

MERCURY

2010 Mountaineer

MERCURY

2010 Mountaineer

MOUNTAINEER: EBONY. AVAILABLE EQUIPMENT.

Powerfully poised.

Strength. A 4.6L 3-valve V-8 engine, available on Mountaineer Premier, supplies 292 hp and 315 lb.-ft. of torque. It's matched to a first-in-class¹ smooth-shifting 6-speed automatic transmission to make the most of the V-8's wide powerband, all while delivering up to 19 mpg.²

Thrifit. The standard 4.0L V-6 engine on Mountaineer and Mountaineer Premier is teamed with a wide-ratio 5-speed automatic transmission. With 210 hp and 254 lb.-ft. of torque, this clean-burning engine even meets strict Ultra Low Emissions Vehicle II (ULEV II) standards.³

Grace. Mountaineer's 4-wheel independent suspension delivers a refined connection to the road. Heightening that connectivity is an available full-time All-Wheel-Drive (AWD) system. This smart system adapts to changing road and weather conditions as they occur, instantly transferring power to the axle with the best grip to help really hold the road. For added confidence while towing, standard Trailer Sway Control works with AdvanceTrac[®] with RSC[®] (Roll Stability Control[™]) to help keep your Mountaineer and trailer on your intended path.⁴

In the 2010 Mercury Mountaineer, quiet power is backed by impressive poise.

¹Truck-Based Midsize SUV class. ²2009 EPA-estimated 14 mpg city/19 hwy. with 4.6L engine on AWD. ³ULEV II is a rating approved by the California Air Resources Board. Vehicles sold in federally regulated states meet the Environmental Protection Agency's Tier 2/Bin (5) emissions standards. ⁴Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

MERCURY

2010 Mountaineer

MOUNTAINEER PREMIER: LEATHER TRIM. CHARCOAL BLACK. AVAILABLE EQUIPMENT.

Quietly confident.

Interior Arrangements. Select from a range of available interior trims, such as these leather-trimmed seats with perforated inserts¹ in Charcoal Black. Choose seating for 5, 6 or 7 passengers, depending on the model. A manual-fold 3rd-row seat is standard on Premier and optional on Mountaineer. The handy, first-in-class PowerFold[®] 3rd-row seat is optional on Premier.

¹1st- and 2nd-row-outboard positions. 3rd row is vinyl-trimmed.

MERCURY

Simply high-tech.

Voice-Activated Navigation with SIRIUS Travel Link™

Check movie listings and showtimes. See if an accident lies ahead. Find the cheapest fuel. Handle all this and more from the 6.5" screen of the available Navigation System – thanks to Mountaineer's class-exclusive SIRIUS Travel Link with introductory 6-month subscription! Get real-time traffic updates. See current and forecasted weather. Even check the scores of your favorite teams. This information-rich data stream only enhances an easy-to-use voice-activated Navigation System that plots your course as soon as you state your destination. It calls out turn-by-turn directions in Route Guidance mode. A bird's-eye view includes major landmarks for additional reference. And with nearly 10 gigabytes of hard drive storage, you can also store photos and rip entire CDs or just your favorite songs (up to 2400 of them). This multifunctional system even lets you watch DVDs on-screen when in "Park." That's one powerful driving companion.

SIRIUS® Satellite Radio. With over 130 channels of crystal clear, digital-quality sound, available SIRIUS Satellite Radio¹ offers an amazing range of 100% commercial-free music, plus sports, news, talk and entertainment – and includes a 6-month trial subscription to the SIRIUS service.

New Mercury SYNC® with Traffic, Directions and Information. Our available Mercury SYNC system works with your Bluetooth®-enabled mobile phone to make calls, and your digital media player or thumb drive to play music – all with the touch of a button or a voice command.² And 911 Assist™ can make an emergency call from your phone if any airbag has deployed.³ This latest version of Mercury SYNC includes these convenient Driver Services:

- Turn-by-turn directions⁴
- Business searches⁴
- Real-time weather and traffic⁴
- Personalized business, sports and entertainment news, and more⁴
- Vehicle Health Reports

For more details, visit SyncMyRide.com.

2010 Mountaineer

¹Real-time traffic monitoring available in select markets. Some features are unavailable while driving. Service only available in the 48 contiguous United States and the District of Columbia. ²Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. ³The vehicle's electrical system (including the battery), the wireless service provider's signal, and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be turned on, connected to SYNC, and the 911 Assist feature enabled in order for 911 to be dialed. ⁴SYNC with Traffic, Directions and Information available Summer 2009. These SYNC services not available with SIRIUS Travel Link or Navigation System. See your dealer for details.

MERCURY

2010 Mountaineer

Carefully protective.

AdvanceTrac® with RSC® (Roll Stability Control™). Standard on every Mountaineer, this is the industry's only stability control system with 2 gyroscopic sensors, one of which is a unique vehicle-roll motion sensor that directly measures the roll rate 100 times every second. Working in conjunction with the Anti-lock Brake System (ABS), traction control and yaw control, AdvanceTrac with RSC¹ uses the roll rate and other information to automatically determine when and how it will apply individual brakes and modify engine power to help keep all 4 wheels firmly planted. Not available on any of Mountaineer's competitors, this system really proves its worth when you have to make an emergency maneuver; drive on slippery surfaces; or travel on uneven surfaces, such as in construction zones.

Airbags = 2+2+2. The Intelligent Safety System™ deploys 2 front airbags that use adaptive venting technology to help tailor airbag power to occupant size and needs. Additionally, 2 front-seat side airbags help provide an extra measure of chest protection for the driver and front passenger in certain side-impact events. And our standard Safety Canopy® System features 2 large, side-curtain airbags that help enhance protection for outboard-seated occupants in the 1st and 2nd rows.

SOS Post-Crash Alert System™ Peace of mind comes from the SOS Post-Crash Alert System,² designed to make Mountaineer easier to see and hear after an accident in which any airbag has deployed or a safety belt pretensioner has activated. If either of these occurs, the system automatically sounds the horn and flashes the hazard lights so that you and your passengers may be more easily located.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

²SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.

MERCURY

2010 Mountaineer

Generously optioned.

Illumination. Tri-color taillamps with satin-aluminum surrounds grace the back of every Mountaineer.

Manipulation. The first-in-class PowerFold® 3rd-row 50/50 split bench seat is optional on Premier. Just a push of the buttons quickly and easily opens up 43.9 cu. ft. of cargo space behind the 2nd row.

Automation. Available power-deployable running boards automatically slide out to graciously help you down to the pavement. The available Reverse Sensing System can alert you to certain objects within 6' of the rear bumper as you slowly back into a parking space or out of your driveway.

Adaptation. Fold all the seats behind the 1st row, and 7-passenger models hold up to 83.7 cu. ft. of gear. 5-passenger models hold up to 85.8 cu. ft.

Jubilation. With a standard audio input jack inside the front center floor console, your digital music library has wheels. Connect your media player and broadcast your favorite tunes, audiobooks or podcasts through the speakers. With the available Premium Sound System, there are 7 strategically placed speakers (8" subwoofer included), as well as a 6-disc CD changer and 290 watts of maximum power for rich, clear sound.

Inspiration. Keep rear-seat passengers happy with the available Rear-Seat DVD Entertainment System. It includes an 8" LCD screen, 2 sets of wireless headphones and a remote control.

Accommodation. These power features let you feel just right behind the wheel. Available power-adjustable pedals have memory that allows you to store and recall settings for 2 different drivers. Available heated, leather-trimmed front seats help keep the chill away.
