Is it shallow to like something for the way it looks? If that were true, there wouldn't be photos in cookbooks, mirrors in clothing stores, or an eyewear industry. Chances are, if you don't like what you see on the surface, you won't bother to explore within. And that's where like turns to love.

The original Mercedes-Benz CLS wasn't created to fill a need. It was designed to fill an unexplored niche, and satisfy an itch: A car with the romance, passion and athleticism of a coupe— but with a sensuous cabin entered via four sensible doors. And it’s proven to be at once trendsetting and timeless. At the dawn of its third generation, the CLS remains true to its roots, and its surfaces— even as they draw tautly over its muscular frame. Underneath, industry-changing technology and intriguing luxuries are thrust forward by an electrified advancement of the classic inline-6 engine. You might still choose the CLS for its looks. But the deeper you look, the more deeply you'll love it.

THE FIRST THING YOU MIGHT SEE IN ITS LINES IS HOW FEW THERE ARE. A CLEAN BREAK FROM THE BUSY CROWD, THE CLS BECOMES MORE ATHLETIC, ALLURING, AND AGELESS.

IT CONFORMS only to its individuality and a tradition of innovating, rethinking, and uniquely rewarding its driver and passengers. The grille leans slightly forward, into the future. Its body is at once fluid and tensed—like the pure, agile strength of the musculature within.

IT PERFORMS with a spirit that traces from the first auto race to a new generation of electrified power. The natural smoothness of an inline-6, turbo-boosted, pairs with an EQ Boost Integrated Starter-Generator that can add instant, seamless and efficient torque electrically.

Putting four doors on a sporty coupe might make it more practical. But a 2019 CLS 450 Coupe isn’t “practically” anything else. It’s all-out advanced, unabashedly intelligent, and beyond seductive. A clean, new design language captures your attention with a whisper. Standard AMG® lower bodywork complements the stance of its 19" wheels and lowered chassis. Shapely LED headlamps sweep back from a radiant grille that leans subtly into the wind. The cabin envelops its five occupants in finishes and features that are executed artfully and thoughtfully: A wave of wood flows from door to door and down a cascading console. Aircraft-type dash vents glow with the cabin illumination, or briefly show red or blue to confirm your climate adjustments. On the move, the turbocharged and electrified inline-6, paddle-shifted 9-speed, and selective damping suspension are swift, smooth and sure—even more so with the available 4MATIC® all-wheel drive. What you feel in a CLS450 syncs with what you see: Seamless, seductive and smart, it wasn’t created to feel practical. But its designers won’t mind if you think it’s practically perfect.

REFRESHINGLY FREE OF EXTRANEOUS FLOURISH, THE CLS PROVES THAT UNDERSTATEMENT CAN BE EMPHATIC. IN THE CLS TRADITION, EXPECT THE WORLD TO LISTEN UP.

Four different 19" OR 20" WHEELS are available, with two styles you can choose at no charge. You can enhance the crisp handling even further with optional self-leveling, multimode AIR BODY CONTROL® and agile, all-season 4MATIC all-wheel drive.

ADVANCED LUXURIES elevate comfort and contentment, from heated front seats to Blind Spot Assist. You can unlock the doors with a touch, open or close the trunk touch-free, and adjust many cabin features with your voice. Burmester® audio options include Surround and High-End 3D Sound.

Even without its EQ Power electric boost, the 3.0L TURBO INLINE-6 is a 362-hp rush. Together they can sprint from 0 to 60 mph in 5.1 seconds (4.8 with 4MATIC). Direct Injection and multispark ignition self-tune on the fly, every few milliseconds.
TAKE ONE AMG-ENHANCED INLINE-6. ADD A TWIN-SCROLL TURBO. A 48-VOLT GENERATOR. AN ELECTRIC COMPRESSOR. AND 52 YEARS OF WINNING.

Performance gets a TRIPLE-BOOST in the new AMG CLS 53. Its 429-hp inline-6 employs turbocharging, an EQ Boost integrated Starter-Generator, and a new electric auxiliary compressor. The result is a torrent of lag-free torque – 384 lb-ft from the gasoline engine alone – and a 0-to-60 time of just 4.4 seconds.\(^{16}\)

VARIABLE-TORQUE AMG Performance 4MATIC+ can send up to 100% of the engine’s torque to the rear set of 19” or available 20” wheels.\(^{1}\) The self-lowering AMG Sport Suspension is based on AIR BODY CONTROL,\(^{9}\) and included in the modes of AMG DYNAMIC SELECT.
