NISSAN Commercial Vehicles[®]

WOULDN'T IT BE COOL IF_

YOUR FAMILY VEHICLE HAD REAL TEAM SPIRIT?

With the 2014 Nissan NV[®] Passenger, there's always room for more. Whether it's taking little leaguers and gear to the game, sharing a multi-family vacation or being the king of the carpool. NV[®] Passenger transports your expectations as well as your passengers, with room for 12 and a class-leading 324 seating configurations.¹ And getting to those seats is easy, with a sliding side door and a low step-in height. Confidence comes along for the ride with integrated headrests and seat belts and class-exclusive standard roof-mounted side-impact supplemental curtain air bags for outboard occupant head protection with rollover sensor for every row.^{1,2} Innovative heating and cooling keeps everyone comfortable, too. The out-front engine design provides improved driver comfort, easier engine access for servicing, and the durability of a full-length, fully boxed ladder frame and the biggest brakes in its class.¹ It all adds up to a team player we can all cheer for. 2014 NV[®] Passenger.

¹Ward's Light Vehicle Market Segmentation. 2014 NV[®] Passenger vs. 2014 Large Van Class. ²Air bags are only a supplemental restraint system; always wear your seat belt. Rear-facing child restraints should not be placed in the front passenger's seat. All children 12 and under should ride in a 2nd, 3rd, or 4th row seat properly secured in child restraints; booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. Rear-facing child restraints should not be used in NV[®] Cargo vehicles. See Owner's Manual for details.

PACK IT IN. MOVE 'EM OUT.

NV® Passenger not only gives you space, it gives you unbeatable flexibility when it comes to carrying passengers and cargo. A choice of fore or aft positions in the 2nd- and 3rd-row seats means impressive stretch-out room; a real plus for taller or larger family members. And with six individually removable seats, you can do amazing things like having room for eight while fitting items up to ten feet long – all without the hassle of using a roof rack!

*Cargo and load capacity limited by weight and distribution. Always secure all cargo.

NISSAN FLEXIBLE SEATING
OPENS WIDE AND
SAYS MORE.

NV® Passenger not only gives you space, it's designed to make it easy to use every inch. The rear doors swing wide, opening 243°, and are held in place with powerful magnetic door stops. The easy-sliding side door creates a wide opening and with a low step-in height, there's easy access for everybody. And when you need to make the big haul, remove the 2nd-, 3rd- and 4th-row seats and enjoy a massive 218.9 cubic feet of cargo space.¹

Maximum passengers

Easy entry and exit

Room for eight and cargo

Up to 10' long items

Maximum cargo

Class-leading 324 seating configurations.² With a class-leading total of six independent rear seats,² you have unmatched flexibility whether it's maximizing cargo,¹ passengers, or just giving everyone a little more room to get in and move around. The 4th-row seats even feature wheels for easier removal.

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. ²Ward's Light Vehicle Market Segmentation. 2014 NV® Passenger vs. 2014 Large Van Class.

COMFORT, CONTROL AND CONVENIENCE.

The job title may say driver, but you can also add part-time skycap, cashier, entertainment director and company representative to the list. NV® Passenger helps you excel at all of them, providing outstanding room and superior visibility for easier maneuvering. There's dedicated storage for everything from clipboards to business cards, and advanced technology to help keep you on time, and your passengers comfortable and entertained. Job well done.

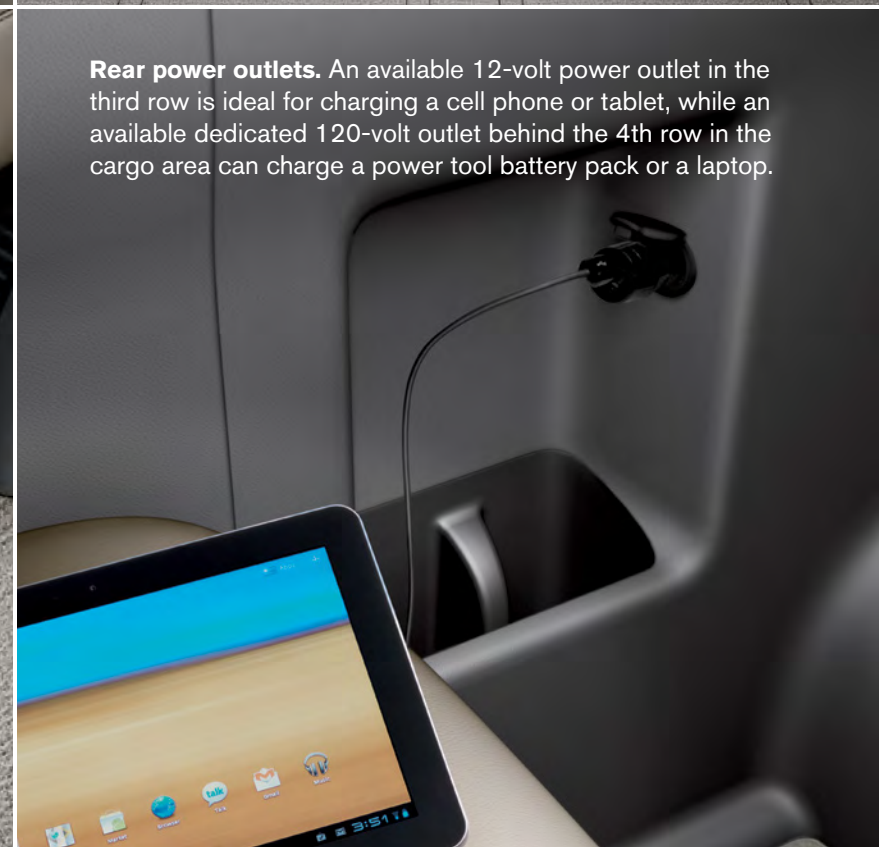

Cool and comfortable. Along with standard front and rear HVAC units, each passenger row has two adjustable overhead air conditioning vents.

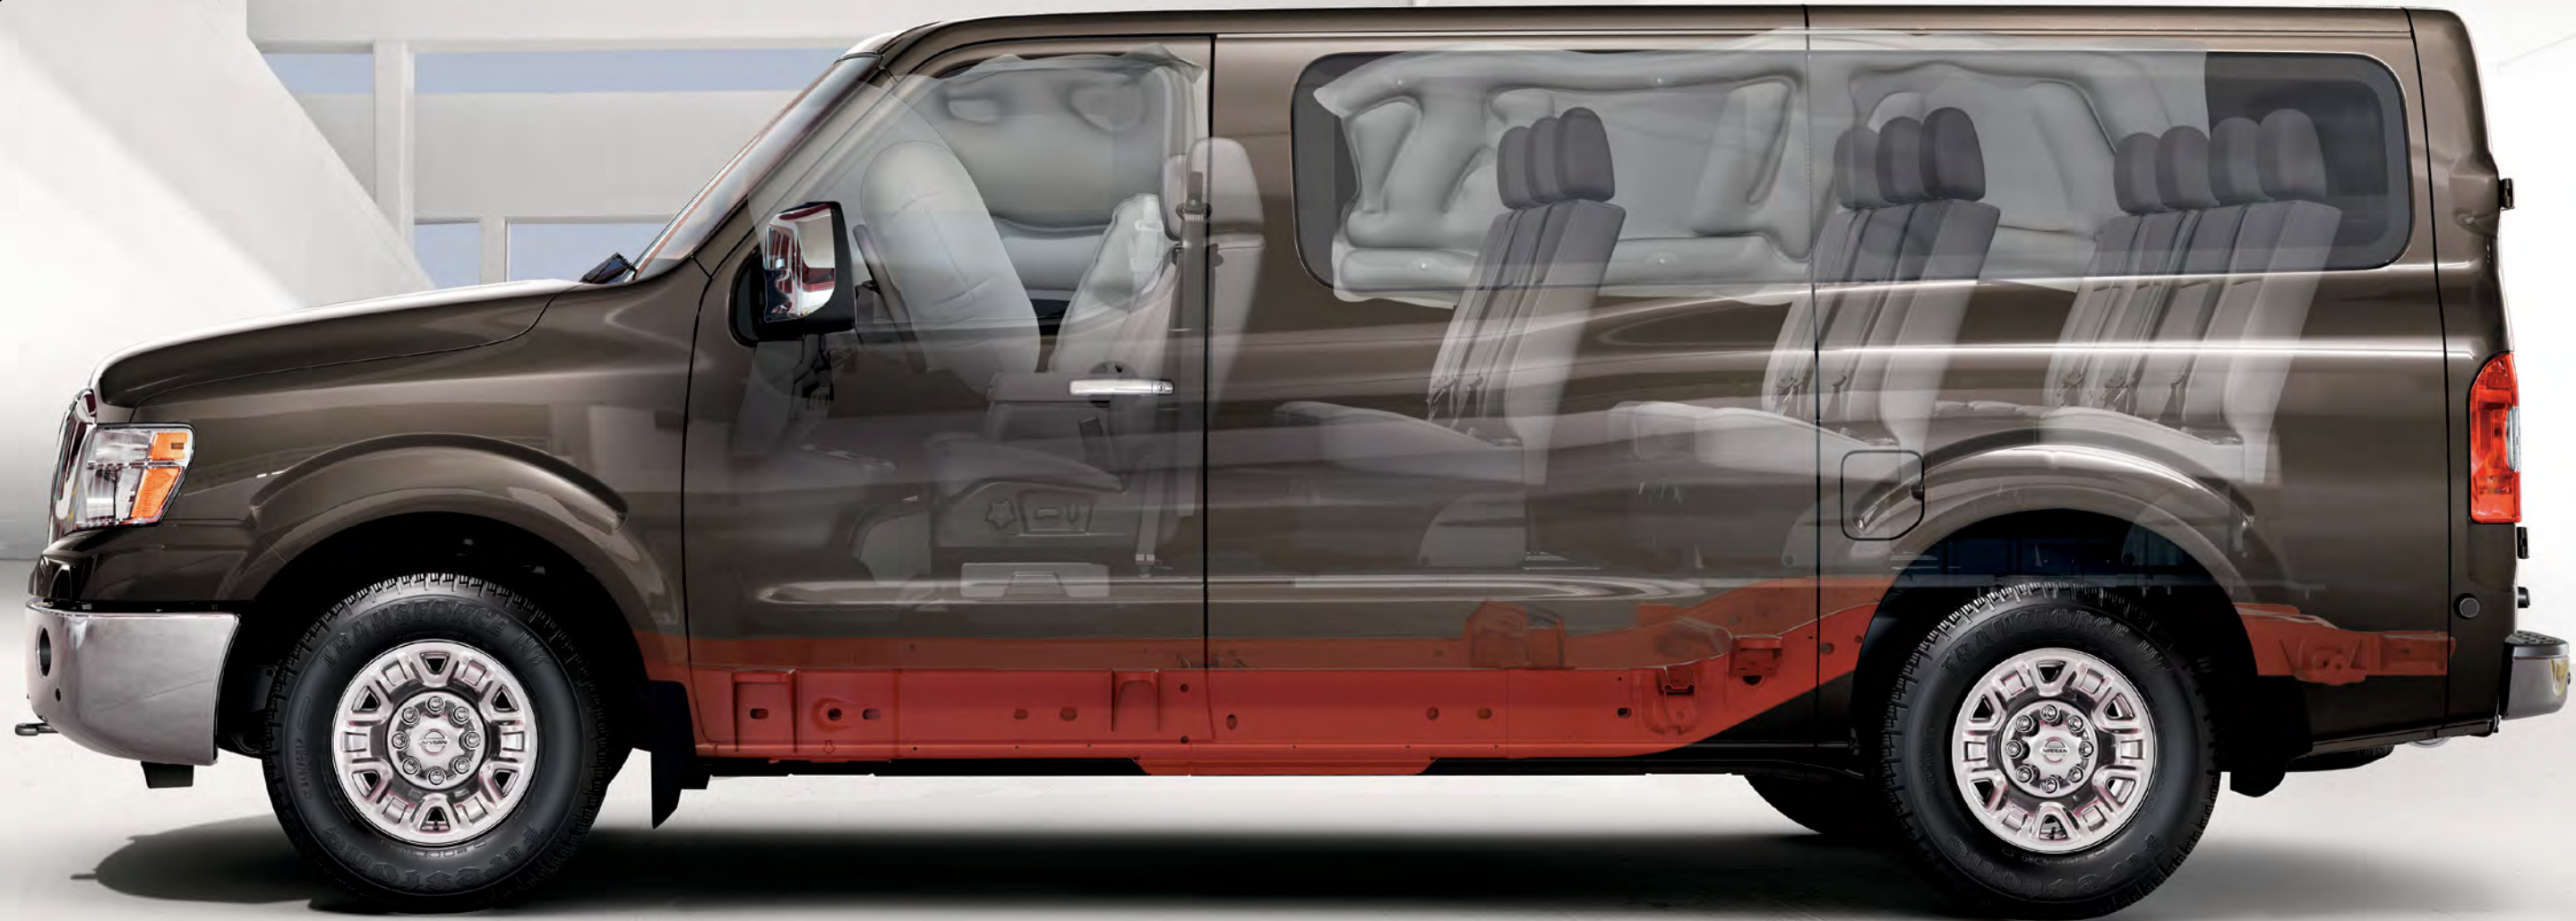

Warm and toasty. Dual floor-mounted heater vents make sure every seating position gets warm. Some competitors have only a single heater vent that leaves some passengers out in the cold.

Convenient cup holders. No detail was overlooked in NV® Passenger. Each row features two under-seat slide-out cup holders, designed to hold a variety of containers and strong enough to withstand years of abuse.

Rear power outlets. An available 12-volt power outlet in the third row is ideal for charging a cell phone or tablet, while an available dedicated 120-volt outlet behind the 4th row in the cargo area can charge a power tool battery pack or a laptop.

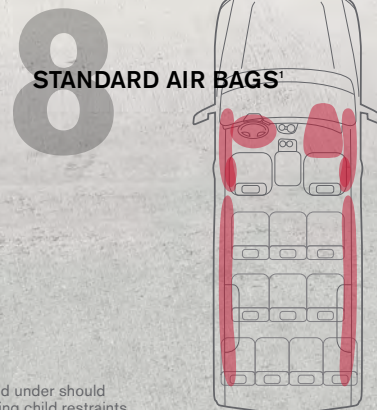

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® technologies are a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

¹Air bags are only a supplemental restraint system; always wear your seat belt. Rear-facing child restraints should not be placed in the front passenger's seat. All children 12 and under should ride in a 2nd, 3rd, or 4th row seat properly secured in child restraints; booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. Rear-facing child restraints should not be used in NV® Cargo vehicles. See Owner's Manual for details. ²VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

8 STANDARD AIR BAGS¹

PROTECT

When a collision is unavoidable, advanced technology helps minimize injury and keep you safe. Nissan's Zone Body construction further strengthens that line of defense, helping to absorb impact and protect everyone on board.

Eight Standard Air Bags¹

- (2) Dual-stage supplemental front air bags¹
- (2) Front seat-mounted side-impact supplemental air bags¹
- (2) Roof-mounted curtain side-impact supplemental air bags with rollover sensor for front occupant head protection¹
- (2) Roof-mounted curtain side-impact supplemental air bags with rollover sensor for 2nd-4th row outboard occupant head protection¹

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond in a potentially harmful situation.

- Vehicle Dynamic Control²
- Traction Control System (TCS)
- Anti-lock Braking System
- Brake Override Technology
- Brake Assist

BUSINESS. CLASS.

Designed to transport your expectations as well as your passengers, NV® Passenger sets the standard for business transportation. With a full-length, fully boxed ladder frame and the largest brakes in its class,¹ it's built to provide years of tough, reliable performance. The out-front engine design provides improved driver comfort and easier engine access for servicing. And it's a winner for customers too, with low step-in heights and comfortable seating with integrated headrests and integrated seat belts. Once they're seated, passengers will find innovative heating and cooling to help keep them comfortable and luxury touches like individual overhead lighting and available multiple power points. It might just be the best part of a business traveler's trip. And with comfortable drivers, satisfied passengers and a profitable bottom line, it's the smart way to run a business, too.

STAYING ORGANIZED

Flexible center console. NV® Passenger's available center console is a master multi-tasker – large enough to hold hanging files or a laptop computer – with a top that slides forward to create a convenient work desk. 12-V and available 120-V outlets help ensure your business devices are always charged and ready to go.

Fold-down front passenger seat. Need more work space? The fold-down passenger seat creates additional room, and also functions as a tray when you're grabbing a bite.

Under-seat storage drawer. A great place to keep invoices and other important paperwork. Out of sight but easily within reach. For added utility, there's an available storage pocket attached to the front of the driver's lower seat cushion – ideal for smaller items like cell phones.

Best of both worlds. Remove all the rear passenger seats to create more space and turn your 12-passenger people-mover into a cargo vehicle with 218.9 cubic feet of cargo space!¹

STAYING CONNECTED

Navigation. The available 5" touch-screen display offers NavTraffic® for real-time advisories to keep you on the move. The map's 3-D perspective helps make negotiating even the most crowded areas easier.^{2,3}

RearView Monitor. Displayed on the easy-to-view 5" screen, the available RearView Monitor helps make parking and backing up to loading areas a snap.⁴

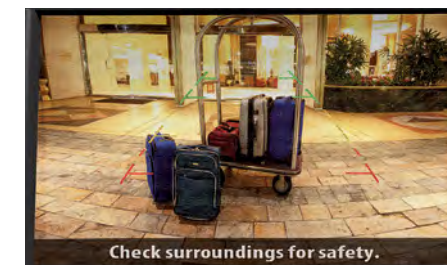

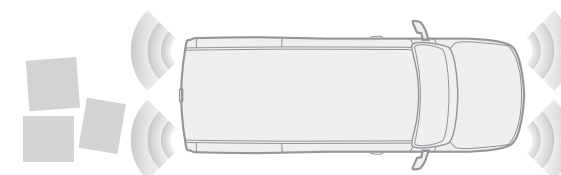

USB Input. With the available USB input, you can enjoy your favorite tunes from your iPod® and control it through the audio system or steering wheel-mounted controls.⁵

Steering Wheel-mounted Controls. Available steering wheel-mounted controls keep NV® Passenger's phone and audio controls at your fingertips.

Bluetooth®. The available Bluetooth® Hands-free Phone System helps drivers make and receive calls while keeping their hands where they belong – on the wheel!⁶

Convenient 120-V Access. Conveniently located in the center console, available 12-V and 120-V power outlets are ideal for charging a laptop computer or cordless power tool.

Front and Rear Sonar System⁷ Available in either rear or combined front and rear versions, the system beeps when it senses an object up to six feet away, and increases in frequency the closer you get.⁷

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. ²Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ³Required SiriusXM® Satellite Radio and NavTraffic® subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. NavTraffic® available in select markets. Services available only to those 18 or older in the 48 contiguous states and D.C. Fees and programming subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2014 Sirius XM Radio Inc. Sirius®, XM® and all related marks and logos are trademarks of Sirius XM Radio Inc. ⁴Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁵Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. iPod® is a registered trademark of Apple, Inc. All rights reserved. iPod® not included. ⁶Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. The Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ⁷The optional Front and Rear Sonar System is a convenience, but not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front of or behind you.

OVER **800000** MILES AND 7,000 QUALITY AND DURABILITY TESTS.

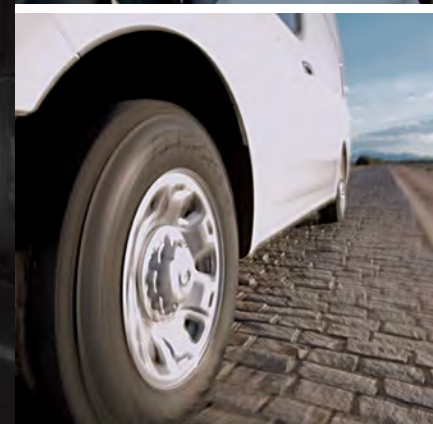

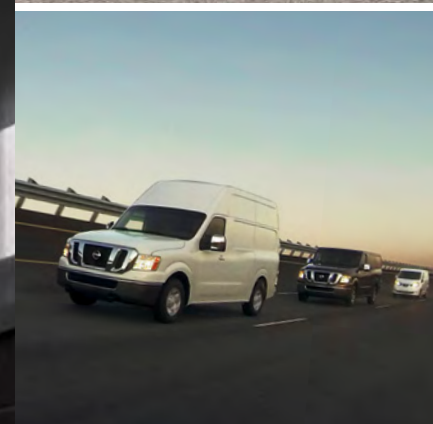

Fanatical? Maybe. But when it comes to making the toughest commercial vehicles you can buy, we go the extra distance for you. And for NV[®] Cargo and NV[®] Passenger, it's no Sunday drive. We simulate years of corrosion where we soak a vehicle with salt, bake it, and pound it around a test track. We wreak havoc with suspension and body components by driving through potholes, dips and over 4x4 beams. Special chambers crank up the heat to 144 degrees and humidity to 95% to break down seals and fry up interiors.

We even have machines that can simulate nearly any road in the world, and we run our vehicles on them non-stop for 12 hours, 24 hours, or even more. Do we really need to go to such extremes, just to make a Nissan Commercial Vehicle the best you've ever owned? Every day, you depend on your vehicle to do your job. That's the motivation for us to do ours.

The Nissan Arizona Testing Center. Think your drive is tough? Welcome to one of the most challenging places on earth. We test day and night, in scorching heat, freezing cold, on high-speed ovals and in torturous road conditions. But the results are worth it – the most rugged commercial vehicles you can buy.

Click here to see how far we go to create a vehicle you can trust. Or go to bit.ly/passengerdq

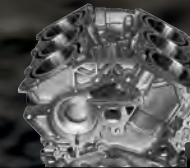

BUILT FOR THE LONG HAUL.

NV® Passenger has been engineered from the bottom up to give you the kind of reliability and durability you need to ensure a solid bottom line for your business. It's built on a full-length, fully boxed frame for a long service life. The biggest brakes in its class provide confident stopping power,¹ while standard VDC helps keep you on your steered path.² Whether you choose between a fuel-efficient V6 or powerhouse V8 engine, you ride with state-of-the-art technology. With up to 8,700-lb. towing capacity, you can bring what you need, when you need it.³ And since both engines run so efficiently, you'll never have to worry about logging idling time again.

Vehicle Dynamic Control NV® Passenger's VDC system helps you stay on your steered path by reducing engine speed and/or applying appropriate brake pressure to specific wheels.²

Powerful choices NV® Passenger's 24-valve, 4.0-L V6 features an advanced Continuously Variable Valve Timing Control System that delivers seamless power with optimum fuel efficiency.

Step up to the 32-valve 5.6-L V8 and you'll find an aluminum block with a forged crankshaft and cast-iron cylinder liners for maximum strength. Both engines feature specially coated piston skirts and microfinishing of key components to help reduce friction for smooth response and less wear and tear.

Suspension and ride Based on the heavy-duty components of NV® Cargo, Nissan engineers specially tuned the suspension of NV® Passenger for rider comfort.

¹Ward's Light Vehicle Market Segmentation. 2014 NV® Passenger vs. 2014 Large Van Class. ²VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ³V8 models only. See Nissan Towing Guide and Owner's Manual for proper use. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. When towing at or near Maximum Trailer Weight, the allowable vehicle cargo and/or number of passengers is reduced because it is necessary to stay below the Gross Combined Weight Rating and the Gross Axle Weight Rating. If the vehicle has cargo and passengers, the allowable Maximum Trailer Weight is reduced.

CUSTOMER COMMITMENT

Your vehicle is more than just basic transportation, it's what makes your business run efficiently. At Nissan Commercial Vehicles, we understand our part in making your business run cost-effectively. That's why we've partnered with our commercial certified parts and service dealers to ensure we are there for you when you need us. As part of our parts and service commitment, you will experience the following at every certified Nissan Commercial Vehicles Dealer:

Service and maintenance plans. Developed specifically for Nissan Commercial Vehicles and backed by Nissan, a wide variety of service plans are available to you, including high-mileage options. Your authorized Nissan Commercial Vehicles dealer has all the details, and will be glad to help you find the plan that best fits your business needs.

Roadside Assistance and Trip Interruption. Our commercial vehicles come with the confidence of Roadside Assistance, offering lockout support, towing services, emergency fuel delivery, tire changes and dead-battery jump-start service. Our Trip Interruption benefits offer assistance if your vehicle becomes disabled more than 100 miles from your company's location.⁵

We've got you covered. Every Nissan is backed by a 36-month/36,000-mile (whichever occurs first) limited vehicle coverage and a 5-year/60,000-mile (whichever occurs first) limited powertrain coverage. (For complete information, see your Nissan Commercial Vehicles Owner's Manual). For extra protection, you can also add Security+Plus,[®] the only extended service agreement approved by Nissan.

¹Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ²The Commercial Incentive Packages are products designed, manufactured, tested and installed by an independent supplier, 3M®, specifically for NV® Passenger vans. 3M® products are not covered by the Nissan New Vehicle Limited Warranty. Nissan is not responsible for the safety or quality of the installation or alterations made by 3M® to your NV® Passenger van. See your local dealer for details. The wraps application is a nongenuine Nissan affiliate product available through 3M, Inc. Nissan does not warranty NCV Graphics Package; instead, warranty is provided by 3M, Inc. Offer valid for 2013 or 2014 model-year NV® Passenger vans. Please see your local NCV dealer for more details on the Commercial Incentive Program. To find your local NCV dealer, reference the dealer locator at www.NissanCommercialVehicles.com. ³Vehicle Graphics Packages do not cover roof of vehicle. ⁴MSRP excludes tax. Retailer sets actual price. ⁵Roadside Assistance and Trip Interruption available during the first four years after initial new vehicle delivery. Restrictions apply. See Owner's Manual for details.

NV® PASSENGER

Shouldn't you drive something you love? Absolutely. And that's what inspires our innovation. We look at every part of your drive and ask how can we make it better, smarter and more productive. So when you get down to business in your new Nissan Commercial Vehicle, you'll feel how hard-working the answers can be:

There's more to discover about NCV
Introducing the all-new iPad® NCV Showroom App. Featuring in-depth product presentations, videos, full specifications and more. Now available. Be sure to download it today.

Visualize your logo on an NV® Passenger.
Ready to put your advertising strategy on wheels? Go to www.nissancommercialvehicles.com, and see how great your new vehicle looks with your logo.

The Nissan Commercial Vehicle lineup is just part of the family of Nissan Vehicles.

NV200® Compact Cargo

NV® Passenger

NV® Cargo Standard Roof

NV® Cargo High Roof

And follow Nissan Commercial Vehicles on:

CUSTOMER COMMITMENT

Your vehicle is more than just basic transportation, it's what makes your business run efficiently. At Nissan Commercial Vehicles, we understand our part in making your business run cost-effectively. That's why we've partnered with our commercial certified parts and service dealers to ensure we are there for you when you need us. As part of our parts Commercial Vehicles Dealer:

Roadside Assistance and Trip Interruption. Our commercial vehicles come with the confidence of Roadside Assistance, offering lockout support, towing services, emergency fuel delivery, tire changes and dead-battery jump-start service. Our Trip Interruption benefits offer assistance if your vehicle becomes disabled more than 100 miles from your company's location.⁴

Service and maintenance plans. Developed specifically for Nissan Commercial Vehicles and backed by Nissan, a wide variety of service plans are available to you, including high-mileage options. Your authorized Nissan Commercial Vehicles dealer has all the details, and will be glad to help you find the plan that best fits your business needs.

We've got you covered. Every Nissan is backed by a 36-month/36,000-mile (whichever occurs first) limited vehicle coverage and a 5-year/60,000-mile (whichever occurs first) limited powertrain coverage. (See your Nissan Commercial Vehicles dealer or reference the Nissan Owner's Manual for details). For extra protection, you can also add Security+Plus®, the only extended service agreement approved by Nissan.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF.® Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee. For more information, log on to NissanUSA.com/green

At NissanUSA.com, you'll find virtual product demonstrations, a way to "build your own Nissan," a dealer locator, and more information about key Nissan support services. Or if you'd prefer, call **1-800-NISSAN-3** for answers to specific questions about NV® Passenger or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries. **Always wear your seat belt, and please don't drink and drive.** ©2014 Nissan North America, Inc.
