WELCOME TO THE 2015 NISSAN ALTIMA® DIGITAL BROCHURE

Full of images, feature stories, and all the specification and trim level information you need to help select your Altima.

Click here to sign up for news and updates on the 2015 Altima®.
WOULDN'T IT BE COOL IF YOUR DRIVE WAS THE BEST PART OF YOUR DAY?

What if just taking an on-ramp gave you an adrenaline rush? Or if you had help knowing you're free and clear before changing lanes? What if the design of your seat made long trips feel less so? And your customized radio station came along for the ride? What about getting a thumbs-up from the valet as you pulled away from the curb? Now it's all possible. The 2015 Nissan Altima. Change the way you drive forever.
Altima®’s deep creases and dramatic lines started on a designer’s sketchpad. Then it took an innovative metal-stamping process to bring them to life. Building something average would have been easier, but on any average day, isn’t it nice to have something that takes your breath away?
ZERO GRAVITY SEATS FOR COMFORT
THAT’S OUT OF THIS WORLD.

Whether you’re on a cross-country road-trip or braving the daily commute, sitting in a car for too long can be fatiguing. To help you out, Nissan engineers looked to the cosmos where astronauts float weightlessly in Zero Gravity conditions.

Zero Gravity Seats – In the weightlessness of space, humans take a relaxed posture that minimizes stress on the body. To recreate this “neutral posture” when you’re behind the wheel, Nissan designed an articulated front seat that offers continuous support from the pelvis to the chest, along with seat cushions that flex in response to your unique pressure points. The result is a seat that’s amazingly comfortable and helps reduce fatigue, no spacesuit required.
Welcome to Altima®. It’s been waiting for you. That’s because Altima®’s available Remote Engine Start with Intelligent Climate Control not only starts the vehicle, it monitors outside conditions and automatically adjusts interior temperature to help you be more comfortable when you get in. It can even defrost the windshield, windows and mirrors.1 Now when you open the car door, it’s as if Altima® was expecting you. And with details like available Dual Zone Automatic Temperature Control, and heated front seats and steering wheel, Altima®’s interior makes you want to stay. Ready? Just press the Push Button Ignition, and you’re on your way.

1State laws may apply; review local laws before using.
Nissan Altima® 3.5 SL shown in Charcoal Leather.
Traffic jams. Soy chai lattes. Dinner plans. With so much going on around you, it's easy to lose sight of what’s most important: driving. From turn-by-turn directions to caller ID, the Advanced Drive-Assist Display serves up info right in front of you — helping to minimize time looking away. Plus, its intuitive 3-D depth and tilt design helps you take it all in quicker. So you can focus on what really matters.

**INNOVATION THAT’S RIGHT IN FRONT OF YOU.**

---

1 Information displayed is dependent on how vehicle is equipped. Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. LDW operates only when the lane markings are clearly visible. Speed limitations apply. See Owner's Manual for details.

2 TPMS is not a substitute for regular tire pressure checks.
Your Altima also keeps you in the loop with the Nissan Navigation System (featuring voice recognition), hands-free text messaging, Bluetooth® hands-free calling and streaming audio, plus an iPod®/USB input.

YOUR WORLD, AT YOUR FINGERTIPS.

With NissanConnect™ with Mobile Apps, your Altima® becomes your smartphone’s best friend. Which means no more separation anxiety for you. Because now, your own hand-picked music, Facebook® news feed, and more all come along for the ride, working seamlessly together through your smartphone and Altima’s available 7-inch color touch-screen. And it keeps on getting better: the basic app package is included for the first three years.

Driving is serious business. Only use NissanConnect™ services when safe to do so. Subscription Agreement required. Geographical limitations apply. Not all features are available for all models. Some apps not Yet available. May require data service and a software upgrade to activate. Never program while driving. GPS mapping is only offered in all regions of certain model years. Certain software not available in all areas. Cellular network, data rates, and connection availability vary by provider, and may require minimum speed and network coverage for service. Always obey all traffic laws and conditions of service. Some accessories and audio systems require an activation fee, availability, terms, and conditions may change at any time, and may require dealer installation. SIRIUS® and XM™ are trademarks of SiriusXM Radio Inc. All rights reserved. Some services require personal registration, subscription, and credit card information. Optional split screen availability may vary by area and vehicle. Streaming service requires a data plan, data rates may apply. Requires compatible smartphone. Visit iHeartRadio.com for details. YOU CAN COUNT ON GREAT HIGHWAY FUEL ECONOMY.

Extensive refinements to Altima’s 4-cylinder engine and Continuously Variable Transmission help ensure exceptional highway fuel economy, along with amazingly smooth power delivery as you breeze past the pump.

4-cylinder Engine. Choose the 182-hp 4-cylinder engine1 and get more than just spirited performance. The advanced intake system optimizes the opening of intake valves at high rpm to keep the torque curve flat, giving you smooth power while contributing to the impressive highway fuel economy.

38
MPG HIGHWAY

Xtronic CVT (Continuously Variable Transmission). Say goodbye to fixed gear ratios and hello to a new kind of CVT. In the newest version of our CVT, friction is reduced by up to 40% and the ratio coverage is increased to greater than that of some 8-speed automatics. What does that mean behind the wheel? Better acceleration and fuel economy, plus performance that feels like you’re riding a continuous wave of power.

AMAZING ACCELERATION.

What if your daily drive got an adrenaline boost? Altima’s V6 engine not only gives you incredible acceleration, but its Xtronic CVT® features three modes for a more customized driving experience, including paddle shifters for some Formula 1-style action sporty fun.

V6 Engine. Nissan’s legendary 3.5-liter, 270-hp V6 engine treats you to sports-car-like performance and a cool 32 highway MPG that keeps you right at home in the carpool lane. Part of the engineering magic is Continuously Variable Valve Timing Control System (CVTCS), which means power is always on tap – off the line, or passing – for a ride as thrilling as it is efficient.

Xtronic CVT® with Paddle Shifters. Customize your ride with three modes. Pick Drive for every day, Ds for a sportier “shift” feel, or go hands-on with the paddle shifters. Unique to the V6, the available paddle shifters are mounted right on the steering column, putting precise shifting control at your fingertips. No clutch needed. Just pull a paddle and your “gear” changes on command, giving you an experience that’s the best of both worlds.

4-cylinder Engine.

Choose the 182-hp 4-cylinder engine2 and get more than just spirited performance. The advanced intake system optimizes the opening of intake valves at high rpm to keep the torque curve flat, giving you smooth power while contributing to the impressive highway fuel economy.

1 Choose the 4-cylinder engine and get more than just spirited performance. The advanced intake system optimizes the opening of intake valves at high rpm to keep the torque curve flat, giving you smooth power while contributing to the impressive highway fuel economy.

2 Choose the 4-cylinder engine and get more than just spirited performance. The advanced intake system optimizes the opening of intake valves at high rpm to keep the torque curve flat, giving you smooth power while contributing to the impressive highway fuel economy.
What if your car knew when you were cornering—and how to respond to your commands? That’s the kind of intuitive response we’ve engineered into every Altima®. So you can enter a corner with more confidence, and exit with a big grin.

Active Understeer Control. This innovative technology helps improve control when you take a corner. It reads the cornering situation and, if needed, will imperceptibly brake the appropriate wheel to help you steer through the turn.

Suspension. Altima®’s rear multi-link suspension is designed for exceptional agility. You’ll feel it especially in the corners, when the layout of the suspension allows the rear wheels to turn slightly to match the front—giving you the sensation of riding on rails.

Shocks. Altima®’s luxury sedan-inspired shocks significantly reduce vibrations for a smooth, flat ride. A rebound spring inside of each shock absorber makes for minimal roughness and more secure cornering, combining great performance with great ride comfort.

TAKING A CORNER WILL NEVER FEEL THE SAME AGAIN.
MONITOR

Smart technologies are designed to help monitor conditions. Like a warning to let you know you’re straying from your lane, or a system that helps ensure you’re travelling on properly inflated tires.

Standard Tire Pressure Monitoring System with Easy-Fill Tire Alert

Lets you know when a tire is low. And Easy-Fill Tire Alert takes the guess-work out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

Available: Smart Auto Headlights, RearView Monitor, Blind Spot Warning, Lane Departure Warning and Moving Object Detection.

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn’t it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

PROTECT

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat belt and occupant-classification sensors

Front seat-mounted side-impact supplemental air bags

Roof-mounted curtain side-impact supplemental air bags

LATCH System (Lower Anchors and Tethers for Children)

MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle.

VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques.

Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver’s responsibility to be in control of the vehicle at all times. Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger’s seat. All children 12 and under should be in child seats or booster seats, according to their size. Air bags will only inflate in certain accidents, see your Owner’s Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment.

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

1 TPMS is not a substitute for regular tire pressure checks. 2 Vehicle must be on for the Easy-Fill Tire Alert to operate. 3 Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and doesn’t warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. 4 Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or objects. 5 MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. 6 LDW operates only when the lane markings are clearly visible. Speed limitations apply. See Owner’s Manual for details. 7 MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. 8 Brakes are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger’s seat. All children 12 and under should be in child seats or booster seats, according to their size. Air bags will only inflate in certain accidents, see your Owner’s Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment.
NISSAN SAFETY SHIELD® TECHNOLOGIES
INNOVATION TO HELP DOUBLE CHECK YOUR DOUBLE CHECK.

Wouldn’t it be cool if your car had your back? Whether you’re changing lanes on the highway or deftly maneuvering your way into a parking spot, Altima’s available Safety Shield® technologies take advantage of the rearview camera and act as a second set of eyes, giving you a whole new way to double check.

Blind Spot Warning. If another vehicle is detected in your blind spot area, an indicator appears in the driver’s or front passenger’s doors and on the Advanced Drive-Assist® Display. Put your turn signal on, and the indicator flashes with a warning chime to alert you.1

Lane Departure Warning. If Altima detects that you’re straying from your lane, the Lane Departure Warning system will give both a visual and audible alert. The system is so smart, it’s designed to stop the warnings whenever your turn signal is engaged.2

RearView Monitor with Moving Object Detection. Shift into Reverse, and the available next-generation RearView Monitor displays what’s directly behind you. If it detects something moving by the rear of the vehicle when you’re in Reverse, it gives a visual and audible alert. And whenever you want a wider rear view, just push the camera button.3, 4

1 Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. 2 LDW operates only when the lane markings are clearly visible. Speed limitations apply. See Owner’s Manual for details. 3 Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. 4 MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle.

**Buying/Owning**

Nissan Motor Acceptance Corporation. Whether you’re buying or leasing, you’ll find attractive rates and flexible terms to make your purchase more accessible.

**College Grad Program.** Ask about our special new vehicle pricing available to individuals up to two years after graduation.

**Active and Reserve US Military Program.** Ask about our fixed discount on new vehicle pricing available to those serving our country.

**New Vehicle Limited Warranties.** Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/100,000-mile (whichever occurs first) powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

**SecurityPlus.** For additional peace of mind, a variety of extended service plans let you tailor the coverage to your driving habits.

**MaintenancePlus.** This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

**Genuine Nissan Parts.** When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they’re the only parts to carry Nissan’s factory-backed limited warranty.

**Nissan Mobility Assist.** This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to NissanUSA.com/mobility for more info.

[@NissanSupport](https://twitter.com/NissanSupport) for answers to specific questions about Altima® Sedan or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries.

For more information about key Nissan support services. Or if you’d prefer, call [1-800-NOISE-2] for answers to specific questions about Altima® Sedan or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries.

---

**Environment.** Nissan's environmental action plan focuses on several key areas:

* Increasing production of Zero Emission vehicles, including the 100% electric LEAF®
* Improving fuel efficiency through our PUREDRIVE™ measures
* Reducing the environmental impact of manufacturing, as seen at our energy-efficient, low-emissions paint plant in Tennessee.
