Embrace the excitement of more range and more power. Now, with an available EPA range up to 226 miles, you can go farther than ever before. And you’ll drive with more confidence, thanks to a suite of available driver assistance features that help keep an eye out. It’s all part of Nissan Intelligent Mobility™. The 2019 Nissan LEAF. Simply amazing.
It’s an experience unlike any other, thanks to the available all-new 160 kW motor, powered by some of the most advanced battery technology in the world. It starts the first time you accelerate and feel 100% instant torque push you into the back of your seat. Then there’s the wonder at the intensity of available 214 horsepower coming from a car so amazingly quiet. And with no gas or tailpipe emissions, your everyday drive turns into something truly extraordinary.

Feel free to enjoy the ride

With available ProPILOT Assist, the Nissan LEAF® helps out with daily highway driving – helping you follow the car ahead at a preset distance or helping keep you centered in your lane. It can even bring you to a full stop based on the traffic flow, and can bring you back up to speed when traffic starts moving again. It all adds up to a more confident, enjoyable drive.

Feel the rush of instant acceleration

It’s an experience unlike any other, thanks to the available all-new 160 kW motor, powered by some of the most advanced battery technology in the world. It starts the first time you accelerate and feel 100% instant torque push you into the back of your seat. Then there’s the wonder at the intensity of available 214 horsepower coming from a car so amazingly quiet. And with no gas or tailpipe emissions, your everyday drive turns into something truly extraordinary.

ProPILOT ASSIST

With available ProPILOT Assist, the Nissan LEAF® helps out with daily highway driving – helping you follow the car ahead at a preset distance or helping keep you centered in your lane. It can even bring you to a full stop based on the traffic flow, and can bring you back up to speed when traffic starts moving again. It all adds up to a more confident, enjoyable drive.
Reinvent the drive

Imagine having the option to drive with one pedal. Just press down for an instant rush and ease off to slow down. It’s an innovative way to drive that’s not only fun, but helps you drive more efficiently. Of course, going back to driving with two pedals is as easy as flipping a switch.

**e-Pedal – ONE-PEDAL DRIVING**

Imagine being surrounded by confidence on every drive. Nissan Intelligent Mobility includes available features that monitor in front of you, behind you, and on either side, and can step in to help keep you out of trouble.

**DRIVER ASSISTANCE FEATURES**

- Automatic Emergency Braking with Pedestrian Detection
- Intelligent Around View Monitor
- Rear Cross Traffic Alert
- Intelligent Lane Intervention
- Blind Spot Warning
- High Beam Assist

The 2019 Nissan LEAF looks out for vehicles ahead and pedestrians crossing in front of you. It monitors your speed and distance between you and the car ahead, and can let you know if you need to slow down. It can even automatically engage the brakes to help avoid a collision or lessen the severity of an impact. And when it detects a pedestrian in the crosswalk, it can apply the brakes for you.
Get your day started with NissanConnect® EV with Services

Your Nissan LEAF® is powered up and you’re connected – and you haven’t even stepped out of the house yet. The NissanConnect EV Skill with Amazon Alexa or the NissanConnect EV Action for the Google Assistant makes it possible. Or just use the NissanConnect EV & Services app on your compatible smartphone to lock and unlock your doors, heat or cool your cabin while charging, and more.7, 13, 14

Surprising smartphone connectivity brings what’s important from your compatible smartphone and puts it on the available touch-screen display. With available features like Android Auto™, you can enjoy access to apps, texts, calls, and more. And you’ll stay charged up with a standard USB port.13, 14, 16

Connect the way you want

An ever-expanding network of public EV charging stations means you’re never far from your next charge or a quick top-off. Just use the menu on your LEAF’s available center touch-screen display – you can even filter for the type of charger you are looking for, type of payment method, and more.13, 17

Charging up at Home

Charge up overnight, when electricity rates are often lower, using a standard 240-V plug.14

Charging up the Go

An ever-expanding network of public EV charging stations means you’re never far from your next charge or a quick top-off. Just use the menu on your LEAF’s available center touch-screen display – you can even filter for the type of charger you are looking for, type of payment method, and more.13, 17
