WELCOME TO THE 2014 100% ELECTRIC NISSAN LEAF® DIGITAL BROCHURE

Full of images, feature stories, and all the specification, trim level and charging information you need to help select your 100% electric LEAF®.

Click here to sign up for news and updates on the 2014 Nissan LEAF®.
START YOUR DAY
WITH ALL ENERGY, NO EXHAUST.
You can wake up fully charged, and get where you’re going with no gas, no tailpipe, no emissions. Nissan LEAF® is the world’s first mass-market all-electric vehicle, and it’s quickly becoming what people depend on as their primary car. An impressive 126 city MPGe makes a world of a difference in your wallet. And of course, fewer parts under the hood means less maintenance, so you’ll save on more than just gas. With all the comforts of a conventional car and the innovation Nissan is known for, LEAF® makes going electric an everyday reality.

*For tailpipe emissions. **2014 EPA Fuel Economy Estimate 126 city, 101 highway. Based on EPA formula of 33.7 kW/hour is equivalent to gasoline fuel efficiency. EPA rated the LEAF® equivalent to 126 MPG estimated as gasoline fuel efficiency in city driving, and 101 MPG in highway driving. Actual range may vary with driving conditions — use for comparison only. 2014 EPA range of 84 miles.
“We have absolutely no idea what the price of gas is.”
– Shannon | Windermere, FL

PEOPLE EVERYWHERE ARE TALKING ABOUT THE LEAF®.
Over 35,000 drivers across the country have made LEAF® part of their daily lives. And the love for LEAF® has gone global. In fact, it’s the best-selling electric car in the world, with over 82,000 global owners and over 580 million gas-free miles driven. Go to bit.ly/leafreviews to see what owners are saying about their LEAF®.

“We wake up every morning to a full charge and never run out... We only go to the gas station to clean the windshield.”
– Daniel | Marina Del Rey, CA

“The car is saving me tons of money on gas and maintenance, and electric costs are minimal.”
– Ken | Mesa, AZ

“I bought my LEAF® as an experiment as a second car. I now drive it 95% of the time.”
– Jim | Seattle, WA

“We have absolutely no idea what the price of gas is.”
– Shannon | Windermere, FL

“I bought my LEAF® as an experiment as a second car. I now drive it 95% of the time.”
– Jim | Seattle, WA
REMEMBER WHEN DRIVING FELT EXCITING AND NEW?

WELCOME BACK.

100% torque off the line and seamless acceleration bring a fun, new kick to your everyday to-do list. The LEAF®’s low center of gravity means curve-hugging and easy control in the driver’s seat. Whether you’re on the freeway, running errands or getting from point A to point B, getting into your Nissan LEAF® will become one of your favorite parts of the day.
SAY HELLO TO YOUR FILLING STATION.

All you have to do is plug it in like your laptop or mobile phone. “Fill up” at home and you’re good to go for 84 miles.

For charging, you’ve got options:

**Normal Charge:**
Your home charging dock will be your primary charging station, but you may also be able to charge at work and public stations. With the 240-volt home charging dock, LEAF® SV and SL charge in as little as 5 hours, while the S trim charges in about 8 hours – or in as little as 5 with the available S Charge Package.

**Quick Charge:**
This available feature allows you to plug in at a DC fast-charge station, and reach 80% charge in about 30 minutes. Ideal for when you’re out and about and want to top off your charge.

**Opportunity Charge:**
Nissan LEAF® comes with a 110/120-V opportunity charge cable. Although the rate of charging is slow, this allows you to access charging anywhere there is a suitable outlet.

**Public Charge Availability:**
We’re working with government and private companies to develop a wide public charging network. Approximately 20,000 public charging stations will be in place by 2015.

---

1 2014 EPA Fuel Economy Estimate 126 city, 101 highway. Based on EPA formula of 33.7 kW/hour equal to one gallon of gasoline energy, EPA rated the LEAF® equivalent to 126 MPG measured as gasoline fuel efficiency in city driving, and 101 MPG in highway driving. Actual mileage may vary with driving conditions — use for comparison only. 2014 EPA range of 84 miles. 2 Approximate time, with available 240-V home charging dock, purchased separately. 3 Use only a 110-120 volt, 15 amp dedicated outlet for charging. 4 ChargePoint® charging network is a third party not within Nissan’s control. Availability/accessibility of charging stations is not guaranteed.

Click this link http://Nissan.chargepointportal.net/external/nissanmap/ to find a ChargePoint® station near you.

Click the button to see a short video on how to get your home charging dock installed. Or go to bit.ly/leafdock
EFFICIENCY, CELEBRATED.

Packing power.
LEAF®’s compact lithium-ion battery is twice as powerful and half the weight of nickel-metal hydride batteries used in traditional hybrid cars. Its arrangement in the floor of the vehicle means interior roominess and even more cargo space in the 2014 model.1

Generate energy while you drive.
Every time you slow down, the regenerative braking system stores that energy in the Nissan LEAF® battery. That means your car charges anytime you brake.

Never be a drag.
LEAF® is aerodynamically designed to keep wind resistance down and efficiency up. A drag coefficient of 0.28 is something to celebrate. Low-resistance rolling tires also come standard, and reduce the vehicle’s energy output.

It’s easy to see the bright side.
Available LED low-beam headlights use half as much energy as traditional headlights. Plus, they’re aerodynamically designed to maximize efficiency.

How does a solar-powered radio sound?
Like music to your ears. The photovoltaic solar-panel spoiler (SL trim only) converts sunlight into energy. It helps power your A/C, your 12-volt outlet and your stereo.

BATTERY LIMITED WARRANTY2

100,000 MILES
8 YEARS

The comprehensive Nissan LEAF® lithium-ion battery limited warranty also protects against capacity loss below 8 bars of capacity (out of 12) as shown on the LEAF®’s capacity gauge for a period of 5 years/60,000 miles (whichever occurs first).2

1 Cargo and load capacity limited by weight and distribution. Always secure all cargo. 2 The limited Nissan LEAF® lithium-ion battery warranty includes coverage for defects in materials or workmanship for 8 years/100,000 miles (whichever occurs first) as well as protection against capacity loss below 9 bars of capacity (out of 12) as shown on the LEAF®’s capacity gauge for a period of 5 years/60,000 miles (whichever occurs first).
A FULL DAY ON A FULL CHARGE.

On average, Americans drive less than 33 miles a day. A Nissan LEAF® gets you 2 ½ times that on a single charge. Just plug it in to charge overnight, and in the morning you’ll be ready to go.

1. U.S. Department of Transportation Federal Highway Administration, 2011. *10144 GCA range of 84 miles. Actual range may vary. Use for comparison only. 2. Annual Gas Savings is the result of Daily Savings multiplied by the number of days in the month (30) and the number of months per year (12). Daily Savings is the Nissan LEAF® Daily Cost (miles driven daily/Nissan LEAF® MPG, multiplied by the cost of gas). Your actual gas savings may vary due to the number of drivers, driving conditions, vehicle maintenance, and changes in average fuel price. 3. Actual amount varies by state. Please consult state laws for eligibility.
Availability/accessibility of charging stations not guaranteed. Mileage estimates only. Range will vary depending upon driving/charging habits, speed, conditions, weather, temperatures, and battery age. Required SiriusXM® Satellite Radio, NavTraffic ® and NavWeather ® subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. SiriusXM® available in select markets. Services available only to those 18 or older in the 48 contiguous states and D.C. Services subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2013 Sirius XM Radio Inc. Sirius, ® XM® and all related marks and logos are trademarks of Sirius XM Radio Inc. SV and SL models only. CARWINGS ® requires compatible 2G GSM/GPRS cellular network provided by AT&T. 2G cellular network not available in all areas and/or availability at all times. Cellular technology is evolving, and changes to cellular networks provided by independent companies are not within Nissan's control. AT&T has announced that on December 31, 2016, AT&T will terminate 2G network availability. Like other devices that rely on 2G network coverage, once the 2G network is terminated, CARWINGS ® will not function unless equipment replacements, upgrades, or alternative 2G network coverage is available at that time, which Nissan cannot guarantee. Nissan not responsible for associated costs that may be required for continued CARWINGS ® operation on a global network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Certain remote functions require compatible smartphone, not included with vehicle. CARWINGS ® subscription service requires owner consent to activate and may require purchase. See dealer for details. Standard text rates and/or data usage may apply to CARWINGS ® communications received by email or SMS/text message. Terms and conditions of Subscription Agreement apply. iPad ® is a registered trademark of Apple, Inc. All rights reserved. iPad ® not included.

TALK TO YOUR LEAF® – IT’S LISTENING.

- find a charging station
- learn your drivable distance
- start or stop charging
- check battery status from your phone or computer
- get the latest traffic reports
- activate climate control remotely
- see how you rank in energy consumption

FROM YOUR SMARTPHONE.

With the available CARWINGS ® app, you can connect to your LEAF® to start and stop charging, access climate control, see your driving range and get alerts and updates.

CARWINGS ® is a telematics system that lets you connect with your Nissan LEAF® using web-enabled devices, like your smartphone, iPad® or computer. The app is a great way to keep tabs on your LEAF® and take care of some functions remotely.

FROM YOUR COMPUTER.

In addition to all that you can do from your phone, log into your CARWINGS ® account online to learn your driving history, plan your route and even see how your driving efficiency ranks among other LEAF® owners.

Available/availability of charging stations not guaranteed. Mileage estimates only. Range will vary depending upon driving/charging habits, speed, conditions, weather, temperatures, and battery age. Wouldn’t you like to see just how much energy you used while driving? LEAF® tells you this and more – everything you need to know about range management and energy consumption, all from your dash. So you can get the most out of every charge.
RANGE MANAGEMENT MADE EASY.

When you have the right tools, optimized range and conscientious driving come naturally.

Eco Drive Indicator:
Ever thought of growing your own forest? Watch the virtual trees appear in response to your efficient driving. Happy growing.

Power Meter:
Keep an eye on your power consumption. Lights tracking left or right show how much power you’re using – or generating, thanks to LEAF’s regenerative braking system.

Remaining Battery Charge:
You’ll always know exactly how your battery is doing. Which means you’ll always know when it’s time to start or schedule charging.

Eco Mode:
Switch to Eco Mode for your most efficient power usage. It can improve range up to 10% in certain conditions, by limiting motor output, increasing regenerative braking and cutting back on climate control.

Driving Range and Nearby Charging:
Press the available Zero Emissions button to look up the most economical route, see a radius of your driving range and find nearby charging spots.

Estimated Range:
How many miles remain in your driving range? Easy, this meter updates regularly based on power use and your driving style.

Availability/accessibility of charging stations not guaranteed. *Mileage estimates only. Range will vary depending upon driving/charging habits, speed, conditions, weather, temperatures, and battery age. The driver’s display shown does not show default screen settings.
ONE SCREEN DOES IT ALL.

3 Availability/accessibility of charging stations not guaranteed.

4 Availability of specific features is dependent upon the phone’s Bluetooth ® support. Please refer to your phone Owner’s Manual for details. Bluetooth ® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. iPod ® and iPhone ® are registered trademarks of Apple, Inc. All rights reserved. iPod ® and iPhone ® not included. Pandora is a registered trademark of Pandora Media, Inc. Please refer to Features and Specifications for availability of all the features shown here.

5 Pandora ® radio compatibility. Connect your Pandora ®-equipped iPhone ® through the USB input to choose playlists and rate songs right on your dash display.

6 Streaming audio via Bluetooth ®. Your friends can DJ from any Bluetooth ®-enabled audio device.

7 iPod/USB input with dash display. Listen to your own playlists and favorite podcasts.

8 Zero Emissions Menu. Get the most economical route and points of interest, see your driving range and nearby charging spots.

9 Energy usage screen. See how much energy you’re using, including the effects of using climate control. View driving habits and history.

10 Pandoroid Radio. Easy-to-read touch-screen displays music, sports, talk, comedy and more.

11 Access the Nissan Navigation System, the Zero Emissions menu and audio options all in one place. Manage your driving range, calculate routes and get real-time traffic updates.

ONE SCREEN DOES IT ALL.
NISSAN AROUND VIEW® MONITOR: INNOVATION THAT SEES THE BIG PICTURE.

How often have you wished that parallel parking was easier?
A standard RearView Monitor is great when backing up – but when it comes to parking, it’s nice to see more than just what’s directly behind you. That’s why LEAF® offers the available Around View® Monitor.
Four cameras give you a virtual 360° bird’s-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look. Now that’s smart.

Don’t scratch your wheels.
In Drive, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

Don’t bump your nose.
In Drive, the display gives you both a front and overhead view, so you can pull all the way into your spot (or garage) – but not too far.

Look out below.
In Reverse, the display helps you see what’s directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

Complete the picture.
Located under your driver’s side mirror, this camera helps round out your virtual 360° bird’s-eye view whether you’re in Drive or Reverse.

Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Always turn to check what is behind you before backing up. Not a substitute for proper backing procedures. Always check what is behind you before backing up. Virtual 360° view.

INNOVATION THAT SEES THE BIG PICTURE.
LOOKS GOOD, SOUNDS GOOD, FEELS GOOD.

Choose from three ambient start-up sounds – your greeting when you power up your LEAF® with the push-button start. And when you take a look around, you’ll find high-tech features you’d expect from a vehicle this innovative, like a Nissan Navigation System and Pandora.® Of course, you’ll also find the essentials for comfort and ease, like an illuminated glove compartment, generous cup holders and smart storage throughout. A RearView Monitor, Bluetooth®, iPod® connectivity, heated front and rear seats and a heated steering wheel come standard, too.® © Available black leather-appointed seats are a sleek touch to top it off.

Enjoy the amazing sound quality of an available energy-efficient Bose® audio system. Bose® came on board with a design that reduced energy usage by nearly 50%. This ultra-lightweight, compact, energy-saving speaker system custom-tuned for LEAF®’s interior acoustics delivers the concert hall sound for which Bose® is so well-known.

Nissan LEAF® SL shown in Black Leather with optional equipment.

**Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations.**

**Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. Always turn to check what is behind you before moving vehicle.**

**Availability of specific features is dependent upon the phone’s Bluetooth® support. Please refer to your phone Owner’s Manual for details. Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license.**

**Always give your full attention to driving. Avoid operating your iPod® in such a way that you can be distracted during vehicle operation.**

**Pandora® is a registered trademark of Pandora Media, Inc.®” is a registered trademark of Panasonic Mobile.
DID YOU KNOW THAT YOU DON’T HAVE TO SACRIFICE SPACE FOR EFFICIENCY?

In the LEAF®, you get double the trunk space of a Chevy Volt®, with nearly 24 cubic feet. That’s up to five pieces of luggage or two golf bags, while still fitting your friends in back. Convenient 60/40 split folding rear seats can give you an additional six cubic feet of space, providing plenty of cargo options. Five doors and a roomy interior makes for easy coming, going, loading and unloading.

5 PIECES OF LUGGAGE

2 GOLF BAGS

1 FULL-SIZE ADULT BIKE

3 LARGE COOLERS
PROTECT

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers. The battery is encased within a triple-protection structure system to help it stay intact.

Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat-belt and occupant-classification sensors¹

Front seat-mounted side-impact supplemental air bags ¹

Roof-mounted curtain side-impact supplemental air bags¹

LATCH System (Lower Anchors and Tethers for Childreń)

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn’t it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions. Like a standard rearview camera that helps you see something behind you, or a system that helps ensure you’re travelling on properly inflated tires.

Tire Pressure Monitoring System with Available Easy-Fill Tire Alert.¹²

Let's you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

Available Around View® Monitor¹

RearView Monitor¹

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.¹⁵

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: an industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

1 Inch Usage

1 Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.  

2 Vehicle must be on for the Easy-Fill Tire Alert to operate.  

3 Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.

Always turn to check what is behind you before backing up.

5 VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. The bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant classification sensor, rear-facing child restraints should not be placed in the front passenger’s seat. Also, all children 12 and under should be in the rear seat properly secured in child restraints, boosters, or seat belts according to their size. Air bags will only deploy in certain accidents; see your Owner’s Manual for more details. Inflated air bags shown for illustration purposes only, actual coverage area may differ. Air bags deflate after deployment.

BLACK LEATHER

Post-consumer recycled material will exceed 30%.
### Electric Motor
- **80 kW AC synchronous electric motor**
- **24 kWh lithium-ion (Li-ion) battery**
- **3.6 kW onboard charger**
- **6.6 kW onboard charger**
- **Battery heater**
- **Hybrid heater system**
- **Emissions – Zero Emissions Vehicle (ZEV)**
- **Portable trickle-charge cable (110-240 V)**
- **Normal charge port**
- **Quick charge port**

### Drivetrain
- **Single-speed reduction gear**
- **Pulse-shift drive selector**
- **Hill start assist**

### Brakes
- **Front and rear vented disc brakes**
- **Regenerative braking system**
- **B-mode (regenerative braking drive mode)**
- **4-wheel Anti-lock Braking System (ABS)**
- **Electronic Brake force Distribution (EBD)**
- **Brake Assist**

### Suspension/Steering
- **Independent strut front suspension with coil springs**
- **Torsion bar axle rear suspension with coil springs**
- **Vehicle-speed-sensitive electric power steering**

### Wheels/Tires
- **16" Steel wheels**
- **17" 5-spoke aluminum-alloy wheels**
- **P205/55R16 all-season tires**
- **P215/50R17 all-season tires**
- **Tire repair kit**

### Exterior Features
- **Aerodynamic LED headlights**
- **Aerodynamic halogen headlights**
- **Automatic on/off headlights**
- **Fog lights**
- **Photovoltaic solar-panel rear spoiler**
- **Rear spoiler**
- **Body-color front and rear bumpers**
- **Chrome door handles**
- **Unique Zero Emission exterior badging**
- **Aerodynamic underbody cover and rear diffuser**
- **Dual power body-color heated outside mirrors**
- **Front UV-reducing solar glass**
- **Charge port with light and lock**
- **One-touch rear hatch release**

### Comfort/Convenience
- **Nissan Navigation System with 7" QVGA color monitor**
- **NavTraffic® and NavWeather® with 3-month trial subscription provided by SiriusXM®**
- **RealView® Monitor**
- **Around View® Monitor**
- **Nissan Intelligent Key® with Push Button Start**
- **Hands-free Phone System**
- **HomeLink® Universal Transceiver**
- **CARVINGS®** allowing for remote connection to vehicle:
  - Monitor battery state of charge/charging status
  - Start vehicle charging
  - Activate heating and air conditioning systems

### Seating/Appointments
- **Heated front and rear seats**
- **6-way manual adjustable driver's seat**
- **4-way manual adjustable front passenger's seat**
- **Cloth seat trim**
- **Partially recycled cloth seat trim**
- **Leather-appointed seats**
- **Heated leather-wrapped steering wheel**
- **Rear seat heating and cooling ducts**
- **60/40 Split fold-down rear seats**
- **One-touch rear hatch release**

### Notes:
- All products while driving. GPS mapping may not be detailed in all areas or reflect current road regulations.
- At&T has announced that on December 31, 2016, AT&T will terminate 2G network availability. Like other devices that rely on 2G network coverage, once the 2G network is terminated, AT&T will no longer provide the cellular networks provided by independent companies are not within Nissan's control.
- Always drive safely. Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. Always drive safely. 11 Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.
- 12 Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object. Always check before backing up.
- 13 Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license.
- Fuel economy may vary depending on driving conditions and operator habits.
- 14 Nissan reserves the right to modify any standard or optional equipment, product specifications, or accessories at any time without notice. 15 Zero Emission exterior badging is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details.
## Packages

### S Charge Package
- Nissan 6.6 kW onboard charger (6 kW output)
- Quick charge port

### SV LED Headlights and Quick Charge Port Package
- Aerodynamic LED headlights
- Automatic on/off headlights
- Quick charge port
- Fog lights

### Premium Package
- Around View® Monitor®
- Bose® audio system with AM/FM/CD and seven speakers

It is subject to change and does not constitute an offer, representation or warranty (express or implied) by Nissan North America, Inc. Interested parties should confirm the accuracy of any information in this brochure as it relates to a vehicle directly with Nissan North America, Inc., before relying on it to make a purchase decision. Nissan North America, Inc., reserves the right to make changes, at any time, without prior notice, in prices, colors, materials, equipment, specifications, and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, actual vehicle, materials, and specifications may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options, and accessories may differ in Hawaii, U.S. territories and other countries. For additional information or availability, options or accessories, see your Nissan dealer or contact Nissan North America, Inc.

Nissan Motor Acceptance Corporation. Whether you’re buying or leasing, you’ll find attractive rates and flexible terms to make your purchase more accessible.

College Grad Program. Ask about our special new vehicle pricing available to individuals up to two years after graduation.

Active and Reserve US Military Program. Ask about our fixed discount on new vehicle pricing available to those serving our country.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/60,000-mile (whichever occurs first) powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus®. For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus®. This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they’re the only parts to carry Nissan’s factory-backed limited warranty.

Nissan Mobility Assist. This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to NissanUSA.com/mobility for more info.

Nissan’s environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100%-electric LEAF®. Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee.
