1 Standard rates of acceleration are estimated based on manufacturer’s tests and results may vary depending on driving conditions, driver behavior, and vehicle load.
2 For use in conjunction with factory- or dealer-installed navigation. Navigation may require a subscription and may be available in select vehicles.
3 Some features, including P100A, require an available navigation system.

---

**Note:** Some features and options may not be available on all models or may require an available navigation system. Please visit MBUSA.com or see your dealer for details.
Power is a concept that’s never taken lightly at Mercedes-AMG—whether creating it, wielding it, or reveling in it. Every horsepower unleashed from beneath the hood of an AMG vehicle is the result of decades spent intensifying the way fuel, air and pressure turn a spark into passionate fireworks. Each pound-foot of torque must be dispatched to the pavement with efficient expertise. And every ounce of strength must be communicated to the driver with the clarity that breeds confidence and begets control. Racing is the blood coursing through every member of the AMG team, and every vehicle in the AMG stable. What they learn, test and advance on the track finds its way to the street. It’s why a new line of vehicles called AMG Sport is a natural extension of AMG’s allure. And why the indomitable spirit of a sport utility vehicle is a perfect match for the irresistible style of a sport coupe in the new GLE Coupes. One should never take power—or the power of seduction—lightly.

Introducing the GLE 450 AMG and AMG GLE 63 S Coupes.
If you’re tempted to say the new GLE 450 AMG Sport is half coupe/half SUV, wait until you’ve opened it up. A Mercedes-Benz coupe is not defined by the number of doors it has, but how many it can open: Like its Autobahn-blazing ancestors, it will introduce you to new realms of performance, and welcome you into a world of exquisitely crafted luxury. Likewise, what defines a Mercedes-Benz SUV is its pioneering spirit: Peerless innovation and the fearless capability to bring it to the world – more so, to your world. Once you drive the uniquely confident, versatile GLE 450 AMG, you’ll know: It’s 100% coupe, 100% SUV, and pure Mercedes-Benz.
Performance-enhancing: Beneath a twin power-dome hood and red-striped engine cover, an infusion of AMG wizardry swells the output of the GLE 450’s biturbo V-6. Generating 362 hp from just 3.0 liters of displacement, its increased turbocharger boost teams up with high-pressure Direct Injection and rapid multispark ignition. Its 384 lb-ft of torque achieves its peak from just 2,000 rpm, for a 5.6-second sprint to 60 mph. A sport-tuned exhaust plays an enticing soundtrack via twin tailpipes.

Mood-shifting: A new 9-speed automatic transmission changes gears more swiftly and smoothly. It’s also lighter and more fuel-efficient. DYNAMIC SELECT lets the driver choose any of five driving modes for the throttle, shifting, suspension and more via a twist knob on the console. You can even set up an Individual mode via the wheel. Performance-oriented 4matic® all-wheel drive splits torque 40:60 front/rear, for nimble handling on any road, year-round.

Corner-carving: AIRMATIC® suspension employs electronically controlled air struts for an ideal balance of handling and ride comfort. Its ADS Plus (Adaptive Damping System) selects one of four profiles each time a wheel moves up or down. At speed, the 4-wheel level control lowers the GLE to enhance stability and efficiency. Multiple modes can also be engaged via DYNAMIC SELECT. And the optional ACTIVE CURVE SYSTEM can tighten the stabilizer bars for flatter cornering, or relax them for comfort.

Eye-catching: The new AMG Sport line has no intention of keeping its enhanced prowess under wraps. AMG-design lower bodywork aggressively sculpts the front air dam, side sills and rear valance, undercut by chrome front and rear crossbars. Black wheel arches set off standard 21” AMG® wheels—the largest in its class—whose gloss black inlays match the side mirrors and window surrounds. Staggered front to rear in their superlative width, the wheels are also available in two 22” AMG designs.
At the very same time that the Mercedes-AMG GLE63 S Coupe blurs the line between a high-performance coupe and a pavement-trembling SUV, it brings them sharply—and rapidly—into focus. Wrapping an unparalleled performance lineage in a crisp sculpture of sheet metal, how it embodies style declares far more than a bodystyle. Its adaptive air suspension and 22" wheels\(^3\) can unwind corners and slice traffic with precision unexpected in an SUV, but unmistakably AMG. Its handcrafted biturbo V-8 turns a mountain of torque into a massive plateau. And in just 4.2 seconds,\(^2\) it turns any landscape into a 60-mph blur.
Thoroughbred. Bearing the signature of the master engine builder who crafted it by hand, the 577-hp 5.5-liter AMG biturbo V-8 is a high-tech tour de force. The twin turbos rapidly spool up to 185,000 rpm, to output the full 561 lb-ft of torque from 1,750 to 5,250 rpm. High-pressure Direct Injection and multispark ignition fine-tune it on the fly with millisecond speed and molecular precision. AMG Performance 4MATIC® all-wheel drive transmits torque to tarmac in a 40:60 front/rear split.

Masterful. Combining seven speeds with multiple modes, the AMG SPEEDSHIFT PLUS transmission keeps power flowing seamlessly. Call up instant manual control anytime via the aluminum shift paddles and five driving modes of DYNAMIC SELECT. Another GLE63 signature—its unmistakable sound—is the work of its growing AMG sport exhaust. Computer-controlled vanes in the optional AMG Dynamic Performance exhaust unleash an audible celebration of power with every rev and gear change.

Dexterous. Athletics is more than pure muscle, which is why agility has long been an AMG hallmark. With AMG components and calibration, the AIRMATIC® suspension combines multi-mode adaptive damping, speed-based lowering, and 4-wheel leveling to optimize handling and ride across a wide variety of surfaces and situations. In corners, the ACTIVE CURVE system’s electrohydraulic stabilizers tighten to help minimize body roll. In straightaways, they relax to enhance comfort and composure.

Dominating. From the "A-wing" front air dam to its rear spoiler and four polished tailpipes, the visual presence of the GLE63 unabashedly proclaims its power. Widened track, fender flares, and illuminated, brushed aluminum running boards barely contain the supersized 22" AMG® wheels and tires. Massive AMG brakes measure 15.4" front, 13.6" rear. Red calipers employ six pistons at each front wheel. In the optional Night Package, deep black wheels, mirrors, and other details shroud the GLE63 in mystery.
The driver seat of most any SUV offers a commanding view of what’s in front of you. The driver seat of a Mercedes-Benz can reveal what’s around the bend. Its industry-advancing driver assists can combine radar, camera and other sensors to foresee danger, and help you get out of it before you’re in it. Full-LED headlamps steer into corners as you do. Its ACTIVE CURVE SYSTEM adapts to conquer body lean in turns, while Crosswind Assist helps assure smooth sailing on the highway. As it turns out, how a GLE Coupe sees is even more compelling than how it looks.
For your eyes, and theirs. From winding roads to open highways to city streets, the standard active full-LED headlamps create light that’s perceived more like daylight, and shine it where you need it most. Active Curve Illumination steers the beams into corners, while camera-based Adaptive Highbeam Assist maximizes their range without causing glare for drivers ahead.

Up to you, as you wish. DYNAMIC SELECT lets you choose from a range of drive train and suspension settings at the turn of a console knob. It also alters a surprising variety of other details that complement every driving experience. From the most refined Comfort setting to the intensity of Sport+, or even adapt the exhaust note, instrumentation, and even how the active headlights respond to your steering inputs. You can also configure your own driving strategy with the individual mode.

On the lookout. The industry’s newest generation of safety breakthroughs are part of Intelligent Drive—a suite of systems utilizing advanced cameras, radar and other sensors with high-speed computing power to watch the road ahead and all around. COLLISION PREVENTION ASSIST PLUS can alert you if you’re following too closely, and even initiate braking. Lane Keeping and Blind Spot Assist help ease driving on multilane roads. Available active versions can also intervene on your behalf.

At your service. Intelligent Drive also offers driving assists that help reduce stress and add convenience. Available DISTRONIC PLUS® cruise control adapts your speed to the flow of traffic ahead—even when it’s stop and go. Its Steering Assist feature helps keep you centered in your lane, even in subtle curves. A rearview camera is standard, or you can opt for the 360° Surround View System® with Active Parking Assist can help you find a parking spot, then back in automatically.
The cockpit of a GLE Coupe makes it easy to oversee its exceptional roster of capabilities. Its engineers overlooked nothing in setting it up for you. Analog gauges read with classic clarity through the thick, flat-bottom steering wheel. Distinctive details set each of the models apart, like the DINAMICA microsuede side grips on the GLE 63’s wheel.

A freestanding, high-resolution 8.4” central screen unites entertainment, navigation9 and in-car Internet and apps10 from Mercedes-Benz mbrace® with animated graphics. And a central touchpad brings it to your fingertips, with tablet-style gestures and handwriting recognition. Controls on the steering wheel let you thumb through info and settings on a second color display between the gauges—including AMG performance readouts on the GLE 63. For your every sense, there’s a sense of invigoration, from multicolor LED ambient lighting and heated front seats, to a wide array of available features from the thoughtful to the indulgent: The front seats can offer cooling ventilation or a soothing massage. Rear seats can be heated, and outfitted with a state-of-the-art video system. Front cupholders can help keep your beverages warmer or cooler. The cabin air can be charcoal-filtered and ionized for freshness you’ll feel. The doors can gently snug themselves closed. And a power Panorama roof can open up the sky to everyone onboard.
STRONG SUIT

Tailored fit. The front seats are heated and power-adjustable. The rear seats offer class-leading width, and recline or fold in a 60/40 split. A rich palette of hand-fitted upholstery options includes as many as three styles of leather. And you can select from among four sustainably forested and hand-finished wood trim choices, or racing-derived carbon fiber.

Ready to fill. Concealed within the sleek profile of the GLE coupe is the generous space and genuine versatility you want in an SUV. The power liftgate opens to reveal 23 cubic feet of richly carpeted luggage space, along with grocery bag hooks and a parcel net. The rear seats fold down in a 60/40 split to welcome up to 60.7 cubic feet of cargo.
Touch control. The COMAND® system can bring you entertainment from all over the world or guide you around town. A combination touchpad/rotary controller works in unison with the high-mounted screen’s illustrated menus. You can input letters and numbers by drawing them with your fingertip, while the voice control can learn the way you talk.

Light show. The magic of driving a Mercedes-Benz starts even before you enter the GLE. Its illuminated entry system cleverly projects the legendary Star and Laurel logo on the pavement to brighten your step, and your spirit. The mirrors can also be set to fold in electrically when you remote-lock your GLE—helpful in tight garages.
