NOTHING LETS YOU TAKE TO THE ROAD AND TAKE IN THE SKY LIKE A SPORTS CAR. AND FROM ITS TURBO POWER TO ITS POWER TOP, NO ROADSTER OPENS THEM UP LIKE AN SLC.

In a world of SUVs, ridesharing and automation, is there still a place for a sports car? For those who refuse to classify driving as a task, more than ever. The pure thrill of an open roadster is something you can’t summon with an app or delegate to a robot overlord. Is it living in the past? When you’ve got the racing legacies of Mercedes-Benz and AMG, history is something you keep making—not a laurel to rest upon. In an SLC, you get to accelerate the timeless joy of a two-seater into the future. Power down the top. Wind up the turbo torque. And revel in the sensations you can only feel in a roadster: Embracing the road while you touch the sky. Reminding yourself that driving is not only a sport—it’s an outdoor sport. And even though the SLC can become a sleek, snug and starlit coupe in seconds, and even though it’s technologically advanced and luxuriously appointed, it remains a pure sports car in its body. In its racing soul. And most of all, in your heart.

PLAYFUL spirit comes from the harmony of charisma and character. Advanced performance, safety and luxury features are encased in careful craftsmanship, timeless design, and an abundance of choice—from wheels to styling packages to 24 shades of supple Nappa leather.

The power **PANORAMA ROOF** retracts in under 20 seconds, even at speeds to 25 mph. Top-up, a tinted panel brings in the sky while the spacious trunk lets you bring 10.1 cu ft of luggage. Over 60% of that remains top-down.

Advanced DRIVER ASSISTS* help you negotiate city streets, traffic (even stop-and-go), blind spots, and lane changes. Engineered as a roadster from the ground up, its high-strength body integrates dual micro-alloy steel roll bars behind each seat.4

While the SLC roadsters are generously outfitted and stylishly appointed in standard form, an array of options helps you tailor yours to fit your needs, desires and driving style. Many popular options are grouped into easy-order packages – some shown here – that let you select entire collections of conveniences or suites of styling cues to suit your wishes in a single step.

Package contents and standard equipment vary by model. See page 25 for full list of options and packages.
To truly experience the magic of a sports car, you have to put the top down. Or not. The SLC 300 has some magic of its own that transcends the classic roadster formula while fully honoring it. Its power hardtop integrates a tinted polycarbonate panel so you can welcome the sun while rejecting its harshness. Its cockpit wraps advanced tech in timeless style, like aluminum vent rings flanking a 7" color display that stays vivid in sunlight. Or an electronic transmission selector that’s a sculpture of aluminum and leather. Shift paddles on the flat-bottom steering wheel put nine speeds at your fingertips, letting you revel in the revs and the intoxicating sounds of 241 turbo-fed horses. And while the iconic grille and muscular shoulders give the SLC perfect proportions when the top is stowed, its stylishness doesn’t vanish when the top reappears. Unlike many retractable hardtops, the SLC’s sleek profile and minimized body seams mean it’s equally elegant as a coupe or a roadster. You don’t have to choose between road and sky in an SLC. You just have to love being between them.

The standard SPORT SUSPENSION is a sprightly, slightly lowered 4-wheel multilink design that’s acclaimed for its balance of precise control and a poised ride. Optional electronically controlled shock absorbers adapt to conditions or let you adjust them.

The PREMIUM PACKAGE enhances the SLC in every season: Heated seats feature AIRSCARF®. KEYLESS-GO® adds remote operation of the power hardtop. Dual-zone climate control and SiriusXM Radio® add comfort and joy to any drive. And Blind Spot Assist helps smooth any journey.

Available MAGIC SKY CONTROL® is an innovative enhancement of the Panorama roof. Magnetic particles in the glass panel line up when electricity is applied, to make the roof transparent. Switch the feature off and they scatter, darkening the panel.

BLUE SKY AND BLACKTOP. TURBO-FED POWER AND A SUN-FUELED BREEZE. YOU AND YOUR FAVORITE PASSENGER. YOU AND YOUR SLC. SOME PAIRINGS ARE SIMPLY PERFECT.
AMG STYLE is backed up by AMG substance, with an exclusive suspension, sizable perforated brakes, and an active exhaust. The AMG Handling Package includes a limited-slip diff, red brake calipers, variable-damping AMG RIDE CONTROL, a steering wheel with DINAMICA microsuede side grips, and a dashtop clock modeled after the legendary IWC® “Ingenieur” sports watch.
