Our engineers could have left the Mazda6’s suspensions geometry the same, but this car was born from obsession. We discovered that moving suspension mounting points just 45 mm higher (under 2 inches) would help to reduce impact shock and maintain stellar vibration damping. Squat and dive are reduced as well, so more tire surface remains firmly planted on the road.
AS HUMAN AS TECHNOLOGY GETS.

Nothing less than the next generation of tech made it into the latest generation of Mazda6. We aimed to rewrite the rules on how driver and car should interact. The number of new features might be described as overwhelming if they didn’t make driving so effortlessly engaging.

From an available Bose® Centerpoint® 2 Surround Sound System to integrated Pandora® Internet radio control, every street you travel will be an easy one. Convenient standard features include a USB port and remote keyless entry with Push Button Start. But that’s just the beginning of the available technology in the Mazda6.

/ BLUE TOOTH® HANDS-FREE PHONE AND AUDIO STREAMING /
With voice commands, making and receiving calls is as easy as pushing a button and saying hello. And the Bluetooth wireless capability helps you stay entertained with streaming audio from your compatible mobile device.

/ MAZDA NAVIGATION SYSTEM /
Our convenient available factory-integrated navigation system offers the advanced features of TomTom navigation devices, including voice commands, advanced lane guidance and real-time traffic updates.

/ PANDORA® INTERNET RADIO COMPATIBILITY /
Experience music on your terms with up to 100 unique “stations” through Pandora, all seamlessly streaming through your wireless Bluetooth-enabled and Internet-connected device, and controlled through any of the Mazda6’s built-in audio controls.

/ HD RADIO /
With subscription-free HD Radio, you get cleaner, crisper sound from a digital signal that offers multiple options for some of your favorite AM and FM stations.

/ SMS TEXT MESSAGE AUDIO DELIVERY AND REPLY /
When a text comes in while you’re driving, you can stay focused on the road ahead. Enjoy fully integrated text display and audible readout, and the ability to reply by choosing from a number of preset, standardized return messages.

/ REARVIEW CAMERA* /
This helpful system on Sport models with automatic transmission, Touring and Grand Touring offers increased visibility of objects behind you, and it’s automatically activated whenever the Mazda6 is shifted into reverse.

*Rearview camera does not provide a comprehensive view of the entire rear area of this vehicle. Always check your surroundings.
**EVEN THE SOUND SYSTEM IS PERFORMANCE-ORIENTED.**

The Mazda6 is the first Mazda to offer available Bose® Centerpoint® 2 in its 11-speaker premium audio system. Available Centerpoint® 2 enables listeners to enjoy a surround sound experience from nearly any stereo source, such as CDs, MP3 devices and radio broadcasts, including available SiriusXM® Satellite Radio. It has been specifically engineered to meet the unique demands of reproducing surround sound in a vehicle. Unlike conventional synthesized surround sound systems that compare left and right channel information to create a virtual surround experience, Centerpoint® 2 technology uses frequency content in addition to the left and right stereo information to create a more lifelike surround experience. Get ready to hear music that matches the emotions you’ll feel while driving.

By making seat perforations moderately large and the distances between them small, our engineers created upholstery that’s not only soft and breathable, but absorbs road noise for an enhanced audio listening environment.

Because the pilot deserves First Class.

Everything about the Mazda6 is a testament to meticulous craftsmanship, from its available leather-trimmed sport seats—including an available 8-way power-adjustable driver’s seat with memory system—to instruments and controls trimmed with satin chrome. The contrast of available Almond leather against the black keynote color emphasizes the sense of speed evoked by the shapes of the seats and door trim. Both the steering wheel and shift knob are covered with leather from the finest craftsmen in Japan.

Design-wise, the Mazda6’s clever A-pillar helps make getting in and out of the car easy. A new lightweight seat structure increases the overall rigidity and comfort of the front seats. The width of the slope face of the armrest has been enlarged to provide a stable place to rest your arm. Even the sound of the engine is designed to be pleasing, with a harmonic tuning that won’t tire the long-distance driver.
MATERIAL EVIDENCE OF CRAFTSMANSHIP.

The shape, look and feel of each part blends together organically, heightening the overall look and feel of quality. Specifically crafted for the interior of the Mazda6, this unique, rich Bordeaux trim is comprised of a thin layer of aluminum flakes beneath layers of gloss for clarity and depth in typical light, and a striking metallic glint in bright light. Our design team paid close attention to the contrast between high-grade hard and soft materials throughout the cabin for surfaces that just beg to be touched. This level of detail led autoblog.com to call it “…the most handsome in the segment by far…”

*Content © 2012 AOL Inc. Autoblog is a trademark of AOL Inc. Used with permission.
The thread for the dual stitching on the available leather-trimmed seats is thick and has a vibrant red color, giving a sense of refinement and sportiness.

REAR PASSENGERS NEVER TAKE A BACK SEAT.

Even in a driver’s car special attention was paid to the comfort of occupants in the rear. For starters, the Mazda6 offers more legroom than the Nissan Altima and Honda Accord, so passengers experience a ride that’s spacious and comfortable. And more conveniences await, from rear climate control vents and one-liter bottle holders to scalloped front seatbacks for more rear knee room. We even increased the space between the front seat mounts, making it easier for rear-seat passengers to slide their feet in. Getting out of the Mazda6 is easier too, thanks to generous passenger head clearance and a wider armrest in the rear seat that accommodates elbows in comfort.
“SIMPLY LOOKING AT THE CAR HEIGHTENS ONE’S EXPECTATIONS ABOUT THE DRIVING EXPERIENCE EVEN BEFORE ONE ACTUALLY RIDES IN IT.”

Chief Designer: Akira Tamatani
KODO design headlamps play an important role both in the new Mazda style language and as a safety feature. Grand Touring models feature a similar headlamp design, as the one on the TAKERI concept—a design that incorporates light-emitting diodes (LEDs) and a light-guiding ring. A straight line of LED-generated light in each headlamp forms a visual extension of the signature “wing” on the front bumper. When the headlamps are on, the combination of the ring and straight line forms a simple but instantly recognizable signal of the Mazda6’s identity. But the brilliant KODO headlamps are more than just for show. The design serves as an eye-catching daytime running light to other motorists, while available auto high-beam control* and Bi-Xenon headlights help to give you more confidence behind the wheel.

/ BENDING LIGHT /
Standard on Grand Touring models, Bi-Xenon headlights with an Adaptive Front-lighting System automatically provide you with enhanced nighttime illumination to help see what’s around the next curve. The pivoting lamp helps to assist you in anticipating the shape of the road from steering input and vehicle speed to beam light in the best direction.

*Late availability.
THE DARING WAY TO LIVE CAUTIOUSLY.

Mazda's i-ACTIVSENSE is a thoroughly original way to think about safety technology. This philosophy is all about making each driver a better one by providing all the information needed to make wise decisions. i-ACTIVSENSE is an active safety approach that senses what the driver cannot easily anticipate. These systems in select Mazda6 models aid the driver in recognizing hazards, while helping to avoid collisions or reduce the severity when they simply cannot be avoided. Extending the sensory awareness of the person behind the wheel provides peace of mind and an enjoyable drive.

/ BLIND SPOT MONITORING SYSTEM /
When the Mazda6 is in motion, radar sensors detect objects in your left or right blind spots. If you signal a lane change while an object is there, a light in your corresponding side mirror blinks and a warning chime sounds.

/ REAR CROSS TRAFFIC ALERT /
When backing out, this system detects a vehicle approaching from the side and promptly alerts the driver with an audible and visual warning in both the side mirror and 5.8" color display.

/ FORWARD OBLICTION WARNING SYSTEM /
This system detects slower or stopped vehicles in front of the Mazda6 and gives an alert early enough for the driver to brake or take evasive action, helping to reduce the risk of a potential collision.

/ MAZDA RADAR CRUISE CONTROL SYSTEM** /
This system judges the relative speed and distance to the car ahead and works within a set speed range to maintain a safe following distance, thus making highway drives less strenuous.

/ SMART CITY BRAKE SUPPORT†† /
When travelling at speeds between 2.5 and 19 mph, this intuitive system detects objects ahead and prepares the vehicle by adjusting brake pads closer to the disc. If no driver action is taken, the system automatically applies the brakes.

/ LANE DEPARTURE WARNING SYSTEM*** /
This system gives audible and visual warnings when a driver is about to unintentionally depart from their lane at a speed of 40 mph or higher.

/ HIGH BEAM CONTROL SYSTEM††† /
The High Beam Control System helps the driver see better at night by maximizing opportunities to use high beams. The system automatically switches to low beams when it detects oncoming traffic and/or a vehicle ahead.

/ SIX STANDARD AIR BAGS‡‡ /
Advanced dual front air bags with driver’s seat-position and passenger-weight sensors are standard on all Mazda6 models—as are dual front side airbags and dual side-impact air curtains with coverage for both front and rear passengers.

*Always check your mirrors. Be aware of the traffic around you. †Always check your mirrors. Be aware of the traffic around you. ‡Forward Obstruction Warning System is not a substitute for safe and attentive driving. There are limitations to the range and detection of the system. **MAZDA6 SPECIFICATIONS & CAPACITIES**

**Engine**
- Engine type: 2.5L DOHC 4-cylinder engine
- Horsepower: 184 hp
- Torque: 166 lb-ft
- Compression ratio: 10.0:1
- Emission control system: 50 States/Canadian Federal
- Drive wheels: Front wheel drive
- Transaxle type: SKYACTIV-Drive 6-speed Sport automatic transmission

**Fuel**
- Fuel type: Regular unleaded gasoline
- Fuel capacity: 16.4 U.S. gallons
- EPA cargo volume: 14.8 cu ft
- EPA city/highway fuel economy: 24/37 MPG

**Exterior Dimensions**
- Overall length: 183.1 in
- Overall height: 55.1 in
- Track, front/rear: 62.0/62.4 in
- Turning circle, curb-to-curb: 36.7 ft

**Interior Dimensions**
- Headroom, front/rear: 38.8/37.7 in
- Shoulder room, front/rear: 57.3/55.3 in
- Hip room, front/rear: 50.5/48.5 in

**Capabilities**
- EPA passenger volume: 94.7 cu ft
- EPA cargo volume: 14.8 cu ft
- Fuel capacity (15.6 U.S. gallons)

**MAZDA6 UPHOLSTERY**
- Standard = Black Cloth
- Optional = Black Leatherette

**MAZDA6 ENGINE & MECHANICAL**

**Engine & Transmission**
- Engine type: 2.5L DOHC 4-cylinder engine
- Horsepower: 184 hp
- Torque: 166 lb-ft
- Compression ratio: 10.0:1
- Emission control system: 50 States/Canadian Federal
- Drive wheels: Front wheel drive
- Transaxle type: SKYACTIV-Drive 6-speed Sport automatic transmission

**Suspension & Brakes**
- MacPherson strut front suspension with stabilizer bar
- E-type multi-link rear suspension with stabilizer bar
- Tire size: 225/55 R17
- Brakes: 4-wheel disc brakes

**Tires & Wheels**
- 17-inch alloy wheels with P225/55 R17 all-season tires
- 17-inch alloy wheels with P225/45 R17 performance tires

**Exterior Colors**
- Standard = Black Cloth
- Optional = Sand Leatherette

**MAZDA6 MODELS**

**Mazda6 Sport**
- Available for the following features:
  - 3.64:1 Torsen limited-slip differential
  - 20-inch aluminum alloy wheels
  - Navigation system with real-time traffic updates
  - SKYACTIV-G 2.5L DOHC 16-valve 4-cylinder engine

**Mazda6 Grand Touring**
- Standard for the following features:
  - 3.64:1 Torsen limited-slip differential
  - 20-inch aluminum alloy wheels
  - Navigation system with real-time traffic updates
  - SKYACTIV-G 2.5L DOHC 16-valve 4-cylinder engine

**Mazda6 Grand Touring**
- Available for the following features:
  - Available Forward Obstruction Warning System****
  - Available Technology Package includes Mazda navigation system, Bose Centerpoint® 5 surround sound audio system with Bluetooth, Mazda Advanced Keyless Entry System, Smart Brake Support® audio on-off feature, Smart City Brake Support® with driver intention and head-up display, Driver Attention Warning System†††, Lane Departure Warning System‡‡, Blind Spot Monitoring System‡‡, Rear Cross Traffic Alert‡‡‡, Mazda Radar Cruise Control System‡‡‡, Standard SKYACTIV-MT 6-speed manual transmission, with VVT
  - 184-hp 2.5L SKYACTIV-G DOHC 16-valve 4-cylinder engine

**Mazda6 Grand Touring**
- Standard for the following features:
  - Standard 6-speed automatic transmission
  - Power sliding glass roof
  - 19-inch alloy wheels
  - Rear view monitor
  - Dual-zone automatic climate control
  - Power mirrors with heated side mirrors
  - Dynamic Stability Control (DSC) & Traction Control System
  - 6-speed automatic transmission

**Mazda6 Grand Touring**
- Available for the following features:
  - Power sliding glass roof
  - 19-inch alloy wheels
  - Rear view monitor
  - Dual-zone automatic climate control
  - Power mirrors with heated side mirrors
  - Dynamic Stability Control (DSC) & Traction Control System
  - 6-speed automatic transmission
IT’S YOUR MAZDA—MAKE IT YOUR OWN. Customize your new Mazda6 with Genuine Mazda Accessories. When installed by your Mazda Dealer prior to or at initial vehicle retail delivery, Genuine Mazda Accessories carry the same new-vehicle limited warranty as your new Mazda. Ask your dealer for details.

Splash Guards. Don’t let your journey end with a trip to the paint shop. Protect your Mazda6’s finish from rocks and other road debris with our durable front and rear Splash Guards.

All-Weather Floor Mats. Fitted perfectly to your Mazda6, these all-weather floor mats guard against water, sand, mud, snow or whatever you drag through the door.

Rear Spoiler. Add a sporty, aerodynamic element to your sleek and sophisticated Mazda6.

Rear Bumper Guard. Tailored and sleek, our durable stainless steel rear bumper guard not only looks great, but also protects the rear bumper from chips and scratches.

Doorsill Trim Plates. Every time you step in or out of your Mazda6, these doorsill trim plates provide added style.

Navigation System. Our convenient factory-integrated navigation system offers the advanced features of TomTom’s® navigation devices, including voice commands, advanced lane guidance and real-time traffic updates.

ADDITIONAL ACCESSORIES:
- 3.5 mm Audio Cable
- Ashtray
- Auto-Dimming Rearview Mirror with Compass
- Auto-Dimming Rearview Mirror with Compass and HomeLink®
- Car Cover
- Car-Cover Cable Lock
- Cargo Mat
- Cargo Net
- Floor Mat Kit
- Fog Lights
- License-Plate Frames
- Matte/Normal Wind Deflector
- Paint Protection:
  - Door Edge
  - Front Kit
  - Rear Bumper
- Rear Parking Sensors
- Remote Engine Start
- Roadside Assistance Kit
- Side Window Deflectors
- Touch-up Paint
- Wheel Locks
- Windshield Sunscreens

FINANCING WITHOUT THE FUSS. Whether you’re buying or leasing a new Mazda, Certified Pre-Owned Mazda or a used vehicle, Mazda Capital Services® can help make the financing process more convenient and satisfying. One of the largest auto lenders in America, Mazda Capital Services is known for first-class customer service, a wide range of financing options and highly competitive rates.

To find out which purchase or lease plan is right for you, talk with your Mazda Dealer, or visit MazdaUSA.com.

*The tradename “Mazda Capital Services,” as well as the Mazda and Mazda Capital Services logos, are owned by Mazda Motor Corporation of America and are licensed to JPMorgan Chase Bank, N.A. (“Chase”). Retail/loan and lease accounts are owned by Chase.

WE’RE COMMITTED TO OUR DRIVERS.

Every new 2014 Mazda6 is protected by:
- A 3-year/36,000-mile “bumper-to-bumper” limited warranty
- A 3-year/36,000-mile 24/7 Emergency Roadside Assistance program
- A 5-year/60,000-mile limited powertrain warranty
- A 5-year/unlimited-mileage warranty against body rust-through

For details, please see your Mazda Dealer, visit MazdaUSA.com, or call toll-free (800) 639-1000.
