So you'll feel a charge of adrenal

you approach a stretch of open

Sharp curves will delight you. Y

look forward to zipping throug

gears. And you'll do all this in a

that has as much style and indiv

ty as you do. No wonder Mystiq

been named an *Automobile M*

All-Star four years in a row.

The rush starts here.

There you are, settled comfortably

behind the wheel of your Mystique.

One hand on the stick. The other grips

the steering wheel. At your side is a

console with a couple of your favorite

CDs and an ice cold soda. On the dash

is a full array of brightly lit instrumen-

tion. All your controls are within easy

reach. You flip on the air, ease into first

gear and brace yourself for a great big

ear-to-ear grin.

Load'er up? We already d

If you're serious about driving, a tilt steering wheel just makes sense. It comes standard on Mystique and adjusts easily to fit you perfectly. Now you're even more comfortable taking those sharp curves aggressively.

Mystique LS comes with a standard fold-down rear armrest.* It's just one more little touch adding to your comfort.

Need to haul extra long loads like skis or other sports equipment? No need to strap it to the roof. Mystique can easily accommodate you with its 60/40 split-fold rear seat.*

Everyone needs their space. That's why a front center console provides convenient storage. Put your CDs or cassette tapes in here. The two integrated cup holders are

handy when you want to sip on something

What makes Mystique such a blast to drive? No doubt it's the extraordinarily quick 170-hp, 24-valve 170-hp DOHC Duratec V-6 engine, which is standard on Mystique LS. GS models come with an equally impressive 16-valve, DOHC Zetec 4-cylinder engine. Adding to your driving excitement is a standard 5-speed manual, designed to fly through the gears. So grab onto the steering wheel and prepare for a thrill. You'll appreciate the power-assisted rack-and-pinion steering, especially when you're trying to squeeze into those tight parking spots. It makes twisty, winding roads fun, too! MacPherson strut front suspension and Quadralink rear suspension provide stability and handling responsiveness.

Keyless Entry system (standard

available on GS) lets you lock and

unlock the trunk from

A panic button is also
