Over a hundred years ago, we recognized the need for a vehicle that could take on heavy loads and not back down from any job. This resulted in Mercedes-Benz inventing the van. That first van paved the way for an entirely new segment and set the standard for others to follow. While our latest Sprinter and Metris vans continue to raise the bar for innovation and technology, they still hold true to our core values: to create vans that deliver an extraordinary level of safety, performance, and cost efficiency to every owner.
We thought about safety, so you can think about work.

Getting the job done is about staying focused. Our groundbreaking safety innovations deliver an extra level of protection for your cargo and passengers and give you one less thing to think about.

Standard on all Metris Vans, Crosswind Assist® can help you stabilize your van in gusting crosswinds, while standard front, thorax, and window airbags help keep you protected. Plus, we’re the only van in the segment featuring standard Load-Adaptive Electronic Stability Program (ESP®) and ATTENTION ASSIST® Factor in available Blind Spot Assist®, Lane Keeping Assist®, Highbeam Assist®, and COLLISION PREVENTION ASSIST®, and it will be easy to keep your mind on the job knowing that your van is helping you stay safe.

CROSSWIND ASSIST®

Crosswind Assist® helps you stabilize your van and ensures safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)

This dynamic handling system actively intervenes to help keep the van firmly under control and safely automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer or oversteer is detected.

ATTENTION ASSIST®

ATTENTION ASSIST® helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

LANE KEEPING ASSIST®

Lane Keeping Assist® can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

COLLISION PREVENTION ASSIST®

COLLISION PREVENTION ASSIST® is a radar-based proximity warning system that can issue visual and audible warnings when vehicles traveling ahead come within a potentially dangerous distance of your van. In emergency situations, assisted braking pressure limits automatically assist to help prevent low-end collisions.

BLIND SPOT ASSIST®

Using radar sensors to monitor approaching vehicles on multilane highways, this system can detect vehicles in your blind spot and alert you visually and audibly.

HIGHBEAM ASSIST®

Highbeam Assist® adjusts the headlamp range automatically, allowing for a continuous adaptation to the prevailing traffic conditions to ensure a better and safer recognition of the course of the road.

SAFETY

SAFETY

DRIVER AND PASSENGER AIRBAGS®
The driver and passenger front, thorax, and window airbags help protect you and your passengers in the event of a collision. Passenger vans are also equipped with rear curtain airbags.

STANDARD HIGHLIGHTS

SAFETY

OPTIONAL HIGHLIGHTS

REARVIEW CAMERA®
The visual parking aid is activated when the Reverse gear is selected, giving you a view of what’s going on behind you as well as providing overlays with which to guide you.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)

Sophisticated technology. Old-school grunt.

All the cargo volume in the world doesn’t mean a thing if your van can only crawl under the weight of a heavy load. The Metris drivetrain is specifically designed to accelerate under those conditions—and save you money along the way.

The Metris is equipped with a 2.0L 4-cylinder turbocharged gasoline engine that is designed to produce substantial torque at low rpms. The combination of high torque and horsepower provides impressive performance throughout the operating range.

**PERFORMANCE**

**2.0L 4-CYLINDER TURBOCHARGED DIRECT INJECTION GASOLINE ENGINE WITH 7-SPEED G-TRONIC PLUS TRANSMISSION**

"The Metris is quiet and feels competent around town and on the freeway, accelerating easily in and out of traffic."

— Los Angeles Times
We’re in business to help your business.

Minimizing downtime is crucial for your business. With its award-winning residual value, the Metris keeps your total cost of ownership low and your productivity high. If you spend less time and money on maintenance and more time on the road, your whole company will run more smoothly.

**Mercedes-Benz Metris**

7G-TRONIC Plus Automatic Transmission

Refined for maximum efficiency and unmatched comfort, this smooth-shifting 7-speed automatic transmission delivers better fuel economy, reduced noise, and longer service life.

ECO Start/Stop

This function reduces fuel consumption and emissions by shutting off the engine when the vehicle is at a standstill, helping you lower the total cost of ownership.

Up to a 15,000-Mile Service Interval

With an impressive service interval of up to 15,000 miles, your van will spend less time in the shop and more time on the job.

Efficient Gasoline Engine

A 208 hp 2.0L 4-cylinder turbocharged Direct Injection gasoline engine gets you up and moving quickly. At an estimated combined EPA rating of 22 mpg for Cargo and 21 mpg for Passenger models, the midsize Metris offers fuel consumption comparable to that of a small-size van.

Cost Efficiency

Metris is the winner of the 2018 ALG Residual Value Award.
When it comes to working efficiently, bigger isn’t always better. The right size for the job is better. Whether it’s choosing between the new available wheelbase options for the Cargo Van, or selecting one of the three seating configurations in the Passenger Van, Metris lets you carry large van loads or up to eight people, maneuver city streets with a tight turning diameter, and park in a home garage. Plus, the 4-cylinder engine, 7-speed transmission, up to a 15,000-mile service interval,10 and ECO Start/Stop system10 will maximize cost efficiency. The Metris sets a whole new standard for safety and driver-assist capability for the commercial van segment with standard features like Crosswind Assist,2 Load-Adaptive Electronic Stability Program (ESP®),3 and ATTENTION ASSIST®.4 When you’re ready to measure success by jobs completed, you’re ready for Metris.

No wasted space. Wasted space is wasted money. That’s why virtually every inch of cargo space in the Metris Cargo Van is usable. It’s all about making smart use of what you have—and having the right size with which to work. With a Best-in-Class turning diameter* and a powerful, cost-efficient drivetrain, the Metris doesn’t waste any effort getting to the job. You’ll feel safe along the way with advanced features like Crosswind Assist, Load-Adaptive Electronic Stability Program (ESP®) and ATTENTION ASSIST®. When you need to get more out of your cargo van, choose the one that delivers efficiency, along with a low total cost of ownership and a Best-in-Class payload cargo capacity.*

Two wheelbases, more possibilities. The Metris lets you choose the size you need by offering two wheelbase lengths. The standard length gives you 183 cu. ft. of cargo volume, while the long wheelbase option adds 9” of cargo length and 16 cu. ft. of volume, giving you even more hauling opportunities with a total of 199 cu. ft.

THE RIGHT SIZE
With its superior payload, the mid-size Metris can handle heavier jobs than compact vans, yet still fits in industrial and home garages.

Metris Passenger

Driver and passenger front airbags, driver and front passenger side thorax airbags, and window curtain airbags throughout help protect every occupant.

Electric Sliding Doors (Optional)
Open or close the sliding door with the push of a button, for extra convenience.

Seating Capacity
With three available seating configurations, you can carry up to eight people. 39.6” of headroom and plenty of legroom assure that your passengers won’t just get there — they’ll get there comfortably.

Treat passengers like you’re one of them.
Whether you’re riding or driving, it’s all about how you feel in the vehicle. Take the Metris Passenger Van. It’s just the right size to seat up to eight people comfortably and gives you the flexibility of three seating configurations. Add in optional features like electric sliding doors, and your passengers will have even more reasons to enjoy their journey — and you’ll certainly enjoy the low cost of ownership.

Our groundbreaking safety innovations deliver an extra level of protection for you and your passengers, giving you one less thing to think about. Put your passengers first with the Metris Passenger Van.

Max Payload: 1,896 lbs.
Max Towing Capacity: 5,000 lbs.

METRIS PASSENGER SPECIFICATIONS
The Metris WORKER is the line of vans that’s as focused on your bottom line as you are. Without compromising any of the core values of a Mercedes-Benz Van, Metris WORKER Cargo and Passenger Vans offer a streamlined selection of packages and options. With a low total cost of ownership and the advanced safety features you’d expect from Mercedes-Benz, Metris WORKER Vans bring an entirely new level of efficiency and value to your vehicles.

Numbers don’t lie. The Metris WORKER Cargo Van’s payload, cargo volume, and horsepower prove that you can get big-time capabilities and affordability in one van. It’s just the right size to get the job done, and with two optional packages: Convenience and Utility, ordering a Metris WORKER Cargo Van has never been easier. Options that work, at a price that works for you. The Metris WORKER Cargo Van. It’s all business.
Comfort for your passengers.
A comfortable low cost of ownership for you.

The Metris WORKER Passenger Van delivers comfort, safety, and reliability—all while coming in under budget. The spacious seating area gives up to seven passengers plenty of shoulder and legroom, while the ample storage area can handle their luggage with ease. To meet your specific requirements, the Metris WORKER Passenger Van offers the flexibility of three easy optional packages: Convenience, Appearance, and Comfort. No matter where you’re sitting, the Metris WORKER Passenger Van makes sure no passenger takes a back seat.

Retail Loan

These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as after-market products, in one contract.

FMV Lease

A closed-end lease agreement is also known as a “walkaway lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

TRAC Lease15

A Terminal Rental Adjustment Clause (TRAC) lease15 doesn’t require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

Taking care of you, so you can take care of business.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you it isn’t a van—it’s a tool you need to make a living.

MAINTENANCE PLANS

Save even more with a customized ServiceCare Maintenance plan. Choose from several plans based on your driving needs—don’t worry about your model year eligibility limits, we have you covered.

• Reliable and convenient
• Locked in lower cost for parts and services
• Reduce unexpected repair costs and minimize downtime

We handle each Metris with care by a certified Metris technician who uses Genuine Vans Parts.

FIND THE RIGHT PLAN FOR YOUR METRIS

ROADSIDE ASSISTANCE16

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program16 and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center, providing you peace of mind and help when you need it most.

- Cargo area tray

Accessories Highlights

- Floor mats
- All-season floor mats
- Mud flaps
- Cargo area sty
- Roof rack
- Roof rails for taillight carriers

Contact dealer for full list of accessories.
1. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator’s Manual for additional warnings and information on airbags, seat belts, and child seats.

2. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.

3. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.

4. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.

5. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.

6. Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.

7. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as that may not afford sufficient time and distance to brake safely.

8. Rearview camera does not auditorily notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.

9. Mileage represented is with available ECO Start/Stop operating. Please see your dealer. Compare the estimated mpg to the EPA estimated mpg rating of other vehicles. Please see www.fueleconomy.gov for details. You may get different mileage depending on how fast you drive, weather conditions, and trip length. Your actual combined mileage will probably be less than the combined estimate. Please be advised that 91 Octane premium gasoline was used for fuel economy testing and fuel economy certification.

10. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.

11. There are numerous legal requirements concerning the towing of a trailer, e.g., speed restrictions. Many states require a separate functional braking system for your trailer once a certain weight limit is exceeded. For reasons of safety, it is recommended that all trailers use a separate functional braking system. Make sure your vehicle/trailer combination complies with local laws. This not only means where you live, but also anywhere you are driving to. Information on this can be obtained from the police and local authorities. Observe the following when towing a trailer: practice driving around bends, stopping, and backing up at a place where there is no traffic.

12. Based on 61 sheets of ½-inch thick 4’ x 8’ sheets of lightweight drywall.

13. MasterSolutions™ program vehicles are custom, special-order only vehicles modified by the MasterSolutions™ provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the MasterSolutions™ provider may apply. Details are available from your local dealer.

14. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.

15. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.

16. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.

17. Unsecured cargo can become hazardous in a collision. Always secure cargo.

18. Pre-wiring code EV6 required.
