YOURS, AND YOURS ALONE

You can expect the same quality and design in our accessories that you find in every one of our vehicles. Whether your new Mitsubishi will join you in one action-packed road trip after another, or it will chauffeur you safely to and from your daily life, a wide variety of available accessories, options and custom add-ons allow you to personalize your Mirage G4 or Mirage to suit your lifestyle.

At Mitsubishi Motors, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to settle for something more than expected. And that’s why we don’t build Mitsubishi cars for stereotypes. We build them for you.

MIRAGE
MIRAGE G4
Never, ever settle for a car you don’t love. Over the years you spend together, you’ll take yourself into the driver’s seat to go to work, to run errands, to go on late-night burger runs, to go to concerts and the mountains and to help a friend move and a million other places. And every time, it should feel like an adventure. Every time you buckle up, you should feel that same thrill and break into that same silly grin you did the day you first drove it off the lot.

It’s our goal to capture that spirit of excitement and newness in every Mitsubishi we dream up, design and deliver. That’s the way we’ve approached it for more than 100 years. We’ve poured our passion for exploring technology and design into vehicles designed to take you to new places. Safely, reliably and with maximum excitement.

At Mitsubishi, our priority is creating adventures. For people whose priority it is to live them.

DRIVE YOUR AMBITION
FUN THAT GOES BEYOND LOOKS

Which will you choose? Practical yet fun? Or fun yet practical? The Mirage G4 and the Mirage were designed to be just the cars you’re looking for. From the sharp, distinctive designs to the considerate features throughout, you’ll be reminded of what an great choice you made each time you slide behind the wheel.

DESIGN
Inside and out, the 2019 Mirage offers bold and energetic styling. Its distinct front-end design and LED taillights make a sharp impression from any angle. But it's not all about appearances. Inside, there's up to 47.0 cubic feet of cargo space. Plenty of room to accommodate your friends and all your stuff. And with eight expressive exterior colors to choose from, Mirage is all about a good time.

STANDARD LED TAILLIGHTS
Mirage’s standard equipment LED taillights not only look sleek and sharp, they also light up faster, are more visible both day and night, and last longer than their conventional counterparts. They make the Mirage a great car to be seen in.

AVAILABLE HID HEADLIGHTS
Mirage’s available High-Intensity Discharge headlights produce more illumination per unit of electrical power than conventional lamps because a greater proportion of their output is in the visible light spectrum, rather than the infrared light spectrum. Brighter lights make for a safer trip.

60/40-SPLIT FOLDING REAR SEAT
Mirage’s folding rear seat helps you take full advantage of its interior space, allowing you to carry large or oddly shaped items in the back. Items like, say, a mountain bike or a Great Dane.

AVAILABLE ALLOY WHEELS
Sweet wheels get noticed. So Mirage offers available distinctive 14 and 15 in. alloy wheels. With their taller profile, the 15 in. wheels sport a shorter tire sidewall, which can help minimize side-to-side flex when turning corners. And sporting a sharp two-tone finish, they also excel at turning heads.
ADVANCED FUN

We didn’t just create safe, fuel-efficient and fun-to-drive cars, then stop there. Oh no. We loaded them up with some of the latest technology. Not many things are more fun than hearing your passengers say, “your car can do what?”
SMARTPHONE LINK DISPLAY AUDIO SYSTEM
Our available Smartphone Link Display Audio system allows you to maintain caution behind the wheel, while still using your smartphone for communication and navigation. This advanced feature supports Apple CarPlay™ and lets you access Apple Music®, Maps, make phone calls, and send messages. All through the touchscreen, or with your voice using Siri®. It also supports Android Auto™. Simply press the Push To Talk button to connect to Google, and access all the most commonly used features on the Android™ platform, such as Google Play Music, Google Maps™, and Hangouts™.

USB CONNECTIVITY
The right driving soundtrack when you hit the highway is a must. A standard USB port located in the center console lets you plug in your smartphone, iPod®, or other compatible MP3 device. Your personal library of road trip tunes is at your fingertips.

AUTOMATIC CLIMATE CONTROL
This available feature helps keep the cabin comfortably cool or warm by automatically controlling the temperature and fan speed, as well as the air source. Desert or mountains, you’ll be comfortable.

FAST-KEY ENTRY SYSTEM
An available FAST-Key (Freehand Advanced Security Transmitter) entry system lets you unlock the driver’s door while the keys remain in your pocket or purse.

PUSH BUTTON START
Operating in conjunction with the available FAST-Key entry system, this convenient feature allows you to start the engine with the keys tucked safely in your pocket or purse.

CRUISE CONTROL
Take long weekend drives and road trips seriously with convenient and easy-to-use cruise control, now standard on all trims for both Mirage G4 and Mirage. Simply press the cruise control button when at your desired speed and it will moderate the throttle for you.

BLUETOOTH® TECHNOLOGY
To help you concentrate on the road ahead, standard Bluetooth® wireless technology allows you to play music from your Bluetooth-enabled phone, iPod, or other MP3 player devices.
ECOLOGY

THE WORLD YOU SAVE MAY BE YOUR OWN

It’s a wide world out there. Let’s do our part. Driving cars with the best fuel economy ratings in their class, as well as the best CO2 emissions ratings, is a nice way to go.

Mirage GT in Sunrise Orange
CONTINUOUSLY VARIABLE TRANSMISSION
Offering both improved performance and enhanced fuel economy (both are things we thought you would like), our Continuously Variable Transmission (CVT) is one of the smoothest drivetrains ever developed. It operates as an advanced pulley system, allowing infinite variability between the highest and lowest ratios. Instead of shifting gears, it adapts to changing vehicle speeds and helps keep the engine operating efficiently. Mountain roads are no match for it.

1.2-LITER ENGINE
A 1.2-liter, 3-cylinder DOHC engine delivers a balanced 78 horsepower and 74 lb.-ft. of torque. Matched to either an easy-shifting 5-speed manual transmission or our available CVT, this compact power plant provides smooth power with outstanding efficiency. In fact, the Mirage G4 and the Mirage are the two most fuel-efficient non-hybrid cars in America, with combined mileage ratings of 37 and 39 mpg, respectively. Their CO2 emissions ratings lead their classes, as well.

MITSUBISHI INNOVATIVE VALVE TIMING ELECTRONIC CONTROL
The latest generation of Mitsubishi’s innovative Valve Timing Electronic Control (MIVEC) is an advanced variable valve timing system that helps maximize fuel efficiency, while minimizing smog-forming exhaust emissions. Go ahead, get out into that fresh air, knowing you’re helping to keep it that way.

TIRE PRESSURE MONITORING SYSTEM
Maintaining proper tire pressure is not only important for safe driving, it also helps your vehicle achieve best fuel efficiency. The Tire Pressure Monitoring System (TPMS) evaluates the pressure of each tire and warns you if the tire becomes critically low.

FROM POINT A TO B IN A BREEZE
With the help of computer-aided design software, our designers are able to optimize aerodynamic shapes that cut easily through the atmosphere. In fact, Mirage achieved a 0.28 drag coefficient at our wind tunnel test facility. That means you can slip easily along, from one adventure to the next.

ELECTRIC POWER STEERING
Electric power steering not only ensures predictable steering, but also improves your gas mileage. Without the burden of a belt-driven hydraulic pump (as in traditional, non-electric power steering), the engine runs more efficiently.

STANDARD REAR SPOILER
Absolutely, Mirage standard rear spoiler looks great, but it also achieves aerodynamic performance by reducing air turbulence behind the vehicle.

INFO AT A GLANCE
To help provide you with driving data at a glance, which can help you drive more efficiently, the Mirage G4 and Mirage both offer an available semi-high contrast meter cluster with chrome accents.

TRAVEL SAFE, TRAVEL SOUND

Call us overprotective. We think driving should be fun, and the safer you, your passengers and everyone you share the road with are, the better your trip will be.
SAFETY
MIRAGE G4 / MIRAGE

REINFORCED IMPACT SAFETY EVOLUTION BODY

Engineered for maximum protection in the event of a collision, our vehicles feature a Reinforced Impact Safety Evolution (RISE) engineering and combine energy-absorbing front and rear structures with a super-rigid sculpted cab, along with reinforcing bars in the doors and energy-absorbing materials in the side pillars. Mirage G4 and Mirage are small, but tough.

STANDARD REARVIEW CAMERA

The standard rearview camera helps you view the area directly behind your vehicle on the audio display screen, for improved safety.

ACTIVE STABILITY CONTROL WITH TRACTION CONTROL

Active Stability Control (ASC) with Traction Control Logic (TCL) helps you maintain control in adverse driving conditions and during emergency maneuvers. Sensors monitor traction and activate the anti-lock braking system when it detects sliding or a loss of traction. By applying the brakes on specific wheels, the system helps your car track in your intended direction.

SEVEN STANDARD AIRBAGS

The Mirage G4 and Mirage both feature a standard Supplemental Restraint System (SRS) that consists of seven airbags, including dual-stage front airbags with a seat position sensor, front side-impact airbags, 1st- and 2nd-row side-impact curtain airbags, and a driver’s knee airbag. You can’t be too careful.

HILL START ASSIST

When climbing up from a standstill on a steep incline, Hill Start Assist helps prevent your Mirage G4 or Mirage from rolling backward. When activated, this standard feature holds the brakes for approximately two seconds, which gives you time to move your foot from the brake pedal to the accelerator.

SAFETY
10-YEAR/100,000-MILE WARRANTY

Your new Mitsubishi Mirage G4 or Mitsubishi Mirage is backed by a 10-year/100,000-mile Powertrain Limited Warranty, a 5-year/60,000-mile fully transferable New Vehicle Limited Warranty, a 7-year/100,000-mile Anti-Corrosion/Perforation Limited Warranty and 5-year/Unlimited Miles Roadside Assistance. They’re some of the most comprehensive warranties in the industry. We want your relationship with your new Mirage G4 or Mirage to be a long and happy one.
