At Mitsubishi, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to drive more of the same. It's obvious to us that people who truly want distinctive styling and the latest technology see past the procession of bland imitations. We believe that every vehicle we make should stand for something. Something more than expected. And that's why we don't build Mitsubishi cars for stereotypes. We build them for you.
WE’VE BEEN EXPECTING YOU.

Reading this proves you aren’t looking for something boring. You are here because you listen to your heart and trust your gut. You want to drive something that stands out—a car as good looking as it is intelligently designed. Something built in the USA with a world-class, all-wheel control system that says, “I like to push my limits.” Something like the Mitsubishi Outlander Sport. We think the next few pages will help you find exactly what you’re looking for.

FIND YOUR OWN LANE. MITSUBISHICARS.COM

DESIGN P.02
ACCOMMODATION P.06
TECHNOLOGY P.10
SAFETY P.14
SPECIFICATIONS P.18
FEEL FREE TO STARE

Outlander Sport, with its sleek, sculpted shape and aggressive front grille, is more than just eye catching, it’s also one of the most aerodynamic vehicles in its class. The interior too, offers much to admire. The center instrument stack has been updated with a contemporary new look and the sharp, High Contrast Meter Gauges are crisp, clear and informative.
**PANORAMIC GLASS ROOF**

By day, the panoramic glass roof creates a fresh, open-air feeling throughout the interior. By night, the roof’s LED lighting sets the mood for endless evening drive possibilities.

**NEW LED RUNNING LIGHTS**

Outlander Sport’s new LED Running Lights provide increased awareness of your vehicle for pedestrians and other moving vehicles around you. Together with the special head corner extensions, these running lights are indeed eye-catching.

**SOUND ISOLATION / QUIETNESS**

To help reduce engine and road noise, along with unwanted vibration, we placed thicker sound insulation in key areas and designed a vibration-absorbing damper for the engine compartment.

**LED COMBINATION TAILIGHTS**

Outlander Sport has got you back with LED Combination Taillights. These high-quality units not only look sharp, they also light up faster, are more visible and last longer than traditional taillights.

**SUPER-WIDE RANGE HID HEADLIGHTS**

Outlander Sport is full of bright ideas, like its available Super-wide Range High Intensity Discharge Headlights (S-HID). Using xenon gas, they project a beam with 35% brighter-than-normal light. What’s more, the light they emit more clearly conveys thanks to that of the rear, avoiding for better deflection and less eye fatigue.

**DESIGNER CABIN**

The Outlander Sport’s spacious interior is agreeable environment. Indeed, the wide, supportive seats have been tailored with richly embossed upholstery. The upper door trim and dash panel feature soft touch material with a sumptuous pebble texture. And at key points around the cabin, subtle silver accents add that certain touch of class.

**18-IN. ALLOY WHEELS**

Sure, these 18-inch alloy wheels look great, but what many don’t realize is that they also augment performance. Along with their lighter weight, their tall profile allows for a shorter tire sidewall, which helps minimize side-to-side flex when cornering.

**COLOR LCD MULTI-INFORMATION DISPLAY**

An easy-to-read trip computer provides you with helpful information like average speed and gas mileage, instant fuel economy, cruising range to empty, outside temperature and even maintenance reminder info.

**NEW LED RUNNING LIGHTS**

ENJOY BEING IN CONTROL

With available amenities such as heated front seats and heated side mirrors, Outlander Sport certainly has your comfort covered. But inside its spacious interior you’ll feel more than just comfortable, you’ll also feel completely in control with a range of features at your fingertips.
60/40 SPLIT REAR SEATS
Outlander Sport gives you versatility your way. Its 60/40 split folding rear seat not only accommodates cargo and passengers alike, it features a handy lever that drops the seatbacks quickly and easily.

AUTOMATIC CLIMATE CONTROL
This available comfort feature helps keep the cabin temperature, fan speed and air source to your liking, so you can keep your hands on the wheel, and not on the AC controls.

HEATED FRONT SEATS AND SIDE MIRRORS
Nothing feels more luxurious than heated front seats on a cold morning. You could say the heated side mirrors are also comforting, as they help provide peace of mind and clear visibility on frosty mornings.

TILT AND TELESCOPING STEERING WHEEL
Those who share their Outlander Sport with other drivers will appreciate the tilt and telescoping steering wheel. It makes finding that perfect driving position a quick and easy operation.

FAST-KEY PASSIVE ENTRY SYSTEM
Outlander Sport’s FAST-Key (Free-hand Advanced Security Transmitter) makes vehicle entry easy. Unlock the doors by simply pressing the button on either front door or the trunk lever. You can even start or stop the engine with the key tucked away in a pocket or purse. Again, the push of a button is all it takes.

FUSE HANDS-FREE LINK SYSTEM® WITH USB PORT
Incorporating Bluetooth® 2.0 technology, FUSE allows you full use of your Bluetooth-enabled phone and lets you play music, in-car FM radio and any audio source remotely. Along with buttons on the steering wheel and display screen, FUSE also utilizes advanced speech recognition technology, so you can control selected functions with voice commands. FUSE recognizes up to seven different mobile phones, syncing up with contact lists from each phone that’s been paired with the system and keeping the lists private to each user.

MORE THAN JUST GOOD LOOKING
Outlander Sport is as smart as it is sleek. Efficiently engineered with energy-saving technologies, it achieves an estimated 32 mpg highway rating when equipped with 2WD Continuously Variable Transmission (CVT). It also offers features to enhance your own efficiency, such as touch-screen navigation and voice-activated commands of both your smartphone and your music. In Outlander Sport, you’ll soon be a master multitasker.
MITSUBISHI MULTI-COMMUNICATION SYSTEM

Boasting a 7-inch high-definition touch-panel display, the available Mitsubishi Multi-Communication System (MMCS) offers a host of advanced features. The system includes 3-D mapping, expanded Point of Interest (POI) information, speed limit display, Eco meter, obstruction-free real-time traffic with Diamond Lane Guidance, and Mapcare™ that includes two annual map updates.

TOUCH PANEL DISPLAY AUDIO SYSTEM

Equipped with an available 6.1-inch touch screen, this sleek custom system has a high-gloss black finish and uses app-like icons for easy navigation. Features include HD Radio®, SiriusXM® Satellite Radio, and a rear view camera system. With the FUSE Hands-free Link System®, connected via Bluetooth®, a phone acts as a phone dial screen and contact list importing.

ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

Outlander Sport’s available Rockford Fosgate® 710-watt audio system powers 8 premium speakers and a 10-inch dual-voice coil subwoofer. The system incorporates an advanced Digital Signal Processor (DSP) and offers the following: PUNCH® control over the subwoofer, sound field control over the image and staging of the system, and the latest ESYS Motor Sound Control Technology. The system is also equipped with state-of-the-art technologies, such as Dolby® Volume, Pre-DIA HD® and Pre-DIA-Wide® surround for dynamic audio performance.

PADDLE SHIFTERS

Available with the Continuously Variable Transmission (CVT), paddle shifters are rally-inspired allowing real hands-on performance. Simply pull the right paddle to upshift and the left paddle to downshift.

CONTINUOUSLY VARIABLE TRANSMISSION

One of the smoothest and most efficient transmissions available, our next-generation Continuously Variable Transmission (CVT) operates as a pulley system, allowing infinite variability between the highest and lowest ratios. Instead of shifting gears, it adapts to changing vehicle speeds and helps keep the engine operating efficiently.

2.0-LITER MIVEC ENGINE

Outlander Sport’s high-tech engine offers a variety of innovations that improve mileage and performance. The dual overhead cam, 16-valve engine features resin coated pistons and smoother surfaced camshafts for reduced friction. It also enjoys the efficient breathing of Mitsubishi Innovative Valve-timing Electronic Control (MIVEC). Further reducing engine load is an electric power steering system, a brake energy regeneration system and a smart alternator. The result is a balanced 148 horsepower @ 6,000 rpm and 145 lb.-ft. of torque @ 4,200 rpm.

ECO LAMP INDICATOR

The ECO lamp feature illuminates at a given vehicle speed and engine RPM range to let you know that your Outlander Sport is operating at maximum fuel efficiency. The longer you drive with the ECO lamp activated, the better your fuel economy.

QUIET CONFIDENCE

Often our most impressive pieces of engineering go, thankfully, unnoticed. These would be our advanced active and passive safety features. Some – the airbags, for example – are designed to help protect you in the event of a collision; while other features, such as the Active Stability Control and Traction Control, are designed to help you avoid trouble in the first place. In fact, Outlander Sport is so well equipped, the Insurance Institute for Highway Safety (IIHS) named it a Top Safety Pick.
REARVIEW CAMERA
With visibility compromised, backing up a vehicle is always a safety concern. Outlander Sport’s available rearview camera provides a measure of assurance as an image of the area directly behind the vehicle is displayed.

ALL-WHEEL CONTROL
Our advanced All-Wheel Control (4C) combines the grip of an on-demand electronically controlled 4WD system with the intelligence of our Active Stability and Traction Control system to regulate torque from front to rear. The result is greatly enhanced performance and traction under a variety of road conditions.

SEVEN STANDARD AIRBAGS
Outlander Sport’s standard Supplemental Restraint System (SRS) features seven airbags, including dual-stage front airbags with seat position sensors, front side airbags, side curtain airbags and a driver’s knee airbag. Outlander Sport also offers a Brake Pedal Recession Protection Structure to help reduce driver injury in the event of a frontal collision.

REINFORCED IMPACT SAFETY EVOLUTION
Utilizing high-tensile steel, Reinforced Impact Safety Evolution (RISE) engineering provides a tremendous amount of occupant protection in the event of a collision. RISE combines energy-absorbing front and rear structures with a super-rigid occupant cell, along with no investigatory hump in the doors and energy-absorbing materials in the side pillars.

ACTIVE STABILITY CONTROL AND TRACTION CONTROL
One of the most significant advancements ever developed, Active Stability Control and Traction Control helps drivers maintain control in adverse conditions and during emergency maneuvers. Sensors monitor traction and work with the rear-end braking system to counteract slip. Applying the brakes on specific wheels, the system helps the vehicle track in the driver’s intended direction.

BUILDING INTEGRITY
Every 2015 Outlander Sport sold in America is built here—in Normal, Illinois. You might not have heard much about Normal, but it’s home to one of the most advanced automotive manufacturing facilities in the world. In fact, the people of Normal have produced over 3,000,000 vehicles since the first car rolled off the assembly line in 1988.

WORLD-CLASS WARRANTIES
What we build, we stand behind. Period. The Outlander Sport is backed with a 10-year/100,000-mile Powertrain Limited Warranty, a 5-year/60,000-mile fully transferable New Vehicle Limited Warranty, a 10-year/100,000-mile Anti-Corrosion Perforation Limited Warranty and 5-years/Unlimited Miles Roadside Assistance. They are some of the most comprehensive warranties in the industry. Like our cars, we intend to serve you well for many years to come.
