Do a long, winding road or an empty freeway on Sunday morning matter if the car you’re in doesn’t take advantage of the moment?
Does safety, technology, efficiency or even beauty matter, if a car doesn’t feel right in your hands?
If you build Mazdas, driving is what matters most.
That’s why everything we do makes driving better.
Like safety technology that inspires confidence.
Engine technology that makes our cars and SUVs more fuel-efficient. Yet still responsive.
And designs that capture motion, even when the car isn’t moving.
What’s better than a great driving car?
A car company that won’t build anything less.

MAZDA. DRIVING MATTERS®

WOULD THE WORLD BE A BETTER PLACE IF EVERYONE DROVE A ROADSTER?
We built this Mazda MX-5 Miata like we built the very first one. We preserved our roots, but evolved the technology. We built a roadster with beautiful proportions, heart-pounding excitement, a rocking power-to-weight ratio and a connection to the road unlike any other. The Mazda MX-5 Miata is built this way because Driving Matters. It matters to you. And it matters to Mazda.

The MX-5 Miata commits to the asphalt with swift agility and nimble smoothness, without hesitation. Without excessive weight. It's how we've always done it. It's how it makes you feel when you grip the steering wheel and take a curvy off-ramp after a long day. We built the MX-5 to behave precisely how you, the driver, would want it to. Intuitive. Responsive. And how it just simply makes you grin from ear to ear. The value of driving dynamics is something you measure with your senses.

We built the MX-5 Miata for the s-curves. The corners. The cliff side highway corkscrews. Taking them confidently and never holding back. The MX-5 is an athletic 2,332 lbs. Light. Lean. Lively. And loaded with as much thrill as you want to give it. We built the Mazda MX-5 Miata because Driving Matters.

IS OBSESSING OVER EVERY BOLT, EVERY WIRE AND EVERY STITCH OVERKILL? WE THINK NOT.

Manual Transmission only.
KODO: "Soul of Motion." Energy in motion. Power in motion. It's the inspiration behind the design of every Mazda vehicle. Created to transform ordinary sheet metal into something that embodies the vitality of a living being, KODO exudes the power and elegance of a wild animal in the instant before it pounces on its prey.

Mazda MX-5 Miata Grand Touring shown in Soul Red Metallic.
EXHILARATING. WITHOUT MOVING AN INCH.

The KODO: “Soul of Motion” design language is not just a curve in the side panels or the shape of a headlamp. You’ll find it captured in every detail of the MX-5. Whether the top is up or folded neatly away, the muscular stance conveys an aggressive design while maintaining a fluid symmetry.

Beyond its exterior, the KODO motif resonates within the doors of the MX-5 Miata. The body color pours from the outside into the interior for a fluid milieu, helping you become one with the vehicle. From the structure, stitching and fabric created for the seats, to the winged shape of the instrument panel and every surrounding surface before you, the environment conveys that this is no ordinary experience. Because having a presence on the road and being connected to everything around you makes driving better.

HEADLIGHT
Because we crafted one of the world’s shortest and lowest noses on a sports car, fitting the headlamps into this extremely short overhang meant reinventing the headlight. The position of each LED bulb, the parabolic-type LED high beam and the turn signal layout produce better visibility and more intensity. We can’t see accepting anything less than crisp, radiant light distribution.
What is it about the MX-5 Miata that makes you want to drive just a little bit longer? After evolving for 27 years, you learn a few things about what matters. Take it from longtime MX-5 Chief Program Manager Nobuhiro Yamamoto. Not only was he on the high-profile Mazda R&D team for the 1991 Le Mans win, he leads the team today in its obsessive need to achieve absolute performance and sheer driving excitement. Of his winning strategy, Yamamoto explains, “That means a light, compact body, front midship engine and rear-wheel drive, 50/50 weight distribution, low yaw moment of inertia, and low center of gravity.” Winning races, and the hearts of fans the world over, appears to keep working.

Meticulous adjustments, such as lowering the engine for a lower center of gravity and pushing the engine back, are all nuances that keep us continually developing the MX-5 so it enhances balance and directional control, and stays firmly anchored to the pavement. And because we race everything we build, you can be assured there’s a track-tuned suspension that delivers superb handling and directional stability by combining a sophisticated double-wishbone layout up front with an advanced multilink setup in the rear.

The Dynamic Stability Control with an integrated Traction Control System optimizes both traction and handling in less-than-ideal road conditions without interfering with your oneness with the road. For all those twists and turns the road has in store, each and every MX-5 is precisely engineered to create balance.
NEAR-PERFECTLY BALANCED? NOT UNTIL YOU GET BEHIND THE WHEEL.

Even after 27 years, the engineers at Mazda remain passionate about the MX-5 Miata's near-perfect 50/50 front-to-rear weight distribution. The quality-obsessed engineers who imagined and built the latest generation MX-5 Miata held fast to one simple philosophy: Preserve and innovate the front-midship engine and rear-wheel drive layout. Sustaining the deep-rooted belief that the MX-5 is not perfectly balanced until you, the driver, are literally sitting in the driver's seat.
IS IT POSSIBLE TO IMPROVE THE BEST-SELLING ROADSTER OF ALL TIME?

The respected and fundamental driving dynamics of the Mazda MX-5 are fueled by the need to build a sports car that's lightweight, strong and a total blast to drive. All simply because Driving Matters. It's in our DNA to build cars that are responsive and faithful, which is why it's no wonder the MX-5 inspired the holistic approach to building our vehicles, called SKYACTIV® TECHNOLOGY.

SKYACTIV TECHNOLOGY makes for a lighter, stiffer and safer vehicle. And it is at the heart of the MX-5 Miata. Or is it the other way around? It’s the foundation for a strong, lightweight platform with powerful-yet-efficient drivetrain that maximizes driving enjoyment with every drop of fuel. While you may not think about these aspects when you’re tearing it up on a canyon curve, it matters to us that you get the most out of your sports car.

SKYACTIV-BODY

For the iconic MX-5 Miata, the challenge was to attain a lightweight, open-top sports car that felt responsive at every turn, yet minimized vibration. We crafted a sturdier structural design that used ultra-high tensile and high tensile steel in critical areas, while high-strength 7000-series aluminum materials replaced heavier steel at the front and rear bumper support, front fenders, brace bar, bulkhead and diagonal braces. The aluminum roof materials even help lower the center of gravity.

SKYACTIV-MT

The distinctive jinba ittai experience is fully realized behind the wheel, in the MX-5's precise and ultra-responsive short-throw, close-ratio 6-speed manual gearbox. With a mere flick of your wrist, shifting from gear to gear is not only rapid and precise, but a total blast. Smaller, lighter and smoother than any we've ever built before, even the compact design of the knob has an overall weight of 300 grams. Working harmoniously, the shifter, accelerator and clutch orchestrate a tempo with the driver that is unparalleled.

SKYACTIV ENGINE

The MX-5 Miata gets the most out of its dedicated engine with a 13.0:1 compression ratio and 4-2-1 race-inspired headers. This energizing 2.0-liter 16-valve DOHC engine delivers an assertive 155 hp and 6,000 rpm redline without sacrificing fuel efficiency, offering up to an EPA-estimated 35 highway MPG. The numbers may change, but the experience remains.

A COMPLETE BODY OF WORK

The MX-5’s purposeful body design isn’t strictly for aesthetics. It’s the minutiae that MX-5 engineers get obsessive about because it matters in g-forces. And when entering turns, having a precise grasp of your exact position should never be guesswork. By expanding the field of vision, we gave the front fenders high rising edges and a lower hood to allow for accurate tire placement, so you aim the MX-5 and it responds in accord.

SKYACTIV MT

The distinctive jinba ittai experience is fully realized behind the wheel, in the MX-5’s precise and ultra-responsive short-throw, close-ratio 6-speed manual gearbox. With a mere flick of your wrist, shifting from gear to gear is not only rapid and precise, but a total blast. Smaller, lighter and smoother than any we’ve ever built before, even the compact design of the knob has an overall weight of 300 grams. Working harmoniously, the shifter, accelerator and clutch orchestrate a tempo with the driver that is unparalleled.
SKYACTIV-CHASSIS
Getting the details just right is a Mazda engineer’s sole purpose. And for the MX-5, that includes details in the design marvels that are the highly rigid and lightweight double wishbone front suspension and multilink rear suspension. Adopting aluminum for the upper arms, lower arms and knuckles, and 780 MPa-grade high-tensile steel for the crossmember, also contributes to making the MX-5 lighter, yet stronger.

Engineered to work in perfect harmony, the steering and suspension systems achieve two seemingly contradictory goals at once: to be nimble at low speeds, yet stable at high speeds, optimizing performance in those corners. And we kept refining millimeter-by-millimeter, and ounce-by-ounce, until optimum vehicle posture and vibration-dampening performance were achieved.

POWER PLANT FRAME
This structural “backbone” helps eliminate drivetrain twist, which wastes power and produces acceleration lag. The MX-5 Miata’s ingenious aluminum Power Plant Frame that unites its engine, transmission and rear differential is light, yet rigid and stable. Plus reshaping the cross-section of the frame helps the MX-5 provide an unparalleled driving experience. You’ll feel the responsiveness and feedback—from your right foot to your fingers wrapped around the steering wheel, up to the hairs on the back of your neck.

Based on EPA estimates for 2017 Mazda MX-5 Miata models with automatic transmission. 35 city/26 highway MPG. Actual results will vary.
Enter the Mazda MX-5 Miata Club. Extraordinarily ready for the track or the streets. Things get more aggressive and athletic with a sport-tuned suspension and Bilstein® shock absorbers and a torque-sensing limited-slip differential. Delivering impeccable handling and near-telepathic control matters when carving up a curvy deserted highway. It is essential. And we won’t build anything less. Sure, the seductive appearance of the black-painted front air dam, side sill extensions and rear lip spoiler complete the aerodynamic look, but the available Brembo®/BBS package on the Club model® not only turns heads, but turns corners with relentless agility. Lightweight, forged BBS 17” Gunmetal Alloy wheels give you even more confidence and control in concert with the Brembo high performance, fade-resistant ventilated front disc brakes. Because performance matters, especially when stopping.
In 1989, Mazda debuted the MX-5 Miata. A quarter of a century, and one million worldwide owners later, the MX-5 continues to define— and redefine— what a roadster is meant to be. Unwavering, uncompromising and committed to true sports car authenticity, the MX-5 has always been—and will always be—the track-proven real deal.

Nimble and near perfectly balanced, the MX-5 is an automotive icon and an engineering marvel that's built to dominate the open road, master every curve and effortlessly transform instinct into action. But to truly understand why it's the best-selling roadster of all time, you need to be in the driver's seat.

YOU DON'T BECOME THE WORLD'S BEST-SELLING ROADSTER BY SETTLING FOR THE STATUS QUO.

In 1989, Mazda debuted the MX-5 Miata. A quarter of a century, and one million worldwide owners later, the MX-5 continues to define— and redefine— what a roadster is meant to be. Unwavering, uncompromising and committed to true sports car authenticity, the MX-5 has always been—and will always be—the track-proven real deal.

Nimble and near perfectly balanced, the MX-5 is an automotive icon and an engineering marvel that's built to dominate the open road, master every curve and effortlessly transform instinct into action. But to truly understand why it's the best-selling roadster of all time, you need to be in the driver's seat.

The fact that the MX-5 Miata has been racing for its entire 27-year history relates directly to another amazing fact: On any given weekend, more Mazdas and Mazda-powered cars are road-raced in the U.S. than any other car! And in terms of pro racing, 2016 marks the eleventh season of the SCCA Mazda MX-5 Cup. Now a 12-race series, the MX-5 Cup attracts many of pro racing’s top up-and-comers. It’s a true test of talent and technique in which drivers compete in identically prepped MX-5s on many of America’s legendary racecourses, including Mazda Raceway Laguna Seca.

Bottom line: The best streetcars make the best racecars. And the MX-5 has been—and still is—the road-raced leader of them all.

OBJECTS IN MIRROR HAVE BEEN TRYING TO CATCH UP FOR MORE THAN TWO DECADES.

*Based on Sports Car Club of America racing data.
The concept of jinba ittai, or “rider and horse as one,” is the inspiration for the MX-5. That a horse and its rider communicate by being instinctively in tune with each other—achieving effortless communication. The MX-5 is a car so precisely tuned, it isn’t complete until one variable enters—you, the driver.

To complete that same communication behind the wheel of an MX-5, Mazda engineers used multiple electromyograms and G sensors to analyze a driver’s complete interaction with the vehicle. From determining the exact location of the shift lever, to which muscles and precisely how much effort would be needed to shift, every aspect of the drive is engineered to not just connect you with your MX-5, but make you one with it.

A CAR SHOULD BE AN EXTENSION OF YOUR BODY. DRIVING SHOULD BE AN EXTENSION OF YOUR SOUL.

Is it possible to increase the cabin room without expanding the dimensions outside? Mazda engineers achieved this marvel by tilting the steering wheel 10mm, increasing the head clearance by 11mm and allowing for the seats to recline by an additional 2° from the previous generation. The MX-5’s interior environment is designed to the utmost of form and function because it’s this attention to detail that matters when someone six feet tall takes a seat behind the wheel.

SEATS
Heated leather-trimmed bucket seats with three comfort settings in Grand Touring models are meticulously designed to conform to your every curve and adjust to your specific driving position.

To reduce vibration and improve holding capabilities of the driver, even in corners, the MX-5 seatbacks and cushions were designed with lighter netting materials. The best seat in the house just got more comfortable.
WHO SAYS A TWO-SEATER SPORTS CAR CAN’T FIT EVERYTHING?

The MX-5 comes fully equipped with a wide array of amenities you wouldn’t expect to find in a track-proven sports car. We’ve introduced our most advanced infotainment technology, MAZDA CONNECT™ into the Club and Grand Touring models. All easily accessible from the multifunction Commander control within minimal distance to keep you focused on driving.

The 7-inch color touchscreen display is your window to the world and helps avoid distractions from the road. Pairing your mobile device via Bluetooth® technology connects your MX-5 to streaming media, music and social content from Facebook and Twitter feeds. Let the factory-integrated Navigation System on Grand Touring models keep you on course with voice-guided commands and advanced lane guidance. Even beyond just making and receiving hands-free calls from steering wheel mounted controls, the SMS Text Message Audio Delivery and Reply lets you stay connected and focused.

AVAILABLE AMENITIES
Navigation System with 3D interactive map / Advanced Keyless Entry System / Automatic Climate Control

YOUR OWN PRIVATE AMPHITHEATER.

The top is dropped. The sun is glistening. Your cares may be going out the top, but your tunes shouldn’t go along with them. In Club and Grand Touring models, the Bose® Premium Sound system creates an individual sonic experience. With 9 speakers, including two 50mm UltraNearfield™ speakers positioned in each of the MX-5’s headrests, sound is as clear as day. From bass to treble, audiophiles can enjoy pure sound quality from their MP3s through dual USB audio inputs. Only the roar of the MX-5’s engine will penetrate the cabin thanks to the Bose® AudioPilot® 2 Noise Compensation Technology. Now unwanted noise is left where it belongs—outside.

SiriusXM Satellite Radio2 / HD Radio™ / AM/FM/CD/MP3-compatible audio system / 2 USB Audio Inputs / Pandora® / Aha™ / Stitcher™

RETRACTABLE ROOF
In a matter of seconds, the MX-5’s iconic soft top can be unlocked and dropped for pure driving enjoyment in one simple, intuitive and ergonomic step. Without having to leave the driver’s seat, the release is quick, smooth and effortless—and you only need one hand. Should the sky suddenly decide to change, taking cover quickly is easy thanks to the soft top’s reduced weight and integrated “assist spring” mechanism. Because being comfortable in all weather matters.
There are over 125 Mazda MX-5 Miata clubs across the United States. Day trips, rallies, road runs, overnight excursions, track days, tech sessions, car talks and motorsports events fill our calendars. In fact, on September 5-7, 2014, over 1,900 fans attended the 25th anniversary celebration at Mazda Raceway Laguna Seca. We are the Mazda devotees who have an unrelenting passion for driving the world’s best-selling roadster. Because having bugs in the grille and our tops down on 32-degree mornings is how we measure a great day. Loyal fans, enthusiasts and collectors know it’s a special community to belong to because like us, Driving Matters. Join the club.

WE BUILT THE CAR.
FANS BUILT THE CULTURE.
THE MIATA COMMUNITY.
Mazda MX-5 Miata Grand Touring shown in Soul Red Metallic

With a million Mazda MX-5 Miatas produced over the years, we’re proud to say that the 2016 model was named 2016 World Car of the Year and 2016 World Car Design of the Year. We’re truly honored a car with such a rich driving history and iconic design was recognized for both categories in the same year. It’s more proof that Driving Matters.

LOVED BY DRIVERS AROUND THE WORLD. NOW IT’S OFFICIAL.

With a million Mazda MX-5 Miatas produced over the years, we’re proud to say that the 2016 model was named 2016 World Car of the Year and 2016 World Car Design of the Year. We’re truly honored a car with such a rich driving history and iconic design was recognized for both categories in the same year. It’s more proof that Driving Matters.
Because feeling safe and having confidence behind the wheel of a convertible sports car matters, our i-ACTIVSENSE® suite of safety technologies provides the ultimate sense of security and driving confidence. Knowing that there’s an advanced safety feature active while you’re enjoying the drive means less distraction. Being alerted to a hazard before it’s an issue helps avoid collisions in the first place, or even lessen their impact. i-ACTIVSENSE is there when you need it, without encumbering your driving experience.

**CAN A FEW BLINKING LIGHTS GIVE YOU PEACE OF MIND?**

**LANE DEPARTURE WARNING SYSTEM**

This system gives audible and visual warnings when the vehicle is about to unintentionally depart from its lane at a speed of 41 mph or higher.

**REAR CROSS TRAFFIC ALERT**

When backing up, this system detects a vehicle approaching from the side and promptly alerts the driver with an audible warning, as well as a visual warning in both side mirrors.

**BLIND SPOT MONITORING**

Radar sensors detect objects in your left or right blind spots and then alert you with a warning light that appears in the corresponding side mirror. If you signal a lane change while an object is there, the light blinks and a cabin warning chime sounds.

**HIGH BEAM CONTROL**

High Beam Control helps the driver see better at night by maximizing opportunities to use the high beams. The system automatically switches to the low beams when it detects oncoming traffic and/or a vehicle ahead.

**LED HEADLIGHTS WITH ADAPTIVE FRONT-LIGHTING SYSTEM**

The MX-5 offers standard LED headlights. Grand Touring models also feature Mazda’s Adaptive Front-lighting System, which is designed to help you see around corners at night literally. As you turn into a corner, the headlights pivot up to 15 degrees in the direction of your turn, improving visibility and allowing you to spot potential hazards and dangers ahead.

To Mazda, there’s only one thing that means as much as driving: giving back.

The Mazda Drive for Good® event is our annual charitable program that allows us to give back to those in need. But we don’t do this alone. For every purchase of a Mazda, drivers like you have helped us raise millions of dollars for both national and local charities. But what’s even more significant is that for every test drive taken during the event, we pledge one hour of community service to local worthy causes across the country. And last year, we pledged more than 72,000 hours of volunteer time to those who needed it most. All thanks to people like you who simply took a test drive.

Our Mazda Dealers have a long history of giving back both time and money to their communities. And their efforts truly define our Mazda values. Mazda Drive for Good is just one of the many charitable programs that has allowed Mazda to donate to worthy causes across the United States since 1992.

Because we believe giving back matters.
PRODUCT CHANGES AND OPTIONS AVAILABILITY:
Following publication of this brochure, certain changes in standard equipment, options, prices and the like—or product delays—may have occurred which would not be included in these pages. Your Mazda Dealer is your best source for up-to-date information. Mazda reserves the right to change product specifications at any time without incurring obligations. Options shown or described in this brochure are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations.
