

**BUILT FOR YOU** 

Vans. Born to run.

## Ground-breaking. Game-changing.

Over one hundred years of leadership brought us to this. The new Sprinter is an innovative van, with a unique inspiration. It's not about us—it's about you. It's the van you would build. Modular. Customizable. Scalable. With hundreds of variations and solutions so you can create a vehicle that's ready to meet your needs today and tomorrow. It has the brawn to get the job done and the brains to keep you safe, connected, and cost-efficient along the way. Built for you. The new Sprinter. Built in the USA.

#### **120 YEARS OF VAN INNOVATION**

1896 Benz company invents the motorized van, dubbed a "combination

delivery vehicle."

1929

Introduction of the Mercedes-Benz L 1000 Express van. 1956

Mercedes-Benz introduces the L 319 and reinvents the light truck segment.

1967

Mercedes-Benz introduces the new large-capacity van, the L 406 D.

1977

Mercedes-Benz launches a new light van lineup, internally called the TN or T 1.

1986

Mercedes-Benz presents a new van range, internally called the T 2.

1995

an entirely new concept to the large van segment.

2018

The new Sprinter brings

passengers from danger, no standard is too high.

#### **NEW FEATURES**

**ACTIVE BRAKE ASSIST**<sup>1</sup> This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

## ACTIVE DISTANCE ASSIST DISTRONIC®5 This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

ATTENTION ASSIST®2 helps prevent drowsy

**360° CAMERA**° When the Reverse gear is selected, this visual parking aid uses four digital cameras to generate various views of the vehicle's surroundings and show them in real time on the

multimedia display.

**TRAFFIC SIGN ASSIST** uses a camera to give drivers additional help with identifying speed restriction signs, No Passing Zones, and No Entry signs.

## 68.0°F 10:10 AR 50 65 mph AN P4

#### **EXISTING FEATURES**

CROSSWIND ASSIST<sup>7</sup> helps stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps ensure that your vehicle remains in its lane at highway speeds.

HILL START ASSIST briefly stops the vehicle from rolling backward or forward, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

WITH RESCUE ASSIST,<sup>SM</sup> first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

DRIVER AND PASSENGER AIRBAGS°
The driver and passenger front, thorax, and window airbags° help protect you and your passengers in the event of a collision.

Sprinter airbags shown are from Model Year 2014.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)8 This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

HIGHBEAM ASSIST<sup>SM</sup> adjusts the highand low-beam headlamps automatically, allowing for continuous adaptation to the prevailing traffic situation. The system helps ensure better and earlier recognition of the course of the road.

#### ENHANCED EXISTING FEATURES

**BLIND SPOT ASSIST**<sup>3</sup> Blind Spot Assist now has Rear Cross Traffic Alert (RCTA); which employs automatic braking to avoid a collision with traffic crossing the vehicle's path (e.g., vehicles or pedestrians) when reversing.

ACTIVE LANE KEEPING ASSIST<sup>10</sup> can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

Performance is about having the horsepower, torque, and hauling capabilities to handle whatever you have to do. The new Sprinter gives you that confidence, and the flexibility to choose between two drivetrains. For the first time, we're offering turbocharged muscle and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine mated to an industry-leading 9G-TRONIC 9-speed automatic transmission as standard equipment.

A 3.0L 6-cylinder turbo diesel engine<sup>11</sup> with a 7G-TRONIC Plus 7-speed automatic transmission is also available. If you don't want bad weather or road conditions to stop you from getting to work, we're the only manufacturer in the segment offering an optional 4x4 drivetrain with on-demand 4-wheel drive from the factory.

"...the tried-and-true 3.0-liter V6 turbo diesel...strong pulling power, good fuel economy, and proven longevity."

Book's KBB.com. Kelley Blue Book is

#### THE EFFICIENCY OF DIESEL. THE CONVENIENCE OF GAS. IT'S YOUR CHOICE.

3.0L 6-CYLINDER TURBO DIESEL<sup>11</sup>

**CONFIGURATION:** 

DOHC

**INDUCTION SYSTEM:** 

Common-Rail-Direct-Injection (CDI)

**BORE/STROKE:** 

83.0 mm/92.0 mm

HORSEPOWER @ RPM:

188 hp @ 3,800 rpm

TORQUE: Ib-ft @ RPM:

325 lb-ft @ 1,400-2,400 rpm

TRANSMISSION:

Automatic Transmission, 7G-TRONIC Plus

2.0L 4-CYLINDER

**TURBO GASOLINE** 

**CONFIGURATION:** 

DOHC

INDUCTION SYSTEM:

Bosch injection (200 bar)

BORE/STROKE:

83.0 mm/92.0 mm

HORSEPOWER @ RPM:

188 hp @ 5,000 rpm

TORQUE: lb-ft @ RPM:

258 lb-ft @ 2,500-3,500 rpm

TRANSMISSION:

Automatic Transmission, 9G-TRONIC

#### TORQUE: IT'S WHAT'S INSIDE THAT COUNTS.

Horsepower numbers are fine, but torque is what your van needs to get up to speed. What's also important is the rpm at which the peak torque numbers come in. Notice how The new Sprinter's peak torque comes in at 1,400 rpm-just above an idle. This means that you'll be at peak torque quickly—and moving from a standing stop efficiently.

**FOR EFFICIENCY** 

## Higher satisfaction. Lower cost of ownership.

When you're looking at a commercial van, there are two cost factors to consider: the cost to buy it, and the cost to own it. The new Sprinter is designed to deliver cost effectiveness that lasts for years. Combine this with the van's legendary durability, and The new Sprinter will keep your day-to-day costs down and your productivity up-ultimately helping your whole company run more smoothly.

In addition to lowering your total cost of ownership, The new Sprinter helps keep drivers efficient and productive with amenities such as:

- Ergonomic seats with lowered sides and lumbar supports
- Comfortable pedal position
- Elimination of display reflections in windscreen
- Optimized noise reduction
- Increased steering wheel adjustability for tall/short drivers
- Multiple rear-step variations

#### **GASOLINE ENGINE**

For the first time, The new Sprinter offers a turbocharged 4-cylinder gasoline engine with Direct Injection and 258 lb-ft of torque as standard equipment\*

#### **EFFICIENT DIESEL ENGINE<sup>11</sup>**

With turbocharged power, 325 lb-ft of torque, and diesel fuel economy, The new Sprinter's impressive 6-cylinder engine delivers power and durability in one compact package.

#### **7G-TRONIC PLUS 7-SPEED AUTOMATIC TRANSMISSION**

The low first gear and overdrive high gear in The new Sprinter's 7-speed automatic transmission help you accelerate from a stop and conserve fuel on the highway.

#### **UP TO A 20,000-MILE SERVICE** INTERVAL<sup>12</sup>

The new Sprinter's Best-in-Class service intervals of up to 20,000 miles<sup>12</sup> for diesel, and up to 15,000 miles<sup>12</sup> for gas keep you on the road, raising productivity and lowering the total cost of ownership.

#### **9G-TRONIC 9-SPEED AUTOMATIC TRANSMISSION**

This transmission is a first for the segment and features rapid response, a smooth transition between gears, and efficient highway driving.

The Sprinter won the 2018 ALG

Residual Value Award.13

solutions. It works harder to make your job easier—intelligently

connecting fleet managers, drivers, and vehicles to increase the efficiency and productivity of your company in the long run.

Mercedes PRO connect is standard on every new Sprinter.

#### 3 BUNDLES FOR EVERY CONNECTIVITY NEED

   Interface extended
- Vehicle Data Interface light

#### MERCEDES PRO CONNECT IS MADE UP OF THE FOLLOWING ELEMENTS

#### MERCEDES PRO CONNECT APP<sup>30</sup> -the direct line to the driver.

The driver can now easily access valuable vehicle and job-related information.

#### VEHICLE MANAGEMENT TOOL<sup>31</sup> —the control center.

The fleet manager's customized hub of connectivity that provides a comprehensive overview of fleet resources—simplifying logistics and increasing productivity.

#### COMMUNICATION MODULE<sup>32</sup> —standard in every new Sprinter.

This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

#### **BENEFITS AT A GLANCE**

#### FOR THE BUSINESS OWNER

- Increase overall business efficiency
- Easy location of a stolen vehicle through the Vehicle Management Tool, which shows the vehicle's current position
- Potential for a reduction in fuel consumption and therefore lower fuel costs

#### **FOR THE DRIVER**

- Effective assistance in case of an emergency
- Makes work easier as vehicle remote control also works when the vehicle key is not available
- More efficient working procedures as addresses can be directly adopted into the vehicle's navigation system for faster arrival

#### FOR THE FLEET MANAGER

- Integration into multi-brand vehicle management systems
- Clear overview of the fleet as each vehicle's information is clearly shown in the Vehicle Management Tool
- Trips can be planned more efficiently and at shorter notice as the fleet manager has all the current data available at a glance

The control of the co

18

#### THE NEW SPRINTER **INFOTAINMENT SYSTEM FEATURES:**

**CHARGING OPTIONS** are strategically located on the dashboard and include USB-C ports, wireless, and 12V chargers.

**LIVE TRAFFIC INFORMATION** provides traffic data in real time for more efficient traveling to and from work.

**SMARTPHONE INTEGRATION FOR APPLE** CARPLAY® AND ANDROID™ AUTO as well as Bluetooth® capability are now available

THE WIRELESS INTERNET ACCESS is a highly stable connection that allows the use of mobile devices in the vehicle.

CALL SYSTEM sends out an automatic emergency call for faster arrival of rescue services.

THE INNOVATIVE MBUX (MERCEDES-BENZ **USER EXPERIENCE)** delivers content from navigation to entertainment and includes optional LINGUATRONIC "Hey Mercedes" voice control and what3words, our geocoded map system.

7" AND 10.5" TOUCHSCREENS For the first time, display screens that are activated via touch, voice control, or touch buttons on the steering wheel are available on The new Sprinter.

## Thousands of configurations. Unlimited potential.

When we say The new Sprinter is built for you, we mean that literally.

Choose from thousands of features, configurations, and upfit solutions that give you the ability to build a van that's ready to work for you now, and prepared to carry your business into the future. It's the difference between a van that you merely drive and a van that is driven to help you succeed.

Maximum effort.

Whatever your work demands are, The new Sprinter Cargo Van gives you the flexibility to create a

configuration to meet your exact needs. To make sure we have what you're looking for, we've added

a 1500 and 4500 series to the lineup. The 1500 is a lighter-duty model that delivers big-time productivity.

For serious hauling capability, the 4500 model will handle your heaviest jobs. There's also a 2500, a 3500,

and a 3500XD model. Whichever you choose, the service intervals of up to 20,000 miles<sup>12</sup> for diesel and up

to 15,000 miles<sup>12</sup> for gasoline will keep your productivity high and your cost of ownership low.

The new Sprinter Cargo Vans are available in 1500, 2500, 3500, 3500XD, and 4500 series.

# Available on the Single tire models, this wheel arch covering's square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature new hinges with self-locking mechanisms.

LED strip lighting improves cargoloading vision.

New pallet bracing and tie-downs help when hauling cargo with unusual sizes and shapes.<sup>34</sup>

The new Sprinter 4500 model sets a new benchmark for payload capacity of up to 6,735 lbs.

### MASTER UPFITTER

## Your one stop for productivity.

You're the expert in your trade, and your van is the tool with which to get the job done. MasterSolutions<sup>™36</sup> allows you to quickly configure your van and order directly via your Mercedes-Benz Vans dealer to get you exactly the van you want right when you need it, so you can concentrate on finishing the job.

Build your van now or get inspired by visiting the MasterSolutions<sup>TM36</sup> Configurator.

MasterSolutions<sup>TM36</sup> providers Auto Truck, Knapheide, and TransitWorks bring you a portfolio of turnkey solutions for your specific line of business—HVAC, Plumbing, Electrical, Telecommunication, Contracting, Delivery, Refrigeration, Food Services, and People Moving—all at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Mercedes-Benz Van. The ordering process is streamlined, and installation is simple: all MasterSolutions<sup>TM36</sup> can be fitted directly as Ship-Thru, right next to our factory in South Carolina, which saves you time and ensures seamless integration, quick delivery, and consistent quality.

#### **FINANCE SOLUTIONS**

benefits tailored specifically to meet the needs of your business.<sup>37</sup>

For more information, visit www.mbvans.com/sprinter/shopping-tools/finance-solutions

#### **RETAIL LOAN**

These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.

#### FMV LEASE

A closed-end lease agreement is also known as a "walkaway lease," since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

#### TRAC LEASE38

A Terminal Rental Adjustment Clause (TRAC) lease<sup>38</sup> doesn't require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

### We have your back.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you, it isn't a van - it's a tool you need to make a living.

#### **ROADSIDE ASSISTANCE<sup>39</sup>**

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program<sup>39</sup> and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center, providing you with peace of mind and help when you need it most.

#### **ServiceCARE** — **Service solutions built for you**

Whether it's a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your uptime and maximizing your financial cost control.

If you require comprehensive additional protection for your van, look no

Service Repair Wear & Tear

Service Repair Wear & Tear

further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW) Service Repair Wear & Tear More warrantv. More certaintv.

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

Maintenance (PPM) Keeping your van in top shape

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

#### **ENDNOTES**

TBD values to be updated at a later date.

Gas engine models available in early 2019. 4x4 models available in early 2019. 170" extended models available in early 2019

- 1. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.
- Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
- 3. Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and workings.
- 4. Rear Cross Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.
- 5. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 6. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt. ice, or snow on the camera.
- Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
- 8. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with whiter tires.
- 9. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat helts, and child seats.
- Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
- 11. Requires the use of ultra-low-sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-/corrosion-related damages to the system (min. 6h, proven by EN 14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Vans New Vehicle Limited Warranty does not cover damage caused by fuel standards not approved by Mercedes-Benz Vans.
- 12. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet
- 13. MY18 Sprinter is the 2018 ALG Residual Value Award winner in the Fullsize Commercial Van segment. ALG is the industry benchmark for residual values and depreciation data, www.alg.com.
- 14. Mercedes PRO is available for the Contiguous US, Hawaii, and Alaska with The new Sprinter (as from MY 19). Contact an authorized Mercedes-Benz Vans dealership for more information.
- 15. When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the emergency call button are necessary for use of the Emergency Call System service.
- 16. The information from this service is shown on the touchscreen of the multimedia system. Live Traffic Information can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen.
- 17. A valid subscription to Live Traffic Information is necessary to use Car-to-X Communication. Car-to-X Communication can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. Only the data of vehicles directly affected by the event and equipped with Car-to-X Communication are processed, therefore you may not always receive a timely warning of hazards through this system.
- 18. Update times, content, and installation times can vary. These are activated when the vehicle is delivered. Updates to the Communication Module (LTE) are automatic, as otherwise certain applications might no longer work. You can access the current status of the software versions in your vehicle via the Mercedes PRO Portal.
- 19. The wireless Internet in the Car is provided by AT&T and created via an integrated SIM card. A contract must be made with AT&T in order to access data services, and this contract can be made via the Mercedes PRO Portal or infotainment system. In addition to a data contract with AT&T, either an MBUX multimedia system with 7-inch touchscreen and navigation or satellite radio or the MBUX multimedia system with 10.25-inch touchscreen is required for the Internet in the Car service. Additional costs may apply depending on the amount of data used.
- 20. In order for us to offer you this service, data is transferred from the vehicle to Mercedes-Benz/Freightliner Sprinter. This data includes the vehicle identification number, mileage, service code (A or B), as well as remaining time and mileage until the next service is due and information on the brake system and coolant.

- 21. The Online Map Update service is only available in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. The service must first be activated and the region for the map update selected in the Mercedes PRO Portal.
- 22. You can only use the Navigation Functions service in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. Before use, some of the applications must first be activated via the Mercedes PRO Portal.
- 23. You can only use the Multimedia Functions service in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the satellite radio or with the MBUX multimedia system with 10.25-inch touchscreen. Before use, some of the applications must first be activated via the Mercedes PRO Portal. For various functions (Internet Radio and Browser), additional data volume is necessary which can be purchased via the Internet in the Car service.
- 24. The Remote Control function via the Mercedes PRO connect App makes it possible for you to view the status of the doors and windows. The driver is also able to unlock the vehicle using a code via the Mercedes PRO connect App and also check the status of and operate the auxiliary heater. This function is only available in conjunction with an optional auxiliary heater (hot-water heater).
- 25. The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations. Display of the AdBlue" level is only available in conjunction with the optional SCR Generation 3 emissions control and only available with diesel models.
- 26. To safeguard the driver's privacy, he/she can switch off the vehicle tracking function via the Mercedes PRO connect App when making private journeys or traveling to and from work.
- 27. Messages from all drivers are visible to the fleet manager. Using the Vehicle Management Tool, he/she can, in turn, contact any driver individually with a message. If the Send2Car function is included in the subscription, a POI can be sent directly to the vehicle's navigation system. The Vehicle Operations service is additionally required to send POIs directly from the Vehicle Management Tool.
- 28. If you wish to use the Digital Driver's Log for your tax documentation, be sure to verify in advance whether the form and the information provided meets the fiscal requirements of your local tax authority. It provides three categories in which to categorize journeys: business journey, private journey, or commute.
- 29. The Theft Warning is shown in the chosen communication channel if the vehicle crosses preset geofences in a certain time period or if the optional Security alarm with interior motion sensor system sounds the alarm. Only in conjunction with the optional Security alarm with interior motion sensor.
- 30. In order to prevent distracted driving, the use of the Mercedes PRO connect App is not permitted while operating a motor vehicle. If used while operating a motor vehicle, there is an increased risk of endangering oneself and others. Please follow your local laws and restrictions.
- 31. After the Mercedes PRO connect go-live in The new Sprinter, there will be a Vehicle Management Tool for the factory equipped solution and Communication Module.
- 32. The availability of services in addition to the integrated Communication Module depends on the network coverage of the mobile network provider. The Communication Module (LTE) is not available in the US Virgin Islands or Puerto Rico.
- 33. Apple CarPlay® is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND™ navigation, may not be used simultaneously with Apple CarPlay® or Android™ Auto. When Apple CarPlay® or Android™ Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 34. Unsecured cargo can become hazardous in a collision. Always secure cargo
- 35. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.
- 36. MasterSolutions™ program vehicles are custom, special-order only vehicles modified by the MasterSolutions™ provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the MasterSolutions™ provider may apply. Details are available from your local dealer.
- Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services
  Credit Team based upon creditworthiness of customer.
- 38. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.
- 39. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
